CLAYTON STATE COLLEGE

MORROW, GEORGIA

Osburn Named VP For Academic Affairs New Vice President Comes To CSC From Board of Regents' Office

Dr. Richard L. Osburn, 49, an Assistant Vice Chancellor for the Board of Regents of the University System of Georgia, has been named Vice President for Academic Affairs at Clayton State College, according to Dr. Harry S. Downs, President.

The appointment of Dr. Osburn, to be effective July 1, was approved at the April 10-11 meeting of the Board of Regents.

He replaces Dr. Jack K. Carlton who had served as the College's first Vice President of Academic Affairs under the new structure as a four-year institution. Named in September, 1986, Dr. Carlton retired in January, 1990.

"We are extremely pleased to attract someone of Dr. Osburn's background and experience," Dr. Downs said. "He is a proven teacher and educational leader, and certainly will be an asset to Clayton State College. We look forward to having him join us in July."

Born in Pensacola, Florida, Dr. Osburn earned bachelor's and master's degrees in biology from Georgia Southern College, and his Doctor of Philosophy degree in entomology from the University of Georgia.

Since 1988, Dr. Osburn has served the University System of Georgia as an Assistant Vice Chancellor for Academic Affairs. Prior to joining the Board of Regents staff, he served a year as Dean of Sciences and Mathematics at Stephen F. Austin State University, following a five-year stay as Associate Professor and Head of the Department of Biology at Georgia Southern College.

Dr. Osburn, who taught science in the Clayton County school system during the 1967-68 school year, also taught and served as a counselor for a year at Aiken, South Carolina. While working toward

his master's degree, he spent two years as a teaching assistant in the Department of Biology at Georgia Southern, and joined the faculty as an Instructor in Human Anatomy and General Biology Courses the following year.

Special Photo/CSC Public Information

After completing his doctorate at the University of Georgia in 1977, he began a five-year assignment as a cooperative investigator in the Tick Research Unit at the U.S. Livestock Insects Laboratory in Kerrville, Texas, and at other satellite laboratories in Texas and Oklahoma. In addition, he worked with research scientists at Texas A&M University and at the University of South Dakota.

While in Texas, Dr. Osburn also served as a visiting member of Texas A&M's Department of Entomology's graduate faculty, and in 1980, he served as a lecturer in comparative vertebrate

anatomy for the Department of Biological Sciences at the University of Texas at San Antonio.

As an Assistant Vice Chancellor, Dr. Osburn's duties have included the review and evaluation of proposals for new degree programs as presented by the 34 colleges and universities within the University System of Georgia. He has served as the liaison to various System-wide academic advisement committees, including Teacher Education, the Health Professions, Biology, Chemistry and Physics.

In addition, he serves on several committees related to System or state-wide issues, reviews applications for tenure and promotion decisions, and is involved in assessment activities currently underway within the University System. At Clayton State College, Dr. Osburn will

be charged with providing faculty leadership in the process of improving the quality of existing programs and developing new programs. Deans of the Schools of Arts and Sciences, Business, Health Sciences and Technology report to the Vice President, along with Directors of Admissions, Library Services and the Learning Support Center.

Among his many responsibilities will be directing the continued development, evaluation, and improvement of Clayton State's new General Education program, which defines student outcomes through a systematic assessment of student progress.

Dr. Osburn, and his wife, Elaine, have one daughter, Cathi. He currently sings in the choir and serves as a teacher in the adult Sunday School Class at Parkway Baptist Church in Duluth.

Lyceum Presents Varied Events

By Jennifer Neeley
Staff Writer

How would you like to meet with a famous artist? How about a couple of New Age musicians? How about a Reverend that leaves a string of controversy everywhere he goes? Clayton State gives you the opportunity to do all of the above in the next two weeks.

Lyceum presents a schedule of speakers carefully selected to enhance the education of every student - regardless of whether you are a part-time or full-time student, day or night. Lyceum gives students at Clayton State a look into the lives and works of people who have chosen their path in life and have pursued it to the fullest.

Between April 26 and May 7, Clayton State will host not one but three artists (two of which are Artists-in-Residence), a New Age duo, and a Reverend whose views may prove to be much different from your own. Below is a breakdown, complete with room numbers, and times. Every student is encouraged to participate.

Concert: Susan Mazer and Dallas Smith
Date: April 26, 1990
Time: 11:05 a.m.
Room: G-132

Mazer and Smith are musicians that blend together a delicate mix of Classical, Jazz, and New Age. Together Ms. Mazer, a harpist, and Mr. Smith, who is a reed and synthesizer player, have

recorded four albums. Ms. Mazer debuted at The Village Vanguard, and has recorded her solo album, "The Fire in the Rose." Mr. Smith was a member of the Florida State University Symphony and Wind Ensemble. He is also a composer of New Age music.

Speaker: Reverend Howard Finster
Date: April 26, 1990
Time: 11:05 a.m.
Room: D-223

Reverend Howard Finster, a last minute addition to the agenda for the Lyceum, will be visiting our campus for the first time. Reverend Finster's appearance on campus is sure to be an eye opening experience for everyone who attends. Whether you agree or disagree with Reverend Finster's ideals, this is guaranteed to be an interesting experience.

Artist: Laura Mills, Artist-in-Residence
Date: April 30, 1990
Time: 9:00 a.m. - 1:00 p.m.
Room: G-100

Ms. Mills is not new to Clayton State College. She has been actively involved with the College, as an artist-in-residence, since 1987. Ms. Mills is a fiber artist who combines painting with weaving to create works of art which are represented in many public and private collections, the most notable include the Hyatt Regency Hotel in Atlanta, Georgia, and the Coldwell Banker Office Complex.

Lyceum (Continued on page 4)

Five Faculty Receive Promotions

Promotions for five members of the CSC Faculty were approved at the April 10-11, 1990, meeting of the Board of Regents.

Receiving promotions were:

- Dr. Carol W. Henson, from Assistant Professor to Associate Professor of Business Education;
- Dr. June M. Legge, from Associate Professor to Professor of Foreign Languages;

●Dr. David A. Ludley, from Assistant Professor to Associate Professor of English;

●Mr. Jack R. Moore, from Instructor to Assistant Professor and Head of the Department of Aviation Maintenance Technology; and,

●Dr. William A. Pasch, from Associate Professor to Professor of English.

Congratulations!

Boring: Is It The College Or Is It You?

Most Students Fail To Take Advantage Of Opportunities For Campus Involvement

by Joe Digby
Staff Writer

Clayton State College has a little more than 3,400 students enrolled in academic classes this quarter. Of those 3,400, four ran for an office during the recent Student Government Elections. Seven S.G.A. representative positions are vacant and over a dozen committee positions, for students, are open as of this writing.

I hear people complain about how this school is boring, that there is no social life. People, it is not the school that is boring, it is you. Students continually have the opportunity to get involved in a wide variety of clubs and organizations, but few seem to take advantage of these opportunities.

The Bent Tree is a perfect example of the lack of participation by our student body. Take a look at the staff box at the bottom of this page; five staff members. We receive criticism that the

paper is boring and that we don't have any interesting news. I am sorry if you are one of the ones who feel this way. It is very difficult to put out a good newspaper when there are only five, already over worked, staff members.

The recent S.G.A. elections have proven that the student body at our school just does not get very involved. Why? You work and don't have time? Most committees only meet twice a month (at the maximum) and the S.G.A. meets once a week for an hour or two. You already have a heavy load and don't want the responsibility? Being involved takes very little effort and very little time. Lazy? This sounds more like the reason. You just don't care? This sounds even more like the reason. Organizations like the S.G.A. and the various committees are involved in making decisions that impact on you. **You should care and should want to be involved in this decision-making process.**

Chief Seattle Was Right

by Sonya Hinson
Student Freelance Submission

A very wise Indian Chief, Chief Seattle, once said:

"Man did not weave the web of life; he is merely a strand in it. Whatever he does to the web, he does to himself."

Think about this prophetic saying for a moment. Is it telling us that if we take it upon ourselves to abuse the web of life (the earth) that we will ultimately be affected? Well, of course it is! Chief Seattle was trying to remind us that we are not the omnipotent beings that we would like to think we are. Although the web of life includes the human race, it does not depend on our existence -- we depend on it.

The celebration of Earth Day 1990 was a day for each of us -- students, professors, administrators, secretaries -- to stop and think about what we are and are not doing for the earth. The problems are vast, ranging from a great need to handle all the solid and chemical wastes produced to finding alternatives for the use of fossil fuels in order to slow the greenhouse effect. Solutions to these problems are known, but implementation is difficult in an age of slipping economic stability and renewed political power. Moreover, information concerning each environmental problem is as abundant as

the problems themselves. Organizations like Greenpeace, Earth First and the Georgia Department of Natural Resources consistently research and report on the different problems facing us.

If you stopped to think about what you were doing for the earth on Earth Day, and concluded that you, in fact, were not doing anything, contact one of these organizations for some information on what you can do. If you are one of those contributing to the health of the planet, for instance, you recycle or conserve energy and water or you don't litter, then the world's hat is off to you. It is detrimental to all of us, as well as future generations, that we work toward stabilizing the health of the earth.

So, as the celebration of the second Earth Day starts to become a memory, think about Chief Seattle's prophecy and remember that the web of life can continue fine without humans, but without it, we cannot survive.

you feel your life is boring, perhaps one of the many clubs can add some excitement.

In Pursuit of Excellence

All Contributions are tax deductible

The truth of the matter is that, yes, Clayton's campus life is not as good as many of us would like it to be, but the fact is, the students are what make a campus fun and enjoyable. Clayton students are boring, down right boring, not the school. More people need to get involved or our school will continue to be boring and continue to have the reputation of being a dumping ground for those that could not get into a university.

There are many clubs and organizations on campus and they are always looking for members. Information on these various groups can be obtained at the Dean of Students office in C-57. If

Editorial

Earth Day: Let's Not Allow It To End

by Joe L. Digby
Staff Writer

I would like to applaud the efforts of those members of our school who participated in Earth Day '90. Their efforts to make a difference should be an example to all. But why must it be only one day out of the year that this kind of attention is placed on preserving our environment?

Every day should be thought of as an Earth Day. Earth Day should not only be an annual event, it should be a state of mind. We must learn, and there is much to learn, that we can not go on living the way we are. We must live every day in the pursuit to better our environment. We have taken a lot from our earth and it is now time to give back. We must get in the

habit of recycling and conserving. Our earth deserves our attention.

Earth Day '90 is considered to be a big success. It has shown that the realization of the danger our environment is in is finally hitting home. It is time that we all start to make a difference in the way we live, for if we don't, things are certainly going to get worse and a time will come when there is no turning back.

This is a crucial time. The responsibility is ours and we must face up to that responsibility. Let's do all we can to make the 90's the decade of change. Conserve and recycle, and enjoy all the beauty that nature has granted us. Let's put our Earth back to the way it was created for the generations to come. Help make the changes that need to be made.

VIEWPOINTS

Letter To The Editor

Former Drug User Urges Others To Seek Help From A Recovery Group

Dear Editor:

I was 12 years old when I started smoking cigarettes, 15 when I started using drugs. I never casually used drugs. From the first, I took some form of hallucinogenic or barbiturate almost every day. Drugs made me feel like I fit into society. They also helped me forget that I did not like myself. After high school, when I was forced into the "real world," my fears increased and my self-esteem decreased. At the ripe old age of 19, I discovered "speed" (methamphetamine) and heroin. Life went steadily downhill from that point on. Junkies are always looking for more or new drugs because the old ones/amounts no longer make them feel whole. I know a young woman who supplements her heroin intake with shock therapy. The drugs are still a necessity even though they no longer kill the pain of self-hate.

If we, as a society, wish to find solutions to the problems of such drug abuse, we first need to understand why some kids take drugs in the first place. John Bradshaw, an author and lecturer on family dynamics, writes of "a gnawing sense of emptiness--a deep void." When young people feel this "deep void" they

try to fill it with food, alcohol, work, and/or drugs. Bradshaw discusses how "96% of all families are to some degree emotionally impaired," also called dysfunctional, and how these "unhealthy characteristics are passed from one generation to another." In his book *The Family*, Bradshaw discusses the abusive and shaming rules by which we (as a society) parent and how these rules destroy our children's identity. "Shame is a total non-self-acceptance." Shame leads to addictive behavior.

I have recovered from drug addiction. I may never recover from my addictive behavior patterns. After talking with my siblings, I have noticed a distinctive pattern of "shame" in my family. The same pattern seems prevalent in most of the emotionally unstable teens that I have interviewed. All of these teens spoke of feeling inadequate in the eyes of their parents. What is the cause of this feeling of inadequacy? Bradshaw explains how we rob our children of their own identity by not allowing them their true feelings. We shame (or scold) a child for getting angry. This shame teaches children that their feelings are bad and that they must hide these feelings to receive love and acceptance from their parents. Ultimately

this causes us to hide our true selves and become the personality our particular family structure calls for. My own family structure is a good example. My mother was always in bed ill. Someone in the family structure had to be dad's "surrogate spouse." This is the child who becomes a compulsive over-achiever because she has been praised all her life for being just that. This child is my older sister. Another child in this family needed to take on the father's suppressed anger about the mother by acting antisocial. This is the child who does poorly in school, gets into trouble and takes drugs. Without knowing it, this child will actually bring Mom and Dad closer together. This child is the family's scapegoat. Out of the problems the scapegoat causes, the whole family is often drawn into treatment. I was the scapegoat in my family. It was well worth the pain of being a scapegoat to help end the cycle of dysfunction in my family.

Because I am willing to face recovery from a dysfunctional family, I can be confident that my own children will feel free to be themselves, and to know they are accepted and loved unconditionally. Because I am willing to attend

Letter To The Editor Student Is Grateful For The New "No Smoking Policy"

Dear Editor:

Thanks so much for the new "No Smoking Policy." It's so nice to walk down the halls and not come into contact with the smell of cigarette smoke. The restrooms even have a fresher odor. For those of us who are the non-smokers, we back this policy 100%.

Signed,
Freddie Nichols

meetings of ACA (Adult Children of Alcoholics) and ALANON, support groups for people in a relationship with an alcoholic, I can be confident that the cycle of dysfunction in my family will not be carried into the next generation. These groups meet at most local churches and are free. If you are from a dysfunctional family, I urge you to seek out a recovery group such as ACA or ALANON and become a part of this group. The number for ALANON is 843-0311 and you can contact Anchor Hospital for information about ACOA meetings at 991-6044 or 1-800-ALCOHOL. If you are unwilling to endure recovery for yourself, then endure it for your children and/or your future children. They will thank you by being their wonderful selves and allowing their children, your grandchildren, to be themselves, too.

Today we are college students, tomorrow we are parents and grandparents.

Sincerely
Pamela James

CAMPUS NEWS

Regents' Test To Be Given On April 30-May 1

The Regents' Test, a test of competency in reading comprehension and writing skills, will be administered at Clayton State College, April 30 and May 1. Students who are enrolled in an Associate Degree Program or a Baccalaureate Degree Program are required to take the Regents' Test the first quarter of enrollment after having earned 45 quarter credit hours. Students transferring to Clayton State with more than 45 quarter credit hours must also take the Regents' Test.

New Student Fees Approved By Regents

**Matriculation Costs Increase 4%,
Athletic Fee Goes Up \$8.00**

New matriculation and fees for the 1990-91 year were set by the Board of Regents at their April 10-11, 1990, meeting in Augusta.

Beginning Summer Quarter, CSC students taking 12 or more quarter credit hours will pay \$446 per quarter - \$413 for

Students who are required to take the test for the first time will be notified by mail about seven to ten days before April 30. Students who are required to be enrolled in a Regents' Test Remediation Course will receive their notification cards from their Remediation Instructor upon satisfactory completion of the course. Students can receive information as well as preparation assistance for the Regents' Test at the Counseling and Career Center, Building D, Room 208.

matriculation and \$33 in student activity and athletic fees. Students taking less than 12 hours will pay \$34 per credit hour plus the \$33 activity and athletic fee.

The matriculation fee of \$413 reflects a 4 percent increase over the \$397 charged last year. The student activity fee of \$15 remains unchanged, but the athletic fee was increased from \$10 to \$18.

Byram Named Clayton State GOAL Winner

Mrs. Diane Byram of Forest Park, an Office Administration major at Clayton State College, will represent the institution and the southern crescent region in statewide competition in Atlanta on May 28.

Mrs. Byram was named the local winner in Georgia Occupational Award for Leadership (GOAL) competition during the March 14 meeting of the Clayton County Rotary Club. She will compete against 30 other technical education program winners from Georgia on the state level.

Other Clayton State finalists were Ms. Lisa Martin of Stockbridge and Ms. Diane Shubert of Atlanta, both of whom are Drafting and Design Technology majors.

The three finalists were nominated by their instructors: Dr. Benita H. Moore, Assistant Professor of Business Education; and Mr. Thomas C. Eddins,

Assistant Professor of Drafting and Design Technology. Mr. Eddins also serves as the local GOAL Program coordinator.

Mrs. Byram has already completed a one-year Accounting Technology certificate program at Clayton State and currently is working on an Associate Degree in Office Administration. In addition to her studies, she also works as a secretary/clerk for TLT Trucking in Conley. She and her husband, Johnny, have four children.

The GOAL program is in its 19th year of recognizing the state's most outstanding students in Georgia's technical colleges. GOAL activities around the state, the first of its kind in the nation, promote the image of technical training and emphasizes the dignity of work.

The GOAL awards program, sponsored statewide by the Georgia Department of Technical and Adult Education and the Business Council of Georgia, is sponsored locally by the Clayton County Chamber of Commerce and the Clayton County Rotary Club.

**Graduation Announcements
Are Now Available
For Purchase In The
College Bookstore**

Lyceum (Continued From Page 1)

Artist: Lamar Dodd

Date & Time: May 2, 1990 -- 7:00 p.m.
May 3, 1990 -- 11:05 a.m.

Room: D-223, G-132 (Respectively)

Mr. Dodd's qualifications are too numerous to name. Mr. Dodd is a renowned Georgia artist. His works have been exhibited in the White House and published in *Life*, *Fortune*, *Newsweek* and *Time* magazines. His works can currently be seen in the Smithsonian Institute, Metropolitan Museum of Art, National Gallery of Art, and the Whitney Museum of American Art.

Performance: CSC Alumni Recital

Date: May 4, 1990

Time: 8:15 p.m.

Room: G-132

The College's annual "alumni Musical Evening" will feature a variety of music students from years past.

Artist: Woody Jones, Artist-in-Residence

Date: May 7, 1990

Time: 9:00 a.m. - 1:00 p.m.

Room: G-100

Mr. Jones fancies himself a toy-maker showing that there is a lighter side to art. Mr. Jones' work has appeared on

the "Oprah Winfrey Show," "Today Show," and "PM Magazine." His amusing creations are in the collections of several museums, including the Smithsonian Institute. Mr. Jones creations have found their way into the hearts and homes of many famous people, including George Lucas, Ron Howard, Henry Winkler, Sugar Ray Leonard, Willard Scott, and Ted Turner.

FAA Co-Op Test Set For May 2

Are you interested in taking the first step toward a career in air traffic control and earnings of over \$60,000 annually? We are looking for a few more students for this program. If you are interested in applying for consideration, sign up in the Counseling and Career Center (D-208) by May 2, 1990, to take the institutional administration of the Air Traffic Control Aptitude Test on May 4, 1990, from 9:00 a.m. until 12:00 p.m.

Special Photo/CSC Public Information

Mrs. Diane Byram of Forest Park, local winner of the Georgia Occupational Award Leadership (GOAL) competition, is congratulated by Mr. Phil Mellor (left), President of the Clayton County Chamber of Commerce, and Mr. Robert C. Bolander (right), Dean of Students at Clayton State College and sponsor of the GOAL Program for the Clayton County Rotary Club. Mrs. Byram will compete on the statewide level in Atlanta on May 28. The local GOAL program is co-sponsored by the Chamber of Commerce and the Rotary Club.

Study Rooms Are Available On Campus

There are four study rooms available on the lower level of the Library; these rooms may be used for group or individual study. The rooms are located inside L-141, and must be reserved at the Library's Circulation Desk. Students are encouraged to take full advantage of these rooms when working in groups or needing a place for individual study.

In addition to these four study rooms in the library, the student study lounge is located in D-214. The lounge features five six-foot tables with chairs and, in an adjacent room, nine study carrels for more private study. Both of these locations are quiet havens for those students who want to study without the distractions found in other campus areas.

CLUB/ORGANIZATION NEWS

CSC Technical Education Association Is First Student Chapter In The Nation

by Lisa Martin
Student Freelance Submission

The students of Clayton State College have recently formed the first student chapter of the American Technical Educational Association (ATEA). The ATEA is an organization composed of post-secondary institutions and businesses/industries involved in promoting the advancement of technical education. ATEA is the only national association devoted solely to comprehensive post-secondary technical education in technical and community colleges, and in four-year colleges and universities.

Mr. Tom Eddins, Assistant Professor of Drafting and Design Technology at Clayton State and also a member of the ATEA, led the students in forming the organization. The officers of the Clayton State College Technical Education Association are: Diane Shubert, President; Lisa Martin, Vice-President and Treasurer; and James Holcomb, Secretary.

The purposes of this student organization are to provide an opportu-

nity for the exchange of ideas among the students enrolled in technical programs, to provide an opportunity to see and inform others of the value of technical education for employment and advancement in today's society, and to assist the students in becoming and remaining current with today's industry needs, equipment and expectations. The organization tries to achieve these goals through field trips to various industries, and by hosting speakers knowledgeable in technical fields.

The Clayton State College Technical Educational Association is open to all technical and career majors, including students in business and health occupations, as well as students in drafting and design, electronics, aviation maintenance and engineering technology programs.

The organization meets on the first Thursday of every month at 11:05 a.m. in room T-215. All students interested in becoming members are welcome to attend the meetings, or they can come by and speak with Mr. Eddins in room T-128.

CSC's Own "Friendship Force"

On Thursday, April 26, our campus will have some very special visitors. Clayton State's International Awareness Association will create its own Friendship Force by hosting a group from Soviet Georgia.

The Morrow Fire Dept. will be bringing the Soviets to the Clayton State

campus. The Soviets will arrive at approximately 10:30 a.m. and will be touring the campus.

If you do happen to see them, give a friendly smile and a warm welcome. This is our chance to do our part in creating a better relationship between the United States and the Soviet Union.

CHEERLEADING COORDINATOR

The Clayton State College Athletic Department is looking for a person to coordinate all activities involving an intercollegiate cheerleading squad. This person will work with the auspices of the Athletic Director, and will be responsible for the following:

1. Development of cheerleading rules and guidelines
2. Organization and coordination of cheerleading selection process
3. Organization and coordination of cheerleading squad orientation and training
4. Management of game day cheerleading responsibilities
5. Close monitoring of individual squad members academic progress and adherence to squad rules and guidelines
6. Annual procurement and management of cheerleading equipment

This position involves a stipend that will be dependent upon applicant's experience and qualifications.

All inquiries concerning this position should be directed to the Office of Athletics by May 16, 1990.

The Bent Tree Is Looking For A Few Good Writers (And Artists, Poets, Letter Writers, etc.). Contact Rob Taylor In C-57 If You Want To Be A Part Of The Team.

Lung Association Offers Golf Privilege Card

The American Lung Association of Georgia (ALAG) offers golfers the opportunity to play at 38 Georgia courses for one low fee. For \$35.00, the Association's Golf Privilege Card waives the greens fees for 18 holes of golf. This is the second year the ALAG has offered this special golf privilege card, which is valid through December 31, 1990.

Golf cart rental is required at all the courses. Group rates are available for the Golf Privilege Card. Call 433-Lung for more information.

"Walk America" Seeks Student Participants

The March of Dimes organization is sponsoring Walk America on Saturday, April 28. A group of interested CSC walkers will be walking and invite others to join them.

Last year over \$1 million was raised in the Atlanta area; Clayton County walkers raised \$120,000. If you would like to join the CSC walkers, dust off your walking shoes and call B.J. Honeycutt, Instructor of Computer Service Technology, at ext. 3572 for more details.

Dental Hygiene Services Available

The CSC Dental Hygiene Department offers free dental hygiene services to students and the public. Services available are oral examinations, x-rays, teeth cleaning, and referral for other dental or medical treatment. Hours of operation are 9 a.m. - Noon and 2 - 5 p.m., Monday through Friday. Appointments may be made by calling 961-3441 or in person in Room D-103. The latest techniques of sterilization and infection control are used

Persons who are interested in a rewarding health science career in Dental Hygiene should contact the Department of Dental Hygiene (961-3430) or the Office of Admissions and Records (961-3500).

A.M. Crossword

ACROSS

1. A great way to wake up
2. Half a laugh
6. Height (abbr.)
7. Type of shower singer
10. Emotion associated with getting up
12. A note
13. Other half of 2
14. Put on your skin after a bath

DOWN

1. Type of rug in the bathroom
2. Smart computer in "2001"
3. Stop — to a horse
4. Cute extraterrestrial from a movie of the same name
8. Biblical you
9. Opposite of front
11. Article, but not of clothing
12. Poet's exclamation

Noteworthy Word Game

Pick a two-letter addition to add to each note of the scale which will form a new word. Some endings work with more than one word, but there's only one way to use each note and each ending exactly once. Can you find it?

ENTERTAINMENT

Academy Award-Winning *Glory* Explodes On Campus This Friday

by Jason T. Black
Staff Writer

Starring Matthew Broderick, Denzel Washington, Cary Elwes and Morgan Freeman
Written by Kevin Jarre
Directed by Edward Zwick

General Entertainment will be presenting *Glory* this Friday night. The winner of three academy awards will be shown at 1:15, 6:30, 8:40 and 10:50 p.m. in G-132.

At long last a movie has been made which seems to accurately depict the vital part that black soldiers played in U.S. history. *Glory* is about the 54th regiment of the Union army, the first regiment composed of black soldiers to face combat in the Civil War. *Glory* is also about the heroic efforts of Colonel Robert Shaw (Matthew Broderick), who was determined to see these soldiers defend the honor that had been stripped from them for hundreds of years.

Shaw was from a prominent Northern family. His father was very influential in politics. After a battle, Shaw returns home and is given a chance to lead an entire platoon consisting of white officers and black soldiers. He accepts the job, knowing the consequences he could suffer.

The troops are trained and ready for combat. The government's determination not to allow them to see action is displayed by their lack of proper equipment or footwear. Trip, a young soldier

portrayed by Denzel Washington, breaks camp in an effort to get some shoes. He is caught and beaten. Rawlins (Morgan Freeman) calls this to the attention of Colonel Shaw, who storms the government warehouse. Shaw forces the warehouse supply sergeant to outfit his men with the desperately needed supplies. Denzel Washington was awarded The Best Supporting Actor Oscar for his outstanding performance.

Colonel Shaw is determined to give the soldiers their shot at glory. He asks his father to write a letter to Congress urging them to give his son's regiment a chance. His father obliges and the government sends the 54th regiment to war. Shaw and his second-in-command, Barnes (Cary Elwes), leads the 54th to their first victory. For his bravery and leadership, Rawlins receives his stripes and becomes the first black soldier to hold rank in the Union army.

Shaw and his soldiers hunger for attention. He leads them to Fort Wagner where they volunteer to lead the first wave of the attack, knowing that very few of them would return. What follows is the most mesmerizing and visual battle scene that I have ever seen.

This movie is a throwback to the golden age of film when they used a huge cast and wide angle battlefield shots to show the horrifying desolation of war. *Glory* is unique, in that it is so visually stunning and the story is so well confined that it never loses track of what it wants to accomplish. In a picture like this, that would be very easy to do.

Jarre's story and Zwick's direction give the film the credentials it demands. *Glory* is a triumph as a movie, but most of all, as a tribute to the soldiers of the 54th.

Glory, rated R, will have Walt Disney's *The Love Bug* as a kiddie film on

April 27. *The Love Bug* will be shown at 6:30 and 8:40 p.m. in G-127. Remember to bring your ID to *Glory*, as only students and others 17 or over will be admitted without a parent. Of course, you can bring your parents if they would like to see *Glory*.

	1 ring

BOOKS

1 Accounting	1 Sociology
4 History	1 Humanities
1 Algebra	1 Chemistry Lab Manual
1 Composition	4 Spiral Notebooks
1 Nursing Clinical	1 Notebook

SPORTS

Sixth Basketball Player Signed Is A 6'-9" Center From USC-Aiken Booth Will Transfer To CSC Next Year

Another player has been signed to play basketball at Clayton State College, according to Mason Barfield, head coach and director of athletics.

Jay Booth, a 1988 graduate of Madison County High School and a red-shirt freshman at the University of South Carolina at Aiken last year, will transfer to Clayton State next season. His signing gives Coach Barfield six players for his basketball team...three guards and three inside players.

Booth, a 6-9 center, averaged 16 points and 13 rebounds as a senior at Madison County High. An honor graduate, he was a member of the Honor Soci-

ety and Who's Who Among High School Students. He received the Kiwanis Academic Achievement Award, the Navy Honors Program Award for Academic Excellence, and the Senior Athletic Award. While at South Carolina-Aiken last year, he made the Dean's List and earned the Academic Team College Award.

Earlier signees by Barfield were 6-foot guard Adrian Stevens of North Clayton Senior High, 5-11 guard Matt Bowen of Calhoun High, 6-1 guard/forward Carlos Head of Morrow Senior High, 6-7 forward/center Vince Askin of Jackson High, and 6-8 center Steve Wilson of Duluth High.

Entering into athletics with a men's basketball program next fall, Clayton State will be a member of NAIA District 25.

Coach Barfield: A Man On A Mission

by Chris Knight
Staff Writer

Basketball is a game filled with fun and excitement, thrills and chills, and the three-point bombing and slam dunking that just wears the rim out. Head coach Mason Barfield is trying to bring just this kind of excitement to Clayton State's basketball program next Fall.

Born in small town Hahira, located in the southern part of Georgia, Coach Barfield knew, even from high school, that he wanted to be in the basketball business. After playing in high school, he was a member of the basketball team at Alabama Christian Junior College (now Faulkner College). He transferred to Valdosta State College.

After getting his degree, Coach Barfield put basketball on hold for several years to run the family business. He was offered the opportunity to become assistant coach at Lowndes County High School in Valdosta. He served in this position for three years and then was named Head Coach at Lassiter High School in Cobb County.

At Lassiter High School Coach Barfield came into a program that had only five victories over the first two years of the schools existence. At the same time, he was adjusting to the fast-paced life style in the Atlanta Metro area. In just a few short years, his group of seniors, that had started since they were sophomores together, went to the Georgia State Tournament. They were beaten there by Griffin High School, the team that won the state championship that year.

Because of his successes on the

high school level, he was named assistant coach at Kennesaw State College the next year. After one year at Kennesaw, he got the chance to do what he had always wanted to do. This was to become the head coach of a college basketball team.

Currently the Clayton State College basketball team has six committed scholarship players. Coach Barfield hopes to expand the roster to approximately 12-14 players. Clayton State will be a part of the National Association of Intercollegiate Athletics (NAIA) Division 2. The coach will lead the Clayton State team against teams from Georgia and Florida. The team will start competition in November and will play a 27-game season. If they do well during this inaugural year, there may be additional games in the play-off season.

Coach Barfield is what some people call an "optimistic realist." He feels that the players already signed will be very competitive in this first season. He plans to instill in his team a control-type offense that will be combination of the fast-break tempo of the University of Nevada at Las Vegas blended with a disciplined Duke-style of play. He feels that on any given night, that as long as there is the three pointer, no team is out of the game.

Expect a great year from our newly acquired head coach as he takes on the challenge of becoming a head coach at the collegiate level for the very first time. He will be directing a group of athletes who will be playing together for the first time.

If watching exciting basketball sounds like the thing that you would like to do, you can go to Georgia Tech and watch the Yellow Jackets, or you can stay right here and see the real "Lethal Weapon III," as far I'm concerned.

Special Photo/CSC Public Information
Jay Booth recently signed to play for the Clayton State basketball team in 1990-91. With him at the signing ceremony were (front row, l-r) Mrs. Ann Booth, his mother; Jay Booth, and Mr. Jerry Booth. Looking on were (l-r) Mason Barfield, CSC Athletic Director and Head Basketball Coach and Robert C. Bolander, CSC Dean of Students.

Special Photo/CSC Public Information
Mr. Mason Barfield was appointed as Athletic Director and Head Men's Basketball coach at a press conference in October. Pictured are Barfield (l) and Dr. Harry S. Downs (r), President of Clayton State College. Dr. Downs made the announcement of the appointment before a gathering of media representatives, Students, faculty, and staff members.
