Good afternoon,

I have added Feechi Hall to our email conversation. Most Wednesday are fairly open for my schedule but tomorrow I do have appointments from 9-10:30 and 1:30-2:30.

Look forward to talking more about your archiving project goals soon,

Yes I am available every Wednesday to discuss archival plans and we can connect with Feechi Hall as well so that we can have the best possible plan for archiving

Subject: Re: Archival footage

I have access to everything that I have recorded since joining CSU in the Spring 2014 semester. Not all of the media exists as a digital file, many are Premiere projects or on DVD. Browsing the Library Archive Sharepoint site looks as though some of the performances have started to get organized into collections. I can browse through the hard drives of the previous videographer to see if the original footage from past shows are still stored. The previous videographer did burn and share archival recordings but I am unsure where those discs are stored within the Theatre offices.

What is the goal for Theatre media storage? Right now, we are slowing returning to offices. I am not sure what you already have stored compared to anything that is missing. I believe you are likely missing the DVDs for Fall 2019. Because of copyrights, sharing has been limited to 1 DVD with the Theatre department and a digital file and disc with the University Archives. I have copies of all model release forms from past performances, but they are not digitized.

Are you available to discuss archiving plans so we can make sure the best method to ensure copyright compliance is maintained? If you would like, we can connect with Feechi Hall (University Archivist) for guidance on ensuring the best archiving practices for longevity for the department.

Good Moring Mr. Roberts I'm the media specialist for the theatre department and I was wondering if you were able to get access to any of the archival footage.
