Jeff:

That is exactly what we would like. We want the history of the paper from its conception to the present day, including down time. We would like to know the staff for each year of the paper. We will preserve all issues of the newspaper for archives. I am meeting with Redd at 4:45 today to talk about this. He apparently has his own archives of the paper. That's great. I am trying to build a complete set of each issue and determine any times the paper was not published.

I am meeting Redd in 205 in just a few minutes. Join us if you get this message.

Subject: Clayton State Archives Question

Hi.

I'm writing on behalf of the Bent Tree Student Newspaper in regards to the Archives here on campus. I was wondering if what sort of items we could store if we decide to submit items to the archives.

Particularly I was wondering if we could submit past issues of our newspaper for archive consideration. Thank you for your insight.
