#### Third scholarship

W. Cameron Mitchell (R), a member of the board of trustees of the Clayton Junior College Foundation, accepts a scholarship check from Sam K. Parrish, president of the First National Bank of McDonough. The \$350 contribution marked the third straight year for the McDonough-based bank to fund a scholarship through the CJC Foundation. Scholarships are awarded annually to outstanding students from the four-county area of Henry, Clayton, Fayette and south Fulton.

## Clayton JC Scholarship

W. Cameron Mitchell (right), a member of the Board of Trustees of the Clayton Junior College Foundation, accepts a scholarship check from Sam K. Parrish, President of the First National Bank of McDonough. The \$350 marked the third straight year for the McDonough-based bank to fund a scholarship through the CJC Foundation. Scholarships are awarded annually to outstanding students from the four-county area of Henry, Clayton, Favette and south Fulton.

#### Foundation Gift

W. Cameron Mitchell [1], a member of the Board of Trustees of the Clayton Junior College Foundation, accepts a \$346 scholarship check from Dr. and Mrs. Ernest A. Dunbar of Morrow. The Dunbars have made three such contributions, sponsoring scholarships for area students funded by the nonprofit corporation.

Dr. Dunbar is one of nine original members of the Foundation's Board of Trustees.

# Economic impact...

News-Daily Publisher Jim Wood comments on the dollars-and-cents impact Clayton Junior College has on the county.

See page 4

Jim Wood Says

NEWS/DAILY

Monday, June 12, 1978

## Many Advantages to Local College

A recent study on the educational and economic impact of Georgia Tech reminds us in this community of a similar contribution, hough perhaps not on as large a scale, by Clayton Junior College.

We think it pertinent to look at the Georgia Tech figures because of what emphasis they may place on our good fortune in having Clayton Junior College in our midst.

Tech Industrial Management Professors W. Carl Biven and William A. Schaffer have compiled the figures for the study. It shows that Georgia Tech generates spending in our state of some \$229 million and also contributes about 5,000 jobs.

This study relates figures compiled during the fiscal year 1976-77.

Total spending for this year by the school and its students and other related agencies amounted to \$95 million. About \$59 million of this spending came directly from Tech, and another \$31 million from students for goods and services purchased off campus. This is in addition to tuition and other payments to Tech, the study shows.

Another three million dollars came from Georgia Tech's athletic association and sports fans and other campus visitors spent more than two million dollars while in

Approximately \$78 n illion of the total \$95 million of Tech's spending took place within the state and involved purchases from firms

Georgia Tech, which specializes in engineering and technological training, was founded in 1885, with a state appropriation of \$70,000. The campus now contains 295 acres and has an annual operating budget of \$69 million for its enrollment of 10,000 students.

The Georgia Tech student body comes from every Georgia county, every state in the union and from about 60 foreign nations.

Perhaps of additional importance to individuals is the notation that the midian income for Tech graduates is \$24,000, which places them in the top 20 per cent of the nation's income bracket.

Although Clayton Junior College is nowhere near as large as Georgia Tech, measures less than a third of its students, and is a commuter college rather than a resident school, its contributions are much the same kind when we determine the budget of the school and its expenditures to local and state businesses.

In addition, the payroll for 250 employees at Clayton Junior College is part of an annual operation budget of \$3.5 million. Student population at the junior college has consistently been just above the three thousand

There are differences in the size of the operations budget for the junior college and the big four-year school, of course. But the operations for CJC are just as surely to show gains as did Georgia Tech in its history.

Presently both are part of the University System of Georgia and are considered to

Wood

serve a vital role in the higher educational needs of our state.

Clayton Junior College came into being because Clayton citizens had a great faith in its value to the community. They quickly approved a five million dollar bond issue to gather the money for the initial land and buildings of the junior college. This requirement was not quickly by our citizens because they felt the need for the additional educational opportunities and cultural advantages which a small college could offer. They have been right about their dreams, too. and the nine years of CJC operations have done nothing to diminish these local hopes and aspirations.

Clayton Junior College makes a great impact on our community and our state. Perhaps a more accurate analysis of its economic impact could be made, and it would make an interesting report of the contributions made by higher education in more positive financial terms.

#### Non-Credit Courses Offered

Registration in more than ∃30 non-credit courses and seminars scheduled during the Summer Quarter at Clayton Junior College is currently being completed at the Morrow institution.

Most classes in the non-Ocredit program, offered through the college's Office of Community Services, will begin the week of June 19. The length and cost of each course depends upon the particular class.

Courses offered include a number which are career oriented, plus others dealing with personal growth, you and your home, and leisuretime activities. In addition, the college will be offering a number of special programs and seminars during the quarter.

Classes will be offered both on the college campus near Morrow and at a number of off-campus locations, including the College Park City Auditorium, North Clayton Community Center, Riverdale Community Center, and at Fort Gillem.

# Leisure Activities Taught At Clayton

# CJC Foundation Holds Annual Meeting

Judge H. E. Nichols, Chief Justice of the Georgia Supreme Court, will be the featured speaker at the annual meeting and banquet of the Clayton Junior college Foundation on Monday evening, May 15.

Judge Nichols will address more

than 200 business and professional leaders at the 7 p.m. dinner meeting, scheduled in the college cafeteria. Tickets for the banquet are available on a first-come, firstserved basis, according to Harmon M. Born, chairman of the Foundation's Board of Trustees.

Banquet tickets are priced at \$5.00 each, and reservations may be made through a member of the Board of Trustees, or the college's office of public information (Phone 363-7748) Other members of the Foundation's Board are G. Robert Oliver of Morrow, Charles S. Conklin of Jonesboro, Dr. Harry S. Downs of Morrow, S. Truett Cathy of Hampton, Dr. Ernest A. Dunbar Jr. of Morrow, W. Cameron Mitchell of Hampton, Griffin Patrick Jr. of College Park, Elbert H. Stiff of Jonesboro, Claude H. Whaley of Jonesboro, and James M. Wood Jr. of Forest Park.

Judge Nichols, a native of Elkmont, Alabama, was named Chief Justice of the State Supreme Court by his colleagues on January 1, 1975. He was admitted to the Georgia Bar in December of 1935 and practiced law in Canton until 1940, serving as Assistant Solicitor General of the Blue Ridge Judicial Circuit from 1938 to 1940 when he

moved to Rome. Judge Nichols served as official court reporter of Rome Judicial Circuit from 1940 until 1946, when he resigned to accept appointment as an Assistant Attorney General of Georgia. In 1948 he was appointed Judge, Superior Courts, Rome Judicial Circuit, where he served until January 1, 1957, when he resigned to accept appointment to

the Court of Appeals of Georgia. He resigned from that court in late 1966 to accept appointment as Associate Justice of the Supreme Court, and slightly over eight years later, he was named Chief Justice.

Judge H. E. Nichols

The annual meeting and banquet of the CJC Foundation represents a formal report by the Board of Trustees to contributors and supporters of the non-profit organization. Established primarily to assist and support Clayton Junior College and to encourage citizens of our community in their pursuit of an education, the Foundation's program of work has been focused on scholarships for outstanding area students.

Chartered in September of 1974, the CJC Foundation is committed to support a \$20,800 budget during 1978-79, including the funding of 58 scholarships for area students of superior ability and talent.

All projects sponsored by the foundation are totally funded by contributions, and all contributions are tax deductible.

Complete information about attending the annual meeting and banquet may be obtained by phoning 363-7748 or 363-7738 between the hours of 8:30 a.m. and 5 p.m. daily, or by contacting a member of the Board of Trustees.

Third Scholarship - W. Cameron Mitchell (right), a member of the Board of Trustees of the Clayton Junior College Foundation and President of South Side Progress accepts a scholarship check from Sam K. Parrish, President of the First National Bank of McDonough. The \$350 contribution marked the third straight year for the McDonough-based bank to fund a scholarship through the Clayton Junior College Foundation. Scholarships are awarded annually to outstanding students from the four-county area of Henry, Clayton, Fayette, and South Fulton.

Dr. Harry S. Downs (R), president of Clayton Junior College and a member of the board of trustees of the CJC Foundation, accepts a scholarship check in the amount of \$323 from Mrs. Kathy Welborn, president of the Clayton Junior College Women's Club. Cameron Mitchell, a member of the board of trustees of the Clayton Junior College Foundation. This marked the third consecutive year the McDonough bank had contributed to the foundation. Scholarships are awarded annually to outstanding students from Henry, Clayton, Fayette and south Fulton counties.

# Spring Quarter Enrollment

The four-county area of Clayton, South Fulton, Henry and Fayette continue to supply the majority of students enrolled at Clayton Junior College, according to the Spring quarter enrollment report released recently.

Annette B. Satterfield, director of admissions and registrar at the twoyear institution near Morrow, showed that 92% of the students currently enrolled in college credit classes live in the four-county area.

Spring quarter classes, which began in late March and will continue into early June, attracted 2,568 students, 2,382 of whom live in the counties listed. Clayton County students enrolled number 1,348, while 703 Fulton countians are attending classes, along with 166 Henry countians and 165 from Favette County.

The Spring Quarter enrollment, down slightly from the 2,697 who attended the college during the same quarter a year ago, also revealed that more students are involved in day class schedules than those who are studying at night. Of the total, 1,535 students are taking day or mostly day classes while 1,033 are taking night or mostly night course work.

The report revealed that women students still outnumber the men, and that single students are twice as plentiful as those who are married. There are 1,362 women enrolled, 156 more than the male population, and the single-married ratio shows 1,724 unmarried students to 844 who ar

Students from counties other that the four-county area are included in the enrollment count. In addition to Clayton, Fulton, Henry, and Fayette, other surrounding counties contributing students include DeKalb (46), Spalding (39), Cobb (22), Douglas (18), Rockdale (16), Coweta (16), and with lesser numbers, Butts, Carroll, Dawson, Gwinnett, Haralson, Harris, Lamar, Lowndes, Meriwether, Monroe, Newton, Paulding, and

Nearing the completion of its 9th year of operation, Clayton Junior college ranks among the largest of the junior colleges within the University System of Georgia. As a public institution, the college is able to offer a wide variety of educational programs at a minimum cost, and most credit courses of the college are offered both during the day and at

Clayton Jr. Chorus

The Clayton Junior College Community Chorus represents a group of south metro residents who love to sing.

Variety sums up the program which they have presented, including everything from Christmas carols, and the best of Broadway, to a salute to American composers and Handel's "Mesiah."

Members of the nine-year-old group are husbands and wives, fathers and sons, mothers and daughters, sisters, and people in love. Their ages range from 15 to 70, and some of them drive a long way just to participate.

Community involvement is the main purpose of the group. They have performed at nursing homes and churches and are available to serve community functions upon request.

The Clayton Junior College Community Chorus is looking for perspective new members with previous choral experience, people who love to sing. If you are interested in joining or know where the chorus could be of service, contact the college's office of community services at 363-7717.

The chorus has a nostalgia program planned for the first part of June featuring songs of the 20's, 30's, and 40's to be performed on the Clayton Junior College campus. They promise an exciting,

entertaining evening of singing.

## SOUTHSIDE AND FAYETTE SUN Clayton Junior College Offers Non-Credit Courses

JUNE 1978

Included among the more non-credit courses offered than 30 non-credit course by the two-year institution offerings at Clayton Junior College this summer are a number of "leisure time activities" designed to help you enjoy your free time.

A class on arranging your A class on arranging your flowers to create a design to Office of Community fit your home and particular needs is an example. To be covered during a 10week course beginning on Monday, June 19, the class will meet between 7 and 9 p.m. and will highlight texture and patterns of floral arrangements.

Other "fun" courses being offered during the summer quarter include basic cake decorating, drawing and sketching for adults, folk guitar, obedience training for dogs, painting for adults, photography and beginning piano.

No tests, transcripts or other evidence of high school work is required for

# THE CLAYTON NEIGHBOR July 12, 1978 Construction Begins Soon

Construction of a new library building at Clayton Junior College is expected to begin this month, according to college president Dr. Harry S. Downs.

According to a news release issued by the college last week, Van Winkle & Company of Atlanta offered the low construction bid of \$2,177,697, and was awarded the contract. The official bid opening was held on June 28, the statement said.

In March, the Board of Regents of the University System of Georgia approved a project budget of \$2,597, 253 for the two-story structure.

The recently-approved construction contract of almost \$2.2 million includes no funds for furniture and equipment, architect's fees or a contingency fund for unexpected expenses, according to the statement.

"We are extremely pleased with the awarding of this contract for a most important and significant addition to our campus," Downs said. 'The addition of this new structure moves us a step

closer to completion of original facility plans for our The college opened its doors during the fall quarter of

1969 with six buildings. A two-story classroom building was opened in September of 1974. The new library will be a two-story, 57,000-square-foot building that will house a television production facility, a media center to produce charts, slides and transparencies, and a central duplicating facility in addition to books and

study areas, Downs said earlier. The present library facility, located on the second floor of a combined Library/Student Center building, will be

converted into additional community service and student activity space when the new library is completed. Improved areas for non-credit classes and seminars sponsored by the college's Office of Community Services are

planned for the old library area," the statement said. The new library facility will be located between the present Library/Student Center building and the college's

A dministration Building.

It is also positioned to overlook the largest of three lakes on the 163-acre campus. Work on the building is expected to begin late this month, and the new facility is expected to be ready for occupancy no later than the fall quarter of 1980.

The contract for construction was awarded in late June. The project budget for the structure, which includes the construction contract, funds for furniture and equipment, the architect's fees and a contingency fund for unexpected expenses, is almost \$2.6 million.

The addition of the library building will move the college close to completion of original facility plans. Opened in the Fall of 1969 with six original buildings, the college added a twostory classroom building five years later.

The new library building, to be called the Learning Resources Center, will become the eighth structure on the campus. All buildings have been constructed to blend with the natural beauty of their surroundings, said a college spokesman.

# College Starts Construction

Formal groundbreaking ceremonies for the construction of a new library building on the Clayton Junior College campus will be held tomorrow.

Dr. Harry S. Downs, president of the college, announced that "All friends of the college are cordially invited to attend our special groundbreaking ceremony commorating the construction of this significant addition to our

The ceremony, which begins at 1 p.m., will be held on the site where the new building will be located.

A two-story structure including approximately 57,000 square feet, the new facility will be located between the present Library/Student Center Building and the college's Administration Building.

Work on the building is expected to begin late this month, and the new facility is expected to be ready for occupancy no later than the fall quarter of 1980.

The contract for construction was awarded in late June. The project budget for the structure—which includes the construction contract, funds for furniture and equipment, the architect's fees, and a contingency fund for unexpected expenses—is almost \$2.6 million.

Addition of the library building will move the college closer to completion of original facility plans. Opened in the fall of 1969 with six original buildings, the college added a two-story classroom building five years

All buildings have been constructed to blend with the natural beauty of their surroundings.

## Groundbreaking Set For Center

The public is invited to the formal groundbreaking for the construction of a new library building on the Clayton
Junior College campus.
Dr. Harry S. Downs,
President of the two-year

institution near Morrow, extended the invitation. "All friends of the college are cordially invited to

attend

our special groundbreaking ceremony commemorating the construction of this significant addition to our campus," Dr. Downs The ceremony, scheduled at 1 p.m. Thursday, July 27, will be held on the site of the new building. A

57,000 sq. ft., two-story structure, the new facility will be between the present Library/Student Center Building and the college's Administration Building.

It is also positioned to overlook the largest of three lakes on the 163-acre campus. Work on the building is expected to begin late this month, and the new facility is expected to be ready for occupancy no later than the fall quarter of 1980.

The contract for construction was awarded in late June. The project budget for the structure, which includes the construction contract, funds for furniture and equipment, the architect's fees and a contingency fund for unexpected expenses, is

almost \$2.6 million. The addition of the library building will move the college close to completion of original facility plans. Opened in the Fall of 1969 with six original buildings, the college added a twostory classroom building

five years later. The new library building, to be called the Learning Resources Center, will become the eighth

structure on the campus. All buildings have been constructed to blend with the natural beauty of their surroundings, said a college spokesman.

# Trees must go

By SAM HODGES Staff Writer

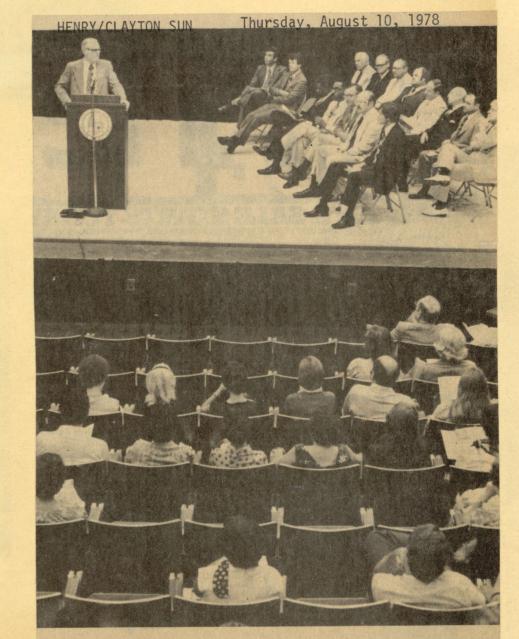

It is an old story and a sad one, but "progress" often means the destruction of trees. Such is the case at Clayton Junior College where this past week several trees were removed so that work on the new library could continue apace.

About the tree removal, Dr. Harry S. Downs, president of the college, said it is a terrible thing to have to tear down trees, but you can't have trees and a building on the same site. Consistent with other construction on campus, only those trees that absolutely conflict with building activity will be torn down."

Downs said that extraordinary care

is being taken to preserve every possible tree and that trees will remain right up the very walls of the new building. "Thats what we've done for every building," Downs said. "If it doesn't get covered over with building it stays there.'

Construction on the new library began last month and is expected to continue on through next summer. "We expect to be in the building by summer of 1980, but if all goes well we could be in before that," Downs said. The cost of building is estimated at \$2,597, 253.

CROWDED PODIUM---Representatives of the board of regents, state and local governments as well as of the college were on hand to break ground for Clayton Junior College's planned library building last week. Above, CJC President Harry S. Downs welcomes the visitors. [SUNphoto by Dave Hamrick]

# College Has **Business Aid**

Clayton Junior College has initiated a new program aimed at assisting small business owners in Henry County and the rest of the south metro area.

The college has opened its Small Business Development Center, which is headquartered in the offices of the college's Division of Business.

The new center will provide counseling assistance and short courses for small business owners.

Perry L. Woodward Jr., who will head the new center, stresses that the facility will be open to all local businesses. Woodward encourages persons who are establishing small firms or others who need assistance with their present business to contact the center.

'We will provide an advisory and referral service, working on an individual basis," Woodward said. "If we can't solve most business-related problems, we'll

find someone who can," he added.

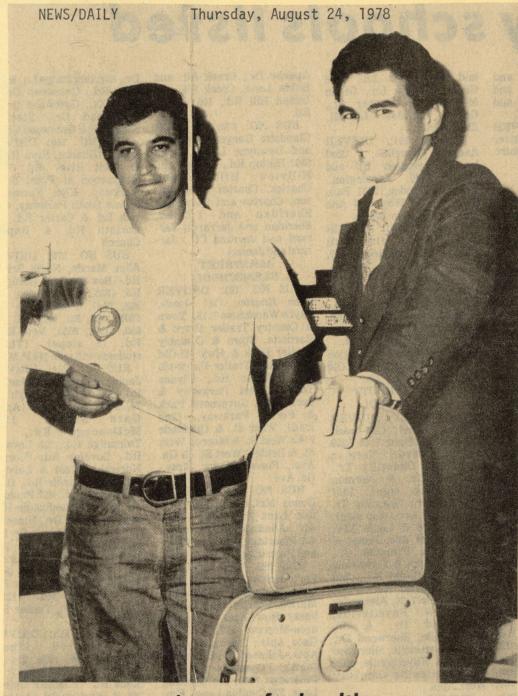

The center also has at its disposal the educational resources of the University of Georgia, Georgia Institute of Technology and Georgia State University, and will work in cooperation with programs sponsored by these and other

Specific areas of management assistance provided by the center will include setting up bookkeeping systems, giving advice on tax matters, aiding in preparing loan applications, and counseling regarding marketing analysis, personnel management and insurance.

Woodward says the new center will operate in cooperation with Clayton Junior College's Office of Community Services in the scheduling of short courses for small business owners.

The short courses to be offered Fall Quarter at the Morrow institution include "How to Start and Manage a Small Business," "Basic Accounting for Small Businesses," 'Selling Products and Services to the U.S. Government,' "Theft Prevention in Small Business" and "Effective Advertising and Promotion.'

The initial service area for the Clayton Junior College center will include Clayton, Fayette and South Fulton Counties as well as Henry, but this area will expand with increasing demand for services.

#### Jaycees for health

. The Forest Park Jaycees, in conjunction with Clayton Junior College and the Clayton County Health Department, will be sponsoring an eye, ear and dental examination for preschoolers on Sept. 9 at the heal th building on the Clayton Junior College campus. The state requires that all children have such an examination before starting school. The health department nurses will be in c harge of the dental examinations, with the Jaycees running the eye and ear exam. Jaycees have been certified to conduct the examinations which will be held from 8 a.m. until 2 p.m. at the CJC health building. Picutred readying the office for the exams are Tom Guardala ( L) with the Forest Park Jaycees and Rick Sanchez, director of Community services at CJC.

## 'Fun run' planned Sept. 2

By CHRIS JACKSON Sports Writer

Call it a "different" long distance race. Introducing the Tara "Fun Run." The Clayton County Junior Service League, a 20member women's club, is putting it together.

And fun is the name of the

"Ours will be more different than any other run around here," said Lynne Jordan, the chairperson of the organization's ways and means committee. "All the proceeds are going to

The club, founded around 1970 after the members decided to break ties from local and state affiliation with a prominent women's club, might as well have charity as its middle name. It is concerned solely with aiding people who aren't helped by government programs or any other assistance.

The good ladies work with jailed women, buy clothes for underprivileged youngsters, delight retarded children with an Easter egg hunt and help other kids with toys at Christmas. Charity begins at home, the saying goes, and the Junior Service League wholeheartedly believes in that. It con-centrates on the Clayton County needy

"Where there are needs in our county, we try to take care of them," said member Judy Sallis. "We try to do as much as we can to help

All the charities the women's group helps will benefit from the run, which is slated for Sept. 2 on the Clayton Junior College campus. Funds will be collected from the \$3 entry fee (\$5 after Aug. 25) and all the money goes to the local people in need. For information about registration, call 471-6168 or

The race will be a 5,000meter run, virtually circling the wooded Morrow campus. That's 3.1 miles in layman's terms. It will start at 9 a.m. when the sun has not yet taken its seat in the sky.

Men and women entered will run in age classifications and the first 200 finishers will receive a T-shirt, the prized possession of amateur long distance runners. In addition winners in classification will be awarded special

presentation. The club began working on the running project in June. Several members, being joggers themselves, decided a race would be a good idea and launched it.

"We wanted to do something worthwhile for the community and raise money at the same time,' said Jordan.

The group should be able to raise plenty of money. The response has been very good

It's kind of mush-roomed," Jordan added. "We are real pleased."

Jordan said she would be 'excited' if more than 300 runners show for the event. but an optimistic Dr. Avery larvill, chairman of the CJC Physical education department who has helped the club in its preparations, predicted around 500 to 800 would be present

Hopefully, Harvill will be right in his estimation. That would please the ladies who like to help others.

# Southside Seminar Discusses Future Growth

Lt. Governor Zell Miller addressed a dinner meeting of the Southside Progress Group at beautiful Clayton Junior College recently in which he discussed the states interest in growth to the South and promised support of plans to secure adequate water sources for the area, transportation facilities and other facets of government that make the growth of an area viable. The Lt. Governor spearheaded a group of leaders in specific fields of interest, all of whom discussed the future of the area.

The panel of speakers were a part of the program being developed by the Southside Progress organization to develop interest in the Southside and to support communication between the business community and the governmental agencies of the area. Cam Mitchell, president of the organization, specifically announced that it was not the intent of the group to userp the perogatives or interfere with the programs of the existing Chambers of Commerce in the area, but the opposite, for the group wishes to support the local Chamber efforts and to serve as a coordinating organization with adjacent activities.

Following the Lt. Governor, the director of the State Department of Environmental Protection, EPD, Leonard Ledbetter, addressed the group and discussed growth as affected by the Southside Progress organization to look to future water sources for their areas. The growth of the metro area could well force the use of alternative water resources for the Southside, to plan now is prudent within the requirements for protection of the environment,

Mr. Hal Rives, assistant highway engineer for the Deaprtment of Transportation for the state of Georgia followed the EPD representative. His discussion

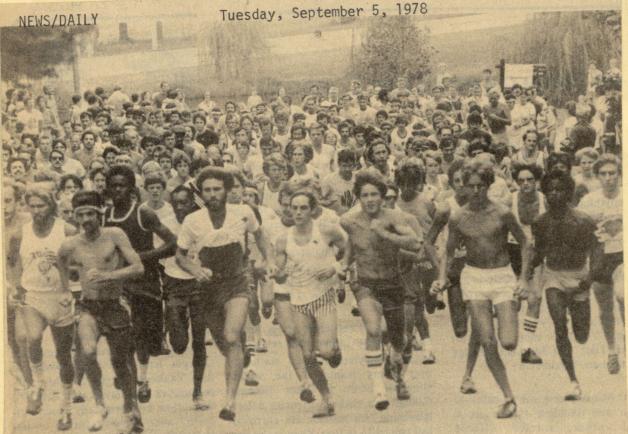

> covered the projection of highways for the future for the area, with the program covering such things as on and off ramps at Flat Shoals intersection with I-85, relocation of parts of I-285 to aid in the flow of traffic at the Old National nterchange, 1-485 the North-South by-pass through Clayton County, to four lane construction on various highways throughout the area.

Wm. Robertson of the Georgia Department of Industry and Trade followed the DOT representative and discussed growth with respect to industrial promotion and the importance of having the facilities needed by the prospective new industry. The speaker keyed his comments to the impact of new industry on an area and the importance of balanced growth to the requirements for support of amenities through taxation.

President Cam Mitchell closed the meeting with a summary of the aims

of the Southside Progress Group .: Asked that the business community support the group in the addressing of the most important problem with respect to future growth, that of providing for an adequate water supply. He promised that the Southside Progress organization would take the lead in securing a study of the impact of the future with respect to water resources and then to actively pursue the solution to the problem with the assistance of the business community.

Dr. Harry Downs, President of Clayton Junior College, appearing at the head table with Mr. Mitchell expressed the desire of the Community Development Department of the college to cooperate with the program and offered the resources of the college in the program. They announced that the next meeting of the group would be a Board of Directors meeting open to the public to be held at Clayton Junior College on 19 September at

#### Clayton Junior College will welcome a number of new students to its campus when Fall Quarter classes open in late September,

according to Annette B. Satterfield, Director of Admissions and Registrar at the two-year institution near Morrow.

Fall Quarter Classes

Held At Clayton Junior

"We've had more than 1,500 new students to make application for admission and we expect several more before the deadline," Mrs. Satterfield said last week. The deadline for new students to complete an application was Tuesday, September 5.

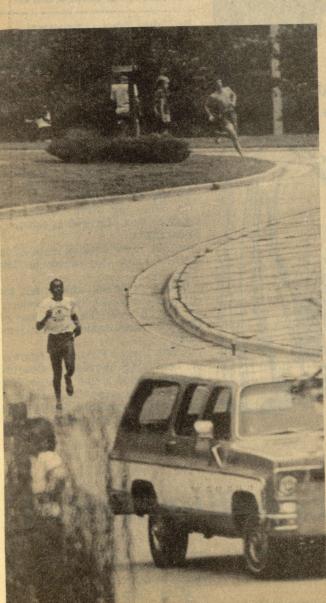

"To be considered for admission, an applicant must complete and return all required forms to the college at least 20 days before the registration day of the quarter in which he or she plans to enter," Mrs. Sattefield explained. Registration days for the Fall Quarter will be conducted on Monday and Tuesday, September 25 and 26, and classes will begin the following day.

'We encourage anyone who is undecided about enrolling or others who need additional information about Fall Quarter classes to call our office (363-7723) and schedule an appointment," Mrs. Satterfield

The college is expecting an enrollment of about 3,200 students for Fall Quarter credit courses.

A unit of the University System of Georgia, Clayton Junior College will begin its 10th year when classes resume on September 27.

# 300 runners go in 'fun run'

News-Daily Photos-Bennet George

The race, sponsored by the

Clayton County Junior-Service League, netted more than \$1,000 for the benefit of a number of local charities. When the starter's gun sounded at 9 a.m., 315 runners of all ages and both sexes surged up the course in a thrashing, churning mass, but 15 minutes and 42 seconds later, when Keith

Kinney crossed the finish

line a hundred yards ahead

of the nearest competitor,

the pack had thinned out to

stretch across half the

For the next 15 minutes the runners came streaming and straggling into the finish line a few at a time, some sprinting the last few yards, desperately trying to improve their times by a second or two. The first 200 in received a commemorative T-shirt. No injuries more serious than a skinned knee were reported, but a number of people suffered bruised pride at

race's end. But then it was

all in fun.

# Ex-heart patient among entries in Tara Fun Run

Sports Writer
There will be a gentleman walking at the back of the pack tomorrow at the Tara Fun Run. He will not be concerned with what time he makes in the Clayton Junior College 3.1 mile course, nor will he care how many people leave him behind. Jim Hedderman of Griffin, 62, and a former heart patient, is walking so that others might begin to do the same.

"I'm doing this to advertise our group and encourage people through example what it means (walking) to

me," Hedderman said. His "group" is the Mended Hearts, an affiliation of persons throughout the world who have undergone heart surgery. Begun in 1951, the organization strives to visit and encourage persons anticipating or recovering from heart surgery. The members also distribute information about the heart, provide advice to families of heart patients, work with doctors in programs for the heart patient and aid in rehabilitational programs. Only people that have actually been in a heart operation can become an "active" member, others who sympathize with the group's aims can become "associate" members.

Hedderman himself has undergone three bypass operations, due to heart problems. His difficulties began in 1973, when he noticed he was experiencing chest pains. Later, after visiting a doctor, he was informed that he had angina, and he subsequently went through one bypass operation. He returned home and within the next year he went back for a stress test. where it was learned that he needed to undergo a second and third operation.

When he left the hospital for good and recuperated for some time, he began to walk. But his body would have nothing to do with that.

"I could only walk about half a block," he said. "But

I built that amount up."
As most doctors would tell anyone getting into shape, and especially one who had undergone heart surgery, it is necessary to start out slow and build up. And that's precisely what Hedderman had in mind. He continued walking each day and in time had his distances at a

respectable length. And today, he claims to be in the best health of his

"Walking has done two things for me," he explained. "It has allowed me to go beyond anything I was doing and it has put me into the best physical condition of my

Not only is his physical being in better condition, but Hedderman says there are subsequent psychological rewards as well. He indicated he has "gained a multitude of friends, which in itself sustains you and keeps you going" and his walking has "given me a new

Since he was walking two, three and four miles per day, Hedderman decided he might as well turn it into something constructive not only for himself, but also for others. He elected to enter a road race in Thomaston. He would walk four miles.

As the gun was shot to begin the race on that day, Hedderman broke into his walk.

"I felt completely relaxed and confident that I would make the four miles," he remarked. "I was hoping that the people watching that knew of my situation, it would be an inspiration to them.'

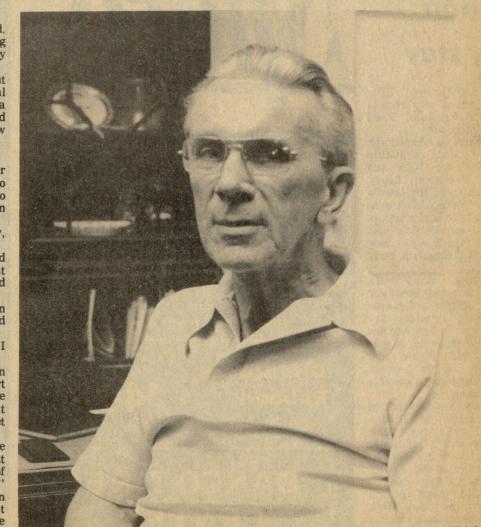

Hedderman wasn't shunned because he didn't run in what is considered a running event. He was welcomed with open arms by the participants 'They welcome me as a walker, because of what I

have gone through," he admitted. Because of what he has experienced, Hedderman

wants others to consider their health and start exercising before they go through the same. So he makes a sacrifice and goes to the races so that someone not participating might feel the need to get out there, too.

"These races have been a golden opportunity for me to express what walking was meant to me and what it could mean to them," he said. "The more they see of me, surely some one will get out and start walking."

If you should be participating in the Tara Fun Run this Saturday on the Clayton Junior College campus at 9 a.m., look for Jim Hedderman. He'll be the gentleman with the biggest smile on his face, because he believes as the Mended Hearts slogan reads "It's great to be alive...and to help others." And Jim Hedderman is definitely alive.

PAST HEART SURGERY WON'T SLOW HIM DOWN Jim Hedderman Vows To Finish Tara Fun Run

# CJC to offer credit courses in Henry County By SAM HODGES

Staff Writer Clayton Junior College will offer credit courses in Henry County beginning with the current term. This marks the first time the college has offered credit courses at an offcampus location.

Two regular courses from the Clayton Junior College curriculum will be taught at Stockbridge High School during the Fall term which begins Wednesday, Sept. 27. English III, a course in composition, and History 252, a course in American civilization, will be the first two

Already enrolled in the program are 16 high school seniors from \*Stockbridge High School and Henry County High School. These students are a part of the college's "Freshman Scholar Program", a means by which they may receive high school and college credit while still attending

"We've been interested in starting a program like this for several years," said Randall Ponder, principal of Henry County High School. "It was necessary for us to provide a good curriculum for our accelerated students and this is an excellent

means of doing just that."

The program is not limited to the high school scholars, however, and Dean Billy R. Nail of CJC expressed his desire to see the citizens of Henry County make use of this opportunity.

"We hope this is just the beginning of a continued effort by Clayton Junior College to help meet the educational needs of Henry County," Nail said. "This is an ideal way for the housewife or businessman to conveniently begin earning a college degree by taking one or two hours of classes five days a week.'

Because details were not worked

out on the program until Thursday, a special administration of the Scholastic Aptitude Test will be available for those interested in enrolling who have never had the test. The special SAT will take place on Monday, Sept. 25, and anyone wanting to take the test must reserve a place by calling the Clayton Junior College

Enrollment fees for the off-campus classes will be \$12 per credit hour, or \$60 per class. This figure is \$3 higher than the on-campus rate, but Nail said the extra charge is set by the Board of Regents of the University System of

admissions office.

Henry County students will also pay an \$8 student services fee which is required of everyone taking credit courses at Clayton Junior College. The fee covers certain student organizations and activities, including a weekly movie program and a series of speakers each term.

Officials from Clayton Junior College and the Henry County schools have been working for several months to get the program started, and final details were being worked out as late

as Thursday morning. Involved in the negotiations were

Nichols, admissions counselor at Clayton Junior College; George Denes, counselor at Stockbridge High School; Thomas Pringle, counselor at Henry County High School; and D. M. Pridmore, principal at Stockbridge High School.

Nail cited the "total cooperation" of the Henry County educators in bringing Clayton Junior College to their county

"The college has enjoyed a long and good relationship with Henry County and its school system, and this should be a way of bettering that relationship," Nail said.

## Following Retirement

# Car Dealer's Bucking Taxes

Wednesday, September 13, 1978

new members.

'Teaching is better than ever before, even though there are some poor teachers in Georgia. But overall, I am optimistic about our education."

McDaniel pointed out that in the 1920s, 1930s and even the 1940s, very little was done to educate poor people. "If you didn't take latin or algebra, you dropped out of school. If you weren't preparing for college, you wouldn't get a good ecucation.

"Today, we try to educate everybody we are teaching. We are teaching more, but we do have a

"However, we are teaching the handicapped in our schools. And today, we are offering an education where a student can learn skills which will enable him to get a job. Twenty

although there are students who years ago students didn't have the vocational-technical opportunities they have today in school.

'We have problems in our schools. but our best days are ahead for Georgia schools," said McDaniel. "I feel good about the future of public education, and I feel good about public education in spite of what I read and

"It is true that we do graduate some students who are not literate, who do not read well. But every graduating class has had that. Some people read better than others. There will always be about 20 percent of the population who will never read well.

The state school superintendent noted that some of the things he felt would help improve education in public schools included putting more emphasis on early childhood

"We need to give our children a good education early, so we don't have to spend our time later remediating

Another point made by McDaniel was that the number one concern of parents was discipline in schools. 'However, parents cannot expect us to do a better job of disciplining in the schools than they do at home. We are only going to be able to offer the kind of discipline in the school that the child gets at home.

"However, even though there is a permissiveness, it is time for teachers to stand up and say they are going to be the leaders in the classroom. They must clamp down and expect certain things. If you don't expect it, you certainly won't get it."

One important area that McDaniel says public education is headed for is the need to orient students toward making a living.

"Whether a student wants to be a brain surgeon or a bread maker, he must realize that what he learns whould be able to help him get a job." McDaniel also noted that better education calls for getting better people into teaching.

"And this calls for money. However, we need the best people in society as teachers, because if you have mediocre teachers, you will have mediocre students."

McDaniel noted that there are still some slaps coming for Georgia in education, but "this will just make us work that much harder. I feel the only way for Georgia education is up."

## Thursday, October 5, 1978 THE HENRY NEIGHBOR Bankers Organize Professional Group

An organization dedicated to the promotion of "professionalism in banking" has been chartered for officers and staff members of banks located in Fayette, Clayton, and Henry Counties.

An organization meeting of the Flint River Chapter of the American Institute of Banking was held at Clayton Junior College in August.

Lee Emerson, executive vice-president of the Clayton County Bank, was elected president.

Betsy Suttle, assistant vice-president of the First National Bank of Atlanta and a District Council member for the national organization, gave the principal address at the meeting, attended by more than 150 bankers from the South Metro area.

All officers and bank members in the three-county area were invited to attend the organizational meeting. Many courses will be offered on the

Clayton Junior College campus. John Feathers, assistant professor of business at the two-year institution near Morrow, is serving as an educational advisor for the new chapter.

Assisting the officers in the implementation of programs for the Flint River Chapter will be a Board of

Other Clayton Countians include Bobbie Hayes of the C&S Bank of Clayton County, Jewell Lawrence of the Bank of the South, Paul Edwards of Trust Company Bank, Sylvia Roach of the Bank of Forest Park and Joe Phillips of The First Bank of Clayton

Joining Stapleton from Fayette County is Ms. Jimmie Hammond of the First Citizens Bank in Fayet-

Several Henry residents also were elected to offices in the newly-formed organization.

President of the Farmers Bank of Locust Grove William R. Blanton was named first vice-president of the organization and will also serve on its board of directors.

Clarence J. Sheppard, an auditor for the First National Bank of McDonough, Pat Carrion of First State Bank and Henry Bradford of C&S Bank were other Henry residents. CJC: another look...

## Last Government Seminar Held

The last in a series of seminars on Fayette County government was held Monday night and focused on the judicial

system in the county. Bud Ballard, clerk of superior court in Fayette County, and A. O. Ingram, a justice of the peace in the county, were the featured speakers at the seminar,

sponsored by Clayton Junior College and the Republican and Democratic parties of Fayette County, Ballard, the first speaker, explained the overall structure of the clerk of

superior court position and gave a general explanation of the clerk's duties and responsibilities. The clerk also told how jurors are chosen in the county and

how they are compensated by the county. A justice of the peace for. four years, Ingram diagramed the many functions and duties of a

justice of the peace and explained that the main function of the office is to weed out the small cases before they get to the superior court.

# Seminars To Focus on Fayette Government

Fayette Countians will have the opportunity to gain a detailed view of their local government process, and of Georgia's county governments in general, during a series of free workshops scheduled during October.

Four two-hour sessions will be conducted on consecutive Mondays, beginning Oct. 9 and continuing through Oct. 30. Each session will feature members of the various branches of Fayette County's government. Scheduled in the Fayetteville Elementary School Library on Hood Avenue, the workshops will be jointly sponsored by Fayette County's Democratic Party, Republican Party, and Clayton Junior College. Sessions are scheduled between 7:30 and 9:30 p.m. each

Monday. Government officials will speak on the organization, responsibilities, and problems of their

respective departments, and ample time will be provided for questions and discussions.

The Oct. 9 opening session will feature Dr. Robert H. Welborn, Assistant Professor of History at Clayton Junior College. Dr. Welborn will provide an introduction to Georgia's system of county government plus the overall structure of Fayette County's governmental structure. The relationship of county government to city, state, and national governments will also be discussed.

In addition, the opening session will include a discussion on Fayette County's law enforcement. The qualifications, responsibilities, and internal structure of the Sheriff's Department, and the sources of revenue and the budgeting process will be among the topics discussed. Staff composition, qualifications and com-

pensation, and the relation of municipal law enforcement to the Sheriff's Department will also be explored.

The Oct. 16 meeting will feature the various departments under the Fayette County Commission and their responsibilities; education will be the topic of the Oct. 23 session; and the Fayette County judicial system will be featured in the fourth and final workshop.

Fayette Countians will want to attend all the free sessions in order to obtain a complete governmental overview, but citizens may elect to participate in the specific programs of their choosing. Pre-registrations for the sessions will not be required.

For more information, contact Clayton Junior College's Office of Community Services (363-7717).

SMALL BUSINESS COURSE SET

The Small Business Development Center at Clayton Junior College will sponsor another short course for local small business owners next week.

"Effective Advertising and Public Relations" will be the topic of a two-part program, scheduled Tuesday and Thursday, November 7 and 9, at the College, 7-9:30 p.m. A \$10 registration fee will cover both sessions. The program is a series of short courses offered during the fall quarter. Registration may be completed by calling the College's Office of Community Services (363-7717). For additional information, contact Lee Woodward, Director of the Small Business Development Center, at 363-7788.

NEWS/DAILY Wednesday, November 1, 1978
Shapard-Gingrich forum details set

Staff Writer

Details are now set for the Nov. 1 joint appearance of Virginia Shapard and Newt Gingrich at Clayton Junior College. Sponsored by the Clayton County Kiwanis Club, the forum will fall just six days before the election and will mark the only time the candidates have appeared together before the

Dick Reiter, a Kiwanis member who helped negotiate the forum, said Thursday that the forum will begin at 7:30 p.m. in room G-132 (the large auditorium) of the college. The doors will open at 7 p.m. and, once started, the program is expected to end after one hour.

Reiter said each candidate will be allowed a seven-minute opening statement which will be limited by a timekeeper. Following those statements, the program will shift into a question and answer format which will be moderated by four members of the local media.

Audience members will be given 3x5 cards as they enter the auditorium so that they may write questions they wish to submit for the second part of the program. Those questions will be divided among members of the media panel who will take turns asking questions they deem worthy.

The questions are not to be addressed to a specific candidate, and a coin toss will determine the order in which questions are addressed to the can-

Reiter said the candidate who wins the coin toss and gets the first question will have two minutes to respond. The other candidate will have one minute for rebuttal.

The format is designed, at the candidates' request, to prevent direct audience contact in the question and answer segment. In other forums across the district, representatives from both camps have appeared and asked disruptive questions without identifying themselves as campaign

Persons with questions for the candidates can submit them on arriving at the forum, or can prepare them ahead of time.

# Gingrich vs. Shapard

The Sixth District congressional race, which began several months ago as a quiet, unassuming challenge for several candidates, has now turned into a contest of Olympic proportions for the two survivors, Virginia Shapard and Newt Gingrich. Since summer, 18hour days have been commonplace for both of them, and the effects of that grind are beginning to show.

In the past two weeks the race has disintegrated into attacks by each candidate on the integrity of the other. Gingrich has issued a series of "Truth Sheets" which claim that Shapard is deceiving the voters in her campaign literature and speeches. Shapard told a South Fulton group Monday that Gingrich implied "racial slurs" in his campaign material, and that he is one who says different things to different audiences.

Clayton Countians will have a chance tonight to see the two together at Clayton Junior College at 7:30 in room G-132. The doors will open at 7 and officials from The Clayton County Kiwanis Club (the group sponsoring the event) urge citizens to get there early to secure a

amendment to prohibit deficit spending, and as her top foreign policy stance a strong defense. "You can't deal with bullies from a position

of weakness." Gingrich said his "domestic" issues would take priority over any foreign policy issues, and responded to the question by giving his top two bills as a bill requiring congressmen to pay social security and reintroduce the Kemp-Roth tax bill

Most of the questions have been asked and answered before on different forms and in the news media, but this forum gave voters a chance to evaluate the candidates. It also gave them an opportunity to meet the candidates, both of whom

remained after the forum was over. The forum was sponsored by the Clayton County Kiwanis Club and moved on a well-kept timetable. Both candidates projected themselves well and presented winning images. But the real winners of this forum were the residents of Clayton County who were able to see the candidates in THE ATLANTA JOURNAL Nov. 8, 1978

## **Regents Proposing Tougher Guidelines**

The Georgia Board of Regents approved guidelines Wednesday that set uniform requirements for getting into and through the state's 32 colleges and schools.

The board approved measures requiring entering freshmen to have at least a 1.8 grade point average, which is interpreted as a D-plus or a C-minus, or achieve a 250 verbal or a 280 math score (of a possible 800 in both areas) on the Scholastic

The board also agreed that no student would be allowed to take college level courses beyond 105 hours if that student failed the regents' exam. The student will be required to take remedial classes until the test is passed.

The admissions requirements will become effective in the fall of 1980, and the requirement for graduation is set for the

Currently, there are no uniform minimum requirements for admission to Georgia's colleges. In 1974, state colleges began requiring remedial work for students whose total SAT score was below 650. Each school has been allowed to set its own minimum

standards for admissions and to decide when students will take the regents' exam. The regents left the door open for poorly prepared stu-

dents to enter school in a temedial study arrangement. If a student manages to meet either the grade point requirement or one of the two SAT score minimums, the student

may be admitted in a special studies program, said Charles Nash, assistant vice chancellor for academic development. "The new requirements pretty much close the door on the state's open-door plans for admissions," said one Clayton Junior

college professor. He predicted, however, that junior colleges would be slow to enforce the new proposals because junior colleges were set up to help students who had trouble getting into four-year schools. State college officials said they need to

for entering students who possess GED certificates instead of diplomas. Regents' exams, sometimes called rising junior tests, are given for the first time after a student completes 45 hours of class work usually a full year of study. Currently, when a student takes the exam and flunks, the student

is permitted to continue studying other courses

until the exam is passed.

The admissions and graduation changes do more work on what standards will be used are the result of a study conducted by a committee for five college presidents looking at academic improvements in the state's univer-

> Regents were told that if the proposed admission policies had been in effect during the 1976-77 school year, 266 of slightly more than 29,000 students would not have been admitted to state schools.

Mitchell (left), is president of Trust Company, which recently gave the foundation \$700 for its scholarship program. Charles S. Conklin II (right) and his wife Meridith contributed \$342 to cover a one-year scholarship for a local student.

# Full house addressed by Shapard, Gingrich

# First joint appearance in Clayton

Staff Writer

An overflow crowd of Clayton Countians ventured to Clayton Junior College Wednesday night and heard Newt Gingrich and Virginia Shapard exchange the kind of political blows which have come to typify this last round of the congressional campaign.

But aside from the Kemp-Roth tax cut bill, a measure which Gingrich supports and Shapard opposes, few differences in issues surfaced at the Kiwanis Club of Clayton Countysponsored forum. Each candidate took a stand on the Kemp-Roth bill during the seven minute opening statement period, and each returned to the theme several times when answering questions from a panel of moderators.

"I have been an opponent of the Kemp-Roth procedure which my opponent has supported wholeheartedly because the major economic studies done on it say that it would lead to higher budget deficits and greater inflation," Shapard said. "I've campaigned all year on the Kemp-Roth bill," Gingrich said. "I

was talking about cutting taxes before she (Shapard) was even a candidate." Gingrich said Kemp-Roth is what the country needs to bring relief to taxpayers, increase productivity, and

Shapard said she favored instead the Nunn amendment, a provision offered by Sen. Sam Nunn (D-Ga) which would couple tax cuts with spending cuts.

"I will be joining with him (Nunn) next year in making that very same proposal that would lead us to a balanced budget, long-range tax relief, and a check on inflation," Shapard said.

Gingrich noted as he has before, that Nunn had voted for the Kemp-Roth measure before introducing his own amendment.

Both candidates voiced support for a constitutional amendment prohibiting deficit spending, and both voiced favor for cutting spending on the federal level. Shapard proposed a two percent "across the board" cut for all federal departments and agencies. Gingrich proposed abolition of health systems agencies, such as the North Central Georgia Health System Agency, of which Shapard is

One issue on which a difference did emerge was the Equal Rights Amendment. Gingrich came out in opposition of the amendment saying, "I would have voted against extension...I think it was totally unfair. The second selection (of the ERA) is very dangerous because it gives congress the right to do anything it wants to do to enforce the first section." He called instead for enforcement of the 1964 Civil Rights

"I did vote for ERA as a Georgia State Senator," Shapard said. "I think it is completely appropriate that our Constitution make a statement that we do not tolerate discrimination the

basis of sex." Another issue on which they differed is the implementation of funds as called for in the Panama Canal expresses Both dissatisfaction with the treaty, and Gingrich said he would not have voted for it. But Shapard said "we have an obligation to honor our treaties." Gingrich said "I will not vote to take your dollars and send money to Panama as well as give them the

Both came out against National Insurance, Health decriminilization of marijuana, and

In the only light moment of the evening, Shapard responded to a question on infanticide by asking 'Infanticide?" When the moderator said, "I guess that means the killing of babies," Shapard was quick to say, "I'm against that." Even Gingrich applauded.

# New Library On Schedule

By DAVID MARTIN Staff Writer

Dry weather has sped up construction of the new twostory multi-media library complex at Clayton Junior College, but school officials estimate that opening dedication ceremonies are still a year away.

"About the only thing I can say is it's running pretty well on schedule," said Director of Learning Resources Jack Bennett. "They do have the lower story columns in and have the forms up to put in the second story.

According to Bennett, the concrete floor to the second story has already been poured and the forms to pour the second floor support columns went up last week. "Barring a bad winter and any shortages of materials, it

should be ready for us to occupy by next fall,' he promised.
"Original estimates called for the new library's completion in the fall of 1980," Bennett explained. "But the dry weather we've been having has allowed the contractor to work pretty steady and the target date for finishing up has been moved up. The new library center, when completed, will cost over

\$2,000,000 and will have 58,000 feet of floor space, the director said. The new center will be able to house over 100,000 books. "We will also have facilities for audio visual media production," Bennett noted. "When cable TV comes to the

county, one of the channels will be opened to the college for The college plans to use its channel for educational type programming similar to Channel 8 in Athens, Bennett said. We will also have an expanded area for computer instruction," he added. "It will have a large learning lab for

students to learn basic instructional skills. The building, which currently houses the library, will be turned over to groups for various civic projects and to the students for possible use as a student center, Bennett said. 'It will be used for such things as adult non-credit elasses and for student services and conferences," Bennett

Bank Lends Support

THE BOARD of Directors of the C & S Bank of Clayton County presented the Clayton Junior College Foundation, Inc. with two checks totalling \$1,684 for its scholarship fund recently. Guy L. Benefield [right], a member of the C & S Board, made the presentation to Dr. Harry S. Downs, president of the college and a member of the foundation's board of trustees. A \$1,000 check was donated to the foundation's endowment fund and \$684 was provided for the general fund, covering the cost of two scholarships made to outstanding area students this year. It was the second consecutive year for the C & S Board to make this type of award, and brought the Bank's total contributions to the foundation to almost \$4,000.

# Taking the plunge

North Clayton's unbeaten girls' cross country team came up with a novel way of cooling off coach Alan Messer after a recent victory. Under the pretense of having a better setting for a team picture by the lake at Clayton Jr. College, the girls posed for a happy team picture with their coach, then decided on a little mischief. The Eagle gals surrounded their mentor (top photo), and tossed him into the lake, but a couple had to go in with him (center). Wonder if they knew that legend has it that a good-sized alligator makes his home in that body of water? Afterward, the girls who didn't go in the water seem to find it funny that those who did (bottom photo) have the shivers. This wild and crazy, but hard-working bunch of gals, after sweeping honors in the county and region meets, move on to the state meet Saturday at the Atlanta Water Works.

SOUTH FULTON RECORDER Wednesday, December 6, 1978

## Scholastic Test Scheduled At Clayton Jr. College December 14

TE Clayton Junior College will administer the Scholastic Aptitude Test (SAT) to its prospective students on Thursday, December 14.

The test, a requirement for Admission into college credit programs, will be given in Room G-132, beginning at 6 p.m. Scheduled during a three-hour period, each participant will be charged an \$8 testing fee. Since the College is not

allowed to send SAT scores to other colleges, only those students who plan to enroll in classes at Clayton Junior College should take the test. For complete information,

contact the Office of Counseling and Testing (363-7744) or the Office of Admissions and Records (363-7723). Students who plan to

enroll in credit courses for the first time when Winter Quarter classes start in early January must complete and return all required forms to the College no later than Wednesday, December

# College Offers Scholarships

Members of the Board of Trustees of the Clayton Junior College Foundation, Inc., which serves South Fulton, have approved a record \$22,836 budget for the 1979-1980 year.

Included in the budget are funds for 62 scholarships for outstanding area students, an expenditure of more than \$20,000.

Also provided in the recentlyapproved budget is the continuation of a \$500 program for student honors and a \$500 program to honor outstanding members of the college's faculty and staff.

Foundation scholarships, first awarded at the start of the 1975-76 year, cover all tuition and fees for two years of study at the school. according to a spokesman.

The Board of Trustrees funded 18 scholarships that first year, 25 the next year, 27 the next year and 31 at the start of this year

The new program also includes 31 at the start of this year.

The new program also includes 31 new scholarships, to be awarded to 1979 area graduates who will begin college either during the

summer or fall quarters next year. For the second straight year, the scholarship program includes full-tuition awards to the STAR students from the four counties of South Fulton, Clayton, Henry and

The awards will automatically make scholarships available to the four STAR winners when they are

named in local competition. Also included in the new budget are 10 "Foundation Talent Scholarships," 17 "Foundation Merit Scholarships," and funds for the second year of the 31 scholarships awarded at the start of the 1978-1979 year.

"Talent Scholarships" will be awarded to outstanding students who plan to major in msuic, art, teacher ecucation or a number of business and health related sub-

jects for an outstanding student, regardless of his or her major. Applications for these awards

may be obtained by contacting the college's director of finacial aid. 'Merit Scholarships" are designed to recognize and reward outstanding area students for their record of academic achievemnet in high shcool work.

Two year awards are provided for the highest ranking graduates of selected high schools who elect to attend Clayton Junior College, providing they are in the top 5 per

cent of their graduating class. Students interested in competing for these awards should contact their high school principals or counselors for complete informa-

HENRY AND CLAYTON SUN January 4, 1979

Education a Must

Clayton business leaders are hoping the state department of education will heed their pleas and build a bright, shiny new postsecondary vocational/technical school at Clayton Junior College.

We hope so too. State officials say maybe, but it'll be a couple of years or more at best, if at all.

They've done a study and have determined that there is a need for several such schools in the Atlanta area, because industry needs skilled labor and laborers need

We feel the main criterion for deciding whether to provide postsecondary vocational education is

whether there are students who don't want to, or can't, go to college, but who need education beyond high school (and who doesn't?).

We wonder, however, why longrange planners didn't figure out when they developed the state's all-encompassing high school vocational program that students in such programs would need more

training. It's all part of the state's responsibility to provide education for the public. It's one of the few responsibilities there's not much argument

about. The need is clear-cut. People must be educated.

also recognize the importance of a quality faculty and staff to provide a strong academic atmosphere for students. Thus, awards have been provided to honor all faculty and staff members who complete five years of service at the college.

Now in the fifth year of operation since receiving its charter in September of 1974. CJC Foundation continues to be a strong influence in the college's "pursuit of excellence" in programs and services.

Members of the Board of Trustees are: Harmon M. Born of Rex, Chairman; G. Robert Oliver of Morrow, Vice-Chairman; Charles S. Conklin of Jonesboro, Secretary-Treasurer; Harry Downs of Morrow, Assistant Treasurer; S. Truett Cathy of Hampton; Ernest A. Dunbar, Jr., M. D., of Morrow; W. Cameron Mitchell of Hampton; Claude H. Whaley of Jonesboro; and James M. Wood, Jr. of Forest Park.

All programs sponsored by the non-profit corporation are funded totally by contributions, and all contributions are tax The athletic program at Clayton Junior College offers classes and competitive sports programs for its two-year students, and just about as many recreational opportunities for the general

Dr. Avery Harvill, professor of physical education at CJC, heads up the physical education program on the Morrow campus of the junior college and notes, "facilities are available to the students and to the community with only very few restrictions (for visitors).

Tennis courts are open to anyone, and archery range awaits visitors as well as regular students, there's room to practice golf, and by looking around visitors can even find three marked courses for jogging.

'We have about 600 students a quarter taking required physical education classes (these are day students in the college transfer program), but there's no way to estimate how many more students and campus visitors also use the facilities," Dr. Harvill said.

Regular exercise and conditioning has achieved a new popularity. "You'll find that people usually exercise for one of three reasons, or maybe all of them." explained Dr. Harvill. "to improve their appearance, for fitness, or simply to feel

"Of course, these people are generally concerned with their health. Take people who are weight lifting

"Generally they are lifting weights to improve their appearance, but now you'll see many of them jogging too to improve their stamina," Dr. Harvill continued. "You never saw that before."

The CJC campus is quieter than usual now, with students on the Christmas holiday break. But once a new quarter begins, the winter 1979 sports calendar will crank up, offering intramural play for CJC

Slated for January and February are basketball, table tennis, arm wrestling and bench press competition. The warmer weather this fall enhanced intramural competition in flag football, tennis, volleyball, badminton and cross country

Intramural sports attracts many students, but doesn't fill the void of a full-time intercollege athletic program found at most four-year institutions, Dr. Harvill admits.

The result is that although the college offers majors in both physical education and recreation, few students come to CJC for that course of study, the physicial education profession explained.

"I don't think I advised more than 10 physical education and recreation majors this quarter." he said. "This is partly because this is a twoyear school and because a good many people who are into physical education go to a fouryear school that has athletics.'

In addition to Dr. Harvill, CJC has a second full-time staff member in the physical education program, Miss Dennie Kelley. Jung Hi Song is a not so," Dr. Harvill said. part-time instructor who offers munity college.

CJC's physical education building is the first structure benefit to the participant, he seem as visitors drive onto the college campus.

Within the building is a gymnastics room with the necessary equipment and mats for that type of instruction and practice, a weight room across the hall, shower and locker facilities and an equipment

Outdoors, CJC has volleyball and tennis courts, an archery range, a golf practice field, a quarter-mile track and marked jogging trails.

The beautiful CJC campus is especially attractive to runners, that is, people into jogging for health or intraining for cross county racing and road race competition.

Three courses for joggers wind around the campus ball fields and access roads, one is a stay.

Stiffer standards

Staff Writer Beginning in the fall of 1980, persons desiring admission to Clayton Junior College may face stiffer admission standards, due to a decision by the Board of Regents of the University System of Georgia.

Admission to CJC may get tougher

The decision affects those with low Scholastic Aptitude Test scores and low grade point averages who want to continue their education. On the effective date (fall, 1980), anyone entering a state college or university must have at least a 1.80 grade point average, a 250 on the verbal part of the SAT, and a 280 on the math section of the SAT.

Currently, no applicant is refused admission to CJC because of a SAT score, regardless how low. Those scoring less than 700 on the combined sections of the SAT are most often placed in the Special Studies

According to Jerry Atkins, spokesman for the college, "some changes will be required" because of the new ruling.

"We will be forming a committee to meet in January to study the new guidelines and to determine just what they will mean for us."

Atkins said the college has the option to make admission standards stricter than Board Of Regents requirements. Deciding whether to exercise that option will be one of the committee's tasks, he said.

When a student is placed in the special studies program, he takes remedial work designed to prepare him for regular courses at the college. Classes in reading, English and mathematics are offered within the program for just that preparation.

Atkins said "many people enter the special studies program simply because they have no skill for taking the SAT test. Once there, they learn the necessary skills, move on into regular course work, and do just

Some students, however, "just can't make it," he said, and these are the ones who prompted the Regent's

Atkins said only 10 of the 454 students enrolled in the CJC Special Studies program would have been denied admission under the 1980 standard. Whatever the changes, he said "there will not be a great deal of impact" on admissions at CJC.

System-wide, though, the situation is different. A memorandum from Chancellor George L. Simpson Jr., to the Board of Regents summed up a widely held belief: "Discussions with faculty and others during the past year have disclosed some feeling that we are attempting to carry too heavy a burden of poorly prepared students; and, as well, that we are admitting students from whom there is virtually no hope of success."

RECITAL STUDENTS.-Piano students of Carole Mitchell participating in a recent South Metro Atlanta Music Teachers Association student recital at Clayton Junior College are, from left, John Cauble, Kelly Holyfield, Jay Kieve, Steve Horne, Katrina Vrotsos and Julie Horne.

six-mile (10,000 meter) course, and the two others are three miles (or 5,000 meters).

The accompanying map shows the three-mile course marked with white arrows and mile indicators on CJC roads

The other two courses are hard to find and follow, unless someone shows them to you, Dr. Harvill said. One is marked in yellow (5,000 meters) and the other in red. (10,000 meters).

'Something I plan to do soon is put up maps of the courses outside the physical education building," Dr. Harvill said.

Dr. Harvill runs the six-mile course (which is mostly on grass) five days a week, Monday through Friday. "I usually do some yard work or something around the house on Saturdays, but Sunday is my day off," he said.

He has been running on a regular bases for the past 16 years. Dr. Harvill is a very young-looking 45-years-old.

"The problem of most people with exercise is that they think they have to hurt too much to get anything out of it, and that's

Continous, rythmic exercise classes in karate at the com- for up to an hour a day is the optimum, while anything more than that has very little more explained. A six-mile run takes about an hour.

Dr. Harvill plans to install "fitness trails" on the CJC campus "as soon as money becomes available." Fitness trails combine jogging with calisthetics along the course of the run.

Instruction is provided at each station on the trial on a poster, including all types of exercises such as sit ups, jumping hurtles, and doing chin

With the squirrels in hiding for the winter and the cold weather discouraging golfers and tennis players, there's still the jogger plodding along the CJC roadway in his or her brightly colored suit. Physical fitness is here to

## Few Students Having Problems With College Regent's Test-Nail lack or reading," says Dr. Sharon

By TERRY HADAWAY

News Editor Clayton Junior College officials say they are working hard to allay any

anxieties among local students faced with passing the Regent's Test. After 45 quarter credit hours of

study, Clayton Junion College students, along with their counterparts throuhghout the University System of Georgia, are required to take the test, according to Dr. Billy Nail, dean of

And Nail says the majority of local students are successful with the test on their first try.

But he adds, "Until 100 per cent pass, it's a problem. Anytime you have one person that doesn't pass a test then you have a problem to be

Since 1973 the state Board of Regents has required that students take

the test to demonstrate their reading comprehension and ability to communicate clearly in writing.

The Regent's Test is a "mile post where we identify their deficencies and do something about them before they graduate," Nail explained. During the two-hour exam, stu-

dents are first required to read passages and respond to questions about They also have one hour to write a

well-developed expository essay on a According to Nail, the test was instituted because there were "students graduating from college who

could not write." Students also often arrive at college with a poor background in the basics of English, unable to think clearly and with a "poor knowledge of

There is also the insecurity of many students faced with taking a test they know they must pass to graduate that the local educators must deal

to repeat it.

"There's probably a fair amount of anxiety in any student taking any test," says Dr. Judy C. Brown, head of the college's Department of Special

Mullis, who works with students who

have failed the test and are preparing

"I'm sure it doesn't make them feel much better" when students must take the test a second or third time,

However, she adds, "Some anxiety is not bad. For most people it tends to the world around them due largely to a make them a little sharper."

Clayton Junior College is basically on schedule, according to Dr. Jack Bennett, director learning resources at the institution. "The most optimistic date for

Sunday, December 10, 1978

entering the new building would be fall of 1979," Bennett said. "That's what we are hoping for, but it could be as late as fall of 1980.

As always, weather and the consistency of the labor forces are the determining factors in getting a building finished on time. A string of rainy days or a strike of some sort could result in problems, but so far neither have slowed construction of the new library.

"The company (Van Winkle and Company, of Atlanta) doing the construction really seems to be doing a good job," Bennett said. "On several occasions it has been raining in the morning, and they haven't been able to work, but come the afternoon, if it's stopped raining, they will be right back out there.'

Being built at a cost of \$2,177,687, the new library will include 57,000 square feet and will have room enough for 100,000 volumes. At the current rate of acquisition (about 3,000 books per year), Bennett figures that library space in the new building will be adequate for at least the next 15 to 20 years. Right now the library contains about 47,000 books.

Bennett, who has been in charge of the library since 1972, said the library will meet all existing requirements for the handicapped. The main entrance, for example, will be a

school for a number of years. school a number of area With vocational programs businessmen have been flourishing in the county's pushing for. Results of a high schools and withthe concentration of trucking recently recommend that and transportation industries in the northern part of the county a postsecondary vo-tech school would be a boost to the local

> The independent study, which was presented to the State Board of Education for consideration, recommends a facility which would accomodate over 2,000 students. If it were attached

Good and Bad

Good: The possibility that Clayton could receive a vocational-technical school. Clayton Junfor College has provided a highly-valued service to the community as an easily accessible means to a higher education. A vocational-technical school here would compliment that for students who desire hands-on training instead of a college

Bad: Persons who insist on leaving tokens of their presence in the form of litter, especially around local school gyms when leaving basketball games or other school functions. Interestingly enough, these are often the very persons who would scream the loudest if a passing motorist left a similar token in their front yard.

Education and Board of Regents. Otherwise the Clayton County Board of Education would assist in its development.

Should it be approved by

the State Board of Education and funding appropriated by the legislature the school would not be built until 1982, however. The independent study concluded the state needs to spend \$175 million vo-tech school construction over the next 11 years to meet projected labor demand and growth needs. The plan calls for the phased expansion of 20 Georgia's post secondary schools as well as the establishment of four metro area schools.

Currently the closest votech schools to Clayton County are Atlanta Area Tech and Griffin Area Tech. "Although these are not overflowing," Clayton Chamber of Commerce executive vice-president Stan May said, "The growth of the area does justify locating another school in Clayton County." The Chamber has adopted vocational education as one of its priority projects for

new library building on the bid opening. "The addition of Clayton Junior College this new structure moves us campus began in late July a step closer to completion of original facility plans for our

> The college opened its doors to area students during the Fall Quarter of 1969 with six original buildings, each constructed to blend with the natural beauty of their surroundings. A seventh building, the two story Classroom Building, was opened in September of 1974.

> The new library building to include approximately 57,000 square feet, will house a variety of instructional spaces, services, and resources. Modern library programs go beyond the traditional setting, and CJC's new building will be constructed on the concept of a comprehensive "Learning Resources Center."

Four basic areas will be included in the new building. A public services area will include circulation, reference and periodicals, media carrels, general study areas, and special rooms for students and faculty

services area will include space for the ordering. receiving, cataloging, and processing of all library

A media services area will include space for the provision of a number of instructional services, including the design and production of slides, transparencies, audio tapes and charts. Additionally, media services will design and layout areas for the printing of college publications, photographic darkroom facilities, and a maintenance area for the college's inventory of media

An area also has been designed for the production of videotape and closed circuit or cable television, as well as for the production of audiotapes. Included will be a television control room and an audio recording booth.

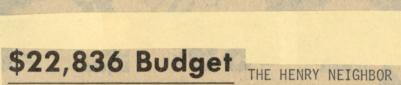

The college's Department of Special Studies, presently located in the two-story Classroom Building, also will be moved into the new facility. Administrative and instructional spaces for remedial programs in mathematics, reading, and English will be included.

The present library facility at CJC includes about 28,000 square feet of space and is located on the second floor of a combined Library-Student Center Building. This "old" library space will be converted into additional academic and student activity space when the new library building is

"In addition to providing additional space for student activities, we also have planned improved areas for classes and seminars sponsored by our Office of Community Services," Dr. Downs pointed out. CJC's Office of Community Services handles quarterly non-credit class offerings for the institution.

Other areas in the present Library-Student Center Building which will remain include the college cafeteria, bookstore, and special clinic facilities for Dental Hygiene students.

The new library facility, which will offer a wide range of resources and services for student, faculty, and staff functions, is being built between the present Library Student Center Building and the college's Administration Building. Overlooking one of the three lakes on the beautifully-landscaped campus, the building will be located in an area easily accessible from classroom and parking areas.

NEW CJC LIBRARY TO BE COMPLETED BY LATE 1980

Budget for 2-Story Structure almost \$2.6 million

# Scholarships Available

Tuesday, January 23, 1979

Students at Henry County and Stockbridge Senior High Schools may compete for scholarships that will be offered by the Clayton Junior College Foundation, Inc.

The Board of Trustees of the Foundation has approved a record \$22,836 budget for the 1979-80 school year. Included in the budget are funds for 62 scholarships for outstanding area students, an expenditure of over \$20,000 in

Also provided in the recently-approved budget is the continuation of a \$500 program for student honors, and a \$500 program to honor outstanding members of the college's

faculty and staff. For the second straight year, the scholarship program includes full-tuition awards to the STAR students from Henry as well as Fayette, Clayton and Fulton counties.

The awards will automatically make scholarships available to the four STAR winners when they are named in local

Also included in the new budget are 10 "Foundation Talent Scholarships," 17 "Foundation Merit Scholarships," and funds for the second year of the 31 scholarships awarded at the start of the 1978-79 year.

"Talent scholarships" will be awarded to outstanding students who plan to major in music, art, teacher education or a number of business and health related subjects at Clayton Junior College.

Among the ten awards will be at least one scholarship for an outstanding student, regardless of his or her major. "Merit scholarships" are designed to recognize and reward outstanding area students for their record of academic achievement in high school work.

Two -year awards are provided for the highest ranking graduates of selected high schools who elect to attend Clayton Junior, provided they are in the top five percent of their graduating class.

W. Cameron Mitchell and S. Truett Cathy, both of Hampton, are members of the foundation's board of

# CJC class gains 'understanding'

By SAM HODGES

Staff Writer If learning really is doing, as the saying goes, then the students in Mike Petersen's American government class at Clayton Junior College should be way ahead in the knowledge game. For the entire winter term Petersen's students have been participating in what he calls a 'Congressional simulation' Put another way, they have been pretending they are Congress for the past several weeks now

"I feel very strongly that an understanding of government is one of the most important things a student can learn, especially in terms of practical impact," Petersen said.

To this end, he devised a simulation that "puts the student in the role of government actor." Petersen lectures to the class occasionally, but most of their time together is spent imitating the way Congress works.

Most of the 35 class members act as members of Congress, and Peterson said he has tried to divide the "Congressmen" into Democrats and Republicans to reflect the actual composition of the body

Currently, the student congressmen are doing committee work, having divided themselves into four major committees, namely: energy.

News-Daily Photo-Sam Hodges

REP. GINGRICH SPEAKS TO CLASS He Went Back To Classroom

national defense, tax structure, and Petersen said the national defense

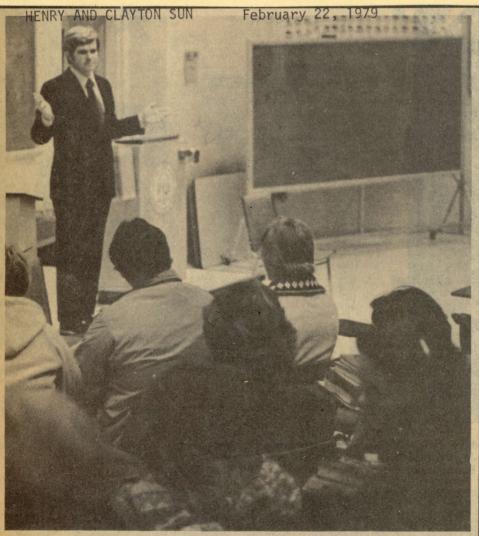

committee has been studying the draft and whether or not to reinstate it. "Most of the bills coming out of that have favored, interestingly enough, some sort of universal military or civilian service.'

On Tuesday Congressman Newt Gingrich, a former professor, spoke to Petersen's class, along with other classes on the importance Congressional committees and how they work.

The class is not just limited to members of Congress. Petersen has some of the students serving as lobbyists and White House staffers to show how influence can be exerted on the lawmakers. And two students function as the press, putting out a newspaper each week that reports on legislative activity in the class.

Petersen serves as Speaker of the House, but insists that his only function is to preside over class debate.

Asked to evaluate the simulation, Petersen said he was "really pleased." "Research has shown that students learn as much in a simulation as they would in a traditional setting," he said. "The major plus is that they come out of there with a much more positive experience of what it is really like."

#### Gingrich Speaks at CJC

Sixth District Congressman Newt Gingrich recently spoke to Professor Mike Peterson's political science class at Clayton Junior College, Gingrich, who represents about 500,000 constituents, told the group it's impossible for an individual representative to read all 15,000 bills before the session, so he has to depend on advisors to help him in decision-making. He added he was pleased with his recent appointment to the aviation subcommittee since so many people in the district are concerned with matters at Hartsfield International Airport. [SUNphoto by Randy Cox].

Twenty years ago the word "yoga" conjured up images of silent, dark-skinned Indian men bending themselves into postures more appropriate to a pretzel. The few Americans who knew anything about the form of exercise kept it to themselves for fear of acquiring the reputation of "weird," a severe condemnation in the 1950's.

But no longer. Along with several other aspects of Eastern culture, yoga has gained mass acceptance in the United States, even to the point of being taught as a course in colleges, such as Clayton Junior College.

"There has been a tremendous increase in awareness of yoga over the past 10 years," said Suzanne LaMonthe, instructor of a non-credit class in yoga at CJC. "My classes are always filled, and if you don't call in time you can't get in.'

Interestingly, Mrs. LaMonthe attributes part of yoga's new popularity to the relative lack of trouble it is, compared to other "A lot of people like yoga because it has a more tranquil effect

than some exercises. You can do it almost anywhere, and it

doesn't require getting all sweaty or getting your hair messed Though a yoga program is shown regularly on television, and though any bookstore will carry a shelf full of books on the subject, many people still have only a vague notion of exactly

what yoga is. That is understandable since, as Mrs. LaMonthe explains, there is more than one kind of yoga. 'Hatha yoga, which is what we practice here, emphasizes the physical aspect. Raja yoga deals with the mental side.'

Regardless of where a yoga student starts, Mrs. La Monthe said the serious study of the discipline has five basic aims, namely: fitness, purity of the body, elimination of disease, longevity, and spiritual and moral elevation. Lofty goals, admittedly. According to Mrs. La Monthe, the key

is in learning "to control your body through your mind." She begins by having her students get into a series of postures, some of them easy, some not. Most postures can be achieved to some degree on the first try, but all allow for the greater

flexibility that comes with daily practice Flexibility is one aspect of fitness, and perhaps the one most people associate with yoga. Another is deep breathing, something Mrs. LaMonthe believes is crucial in exercising

"The breathing in yoga is extremely important. Most of the postures are accompanied by some form of yoga breathing." A number of the positions in which yoga breathing takes place, and some where it does not, are familiar to the uninitiated through the media stereotype of what yoga looks like. Yes, an important posture for yoga is the headstand, which yoga experts claim can improve the complexion, relieve pressure from the vital organs, maintain alertness of the mind and improve

Cat pose, bow, triangle, cobra, plow, and butterfly - these are other terms that come to have a special meaning for those

The plow, for instance, is an extension of another familiar yoga position, the shoulder stand. One simply brings the legs from the vertical position all the way down behind the head in a slow, rhythmic motion. While in the posture, the student is instructed to breathe deeply for three to five minutes.

Advocates of the plow list as its benefits: strengthens back, abdomen and neck; reduces weight in legs, thighs, and abdomen; and firms skin in several areas.

Learning to relax is a definite goal of all yoga study and one that Mrs. LaMonthe dwells on in her classes at CJC. For approximately the last 15 minutes of each session she talks her students through a mental and physical ritual designed exclusively for relaxation.

Mrs. LaMonthe admits that businessmen are the ones who seem the least interested in yoga, even though they are the ones that could benefit most from its emphasis on relaxing.

"What they don't realize is that yoga can be practiced most anytime at most any location. If they just have a few minutes during the day at their office, they can still use it for performing certain yoga exercises which will help them to relax.'

She once tried to form a yoga class strictly for businessmen, but says there weren't enough men signed up to warrant the course. Is there a feminine stigma attached to the study of

"I'm beginning to think so," she said. "Though the men who

Mrs. LaMonthe began studying 10 years ago when she met at Indian man who thought yoga might be something she would be interested in. His hunch proved correct, and she has worked consistently at it ever since.

Press her for a reason for her devotion and you would probably get the standard answer from a yoga devotee, that it makes you live better in several different ways. Something she said in a less contrived moment might, however, have given more insight into the real reason.

"They say you can stay young as long as your spine is

That, for most people, is reason enough for yoga.

# CJC recital held by SMAMTA

The South Metro Atlanta Music Teachers Association recently held a Sunday afternoon recital at Clayton Junior College. The purpose of the recital was to give

each member of the association a chance to place several of their students in this unique performance situation. Three recitals of this type are scheduled each year for teachers and students. Jeanne Noblett, a College Park music teacher had four students in the recital, while Becky Bradley of Riverdale and Rosalyn Camp of College

King, executive vicepresident of the Clayton County Federal Savings and Loan Association. The Foundation currently has 45 scholarship recipients enrolled in credit programs at Clayton Junior College. Clayton Federal recently made a contribution of \$342 to cover a year's cost of tuition and fees for one of the students in the program.

**Dental** exams

Getting a full dental examination, and seemingly liking it, are children from the Clayton County Community Services Authority's (CSA) Head Start Program. Thirty-two children visited the Clayton Junior College Dental Hygiene Clinic last week to have their teeth checked and treated. Hygienist Mrs. Susan Reese (left photo) plays with Brian Wade for a moment, while Dental Assistant Teresa Arnold and little Teresa Arnold get down to business. Head Start is for four and five year olds of low income families,

offering the pre-schoolers medical and dental screenings and treatment as part of a comprehensive program to prepare the children for later grade school experiences. Head Start is a school-year program with classes at the CSA center on South Avenue in Forest Park. According to Head Start Director Sara Danison, registration for the 1979-80 Head Start school year is now open with a deadline of Feb. 28. Parents of eligible children are urged to call Head Start offices at 363-0575 about signing up their children.

To be eligible for memthe new Clayton club and 11 bership, minimum students have earned requirements are that a charter memberships. The student must have comcharter members are: pleted with distinction at

college preparatory mathematics and be enrolled in the fifth semester. He also must have an overall grade average of at least a "B" in

all of his high school work. The announcement of Clayton Junior Colleges election was made by Dr. Harold V. Huneke, national secretary-treasurer, who is a professor of mathematics at the University of Oklahoma where the national office is located.

Only those schools with excellent mathematics programs can earn membership in the club, since all courses in mathematics and the qualifications of the governors and national abroad

"Membership in Mu Alpha

Theta is the highest honor possible for a high school or junior college student of mathematics," Dr. Huneke said. "Club activities consist of work in areas of mathematics not usually covered in the classroom." Mu Alpha Theta was

founded in 1957 at the University of Oklahoma and has grown to more than 2,000 clubs in 46 states and Canada, Japan, Puerto Rico, the Canal Zone, Iceland, Turkey, Brazil, and

Okinawa. The club is co-sponsored by the Mathematical Association of America and the National Council of Teachers of Mathematics mathematics faculty and and has attracted the students are examined in attention of top mathematics detail by the club's scholars in this country and

# Dental Artists Display Work

Staff Writer

Riverdale Elementary School third graders became known dental artists last week when their work was displayed at Southlake Mall.

In recognition of National Children's Dental Health Week, the South Metro Atlanta Dental Hygienist's Society and the Clayton Junior College Student Chapter of the American Dental Hygienist's Association sponsored a poster contest with Riverdale Elementary third graders participating

About 26 posters were displayed at the Southlake community booth on the lower level of the mall, according to Debbie O'Pry, a third grade teacher at Riverdale Elementary.

Prizes were given for first, second

and third place posters, but all the children participating received an award for their posters and all the posters were displayed.

"Every year in the third and fifth grades we do a complete unit on nutrition and proper care of the teeth," Ms. O'Pry noted. "This is the first year we had a poster contest."

The first prize of \$15 went to third grader Brenda Beaver, second place winner of \$10 is James Farrow and the \$10 third place winner is Ann Shoaff.

Local dental hygienists and student dental hygienists also were on hand during the evenings to give information on dental health care and answer any questions people had, according to Greg Marshall, marketing director for

# March 8, 1979 CJC campus may be site fornewschool

By JAN LITTLE Living Editor

Clayton County may have the only immediately available site for location of a post-secondary vocational school planned for the Henry-Clayton area, according to Ernest Stroud, Clayton school superintendent.

The site for the proposed school would be on the Clayton Junior College campus which would allow a combination of classes in facilities

already offered at Clayton Junior. such as a business office and bookstore, he added.

Although one state legislator had objected to locating the school on a college campus, Stroud said he did not think the location would be much of a

Budget for the planned school is approximately \$12 million and the proposed size is approximately 200,000 square feet. Clayton Chamber of Commerce president Carl Rhodenizer was to have contacted legislators about locating the school at the campus, one board member noted at the school board meeting.

The school is one of four new postsecondary vocational-technical schools planned for north central Georgia during the 1980's.

Funds for the Clayton-Henry school would not be available from the legislature, however, until 1982.

The State Department of Education compiled a master plan program for vocational-technical schools. Of the 35 occupations projected to have increased employment, 26 are vocational-technical related.

In addition, the plan indicated the greatest population growth would be in the metro Atlanta area and a need is projected for facilities for 10,000 additional students in the area by

# New guidelines provide college aid

Passage of new federal guidelines will enable most families with college-age students to qualify for financial assistance while attending credit classes at Clayton Junior College this fall, according to Robert C. Bolander, Dean of Students.

Assistance through the Basic Education Opportunity Grant (BEOG) program has been modified to include most middle-income families, Dean Bolander pointed out. "Passage of the Middle Income Assistance Act makes financial aid available for most families who live in the south metropolitan Atlanta area," he said.

"Currently, we have about 300 students receiving various

forms of financial assistance," he continued. "If the Middle Income Assistance Act is fully funded, we could have as many as 1,500 to 2,000 students receiving financial aid."

With some exceptions, virtually all students coming from homes with family incomes of \$25,000 per year or less will be eligible for assistance in the form of a Basic Grant. Since the median household income for Clayton County families is \$18,911, according to a recent report, most families will

# Schools, offices close; sun brings slow thaw

**By SAM HODGES** And SCOTT HAMPLE

Staff Writers Clayton County schools and offices and many area businesses were closed today following an unexpectedly treacherous sleet storm that began Saturday night and continued well into the day on Sunday.

Accumulations of up to four inches of frozen precipitation turned area roads into slabs of ice and brought the county to a virtual standstill. Temperatures climbed into the 40s today, however, and the sun shone brightly on the vast blanket of white as a slow thaw began.

Police reported no major traffic accidents over the weekend, though there were a number of stranded cars and "fender benders."

"The people of Clayton County have been really cooperative in staying off the roads and not making the situation any worse than it is," said Sgt. Clint Armstrong, spokesman for Clayton County police. Armstrong said police spent much of their time Sunday transporting doctors

and nurses from their homes to Clayton General Hospital and to other places where their services were needed.

As of Monday morning, Armstrong indicated that roads in Clayton County were "still extremely bad" and that traveling safely required either snow

This afternoons higher temperatures were expected to melt most of the sleet and snow, but driving still could be dangerous, according to a spokesman for the Georgia State Patrol. The spokesman said that the ice would melt unevenly, and that drivers might be fooled into thinking the roads were clear when

Armstrong said a number of flat top roofs and garages fell in Clayton County from the weight of several inches of sleet, but that no injuries had been reported from those incidents. Clayton County School Superintendent Ernest Stroud was unable to say Mon-

day morning whether or not schools would be open on Tuesday "I wish we could make a decision this early," he said. "We might make a

decision late tonight or around 5 or 6 a.m. (Tuesday). It depends on how much ice is on the streets. Stroud said he would call the radio stations as soon as he decided and sug-

gested that students listen to their radios before leaving for school Tuesday. "It's not just the buses we have to worry about but the parents who bring their children to school," Stroud said. He added that he was "hoping" to have the schools open Tuesday. Clayton Junior College has closed all classes today including evening classes.

While no power outages were reported in the Clayton County area, several counties throughout the state were without electrical service, according to a spokesman for Georgia Power. Hartsfield International Airport operated with just one runway during most of Sunday, and all air traffic stopped for about two hours Sunday afternoon.

Clayton Junior College plans to be open for classes tomorrow.

Numerous flights were cancelled, held up, or re-routed because of the weather. Across the state, ice was presenting hazards in equal or worse proportions than what Clayton Countians were facing.

The National Weather Service said the weather would clear today as the cold

Road closings and school suspensions were ordered though the east Tennessee and Carolina mountains, with the wintry blanket of ice and snow stretching far into Georgia. Weathermen said the snow line ebbed southward to Albany, Tifton, Waycross and Brunswick — within 100 miles of the Florida line. No major power outages were reported, but there were some notable inconveniences. A Boy Scout troop of 13 youngsters from Powder Springs, Ga., was trapped in a cave near Cartersville, and Civil Defense volunteers rescued

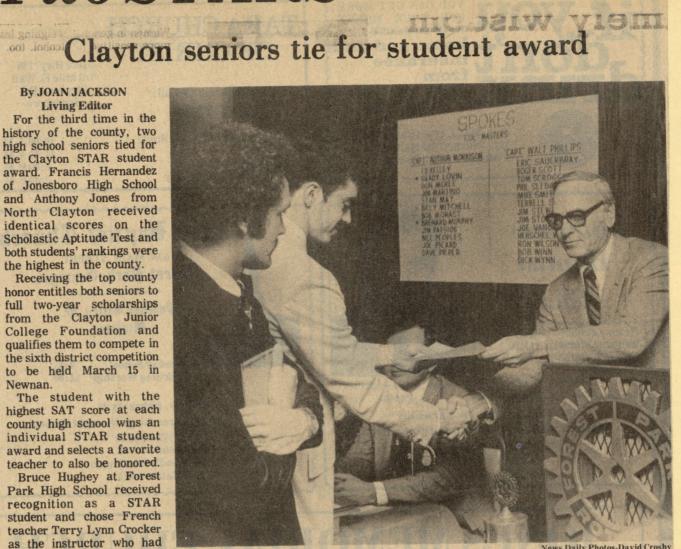

President Carter's portrait, headed for an unveiling in the Georgia Senate next Tuesday was stopped at Greenville, S.C., by icy roads.

State troopers said the 23-year-old niece of the mayor of Savannah was killed Sunday when she lost control of her car on an icy road and ran head-on into another vehicle. Police said Ann Counciham was alone when the accident

Bently Reeves of Woodstock was also killed Sunday when he collided head-on with another car on icy Georgia 3 in Kent.

More than 50 public school systems in Georgia were closed today, and at least 10 colleges did not operate an entire day.

DENTAL HYGIENE STUDENTS AT CLAYTON JUNIOR TEACH CLINIC Patients Learn How To Care For Their Teeth Propery

#### **CJC** offers courses

# State's dental hygienists have ample opportunity

**Living Editor** 

Job opportunities for dental hygienists in the metro Atlanta area are somewhat competitive, but in other parts of the state there are more vacant positions than hygienists to fill them.

In addition, the median salary in the Atlanta area for a full-time hygienist with a dentist in private practice is approximately \$10,000, according to Dr. Leonard Schreiber, dental hygiene professor at Clayton Junior

Salary estimates for hygienists are based on dentists' incomes. As dentists' salaries are almost as much in outlying as in urban areas, hygienists can expect good salaries almost anywhere in the state, he

Training to become a hygienist requires seven consecutive quarters of courses at Clayton

Students receive an Associate in Arts Degree and courses are divided among four areas: general education, including English and humanity courses; chemistry and biology; basic dental sciences, such as dental anatomy and pharmacology; and the clinical application of those areas.

Practical experience comes from field experience in private dentists' offices as observers and assistants, when possible, and a dental clinic operated at Clayton during the week, Schreiber noted.

The clinic offers free services to anyone. Students examine patients, take x-rays, clean teeth, educate patients on dental hygiene and give dental examinations. Children under 12 are treated only on Friday mor-

nings. High school students are treated on Monday

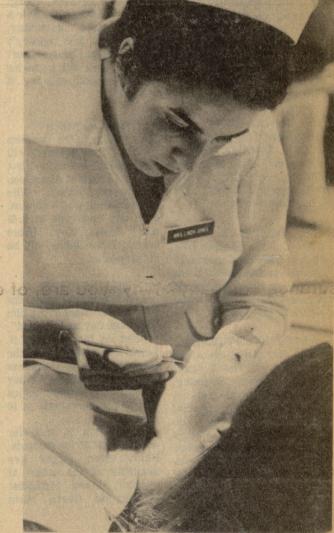

mornings. Adults may make appointments at any time. The clinic is open every morning but Wednesday when it is open in the afternoon. The clinic is equipped with 16 student stations, two xray labs and an x-ray processing room. Class in-

struction includes video-taped presentations, many of which are made at the school Approximately 60 students are in the two year program and they must pass both a national board

exam in addition to the exam for the state they will practice in, Schreiber noted. Although almost all of the students enrolled are female, there is one male in the class. Approximately

one to five percent of the dental hygienists in the country are males, Schreiber said. Also approximately 95 percent of the hygienists are in private practice while two to five percent work in

federal civil service jobs, he added. Faculty for the program at Clayton includes Schreiber, a retired Army career dentist; three fulltime instructors and one part-time. Another part-time

AMONG SERVICES PROVIDED BY HYGIENE STUDENTS: **Cleaning Teeth And Dental Examinations** 

instructor will be added soon.

Schreiber has been with the program since 1972, the second year after it was started at Clayton.

He noted he has helped develop an outstanding program in the Southeast and probably in the United States as a whole.

"The hygienists' performance on national exams is a compliment to the education they have received," he

at the college. Assistance through the Basic Education Opportunity Grant program has been modified to include most middle-income families,

Receive Aid

"Passage of the Middle families with college-age Income Assistance Act makes financial aid available for most families who live in the south metropolitan Atlanta area," he said.

'Currently, we have about 300 students receiving various forms of financial assistance," he added. "If the Middle Income Assistance Act is fully funded. we could have as many as 1,500 to 2,000 students re-

ceiving financial aid." With some exceptions, virtually all students coming from homes with family incomes of \$25,000 per year or less will be eligible for assistance in the form of a basic grant, according to Bolander.

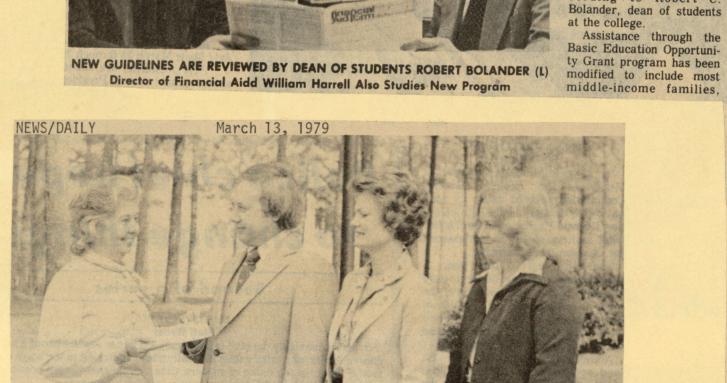

Since the median household income for Clayton families is \$18,911, according to a recent report, most families will qualify for a grant, he said.

"The most important thing at this point is to make sure everyone is aware of the new guidelines," he explained. "Since this is the firt time the federal government has attempted to directly assist middle-income families, it will be difficult for some area residents to realize their children can get government help to finance their college The amount of each grant

is determined by family size, the number of children attending college, the number of employed family members and assets such as savings and home equities, according to Bolander.

All students interested in the program can contact William T. Harrell, director of financial aid at Clayton Junior, at 363-7735.

Applications can also be obtained from high school counselors, or from the Office of the Dean of Students at the college campus.

## Jim Wood Says

## College foundation to hear Miller

Random thoughts with a typewriter handy:

There is nothing to exceed the joy of smelling freshly cut grass. Especially if it's the result of somebody else cutting your lawn.

The Clayton Junior College Foundation, Inc., will hold its annual banquet at the college cafeteria on Tuesday night, April 24, beginning at 7 p.m. Principal speaker is the Hon. Zell Miller, lieutenant-governor of the State of

Tickets are six dollars each and may be secured from members of the foundation.

We happen to have a stock of them and will be happy to make them available to you if you so

The College Foundation has done a fantastic job of focusing public support on our junior college in the small and meaningful ways which help. Like the encouragement of local students to attend the local community college, using funds for scholarships, and making grants to outstanding faculty and staff.

All go toward making a local college a better college. The list of donors is growing steadily and any amount is appreciated.

The South Metro Atlanta Music Teachers Association presented the local audition winners in a winners' recital, Sunday, March 25, at 3 p.m. at Clayton Junior College.

Thirteen students were from the Clayton County area and represented five

The auditions, coordinated by Patricia Breed of Stockbridge, were held at Clayton Junior College on Saturday, March 17. Judges were Dr. Cary Lewis of Georgia State University and Dr. Wayne Gibson of Kennesaw Junior College. Winners, chosen from each grade level, will compete in Macon, Saturday, April 21, at the state auditions.

Cheryl Brown, a voice teacher in Jonesboro, was represented by four vocalists, although only three performed in this recital. Sandra Pate of Forest Park Senior High sang "If Music Be the Food of Love" by Purcell. Dena Williams of Morrow Senior High performed "As Life What is So Sweet" by Diamond. Charlene Cargile, also at the Morrow Senior High, sang "Songs My Mother Taught Me" by Dvorak. All three girls are in the 11th grade.

Betty White of Morrow had one student to perform in piano. Sherri Dobbs, a sixth grader at J.E. Edmonds Elementary, performed "Knight Rupert" by Schumann.

Grace Martin of Jonesboro had two vocalists and one pianist in the Recital. Brent Fortson, in the 7th grade at Morrow Junior High, played "Allegro Agitato, op. 85, no. 3" by Mendelssohn. Cynthia Sigler in the 10th grade at Morrow Senior High, sang "Fiocca La Neve" by

Maria Freeman of Morrow had a fourth grade winner from Brown Elementary. Julie Ballew played "Allegro, from Sonatina" by

Lyra Crapps of Morrow had four students in the recital. Jennifer Spratlin, a seventh grader at Pointe South Junior High, played "Sonatina, op.36, no. 3 (Allegro)" by Clementi. Beth Bowers in the 8th grade at Morrow Junior High played "Sonata in B flat, L.50" by Scarlotti. Robin Phipps also in the 8th grade at Morrow Junior played "The Crab" by Villa-Lobos. Debbie DeLoach, in the 9th grade at Mundys Mill Junior High played "Funeral March, op.85, no. 2" by Mendelssohn to conclude the

The Metro Atlanta Music Teachers Association will present a composition contest winners' recital Saturday, April 28, at 2 p.m. at the First Presbyterian Church of Atlanta on

Peachtree Street. MAMTA has sponsored the contest for members for four years. This year, more than one hundred entries will be

## Sunrise service set at CJC

Living Editor

The eighth annual Easter sunrise service, sponsored by the Clayton Ministerial Conference, is scheduled for Sunday April 15, at 6:08 a.m. on the Clayton Junior College campus behind the administration building.

The interdenominational service will include a performance of the "Hallelujah" chorus from Handel's 'Messiah'' by choir members of various county churches and is sponsored by the Clayton County Ministers Conference.

The Rev. Sanford McDonald of Jonesboro United Methodist Church will conduct the hour service which has been held on the campus for the past eight years. In the event of rain, the service will be held in the college auditorium. The offering taken at the special

service will benefit the Help for Needy program of the Community Services Authority, McDonald said. Music for the service will be provided by the brass

choir from the Clayton community band Choir members are needed for the service, according to Dr. Ed Bridges, minister of music for Morrow United Methodis Church.

Those participating will wear their own church choir robes for the performance. All music will be provided for the one anthem performance, Dr. Bridges said. Music rehearsal will be held Saturday, April 14, at 7 p.m. in room G-101 at Clayton Junior College and will last approximately one hour.

Members of the Kiwanis Club of Forest Park will be incharge of taking up the offering at the Easter ser-

# Funds approved for PE addition at CJC

By SAM HODGES Staff Writer

An addition to the physical education building at Clayton Junior College has been approved and funded at a cost of \$1,466,533. Construction could begin in the next few months.

Originally approved in 1972 by the Board of Regents of the University System of Georgia, the project has awaited funding by the Georgia General Assembly these past seven years. That funding came in the past session when legislators voted a supplemental state appropriation to the University System for 26 building projects, of which the CJC project is

The addition will be connected to the north end of the present physicial education building and will contain two basketball courts and possibly some classrooms said Jerry Atkins, public information director at the

"There will be no stands in the building," Atkins said. "This is not a spectator facility." CJC does not compete in intercollegiate athletics and the addition will not change that. Atkins said the facility will be used

for basketball, volleyball, and other physical education activities. When the Board of Regents first approved the project, in 1972, the cost was estimated at \$988,071. The new cost of \$1,466,533 is an increase of

\$478,462 which is attributable only to inflation, not to any change in the building plans. Atkins said the new cost is divided into \$1,238,000 for construction: \$34,800 for resident engineer inspector; \$88,898 for architectural fees; \$35,000 for loose equipment; and

\$69,835 for a contingency funds which

covers unanticipated costs. "The next phase is to ask for contract bids," Atkins indicated. Following the bids, a construction date will be set and Atkins said the project is certain to be started soon since the funds were appropriated for this year. Architects for the addition are Morris Hall and Peter Norris, of

# Energy crunch? CJC actually saving on bills

An energy saving program at Clayton Junior College allowed the school to save several thousand dollars in utility bills during 1977-78, despite rate

At a time when many institutions, educational and otherwise, are seeing a

greater part of their budget devoted to energy costs, CJC managed to lower consumption of electricity and gas, thereby saving \$6,496.93 on utility costs compared to the past year. The college initiated the energy saving program three years ago when utility costs began their infamous and continuing incline. For obvious

reasons, officials are glad now that they did. "If we hadn't started saving then we would have been in dire straits now," said Robert Koermer, comptroller of the college.

Koermer explained that increasing utility bills would possibly have meant a cutting back in other areas, since the budget remains fixed, regardless of rate increases. Utility costs account for about 4.5 percent of the school

Most of the credit for the programs goes to the CJC plant operation staff,

which took the responsibility for finding and implementing ways to reduce energy consumption, Koermer said.

Reduction of gas consumption may rank as their biggest triumph. Through experimentation and perserverance, the workers cut gas use by almost two thirds from 1974 to 1978, saving thousands of dollars. Electricity consumption has also declined significantly, going from a high

of 3,664,800 kilowatt hours in 1975 to a low of 2,754,000 kilowatt hours last year. Rate increases kept the electric bill only slightly lower than before, despite the marked decline in consumption. Both water consumption and the water bill went up somewhat in 1978 over the previous year, but both figures are lower than in 1974-75, the peak year

for water. In that year the school paid a \$17,043.55 water bill; this past year In making the mechanical adjustments which saved energy, the plant operation staff almost exclusively used components in the current system.

Also, they spent less than \$2,000 for all their expenses. Perhaps the most important change was to fix the cooling and heating systems so that only one would run at a time. Though the engineer designed them to run simultaneously, plant operation staffers were able to make

some minor equipment changes and bring about the improvement, which allows for a substantial energy saving in heating the system's hot water and

The temperature in the CJC buildings had been fixed at 72 degrees, but now varies from 65 to 78 degrees. Officials said the average temperature is now between 70 and 74 degrees.

All water fountain temperatures, some of which were as low as 34 degrees, were raised to 60 degrees. Time clocks were installed to control fresh air units, ventilating fans,

walkway lights and parking lights. Plans are underway to cut back the candle power in the buildings from 100

to 50-60, based on a new federal standard. Also, plant operations managers are studying ways to increase insulation by using different windows and

Besides the saving in money for the college, there seems to be a commitment at all levels to the goal of saving energy. As one plant operations worker put it: "We have come to take energy quite seriously HENRY AND CLAYTON SUN May 17, 1979
CJC's Summer Classes

Slated in Three Sessions

For the first time, summer quarter classes at Clayton Junior College will be divided into three sessions this year, according to Annette B. Satterfield, director of admissions and registrar at the two-year institution.

The regular ten-week session will be offered with classes beginning June 19 and ending August 21. In addition, two five-week sessions will be offered for students who do not want to attend classes the entire summer, or for others who want to double up on course work. Condensed versions of the regular schedule, the first session will begin June 19 and end July 20, and the second session will begin July 25 and end August 24.

During special five-week sessions in past years, the college offered science courses in the ten-hour lab sequence series. This summer, classes in math, science and English will be included.

The deadline for new students to file applications and credentials is May 29, and registration for all classes is

For more information about the summer quarter, call the office of admissions and records at 363-7723.

# Help for small businesses available at CJC's SBDC

By JAN LITTLE Living Editor

Older, more established businesses are beginning to use services and information available at the Small Business Development Center at Clayton Junior College, according to Lee Woodward, SBDC director.

People interested in beginning new businesses comprised most of the work done at the Center when it was begun almost a year ago. In addition, more manufacturing concerns have started using the Center.

Questions from established businessmen are usually on a "problematic basis", for example, a problem with the "cash flow" in the company, Woodward said.

Quite often the problem is symptomatic of a deeper one. As low cash flow may be created by low sales or a too high cost of goods, he added.

Businessmen often invest Pike and Coweta Counties too much money in inventory will also be served, Woodor receivables and do not put enough emphasis on or time into collections of mone owned them, he said.

One of the major causes of

Services at the Center recommended for the areas. include seminars and individual counseling in all areas of small business. restaurant," Woodward Topical areas, such as, said. collections, are offered in the seminars and more detailed Counties are particularly will continue is larg problems in counseling.

Ten programs per quarter are offered on the college campus and programs or speakers are set up on request for business and merchant associations, Woodward said.

His goal for the Center's first year was to be fully operational which it was within the first five months, he noted.

Areas served by the Center includes: Clayton, Henry, Fayette, South Fulton, | South DeKalb, Rockdale and Spaulding Counties. Eventually, Butts,

zoning restrictions. Clayton is a better location for office supply or office machine businesses because of more office buildings in the county.

A definite trend that Woodward said he expect

Beginning with the summer quarter, students attending credit classes at Clayton Junior College will see a slight increase in tuition fees, according to Dr. Harry S. Downs, president of the two-year

institution. "The Georgia Board of Regents raised the tuition of Georgia residents by five percent and fees of non-resident students by 10 percent during their April meeting," Dr. Downs said. As a unit of the University System of Georgia, Clayton Junior's tuition fees are set by the Board of Regents.

Full-time resident students will pay \$112 per quarter for tuition beginning this summer, an increase of \$6 over current

fees. Non-residents who are classified as full-time students will pay \$286 per quarter, an increase of \$22. Students who are taking 12 or more quarter hours are classified as "full-time."

Students taking fewer than 12 quarter credit hours will pay \$9.50 per quarter hour, while non-residents will pay \$24.50 per quarter hour, increases of 50 cents and

\$2.50 respectively.
In addition, all students pay a student services fee of \$8 per quarter.
Thus, the total cost of tuition and fees for

a full-time resident student will increase from \$114 to \$120, while that of a full-time non-resident will increase form \$272 to \$294 per quarter.

"This will be our first tuition increase in over three years," Dr. Downs pointed out. Regents last increased fees in the spring of

Members of the Board of Regents approved the current tuition increase after Georgia lawmakers overestimated by \$4.9 million the amount of money that the University System would receive from student fees during the coming year, in effect, cutting the University System budget by this amount.

The increase should generate about \$3.9 million, leaving System officials with the task of recommending \$1 million in cuts from the budgets of the state's 32 in-

Lt. Gov. Zell Miller reported in a speech before the Clayton Junior College Foundation that the school has "an excellent reputation all over

Miller was the guest speaker at the annual banquet of the foundation, an organization of local citizens committed to raising money for CJC. The nearly full house, which met at the CJC dining hall, also heard from CJC President Harry Downs, Foundation Vice Chairman G. Robert Oliver, and representatives of the CJC faculty and student body.

An ensemble of CJC musicians, including faculty member Doris Holloway, provided entertainment prior to the speeches.

Miller told the audience that CJC "has become an example to other junior colleges who are anxious to better themselves," and that "there is no finer college president or administrator anywhere than Harry Downs.

Commenting on the current operations of the college, and the prospects of a new library and gymnasium by the fall, Miller said "the progress (of CJC) has been dramatic.

CJC, Miller confined the rest of his speech to a favorite subject for him, the American South.

After making his remarks about

"Is there anything left to make the South different from the rest of the country?". he asked.

Miller listed several reasons why he thinks the South has always been different and will continue to reject total assimilation with the rest of American culture. He cited the southerners' religious devotion, tendency to violence, affection for his homeland, and love of words as characteristics which make him

distinctive from other Americans. Since the 1960's, Miller, said, the South has managed to reverse a trend of economichardship to become the fastest growing region in both population and income. This, he stated, is the result of a pro-business climate, a strong work ethic, and the invention of the air-conditioner.

In a brief speech before Miller's appearance,Oliver announced that this year the foundation has awarded 62 scholarships to CJC students and \$6,700 in faculty, staff, and student awards. He said the foundation "anticipates an expanded program of work" next year.

Heart run

Getting into shape, some for the May 12 fun run to benefit the Clayton County Heart Association, is a group of students at Clayton Junior College. The 5,000 meter (3.2 mile) road race will be on the junior college campus, starting and ending in front of the physical education building. Dr. Avery Harvill, (left with cap), and Wayne Hayes, (far right), are Heart Association volunteers coordinating the

race. There's a \$4 entry fee prior to race day, with registration on that Saturday set at \$5. The Rex/Morrow Civitan Club is sponsoring the race. Tee shirts will be presented to the first 250 finishers and trophies will be awarded to the first three finishers in the men's and women's divisions. For additional information call Hayes at 961-7714 or Dr. Harvill at 363-7747.

# Physical Ed Building Addition Approved, CJC

An addition to the physical education building at Clayton Junior College has been approved by the Board of Regents of the University System of Georgia, according to Dr. Harry S. Down, president of the junior college.

"At their April meeting, the Board allocated \$1,466,533 from this year's supplemental appropriation funds for the financing of this project," Dr. Downs said in making the announcement. "We are most pleased in receiving approval of this important addition to our plant facilities.

Plans and specifications for the addition were approved in December of 1972, but the lack of funds for the project, along with a number throughtout the University System, forced the delay. The CJC facility was included on a list of projects to be financed by over \$45.7 million of newly-acquired direct cash capital outlay

Project funds were provided by the 1979 Georgia General Assembly in the form of a supplemental appropriation to the University System for the 1978-79 fiscal year. Construction bids for the

new structure will be requested within the next few weeks, and a contract should be signed before the end of the fiscal year (June Actual construction should get underway this

Current physical

education facilities, constructed at a cost of \$489,862 when the College opened in 1969, include 17,303 square feet of space. Within the building are areas for classroom instruction and physical activities, shower and locker areas for men and women, storage areas, and

faculty office. The new addition will be constructed on the north side of the current structure, and its approximately 25,000 square feet will expand the College's physical education plant to over 42,000 square feet of

New facilities will include a multi-purpose gymnasium, two classrooms, a dance and music studio, restrooms, storage areas,

faculty office space, and a lobby and exhibit area.

The gymnasium will include two full-length basketball courts which will double for indoor badminton, tennis, and volleyball. In addition, an isometric area and practice cages for golf and archery will be included. The total project budget of

over \$1.4 million includes slightly over \$1.2 million for construction costs. almost \$35,000 for a resident engineer, \$88,898 for architect fees, \$35,000 for furniture and equipment, and a general con-tingency fund of almost

Regents increased the original budget of \$988,071 by \$478,462 to cover the revised costs.

# THE CLAYTON NEIGHBOR May 16, 1979 Education:

## Needs Demanding College Expansion

Clayton officials talk daily about the growth of the county. Regularly, we hear about new business, new industry and the increase of population that accompanies such growth.

Of course, following close behind the growth of an area like Clayton County are the needs of the people who choose it as a place to live and a base from which to improve themselves individually.

Among the foremost of these needs and best methods for individuals to improve themselves is convenient access to as high a level of education

With this in mind, we would support a move to provide a higher level of education within Clayton County by expanding Clayton Junior College to a four-year institution.

Clayton Junior College President Dr. Harry S. Downs and District 44 State Sen. Terrell Starr both said that the decision to make Clayton Junior a four-year school will have to come from the Board of Regents of the University System of

According to Downs, Clayton residents showed their support for higher education when Clayton Junior was founded by taxing themselves "to the tune of \$4.9 million.

But he noted that there would be no need for more self-taxation to make Clayton Junior a fouryear institution.

There is "no monetary investment necessary for expansion," Downs said. "All expansion and additions come from state funds and student

Also, Downs indicated that Clayton Junior's 163 acres is ample room for expansion. "I'm ready to pursue it," Starr said. "I am for it and think its time to move on it.'

In addition to the obvious benefit of providing access to a higher education for South Metro residents, Starr said that Clayton Junior, as a four-year school, would provide economic benefits such as added staff and "quality of people it brings into the county."

Clayton needs a four-year college now "for the same reasons we needed a two-year institution 10 years ago, growth and need in the area," Starr

Over the past 10 years, a supportive community and excellent leadership of the local school have combined to produce an excellent junior college in Clayton County.

Now it is time to meet the increased needs of the community with expansion of Clayton Junior to a four-year college.

Mrs. Satterfield said some courses, such as math and computer science, will only be taught during the 10-week sessions because "they don't lend themselves to the shortened sessions." Most other kinds of courses, however, will be taught in both the five and 10-week sessions.

Early registration for summer school will be held next week, and at that time Mrs. Satterfield expects to have an indication as to the popularity of the new of-

# Clayton Junior College will award 300 degrees Saturday

More than 300 students will receive Associate Degrees during annual graduation exercises at Clayton Junior College Saturday morning.

Scheduled outside on the College grounds, the ceremony will be the ninth annual Commencement conducted by the two-year institution near Morrow. Thomas B. Murphy, speaker of Georgia's House of Representatives, will deliver the Commencement Address.

Dr. Harry S. Downs, President, will award degrees after candidates for graduation are presented by Dr. Billy R. Nail, Dean of the College. Dr. Avery Harvill, Professor of Physical Education, will serve as Faculty Marshal during

The Rev. Charles Clyde Worthy, Pastor of The Rock Baptist Church in Rex, will deliver both the invocation and benediction at the service. Members of the Clayton Junior College Band, directed by Bill Gore, will team with Mrs. Jeannine Morrison, organist, during music presentations.

Although students may be graduated at the end of any quarter in which degree requirements are fulfilled, the College conducts only one formal exercise each year. Participation in the ceremony on the part of graduates is

Students will assemble on Friday morning at 9 a.m. in Room B-15 for graduation practice, and should be reassembled by 9:15 a.m. on Saturday, the day of graduation. The ceremony will begin promptly at 10

In the event of rain, graduation exercise will be held in the First Baptist Church of Forest Park, 634 Main Street

# Grad Class is Normal, Say School Counselors

By TRACY THOMPSON

HENRY AND CLAYTON SUN

year's graduating class is absolutely normal. That's one way of summarizing the observations of the counselors, who have coached and prodded and applauded this year's group of seniors at Morrow, Forest Park, Jonesboro and North Clayton High Schools since 1976, when the students were 10th

ABOUT 35 TO 45 per cent of the seniors this year are college-bound, say the counselors, with a slightly lower numberabout 30 per cent planning on entering the working world.

or technical school, nursing school or the armed services. The overwhelming majority—about 95 per cent-will stay in Georgia, at least for the

The rest, they say, are going to vocational

time being, a result in part of the staggering costs of college tuition at private colleges out And so much for women's liberation: the counselors say most girls are still choosing traditional careers such as nursing or

homemaker, although a few girls are express-

ing interest in business administration ma-

jors or the professions.

"I THINK perhaps a few more (girls) are Clayton County parents can relax: senior considering nontraditional careers, like counselors at four local high schools say this engineering," said Freda Johnson, senior counselor at Jonesboro Senior High School. "It's been just a gradual increase, though. There's not really that much of a difference I can see. Of the college-bound students, most are

Thursday, May 31, 1979

choosing schools in the state university system because of their lower tution costs, say the counselors. Clayton Junior College, because of its convenience, attracts a sizeable number of students.

But of the private schools selected by students, Berry College, Emory University and Young Harris College seem to be the most popular, said Wilson Woodard, counselor at Morrow Senior High School.

By far the most popular vocational schools chosen by the students are Atlanta Area Technical School and Griffin Area Vocational Technical School.

IF ANY trends at all in this year's class can be detected, said Don Carey, counselor at North Clayton Senior High, it's that "a few more students are choosing technical school" than did before.

Carey added, "About the same number are going out into the world as we always have "

Its in the working world that sex barriers seem to be breaking down first, Carey added, saying that prospective employers nowadays tell him they don't really care if an employee is male or female, "as long as they can do the

HOW DO the counselors characterize this

vear's class? "About average," was the consensus. Morrow Senior High has 19 seniors graduating this year with either full or partial college scholarships; Forest Park Senior High has 50 seniors who will graduate with honors, having maintained at least a 3.6 grade point average out of a possible 4.0 throughout their high school years, said

FPSH counselor Miriam Worsham. Without exception, the counselors agreed with many teachers' observations that above-average classes seem to come in cy-

"I've noticed that," said Mrs. Johnson. "You'll have several yeras of just average classes and then one real good one. I don't know what the reason for it is.'

"IT SEEMS to come in spurts," agreed Mrs. Worsham, while Woodard said, "It seems to be that way-something unexplainable.

This year's senior class doesn't seem to be one of those with an unusually high number of superior students, say the counselorsalthough, as always, superior students are to be found in every class.
Said Mrs. Johnson, "On the whole, I'd say

it was a pretty good class."

A variety of non-credit on courses are available to 6 Henry County residents - through Clayton Junior Cole lege (CJC) in Morrow.

Mary Batten obtained a scholarship from the Trust Company Bank for her involvment in the Junior Achievement Program, Woodward noted.

Woodward added that Terry Brock received a foundation talent which is a two-year full-paid tuition, from Clayton Junior Col-

Paul Hamaty will go to Georgia State University on an honor's program scholarship and Vicki Sanders will attend Tift College on a music scholarship.

Other Morrow seniors receiving scholarships are Kate Smith, who obtained a basketball scholarship from Chattanooga State University, Laurie Steele, who won an academic scholarship to Berry College, Rob Stone, winner of a region scholarship to Clayton Junior College and Randy Webb, who will attend Georgia Institute of Technology on an International Brotherhood of Teamsters Scholarship.

North Clayton Senior High School senior Cindy Grose has received a \$2,300 music scholarship from

S. Truett Cathy (L) president of Chick-fil-A, Inc., presents G. organization to contribution more than \$5,000.

#### CJC to Graduate over 300

More than 300 students will receive Associate Degrees during annual graduation exercises at Clayton Junior College Saturday morning (June

Scheduled outside on the College grounds, the ceremony will be the ninth annual Commencement conducted by the two-year institution near Morrow. Thomas B. Murphy, Speaker of Georgia's House of Representatives, will deliver the mencement Address.

Dr. Harry S. Downs, President, will award degrees after candidates for graduation are presented by Dr. Billy R. Nail, Dean of the College. Dr. Avery Harvili, Professor of Physical Education, will serve as Faculty Marshall during

the ceremony.
The Rev. Charles Clyde Worthy, Pastor of The Rock Baptist Church in Rex, will deliver both the invocation and benediction at the service. Members of the Clayton Junior College Band, directed by Bill Gore, will team with Mrs. Jeannine Morrison, organist, during music presentations.

Although students may be graduated at the end of any quarter in which degree requirements are fulfilled, the College conducts only one formal exercise each year. Participation in the ceremony on the part of graduates is voluntary.

Students will assemble on Friday morning at 9 a.m. in Room B-15 for graduation practice, and should be reassembled by 9:15 a.m. on Saturday, the day of graduation. The ceremony will begin promptly at 10 o'clock. In the event of rain, graduation exercises will be held in the First **Baptist Church of Forest** Park, 634 Main Street.

#### Scholarships Funded

Dr. Ernest A. Dunbar, Jr. [right], a member of the Board of Trustees of the Clayton Junior College Foundation, Inc., accepts a check from Everett Bowlden, president of the Forest Park Kiwanis Club. The check, in the amount of \$692, will fund two one-year scholarships sponsored by the foundation. The award represents a portion of the total scholarship program sponsored by the Kiwanis Club this year.

Valentine, Union City. Others are Donna L. Warr, College Park; Joyce H. Whittelsey, College Park; Bernadine V. Williams, East Point; Rhonda E. Wright, East Point and Charles Wrinkle, College Park.

#### Superior student

Ms. Alpha McClellan, center, caught the attention of teachers and students of the adult education class at Jonesboro Senior High School by making the highest score ever on the GED (Georgia Equivalency Diploma) exams given at Clayton Junior College. The 354 out of a possible 378 is approximately a 98 percentile, says Dr. Sam Den-

nard, director of the Adult Education Program for the Clayton County Board of Education. Congratulating Ms. McCellan on her test results are her teachers, Thomas Collins, left, and Mrs. Barbara Hendrix. Ms. McCellan plans to enter CJC in the fall to pursue as associate of arts degree, specializing in secretarial studies.

division of business and associate professor of business at Clayton Junior

College. Surviving are the widow Jane Loye; one son, Jack Loye, an officer in the U.S. Navy; two daughters, Cathy, a senior at Mississippi University for Women, and Tami, a senior at North Clayton Senior High School. No local services are

### Naoma Price Retires at CJC After 28 Years in Profession

Naoma Price, a member of the Clayton Junior College faculty since June of 1971, has reached retirement age with the University System of Georgia, but she doesn't plan to give up the teaching

Mrs. Price, who has been a teacher for over 28 years, plans to do some traveling in the months ahead, but most of her time will still be devoted to teaching. She plans to do consultant work for paraprofessional program teacher assistants throughout the state.

A native of Oklahoma, Mrs. Price designed and implemented the state's first program paraprofessional teacher assistants. One of 14 twoyear "career programs" at Clayton Junior College, the Teacher Assistants Program was designed to prepare graduates to become licensed paraprofessional teachers

HAVING SPENT the last seven years of her teaching career within the University System, Mrs. Price served on the executive committee of the University System's academic committee on teacher education. In County school system.

Naoma Price

#### INTENDS TO REMAIN IN EDUCATION, HOWEVER

### Chapter In Naoma Price's Teaching Career Closes

BY CINDY GLOZIER

The classroom has been a way of life for Stockbridge resident Naoma Price since she began her career teaching elementary students 28 years

This month, Mrs. Price, a member of the Clayton Junior College faculty since 1971, reached the University System of Georgia manditory retirement age of 67 and left the classroom as a teacher. She says she is not leaving the educational field, however. She plans to do consultant work for paraprofessional teacher assistants throughout the state, a program she was the first to develop in

Speaking of her retirement, the Oklahoma native says she would have enjoyed teaching full time for at least another year because Governor George Busbee has approved state funding for the paraprofessional project this year.

The Teacher Assistants Program, as the project is called, is designed to prepare graduates of a two-year college program to become licensed paraprofessional teachers in Georgia public

"I would have liked to have been able to see my plan fully developed," states Mrs. Price. "But I'm still going to be a consultant for the college and help with the paraprofessional programs in Franklin and Hart Counties."

Having spent the last seven years of her teaching career within the University System, Mrs. Price is widely known throughout Georgia. She served on the executive committee of the University System's "academic committee on teacher education" and on an advisory committee for the Special Education Department in the Fulton County School

She has taught students from first grade age to those on the graduate level.

Asked if she prefers teaching any one age group

over another, Mrs. Price says she has enjoyed all the people she has had as students.

One of the most memorable times in her teaching career came when she taught army college students at Fort Leonard Wood in Missouri during the Bay of Pigs incident in April, 1961.

"The students were on call and some of them had their equipment outside in their cars waiting for them in case they were called out of class," she

Mrs. Price earned her undergraduate degree at the University of Oklahoma and holds a Master of Science degree in Elementary Education from the University of Missouri. She also has completed advanced study at Peabody College in Nashville, Tennessee and at the University of Georgia in

By special invitation, she attended three mental retardation seminars abroad, sponsored by the New York College of Medicine. She studied at the Pasteur Institute in France, the University of Seville in Spain, and the Royal College of Medicine

Mrs. Price taught in elementary and secondary schools in Independence and Springfield, Missouri, and at Drury College and Springfield Business College before moving to Georgia. She served as a teacher of special education at the Intense Learning Center in Brunswick, Georgia and as instructor at Brunswick Junior College.

Immediately prior to joining the faculty at Clayton Junior, she was assistant director of the Regional Program for Handicapped Children and Language Development Coordinator for the ninth district Education Service Center located in Cleveland, Georgia.

A member of the Council for Exceptional Children, and of the Reorganized Church of Latter Day Saints in Tucker, Mrs. Price has two daughters, seven grandchildren and two great grandchildren.

One daughter, Mrs. Kay Johnson, is director of medical records at a hospital in Toldeo, Ohio, and the other, Mrs. Joan Cook, is a housewife in Round Rock, Texas.

In addition to her work in the educational field, Mrs. Price says she plans to spend part of her retirement traveling to England and various parts of the United States.

### Family Violence Discussed

Staff Writer

Family violence is an ever-growing problem in this and other communities, and act affectionate. so the Clayton County Citizens Advisory Committee and Mental Health Center are trying to help. Recently, the two or-

in a series of public information programs. The topic was family violence and what can be done about it.

The panel consisted of Sgt. Clint Armstrong of the Clayton County Police Department; Richard Pecchin, an attorney; Dr. Marty Dybicz, a clinical psychologist with the Clayton Mental Health Center; Dr. Barbara Mauger, a clinical psychologist with the Atlanta Counseling Center; and Sandy Hamilton, director of the Council On Battered

Dr. David Morgan, director of the counseling center at Clayton Junior College, acted as narrator.

Ms. Hamilton, who claims to be a victim of wife beating and a perpetrator of child abuse, has worked closely with battered women, after receiving counseling herself, she says.

"I thought that as a woman and wife it was my duty to make the marriage work," Ms. Hamilton said. "I couldn't leave until I realized I could not be responsible for his actions, only

She said her situation was one she could leave.

"A lot of women stay in horrible situations because they feel they have no other option," she added.

"Persons who are victimized often perceive the other person as really car-

#### September 21, 1978 NEWS/DAILY **CJC** announces new appointees

Two new appointments in the staff of Clayton Junior College have been announced in separate releases by CJC President Dr. Harry S. Downs and Dean Dr. Billy

Dr. Downs disclosed that Robert H. Koermer, Bainbridge Junior College comptroller for the past five years, will become the chief business officer at the local institution beginning Oct. 1. His appointment to that position was approved at the Sept. 13 meeting of the University System's Board of Regents.

Dr. Nail's announcement pertains to the promotion of Dr. Harvey H. Jackson, a five-year member of the CJC history faculty, to chairman of the division of social sciences. His appointment was also approved by the Board of Regents.

Koermer, a native of Orange, N.J., earned a bachelor of science degree in business administration from Fairleigh Dickinson University. He attained his degree in master's management from Georgia State University in 1970. He was named comptroller and assistant professor of business administration at Bainbridge Junior College in

Dr. Jackson joined CJC as an assistant professor of history in 1973, and was promoted to the rank of associate professor in 1977. He is a native of Junction City, Kan.

He earned an associate's degree from Marion Institute in 1963, a bachelor's degree from Birmingham Southern in 1965, and attained a master's degree from the University of Alabama the following year. He was awarded the doctor of philosophy degree in U.S. history from the University

of Georgia in 1973.

As CJC Comptroller,
Koermer will be responsible for budget development and management, physical facilities, purchasing, classified personnel, inventory, payroll, accounting, and business services for members of the faculty, staff and student many times after a husband hits a wife, he'll turn to her

Ms. Mauger, who approaches counseling from a Christian philosophy, remarked, "We all have the potential of being violent beganizations held their fourth cause we're human."

> One of the main reasons for family violence is a lack of forgiveness, she said. "If

ing," Dybicz commented. in a family situation there is "The reason for that is that deep hurt, then only the power of God can help reach that forgiveness.'

Wednesday, August 9, 1978

Although the police are often called in on domestic situations, Armstrong said, "We go in and settle the situation usually spending no more than 15 minutes.

'We don't have the experience or time to deal with the counseling needs," he

CJC PROFESSOR NAMED TO "REACT" BOARD Mike McCloy Was One Of Three New Members Chosen

'10-4'

#### CJC instructor appointed to international CB board

By SAM HODGES Staff Writer

Working with Citizens Band radio has emerged as a major hobby in the late 1970's. Stores devoted to selling CB equipment, a "top 40" song that narrates a CB story and a new movie based on that song are all evidence of how widespread the activity is.

Out of this enthusiasm have come several CB organizations, including REACT (Radio Emergency Associated Citizens Teams), an international public service group of CB'ers whose purpose is to provide emergency communications by monitoring Channel 9, the emergency frequency. Mike McCloy, an instructor of criminal justice at Clayton Junior College,

has been named to the international board of directors for REACT. "We are an extra set of eyes and ears," McCloy said of REACT. "If I'm at home monitoring and there's an accident I will try to facilitate response by getting on the CB and, hopefully, the emergency medical service will arrive sooner.

Another service REACT provides is in working with special events for charity, such as the March of Dimes and the Walk For Mankind. "In the case of the Walk For Mankind, we would have a member at different checkpoints ready to relay back a message if someone needed medical assistance,"

REACT members are formed into teams based on geographic location. McCloy is a member of the Capitol City REACT, one of 1850 teams in the United States and Canada.

His election to the board of directors follows a stint as president of the Georgia state REACT council. It was his service there that prompted the full council and several Georgia teams to nominate him for a spot on the board of directors.

McCloy was one of 68 nominated for the honor and one of just six chosen for a final interview with existing board members. Three of those six were chosen for a final interview with existing board members. Three of those six were chosen to serve a one year term on the board.

"Previously the board has been made up of just representatives from big operations such as General Motors, the Red Cross, and the Federal Communications Commission. The three new members are all from the field and this should help the board in understanding the needs of the average team and team member.

The board of directors sets policies and procedures for the approximately 49,000 members of REACT. McCloy's administrative duties have left him little time for listening to his CB. "Right now I'm not doing a great deal of monitoring, maybe 20-30 hours

college and working for my doctoral degree at Georgia State."

POSING IN FRONT OF SHAPARD'S GRIFFIN HEADQUARTERS James Jernigan (L), Mike Petersen Are Staffers There.

### The campaign CJC student, teacher

guide Shapard effort

For Mike Petersen and James Jernigan, this summer has been a succession of quickly-gulped meals, strategy sessions, precinct analyses and organization of volunteers. The two are workers in a political campaign. Both Petersen and Jernigan found their way from Clayton Junior College to the Virginia Shapard campaign at the end of last school year and both plan to see the enterprise through until the voters make a decision in November. As Jernigan says, "Working in a political campaign is addictive. There will definitely be a letdown when it's all over.'

As campaign coordinator for Shapard, who is running for the U.S. House of Representatives, Petersen is responsible for planning strategy, accepting speaking engagements for the candidate and assigning tasks for volunteers. Jernigan, who is a campaign staffer, has performed a variety of necessary

#### Tomorrow: the Gingrich side

tasks, including taking pictures for brochures, hammering up signs, driving Shapard to speaking engagements, and passing out leaflets between shifts as factories. Both Petersen and Jernigan get paid for their work. Petersen's interest in politics is both ideological and professional, since his

main work is teaching political science at Clayton Junior College. "I've been involved in politics as long as I can remember, and now it is a

professional concern of mine because I am a political scientist. Petersen has worked on a number of political campaigns over the past few years and the practice is something he recommends for his students.

"I always urge my students to get involved with a campaign because it gives them a chance to view politics from the inside. Also, as an added benefit, working in a campaign really expands your friendships since you work very intensely with a number of people for several months.

It was taking a class with Petersen that persuaded Jernigan to get involved with the campaign, though he has also had an interest in politics over the years. As president of the student body at Clayton Junior, Jernigan had the desire to "see what a real campaign is like.

The pace of this campaign has impressed Jernigan and he cites many incidents in which there will be a speaking engagement fairly late one night and then a factory shift to meet at 6:30 the next morning. Despite the hours, you have to maintain a high level of enthusiasm," he says.

Neither worker expressed any desire to accompany Shapard to Washington, D.C., should she win the election. "My real love is teaching, and this experience will help me do a better job

of that," Petersen says. Jernigan claims to have "just wanted to see what its like from the inside.

It seems long at times, all this campaigning, but I know it will be over all too

### School has 86 full-time instructors

### CJC appoints new faculty members

have been named to full-time teaching faculty positions at Clayton Junior College, according to Dr. Billy R.

Nail, Dean of the College. The new members joined 73 faculty returnees when Fall Quarter classes opened on September 27, giving the two-year institution near Morrow 86 full-time instructors.

Joining the CJC faculty

were: Gary B. Cohen

Temporary Instructor of English; Jan F. Hartel, Temporary Instructor of Nursing; Katherine G. Johnston. Instructor of Mathematics; Dr. June M. Legge, Assistant Professor of Foreign Language; Joe M. Instructor of Mathematics; Martha S. Peace. Instructor of Nursing; Wade L. Pepper, Jr., Temporary Instructor of Biology; Lois W. Powell, Instructor of Dental Hygiene; Dr. Madeleine D. Physical Education Building from 7 p.m. until 9 p.m. The clinic is free, and interested persons can obtain more information by contacting the local office of the Cancer Society at 478-3144.

BY DR. AVERY HARVILL **CJC Physical Education Professor** GET AEROBIC CAPACITY-FREQUENCY, INTENSITY, DURATION

Aerobic capacity can be defined as the ability of the cardiorespiratory systems to supply oxygen to the individual cells at a rate sufficient to meet the demand of that cell. At this level, there is no build-up of waste products and physical activity can continue for an extended period of time.

In order to develop and maintain this high level of cardiorespiratory efficiency at least three factors must be taken into account--frequency, intensity, and duration. Encompassing these three factors are the number of calories utilized and energy expended in the activity.

In light of the relationship of aerobic capacity to energy expenditure, it is important to select those activities that place significant stress on the cardiorespiratory systems and have relatively high calory expenditure. Activities such as jogging, bicycling, swimming, and some game type activities are preferred over relatively low energy expenditure activities such as golf, bowling, archery, and

These low energy expenditure activities do not place sufficient stress on the cardiorespiratory systems to produce

improvement in function of cardiorespiratory system. The decision as to the activity to select should be based on interest, availability, cost, and environmental conditions. It is also permissible to select a variety of activities. It is important to select activities that you will participate in throughout the year since aerobic capacity gained with be

lost if activity is stopped. Exercise should be performed on a regular basis. Conditioning every other day is most frequently recommended. Less than three days a week produces minimal improvement in the cardiorespiratory endurance. The time between sessions must be long enough for full

recovery from the previous workout. In addition to performing activities on a regular basis, it is important to place the appropriate amount of stress on the body to result in improvement but not enough to overtax the

In cardiorespiratory exercises, the widely used method of determining stress is the heart rate. Most authorities agree that for improvement to occur, the individual must condition himself so that the heart rate will rise to 60 percent of his maximum heart rate.

Without the use of stress test, an individual can determine his maximum heart rate by using the figure 220 as a maximum heart rate and subtracting his age from that figure. The heart rate could vary plus or minus 10 beats per minute using this formula.

(In determining resting heart rate, it is best to count the heart rate early in the morning just after rising while in a comfortable quiet sitting position, and before eating.)

For example, a man of 43 would have a maximum heart rate of 187-10 (220 minus 43) Assuming a resting heart rate of 72, this person would need to exercise so that his heart rate would increase to 141 beats per minute: + - 10 in order to achieve a training effect.

Training at this level allows an individual to continue the activity for an extended period of time. If the percentage of maximum heart rate is increased, the length of time exercise can be continued will, in general, be reduced.

An ideal way to check one's level of intensity is to check the heart rate by palpating the carotid artery at one side of the windpipe for 10 seconds. Immediately after stopping, multiply by six and you will have your heart rate per minute.

If your heart rate is above your 60 percent target rate, your pace is too fast. If your heart rate is below your 60 percent target rate, your pace is too slow. It is always wise to be aware of what your body is telling you as you run, and immediately after. Recovery should be prompt and a sense of well-being should be present.

It is also wise to maintain a consistent pace throughout the jog and avoid the "dash for the wire" as you complete your run. This last minute burst of speed tends to give you a false heart rate calculation and may overtax a weak vascular or muscular system. Also, there is no additional benefit to the conditioning process by such a burst of speed

The last element in the conditioning triad is duration. It is obvious from the preceding that if one pushes the heart rate to near maximum, the length of the workout can be greatly reduced. It must be noted, however, that this emphasis on speed offers several difficulties:

1. It is extremely dangerous for someone who may have

heart disease. 2. It may send the heart into arrhythmia, that is, an

irregular beat. 3. It places greater stress on joints, ligaments, and muscles than they are able to withstand without injury.

4. It is unnecessary in the conditioning process. Improvement occurs without maximum effort. It is generally recommended that the average jogger condition for from 20 minutes to one hour. Recent research indicates that one should expend approximately 2,000 calories per week in a conditioning program in order to develop and maintain an optimal level of cardiorespiratory endurance and aid in weight reduction and control.

Bolander Named Clayton Junior College Dean of Students Robert C.

Bolander has been named to fill a one-year unexpired term on the Georgia Heart Association Board of Directors. The Georgia Heart Association is the state's only organization devoted exclusively to the fight against all diseases of the heart and blood vessels.

### Bolander on Heart Fund State Board of Directors

Robert C. "Bo" Bolander of Morrow has been elected to the State Board of Directors of the Georgia Heart Association.

The Dean of Students at Clayton Junior College, Bolander was elected at the September 29 meeting of the state-wide

Bolander served as chairman of the Clayton County Heart Unit for three consecutive years (1975-78), and as Heart Sunday Chairman for the local unit for two years (1974 and 1975). During the past year, he served on the State Heart Fund Committee and was Heart Fund Chairman for the District Four Metro

Presently beginning a two-year term as Chairman of the Clayton County Democratic Party, he also serves as

chairman of the Cultural Affairs Committee for the Clayton County Chamber of

Bolander joined the Clayton Junior College faculty as an Assistant Professor of History and Director of Student Activities in August of 1970. He was appointed Dean of Students in June of the

following year. Currently serving as a member of the Executive Committee for the University System of Georgia's Dean of Students, Bolander holds a Bachelor of Arts degree and a Master of Arts degree in history from the College of William & Mary. Before joining the CJC faculty, he was a graduate teaching assistant in history at the University of Georgia, where he is a candidate for the Doctor of Philosophy

### College plans musical programs

Jeannine Morrison, Assistant dards are musical Professor of Music at Clayton Junior College, has again achieved professional recognition by the Music Teachers National Association (MTNA) as a

teacher of piano. A native of Atlanta, the Decatur pianist was recommended by the Georgia Music Teachers Association on the basis of her ourstanding achievement and high professional standards in the field of music pedagogy.

competence, consistent and continuing in-service training, and successful

teaching experience. Adopted in 1967, the MTNA Certification Plan is a national standard for the evaluation and recognition of qualified independent music teachers. MTNA was founded in 1876 as the first professional music association in the United States, and currently has membership of over 16,500.

The primary goal of the organization, which includes music teachers in studios, conservatories, music schools, private schools, and institutions of higher learning, is to raise the level of musical performance,

Mrs. Morrison, a member publishers issued them of the Clayton Junior College faculty since September of 1972, will accompany Irene Callaway Harrower, soprano, at the opening recital of the Atlanta Music Club Salon Series on Sunday afternoon, October 22, at the Academy of Medicine Auditorium in Atlanta. ### On four-year terms

(EDITOR'S NOTE: Robert H. Welborn is assistant professor of history at Clayton Junior College and a weekly columnist for The News-Daily. His opinions are his own and do not necessarily represent those of the college or this newspaper).

On November 7 the voters of Georgia will have an opportunity to pass judgment on some 124 proposed amendments to the state constitution. While the number will vary from county to county, due to the fact that most of the amendments (88) are local (i.e. applying only to one county or municipality), each voter will still be asked for his opinion on some 36

NEWS/DAILY November 7, 1978
Sex discrimination suit

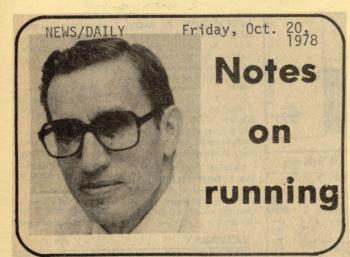

statewide amendments. While this in itself probably constitutes a violation of the Bill of Rights protection against cruel and unusual punishment, I will reserve my opinions on the abomination that presently passes for a state constitution for a later column.

What I would like to present today for your consideration is just one of these earth-shaking thirty-six, Amendment 4 on the ballot. This amendment would lengthen the terms of both senators and representatives in the General Assembly from two years to four years (One can only assume that the content of the amendment and its position as

number four on the ballot constitute another example of our legislators wry sense of humor). This amendment appears to be the only one of the awesome host that has aroused

(included are such notables as the Governor and the Speaker of the House, Mr. Tom Murphy) are contending that the major purpose of the measure is to promote more efficient and effective government by allowing legislators more time to gain and then use experience. Two year terms, they insist, compel members of the General Assembly to spend too much time running for election, rather than attending to legislative business. Also, the present terms necessitate frequent elections and doubling the terms would save both candidates and the state a great deal

of the people? I ask these questions deliberately for I tend to be rather oldment and representation. I still believe, along with the author of the Declaration of Independence, that the primary purpose of government is to "secure these rights;" thus, my initial response to any fundamental change in our system of representation must have always and do now assume that the primary task of any representative must be to protect the rights of those who chose him. Therefore, I am forced to oppose this amendment for I certainly feel that frequent elections are in principle and in practice more

By DR. AVERY HARVILL **CJC Professor of Physical Education** 

WARM-UP & COOL-DOWN THE POTENTIAL for injury exists in almost any exercise program if the proper precautions are not followed. It has been shown in several studies that sudden exertion without proper warm-up can result in electrocardiogram abnormalities, even in young well-trained subjects. These same subjects showed no such abnormalities following a brief warm-up period.

A warm-up does three primary things: 1) It increases the circulatory effort, preparing the circulatory system for the exertion that is to come; 2) it loosens the ligaments around joints, allowing them to stretch as the exertion begins; 3) it tends to increase the degree of stress that a muscle can take before becoming injured: 4) it opens up blood vessels and lung tissue that has been shut down because it was not needed to supply oxygen and blood to body cells.

It might be well to mention several exercises to avoid in warming up: 1) Touch toes, and leg raises if you have had back problems; 2) sit-ups with straight knees; 3) deep squats, and; 4) sudden jerking, bouncing motions.

AFTER A proper warm-up, the muscular system and the cardiorespiratory system will adjust to exercise with less discomfort and with less danger to body systems and joints. A warm-up is only half the answer in Once the major phase of the program is completed, the body must be prepared to return to normal.

One must resist the temptation to sit or lie down at the end of the run. The heart is still beating at a rapid rate, pumping large amounts of blood. Sudden cessation of exercise can result in significant difficulties in the recovery process.

The two most significant difficulties prevented by a proper cool-down are: 1) Blood pooling in the large blood vessels of the body, primarily the legs. The heart is pumping blood under strong pressure through the arteries, but by the time it reaches the veins, the pressure has dropped drastically. If it were not for the system of valves lining the veins and the action of the muscles against the veins, sufficient blood would never reach the heart while a person was standing.

The veins lie adjacent to muscles, and as the muscles contract, they press against the veins, causing the blood to be forced along the vessel. Since the blood can flow only one way due to the valves, it is forced back to the heart to be

A few minutes (5-10) of walking and mild exercise can assist in blood return to the heart and consequently, greater blood flow from the heart. This combination results in a quicker and more complete recovery from exercise and a possible reduction in muscle soreness. NEXT WEEK-SECOND WIND AND STITCH IN THE SIDE

### **Ex-College Guard** Wins Sex Bias Suit

By JOHN TURNER U.S. District Court Judge Newell Edenfield has awarded a former Clayton Junior College security guard more than \$29,000 in back salary and attorney's fees after a jury decided the school discriminated against

The jury decided in favor of 29-year-old Doris L. Berry last May, but the award was not settled until this week because lawyers handling the case could not agree on the

Miss Berry was fired from

her job as a public safety officer at the college in November 1975, three months after she filed sex discrimination charges with the federal Equal Employment Opportunity Commission.

She claimed she was not paid as much as male security officers and that her superiors harassed her after she filed the complaint.

The jury determined that her dismissal was a result of her complaint to the EEOC and that her salary had been influenced by her sex.

Miss Berry also had accused at least one Clayton Junior College official of making improper sexual advances toward her, but Edenfield decided before the trial not to allow testimony on that

Lawyers for the State Board of Regents, who were named as defendants in the suit, argued that Miss Berry's salary in 1975 - \$8,300 was more than the average male security guard at the college was paid.

Lawyers for Miss Berry argued that other security officers performing the same duties were paid more than Miss Berry.

The award includes about \$21,000 for the pay she would have received if she had worked from the time she was fired until the suit was settled.

### Assistant Director Named For Community Services

Staff Writer

Clayton Junior College has a new Assistant Director of Community Services, Kathleen Robichaud.

Mrs. Robichaud has over six years of service in the field of continuing education and public service, according to Jerry Atkins, public information director for the

'She'll be working with Ric Sanchez, director of the office, in establishing and identifying all non-credit educational programs offered by the college," Atkins said. 'She will also help develop and coordinate conferences, seminars, workshops and other short courses aimed at specific community needs.'

Mrs. Robichaud will be working with individuals, community groups, gov-ernmental agencies, professional associa-

tions, businesses and industries to de-termine their needs for educational programs," he noted.

'Another of her responsibilities will be to maintain a close working relationship with the University of Georgia's Center for Continuing Education and utilize resources there to meet local programming needs,"

Since 1975, Mrs. Robichaud has been with the Center for Professional Development and Public Service at Florida State University and prior to that she was at the Center of Continuing Education at the University of Chicago, according to Atkins.

'Mrs. Robichaud, wife of David Robichaud, is also a member of the American Society of Training and Development and the National University Extension Association," Atkins added.

of money.
In examining such arguments I will

resist the inclination to say that the amendment is unabashedly selfserving (I never was very good at resisting inclinations). No, I will attempt to apply sweet reason and keep my opposition on the higher plane of democratic principles. First of all, in examining such such an innovation I am bound to ask whether such a change is necessary and whether it will better serve to protect the rights fashioned about things like governbe to ask how will this change enable effective in insuring that representatives do not forget from whence they cometh.

### Monday, October 23, 1978 — Talented teacher

### CJC prof: versatile, studious, energetic, dedicated

By SAM HODGES Staff Writer

For the group which assembled to hear him sing last Wednesday, he is an excellent tenor. For the students who gather daily to hear him lecture, he is a studious and dedicated professor. And for those who form the Clayton Junior College choir, he is an energetic director who has a flair for staging musical dramas.

Along with his wife Sandra, who is a professor of English at Gordon Junior College, Corse gave a recital of songs by Franz Schubert last week as part of a series of musical performances made available by the college. Sandra Corse accompanied on the piano while he sang the vast range of songs, all in German, which make up the last cycle of songs Schubert

"Giving recitals is not something we go around doing all the time,' Corse said afterwards. "It is a hobby with us, and Sandy says the

a ham and like to perform. I guess there is a certain amount of truth to that."

Though English teachers, both Corses received undergraduate and graduate degrees in music, and both considered making music a career. Larry Corse taught high school choir for six years before deciding to attend graduate school in English.

"In the 1960's everybody needed English teachers and I was able to get a fellowship to North Texas State College," he said. "By the time I finished nobody needed English teachers, and I, like everyone else, applied all over the country for a job."

Fortunately for both parties, Clayton Junior College offered Corse a position and he joined the faculty in 1972. "I had never been to Georgia in my life, but Sandy and I came out here and fell in love with it," he said.

Corse speaks highly of the

DR. LARRY CORSE "In Love" With Georgia

school, calling it "a marvelous place to teach, one in which there is an opportunity to do a number of things. In Corse' case he has taken advantage of the opportunity, and since 1974 he has balanced his professorial duties with the job of directing the college choir. He has expanded the choir from simply a performing unit to a group which

which anyone in the theatre knows is herculean. In the past few years he has put on productions such as "The Kings And I", "The Beggar's Opera" and "Camelot." This year he is directing "Trial By Jury", a comic opera by Gilbert and Sullivan, and "A Funny Thing Happened On The

puts on musical dramas, a task

Way To The Forum", a musical comedy by Stephen Sondheim. Besides his directing activity, Corse has performed six recitals with his wife such as the Schubert

recital they gave last week. He has managed all this music without neglecting his academic work, a feat that may be most amazing of all. As coordinator of English studies at the college, he teaches a full load each term. A specialist in Renaissanceliterature (he did his doctoral work on Spenser's "The Fairie Queene"), he has taught all of the English courses offered in Clayton Junior's

curriculum. Corse admits having tried to apply his musical expertise to his Doris Holloway, associate literary studies. One graduate school project he took on was to analyze the musical influences on "The Fairie Queene", though he says now the idea is probably "harebrained."

The obvious question for someone like Corse is: How do you find the time for everything you do? Corse offers no answer, but instead quietly mentions one more

"In our spare time my wife and I raise Collies. We spend quite a lot of time going to dog shows."

Musicians

### Local groups perform for music educators

Several instrumental and choral groups from junior high and senior high schools in Clayton County will be featured during the state convention for the Georgia Music Educators Educators Association this week. A member of the Clayton Junior

College faculty, Jeannine Morrison, is also scheduled to conduct two workshop sessions at the meeting. The music educators will meet at Jekyll Island Thursday through

Saturday. Local instrumental performances are scheduled for the Riverdale Junior High Jazz Ensemble, the North Clayton Senior High Symphonic Band, the Jonesboro Senior High Band and the G.P. Babb Junior High Band. Choral performances are set for the Babb

Junior High Chorus. The Riverdale Junior High Jazz

Ensemble, under the direction of Bill Molony, will perform for the music educators Frisday morning at the Jekyll Convention Center.

The G.P. Babb Junior High School Symphonic Band will perform Friday afternoon. The program will be directed by William Strohm, director of bands for Babb Junior High. Mrs. Morrison, assistant professor of

music at Clayton Junior College, and Joanne Rogers of Pittsburgh, Pa., will conduct two workshop sessions on 'piano ensemble music," particularly piano duets, at the convention. Students of pre-college age from throughout the state will perform prepared duets during the workshops.

On Friday evening, Mrs. Morrison and Mrs. Rogers will be presented in recital before the convention delegation.

DR. LINDA R. GREER Begins Work At College

### Director 4/4/79 Named

tional Research and Cooperative Education has been named at Clayton Junior College, according to Dr. Billy R. Nail, dean of the college.

Dr. Linda R. Greer, who was an adjunct administrator and instructor of history at DeKalb Community College, assumed her new duties with the local college on March 19.

Dr. Greer's primary responsibilities at Clayton Junior are to develop and implement a plan of cooperative education for students in selected programs offered by the college, and to conduct studies useful in evaluation, planning and management.

#### CJC professor will play viola in viola recital

A member of the Clayton Junior College music faculty will be featured during a viola recital beginning at noon on Wednesday, April

professor of music, will be accompanied by Lyra Crapps on the piano. The program, free and open to the public, will be given in the lecture hall, room G-132. Included in the recital will be selections by Vitali, Handel, Mendelssohn, and

of his interests.

### Robichaud gets position at CJC

a native of Columbus, Ohio, has been named the Assistant Director of Community Services at Clayton Junior College.

Mrs. Robichaud will be working with Ric Sanchez, Director of the Office, in identifying and establishing all non-credit educational programs offered by the College. She will be working with individuals, community groups, governmental agencies, professional associations, businesses, and industries to determine their needs for educational

programs. As the Assistant Director, Mrs. Robichaud will help develop and coordinate conferences, seminars, workshops, and other short courses aimed at specific community needs. She will maintain a close working relationship with the University of Georgia's Center for Continuing Education, and utilize resources there to meet local

programming needs.
Mrs. Robichaud received a bachelor's degree in French literature from Duke University and a master's degree in journalism from Ohio State University. She has over six years of service in the field of continuing education and public service. Since 1975, she has been with the Center for Professional Development and Public Service at Florida State University, and prior to that, she served in the Center for Continuing Education at the University of Chicago.

The wife of David P. Robichaud, an accountant with Arthur Young & Company of Atlanta, the new Assistant Director is a member of the American Society of Training and Development, and the

Kathleen J. K. Robichaud, National University Extension Association.

### Nothing too profound

Nothing too profound-is that good advice? One of our more prolific writers here at Clayton Junior College offered this suggestion when I told him that I was going to write a regular article for this newspaper. He said that his first newspaper article took numerous hours to write, was an effort to say too many earth-shattering things, and really ended as one of his least successful writing attempts.

Forewarned, I begin today writing an article addressed especially to those who read the Wednesday business section

of this newspaper. Besides being concerned about the problem of profundity, I have also been considering the presure of meeting a weekly deadline. This anxiety has been solved with cooperation of

another member of the business faculty-we will alternate weeks. Dr. Doris Cash, our senior faculty member in the business division (according to her, senior is not to be confused with a ranking of ages) will join with me in expressing professional viewpoints and opinions about business, economics, and personal finance.

Our opinions, of course, are ours alone--not those of the college, other faculty, or this newspaper--or anyone else who might desire a measure of protection

We have agreed that our articles will address a variety of topics, timely and otherwise, such as: What does inflation mean to you and me? How do taxes affect our standard of living? Why do interest rates soar and stock prices plummet? How to keep-up with what is happening in the economy--the easy way, when should you consider starting your own small, business? How to borrow money from the bank, what makes a good supervisor? What is good (and bad) about the local

economy?--just to mention a few. The problem of being too profound will probably never surface since "hustling to make a buck" in the marketplace and worrying about the influence of government in turning the economy (or tampering with it) are very pragmatic issues. However, we really can't and don't intend to totally eliminate some ethical and philosophical questions since they are integral to life and not just dragged from the depths of our being for special occasions.

Recognizing that these articles will involve a considerable amount of professional opinion, we encourage and look forward to having you write "Dear John" and Dear Doris"

Give us suggestions for articles, disagree with us, even bestow a compliment when we hit the right chord. Your interest in reading the articles and exchanging ideas will make our day, improve our articles and hopefully provide some worthwhile thoughts for your consideration. Until next Wednesday---Thank you.

Personal opinion Sunday, November 5, 1978

### A modest proposal

By ROBERT H. WELBORN **Assistant Professor of History** Clayton Junior College

A question-Is it possible to have too much representation in government? Answer--Yes, especially when one group supposedly representing the will of the people is able to check another group also claiming to represent the will of the people.

In such a situation the representatives of the people would be acting as a check upon the representatives of the people. Where could such an odd situation occur? Why in Georgia, of course (and in most other states as

A word of explanation is obviously in order. Our bicameral system of representation, brought over here from the English Parliament, was originally based on the idea of each house representing different interests, and thus providing each group with a check on the other. In our

national Constitution, which created a federal system, the Senate originally was not intended to represent the people at all (indeed, our Founding Fathers feared government by the masses), but the states. Two Senators from each state, embodying the idea of state equality, elected by state legislatures (this remained in effect until the 17th Amendment in 1913) were intended to serve as a check on the House of Representatives.

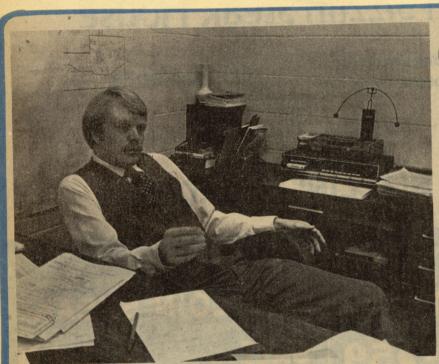

Georgia's own system of government has followed this pattern, except for the first government, established during the Revolutionary War, which had a unicameral legislature. Under Georgia's two-house system, state senators represented the interests of the counties and until the 1960's were elected from single-member districts which were composed of several counties without regard to population. Members of the House were apportioned among the counties roughly on the basis of population.

All of this changed during the 1960's with a series of decisions by the Supreme Court that declared that state legislatures must represent people, not pine trees and cotton fields, and must also represent them in equal blocks of population, regardless of county boundaries. Thus, the state Senate of Georgia now represents the people in 56 singlemember, more of less equal, population districts. The only difference between the House and the Senate now is that a senator represents a bigger · block of population than a Representative, since there are 180 members of the

Now the main point of all this is that the original idea behind the two house system, which was to have two houses because they each represented something different, is gone. The people are now the only thing that can be represented. Yet, we still have two houses, both claiming to represent the people and frequently checking each other. Thus, the will of the people is checking the will of the people.

My modest proposal--simplify government and even save money (our present 236 member legislature is more than twice as large as the 120 representatives and senators of Calififornia, the most populous state) by having one house of about 100 members, elected from singlemember, equal population districts. We would all be fairly, but not doubly, represented, and the representatives of the people could no longer vote against the representatives of the people. Who knows, I might even support four year terms for such an

ROBERT BOLANDER EMPHASIZES ASSOCIATION'S NEED Without Research, You Have No Cures, He Says

### College Dean Has Heart

By DAVID MARTIN

Staff Writer Clayton Junior College Dean of Students Robert C. Bolander is a man with a lot of "heart." At least he has been for the past five years.

the State Board of Directors of the Georgia Heart Association. For the four years prior that he has been active in the local Heart Association chapter, serving as

Bolander was recently named to

chairman of the Clayton County Heart Unit from 1975 through 1978 and as Heart Sunday Chairman for 1974 and 1975. When I got into the community

and got established in my job here at the college I began looking around for something to become involved in," Bolander recalled.

"I had a desire to be committed to a community activity of some kind," he continued. "Fortunately, I became involved in the heart association on the ground floor."

"My next door neighbor was involved in the Clayton heart unit and invited me to their next meeting," he said. "By the end of it, I found I was responsible for coordinating the fund raising drive all over the county on Heart Sunday.

"I won't say that the railroad whistles were blowing as I walked in the door, but..." Bolander smiled.

As coordinator that first year, Bolander and the other members of the heart unit set a very modest goal for the fund drive.

'Before about 1974, the heart association locally wasn't really very organized. They just hadn't done much before then," he said.

The goal set for the fund drive

was doubled, and the Clayton Heart Association was really in business for the first time, Bolander said. 'Last year was our most ever in

funds collected," he added. After the first year's fund drive, Bolander met with the local association board with a new plan, he

"Because of the experience that first time, I got together with the board and suggested we should stress community benefits more in our programs," he said.

The board agreed and the Clayton Heart Association adopted a dual purpose, the fund raising drives for research purposes as always, and something new locally -programs dedicated to teaching people about their hearts and the

diseases it is subject. "What we did that first year was emphasize three areas of education," Bolander said.

The association stressed the heart education of youth in one part, which consisted of a program teaching youngsters to take blood pressure, Bolander said.

The second educational area an attempt to identify persons with high blood pressure who did not know they suffered from it, the dean continued.

The third phase of the program stressed teaching the average layman resuscitation techniques for persons suffering from a heart attack or stroke.

According to Bolander, approximately 25 per cent of the money the local chapter collects goes back

into research

DR. CATHIE AUST BEGINS NEW PROBLEM IN MATH CLASS 'Everyone Is Successful In Our Program,' Education Officials Say

Staff Writer

There are approximately 2,500 adults living in Clayton County that have less than an eighth grade education, according to the 1970 census.

'Those figures are probably even higher now," said Dr Sam Dennard, adult education coordinator for the county. "Some dropped out in the 10th or 11th grade and are working on a fourth grade level.

'We would like them to come back," Dennard said. "Adult Basic Education is designed to teach basic reading, writing and math, life-coping skills to any Georgia citizen 18 years or older who is functioning below a

ninth grade education level. 'The Adult Secondary Education Program is an individualized program for the adult 18 years or older who is functioning at a ninth grade level or above, but who did not graduate," he noted. "We do not take anyone who had graduated from high school."

The program is designed mainly for people to come back to improve their reading, writing and math skills for their own benefit," Dennard remarked. "Everyone is successful in

We use individualized programs, so the students can go at their own rate," he said. "Adult education is for people who can do, but haven't taken the time to.

"There are more women coming back than men," Dennard reported. "Lots of the women dropped out to get married and now come back to get their GED (General Educational Equivalency Diploma).

"Several of the students are really motivated and intelligent and go on after they get their GED," he noted. "We've had this program for 14 years, but have expanded in the past nine years to full-time day classes,'

"Out of that, 189 passed their GED test," he added. "We even have one man who is in his 70s, who comes because he enjoys it.'

### Variety of fine music at CJC

By SAM HODGES Staff Writer

Those Clayton County residents who maintain Atlanta is the only place around where one can hear live classical should listen a little more

Right down the road at Clayton Junior College a full series of varied, interesting musical programs is under way, and it may soon be that Atlantans begin venturing south for a source of fine music.

Under the Lyceum series, Clayton Junior College is offering musical programs each Wednesday during the noon hour, programs which are free and open to the public. Just recently Dr. John Corse and his wife, both professors, gave a voice and piano recital of works by Franz Schubert. Another week a musician came and demonstrated instruments used during the Renaissance. Wednesday a clarinetist will give a recital of classical and jazz works with a lecture in between.

"We have a lot more people wanting to give programs than we have spaces to fill," said Bill Gore, a member of the music faculty at Clayton Junior. "We try to involve as many people as we can and we try to be varied.'

because there are no classes then and because it makes the program available to those who can slip away during a lunch break. He said also that students are often working at night and unable to come back on campus; therefore, noon is a good time for the music

ticipating in and attending the noon series are the music students and teachers at the college. Gore is joined on the faculty by two other full-time professors, Doris Holloway and Jeanine Morrison, and several parttime instructors. Together they give instruction to the approximately 30 music majors studying at Clayton Junior.

"The majority of our audiences consists of music students, though we get quite a bit of attendance from faculty, other students, and the community,' Gore said.

Each member of the full-time music faculty gives one recital per year; advanced sophomores and former students who have "made good" often give recitals also. Beyond those recitals, students participate by joining the Concert Band, which Gore directs, or the orchestra, a one-term prooject formed to accompany the annual musical drama put on at the col-

Each year the college brings one "name" artist or group to the campus. Two years ago renowned pianist Horacio Guttierez gave a solo recital. Last year John Reardon, a baritone singer with the Metropolitan Opera, was the big event. This year it has scheduled the Cleveland String Quartet, a group Gore calls "one of the top five string quartets in the world today," for a February performance.

ternationally recognized, the music faculty attempts to bring in a wide range of Atlanta talents, as well as musicians from other college faculties. "Lots of people want to play," Gore said. "It's really a matter of keeping the program varied and fit-

### Inflation is...

The President and his administration have finally recognized the seriousness of inflation. No doubt the political aspects became worrisome after a recent poll indicated that 72 percent of the Americans regarded inflation as their greatest worry. Other than rising prices and less discretionary income, which are symptomatic of The illness, what are the real effects?

In its early stages inflation often produces euphoria by stimulating income and employment, but it erodes the structural foundations of the economy like an insidious disease Like a malignancy, there are early warning signals of spreading inflation, but the symptoms become more apparent as the condition progresses. Readily apparent symptoms include rapidly rising prices, accerlerated erosion of purchasing power, and depletion

of savings in real dollars. As a form of tax, it redistributes income and wealth among different income groups in a capricious and inequitable manner. Less obvious symptoms are impairment of competitive ability, discouragement of saving and investment, and erosion of the international position of the dollar. Ultimately, inflation will result in recession. However obvious the symptoms, the causes and treatment of the condition are not readily apparent. Again like a malignancy, causal factors and forms of treatment are debatable.

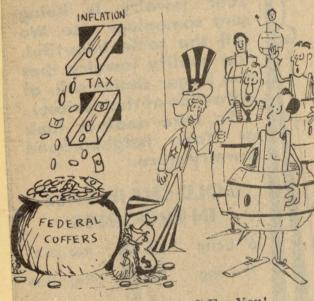

At risk of oversimplification, inflation is defined as an increase in the average level of prices. Through September, 1978, the Consumer Price Index has risen to 196.50 for all items. This means a group of items costing \$100 in 1967 now requires \$196.50 to purchase the same "market basket" of goods. If prices double, purchasing power or real income decreases by one-half. The so-called "rule of 70" can be used to quickly calculate the period of time over which inflation will cut purchasing power in half by dividing the inflation rate into the whole number 70. As an example, assume an annual inflation rate of only 7 percent is attained under President Carter's "voluntary" restraints. In only 10 years, one-half of the purchasing power held in the beginning of the period will have been lost. Consider the implications of this fact!

The loss in purchasing power is a hidden tax levied on those holding monetary assets and net creditors. Be not deceived - "net creditors" are not only banks and mortgage companies, but also families whose assets are greater than their debts. To illustrate, a family with a total of \$10,000 in a savings account (or a credit union balance) also has \$7,000 in debts such as car notes and charge cards; the family is a "net creditor" in the amount of \$3,000. The \$3,000 would decline to \$2,803.74 in real terms at 7 percent inflation for one year.

Inflation also transfers purchasing power from "net creditors" to "net debtors" in a highly inequitable manner. The nation's largest "net debtors" are the federal government and business firms while the "net creditors" are the nation's household. The effects of redistribution of wealth through inflation are exceedingly harsh because the households differ in their debt structure

In general, inflation affects least those whose incomes and monetary assets. rise faster than the average; these fortunate few receive relatively larger shares of national income. Families with assets in cash and other monetary assets (fixed-moneyvalue assets like bonds and future value such as life insurance) are extremely vulnerable. The very low and very high income groups are affected most because they typically have high monetary assets and low debts. The younger households benefit at the expense of the older groups - especially retirees. Some in group may benefit if they have large debt ratios and

nonmonetary assets like real estate. A pertinent question is WHO does benefit from accelerated inflation? The largest gainer is government. While state and local governments benefit to some extent, the federal government experiences soaring tax revenues as inflated incomes are taxed at progressively high rates. The coffers overfloweth, and the federal bureaucracy receives a larger share of national income to use for its ever growing number of programs. The outcome is that more and more resources are channelled from the private sector, like you and me, to the public sector, the federal government. The long-run implications of the process are

Here's What's Left For You!

Sunday, November 12, 1978 NEWS/DAILY Personal Opinion

### Longest Constitution

By ROBERT H. WELBORN **Assistant Professor of History** Clayton Junior College

Consider, gentle readers, the following facts. With the 124 amendments voted on in the last election, there are now easily over a thousand or so amendments to the monstrosity called the Georgia constitution, making it easily the longest state constitution in the country. Due to the number of amendments and the sheer length of the thing, there does not exist anywhere in the state a complete copy of the state constitution. The edition put out by the Secretary of State's office contains only the articles that

apply state-wide. Now the obvious question is why and thereby hangs a tale. A tale of legislators fearing for their positions

In the mid-1940's there arose a clamor for a new state constitution to replace the old (vintage 1877), and too

frequently-amended version. (Sounds familiar, huh?) It seems the one written back in the 1870's had been designed primarily to limit the powers of state government (after all, this was just after Reconstruction) and thus it was basically a collection of prohibitive statutes, rather than a statement of fundamental principles, which is what the Founding Fathers gave us in the U.S. Consitution.

Therefore, whenever the state or a county or city wished to do anything not specifically authorized by the document, an amendment was necessary. In the course of almost 70 years, some 300 amendments had been added through this process.

The legislature and governor manfully responded to this demand for action by creating a legislative commission to write a new constitution. Now this commission was the unique part, for every previous Georgia constitution (there had been six) had been written by an assembly of delegates elected to a special

MAKES DONATION---Mrs. Carolyn Pervis, right, of Forest Park was quite impressed with the William H. Reynolds Nature Preserve near Morrow. So impressed she decided to make a "sizable" donation for operation of the county's only nature park.

Or. O.C. Lam, chairman of the preserve's board of trustees, tells Mrs.

Pervis about the park.

### F. P. Woman Makes Donation for Park

A Forest Park woman flowers. driving down Reynolds Road recently spied the Committee was appointed to oversee the development Nature Preserve, made and operation of the park some inquiries, and was so which Judge Reynolds impressed by Clayton stipulated must be County's only nature park developed as a nature that she, in turn, made a preserve sizeable monetary donation for the operation of the

Carolyn Pervis of Windsor Drive said. "I thought it was such a good idea.

Mrs. Pervis admitted to being a nature enthusiast

The nature preserve on preserve.

Reynolds Road was property donated to the The boar county by former Superior Court Judge William H. named in his honor, con-blind and a special trail for tains acres of beautiful wheelchairs to make the forest and a abundance of preserve accessible to all shrubbery, plants and citizens.

A citizens advisory

Clayton Junior College Professor Dr. O. C. Lam is chairman of the preserve's "I felt it was something I board of trustees. He just had to do," Mrs. accepted Mrs. Pervis' donation, and said it will be

put to good use. Mrs. Pervis didn't ear mark the donation for any specific use, but requested and a champion for the it be used at the board's preservation of wilderness descretion for the general development of the

> The board is making plans for the development of the preserve and is considering The park, making a braile trail for the

constitutional convention. Ah, but in 1945 the legislature claimed that governmental affairs had become too complicated for mere mortals to comprehend, thus only those who were privy to the secret rites could be trusted with constitution writing. So they labored greatly and produced the expected mouse.

The 1945 constitution was simply a reworded version of the 1877 constitution. But whereas it took the old one nearly 70 years to accumulate some 300 amendments, the new one has accumulated a thousand in just

over 30 years. The legislature is presently engaged in rewriting the 1945 version article by article. My question is just this-Why not call a constitutional convention, allow the voters to elect the delegates, and give them the authority to rewrite the entire document? After all, that is the traditional American method of constitution writing. At the present rate of revision, we will still be voting on article revisions ten years from

As to the argument concerning the complexity of government and the unsuitability of a convention of amateurs for such a project, horse feathers! A constitution simply needs to establish fundamental principles of government and it doesn't take a career politician to understand such ideas, just an informed citizen. Perhaps the best argument in favor of a citizens' constitutional convention is to take a look at the product the "experts" have given us.

A final word. Our state government is in need of some fundamental reforms and a new constitution would be an excellent mechanism for instituting such a reform. However, reform will certainly not come from the present revision for it is illogical to expect those who are benefiting from a system to change it in any major way.

### Try enthusiasm

One thing constantly faced in the realm of business is the challenge of doing the job with an acceptable level of competence and the right measure of enthusiasm. Doing a competent job is a subject unto itself; however, it is safe to summarize and say that it involves a proper mix of native ability, educational preparation, on-the-job experience (otherwise known as hard knocks) plus a sprinkling of good old common sense. Some maintain that

a lot of luck is also important. What about enthusiasm? One might say that it is what keeps the hum-drum out of work; it just makes the day so much more pleasant. It may even change the outlook of a

few unhappy (or downright unpleasant) folks around you.

Prescriptions abound, but here are a few more for keeping enthusiasm around a while longer. As an individual, or more importantly, as a supervisor, try setting an example. This act alone helps you build enthusiasm. You start it, others around tend to catch it. For example, teachers know that students perform better if the instructor kindles the fire with a genuine excitement for the subject being taught; this even means forging ahead on blue Mondays and slow Thursday.

Use a light touch, a sense of humor, when problems crop up during the day. This doesn't mean that a serious approach isn't called for in many circumstances, but it does mean that the serious shouldn't overwhelm the brighter side of an issue. This attitude may help you keep a little enthusiasm even when struggling with a problem partially or totally beyond your control. For example: Have you ever been on a committee where the vote didn't go the way that you felt that it should have? Has a customer ever gotten angry, not because of you, but because of a need for release from stress originating elsewhere? By the same token, have you ever made a sale or changed the mood of a group with the injection of a new

idea that was introduced with a touch of enthusiasm? To paraphrase Alfred Marshall, a turn of the century British scholar and economist, "It takes periods of lassitude to have flashes of genius." Take a break, relax, get away from it all. Play tennis, read a book, jog, paint a picture. When you return to work you should have a fresh reserve of enthusiasm. Problems may now appear to have previously been exaggerated out of proportion. It may be that you can find a few more of those sought after creative

"Great people explore ideas, ordinary people discuss things, little people talk about other people." Credit can't be given for the unknown author of this saying, but he, or she, certainly deserves a medal. It is a lot easier to be enthusiastic about work when your thoughts are on the right track. It is difficult to be pretty and dealing with the ordinary when you are working on a bright idea. Instead of gossiping with the grapevine, or becoming bogged in ordinary old paperwork, elevate your attention to how to accomplish the job more easily, get better results, and have fun while doing it.

By now it sounds like all of the problems at the office can be solved with these easy one, two, three steps--not so! Every person has a different way of doing things and will develop an individual style. Also, all does not always go well, no matter how hard we try or how positive our approach. The point is--you just keep trying and hopefully some enthusiasm makes the way a little easier. Have a

Class of 1976. She is a member of the Faith United Methodist

If you are ever unfortunate enough landlords, and hear small property

How does one acquire such a job? By popular vote in each militia district for a four year term. What are the legal qualifications for individuals who dispense justice on such a basic there is sufficient probable cause to and important level? None. That's bind you over for trail in Superior right, none, other than age and residence. Oh, there is a new law that will take effect next year stipulating that each incumbent J.P. must complete a mandatory judicial course of a few sessions that will be offered at state expense, but this is only required after election

Now my basic objections to the J.P. courts are the fee system and the lack of some required legal knowledge or experience before election to the The county government, or to be more office. Local election of these basic judicial officials is a good practice

> Before discussing the fee system, let me hasten to state that I am certain most J.P.s in this state are honest, reasonable, and cautious individuals. But, human nature being what it is, the fee system is simply too tempting for some. The simple fact is, under a fee system, the more you do the more you make. There are documented cases of J.P.s issuing separate warrants and collecting separate fees for a batch of bad checks attributed to one person, instead of a single warrant, simply listing the checks.

As for the lack of legal knowledge as a requirement, I find it disturbing that probable cause hearings can be conducted by someone who has had no formal legal training. How many technical legal mistakes have been made in these commitment hearings only to be corrected later, at greater expense, by a Superior Court Judge?

Why not attach a small salary to the position and require legal training. There is a surplus of young lawyers now, especially around Atlanta, so I don't think personnel would be a problem. As for the small salary, I think the taxpayer would save money in the long run and all of us would benefit by fewer legal mistakes. The J.P. system was created to handle small judicial matters for the rural and non-mobile society that Georgia used to be. It served well, but it will not suffice for the increasingly urbanized and mobile society that Georgia has become.

(Robert H. Welborn, assistant professor of history at Clayton Junior College, is a weekly columnist for the News-Daily. Hos opinions are his own and do not necessarily represnet those of the college or this newspaper).

where to bank? Banks sell pretty much the same old thingmoney. So, for my money, I look for the bank that really excels in the area of customer service. Friendly, courteous and prompt service are at the top of the list: I like the teller that extends a pleasant greeting on a dreary day and even remembers my name. I like the bank officer who gets up out of that comfortable oversized, upholstered chair to offer a handshake, give his or her name and offer assistance. I like the banker who never loses sight of the good customer even though more attention sometimes is given the account with the bad checks or slow loans.

February 28, 1979

Convenience in our four-wheeled society is, for the most part, the primary reason for selecting a particular bank to do business with. Banks, if you haven't already noticed, eagerly open new branch offices whenever there is concentration of people and autos. So, look for a bank that is on the way to work, to school, to the store. Convenience comes in different packages-if your banking needs are relatively simple, bank by mail. Who knows, it may not be too long before all our banking is done from home by telephone, computer terminal, or two-way video.

There are other considerations when choosing a bank which may be of varying degrees of importance to different individuals or businesses: Are the bank's services priced right-service charges on checking accounts, interest charges on loans? Does the bank pay the maximum rate on savings accounts? Does the bank specialize in the area where you have a special need, such as payroll accounting for your business? Does the bank provide trust services which make it possible for you to make financial arrangements for surviving minor children?

In the local area we are extremely fortunate to have an abundance of fine banks to choose from-check out their convenience and super service.

(John Feathers is assistant professor of business at Clayton Junior College and a columnist for News/Daily. The opinions expressed here are his own and not necessarily those of college).

My question is simple--Why does a small county with a dense population need five municipal police departments and one county police department? Why do we need multiple fire departments? Why do we need separate governing bodies for

cities that are separated only by

boundary signs? There is a basic principle of business practice called economy of scale, which simply means that doing the same thing repeatedly on a large scale is cheaper than doing it separately on a small scale. Why not apply this principle to police and fire protection within the entire county? It would certainly be more economical to have one consolidated county police department than five small municipal and one large county force, as at present, each with its own hierarchy of rank and promotion. (Would not one police chief be cheaper than six?) Think of the savings that could be realized from simply having one

than six. Let me hasten to add that I am not implying that the municipal police and fire departments are doing a poor job. I think that they are performing their functions quite well, but I believe that a consolidation of services could deliver the same services to the citizens of the county at a reduced

central radio dispatch unit rather

Such a consolidation would also not have to be a complete merger of all municipal governments with the county into a combined metrogovernment although I think that this is an idea that needs to be considered. Unification of the protective services of the county could be carried out while retaining the present municipalities. What would the citizens of Clayton receive from such a plan? Simplicity and reduced expenditure, that's all.

(Robert H. Welborn, assistant professor of history at Clayton Junior College, is a weekly columnist for the News-Daily. Hos opinions are his own and do not necessarily represnet those of the college or this newspaper).

#### Hearn Completes Internship

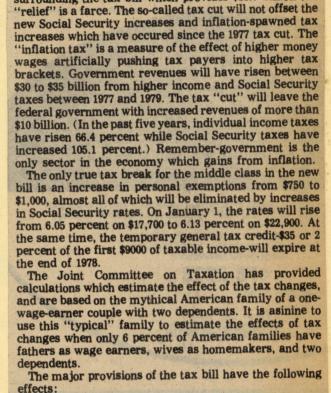

Debbie Hearn, a 1975 graduate of Jonesboro Senior High School and a senior at Georgia Southern College, is nearing the completion of a public relations internship program at Clayton Junior College.

A candidate for graduation from the Statesboro, Georgia, institution in June, Miss Hearn has served in CJC's Office of Public Information since early January. A speech major with an emphasis in public relations, her internship ended Friday, March 16.

THE DAUGHTER of Mr. and Mrs. John R. Hearn Jr. of 1652 Elmore Drive in Jonesboro, Debbie is a qualified water safety instructor. She has taught swimming lessons and served as a lifeguard on the Fort Gillem and Fort McPherson bases during the summer months for the last six years.

Miss Hearn is a member of Georgia Southern's chapter of the Public Relations Student Society of America, and currently holds the office of treasurer.

She served as vice president of the organization for a year, and was presidetn of Phi Mu Soroity Pledge Class of 1976. She is a member of the Faith United Methodist Church.

The President declined to announce his signing of the 1978 tax bill before the November elections because he did not wish to be accused of "playing politics." No wonder he did not announce the bill being signed. The ballyhoo

surrounding the tax bill which provides \$18.7 billion tax

Doris 1978

Cash

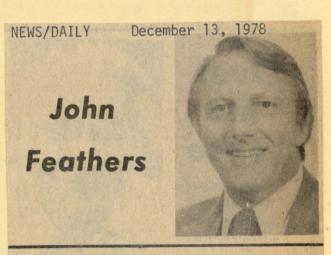

(The data is based on 7 percent pay increases in 1979, increases in Social Security taxes from 6.05 to 6.13 percent and deductions of 23 percent of income. None of the calculations include the effect of inflation on real income.) The hefty cut in capital gains (reduces maximum from 49 percent to 28 percent) will offset the increases in Social

Security and the inflation tax for those earning more than \$50,000 per year. This will provide benefits to investors by increasing incentives for risk taking, innovations and job creations. U.S. Treasury data indicate that only 1.4 percent of all tax returns involve incomes over \$50,000, but paying 23 percent of all taxes. The bill favors income not generated by wages, salaries, and savings. Almost all of those earning less than \$10,000 will be protected from increases by changes in the earned-income-credit.

The real tax burden will decrease for those one-wageearner couples with two dependents and incomes of \$5,000, \$15,000, \$17,500, or \$100,000. The real tax burden will increase for our mythical family if they earn \$10,000 or between \$17,500 and \$100,000. A married couple earning \$25,000 will experience a net tax increase of \$208 (inflation tax-\$124; Social Security increase-\$333; income tax reduction-\$249). Single persons earning between \$5,000 and \$100,000 and married couples with no dependents will have larger tax burdens in 1979.

For the Congress and the President to herald this tax bill as "relief" to the middle class is an insult to the public. After all, what is middle class? Most recent data indicate that approximately 20 percent of American households earned income in excess of \$26,000; this includes 5 percent with incomes in excess of \$40,500. Sixty percent of all households have reported incomes between \$8000 and \$26,000. The median income in 1977, according to the U.S. Census, was \$16,009. As we have seen, this group between \$17,500 and \$26,000 will get no cut. These figures are meaningless due to an ever increasing number of households having two incomes and to the effect of inflation on real income.

(Dr. Doris Cash is professor of business at Clayton Junior College and a regular columnist for News-Daily. Her opinions are her own and do not represent those of the

### Nine years ago

It was a hot afternoon about nine years ago. The temperature must have been 95 degrees. The humidity was high and we were mopping our brows and taking a break

There were four of us and we were between tennis matches. This break was longer than usual and there was some time for casual conversation. The discussion drifted away from the discomfort of the weather and our tennis talents and into shop talk.

My partner was getting some very pointed questions from one of our opponents about some administrative problems at work. Specifically, the questioned delved into the controversy surrounding my partner's boss. The questions being asked were the type that in many cases might generate some juicy gossip of the sort that the audience wanted to hear. (Sitting on the sidelines, it was easy for me to visualize the interrogator going to a car race just to see the wrecks.

Jim, my tennis partner, had experienced difficultly working with his boss, as had many others in the office, and had on several occasions been at odds with him. The person asking the questions knew this. Jim, in his gentle way, politely tried to speak in generalities about some of the issues which had been causing controversy. Instead of accepting this, his questioner began to get into personalities, focusing especially on Jim's boss. He asked questions that would lead one to believe that he wanted to hear derogatory comments. It was as if he had a vendetta going against the person being discussed. (I had another fleeting vision at this point = of the devil in white tennis shorts.) With one cool, calm swoop Jim turned to his tennis opponent and said that "he knew that the questioner didn't want him to be unprofessional and to inappropriately discuss the problem or the person involved

Jim picked up his tennis racket and walked out on the court as an indication that it was time for the next game. I thought to myself -- What a pro!

(John Feathers is assistant professor of business at Clayton Junior College and a regular columnist of the News-Daily. His opinions expressed here are his own and do not represent those of the college).

Red Cross Volunteers Honored

Clayton County's Red Cross Service Center recently honored outstanding 1978 volunteers. The "I Make a Difference", an award for youth volunteers went to Elaine Baer for 280 volunteers hours contributed as a summer youth volunteer. Dr. Avery Harvill received a special award for dedicating the most hours to Red Cross safety services. Chairman of the Physical Education department at Clayton Junior College, Dr. Harvill is certified in Red Cross cardiopulmonary resuscitation and standard first aid, both of which he teaches. He contributed 380 volunteer

### Revenue problems

December 31, 1978

The CETA cutback that has been in the news this week is another example of that basic political law, "What Uncle Sam gives, he can and most assuredly will (at the most inopportune time, of course) take away.'

However, the difficulties that cities and counties throughout the state are encountering as they attempt to deal with the reductions in funding for CETA point up once again the illogical difference in funding between our various levels of government.

To put it simply, the levels of government that we depend upon most for the provision of basic services are also the levels that consistently have the most financial difficulty. Some comparision of revenue sources is necessary to understand why this is so.

The primary source of revenue for the U.S. government is the income tax. It is a marvelous revenue device, progressive with automatic increases and employers have the responsibility of collecting it. Every time you receive a raise, so does the federal government, without any delay.

On the state level, Georgia's two main sources of revenue are the state income tax and the state sales tax. The state income tax has all the advantages from a revenue standpoint of the federal, except that the high level of the national income tax makes it impractical (and politically impossible) to utilize it to the same degree. The sales tax is automatic, and also collected by sellers, but it is regressive in the sense that the same rate applies to all without regard to income level.

After paying all of this, the taxpayer arrives at the local level (cities and counties). It is basically a question of what's left to tax, and what is left is property. But property tax has number of disadvantages not shared by either income or sale tax.

First, it's expensive to collect. Property records of all types, clerical staff, and adequate space for storage all cost, not to mention the fact that there are no employers or sellers

problems the federal. Local governments need financial help in the form of adequate sources of revenue. Since it is doubltful if either the federal government or the state is going to allow local governments any significant use of their revenue devices, perhaps the best thing would be a massive increase in revenue sharing funds. These funds (apportioned on a formula basis) are received by every local government in the country each year, and they arrive with few strings attached, unlike

Understandably, since it lessens federal control over local governments, Congress has been reluctant to increase the funding for revenue sharing, but as taxpayers we should ask for early action on this in the new session

(Robert H. Welborn is assistant professor of history at Clayton Junior College and a weekly columnist for the News-Daily. The opinions expressed here are his own and not those of the college).

governments.

Third, it is not based in any way on ability to pay, as many homeowners on fixed incomes discover as their property appreciates. Finally, unlike either sales or income tax, property taxes can be and frequently are contested, involving more delay and

Now the point of this comparison is that the level of government that affects us most directly is also the level that has to rely for most of its revenue on the slowest, most expensive, and most regressive tax being used by any level of govern-

Along with the difficulties involved in using property tax as a primary source of income has come an increased demand for services. Thus, local governments have increasingly been forced to rely upon that level of government that has few revenue

grant funds such as CETA.

Second, it's slow. Property tax payments come in at one time during the year and there is normally a delay of a year or more before any increase in value of property takes effect in the form of a higher tax on the property.

Robert H. Welborn

NEWS/DAILY Sunday, December 17, 1978

the citizen would be a better

fulfillment of government's purpose.

services within Clayton County.

fulfill its purpose.

### Services and taxation

In this article on city-county relations, I would like to outline how we got into the present situation of duplicated services, and also bring up the issue of "double taxation."

Certain services, such as fire and police protection, water and sewage, garbage collection, and zoning, were at one time thought of primarily as municipal services. I can well remember my father explaining to me as a boy how much better it was to live within the city limits (Anderson, S.C.) because we had services that our country cousins had to do without. Having been a country boy himself, my father valued highly the convenience of water and sewage and fire protection. Sure we paid higher taxes than our county relatives, since we paid both city and county property taxes, but it was a demonstrable fact that we received more for our taxes.

### Joining Examined guest column By ROBERT H. WELBORN

THE ROCKDALE CITIZEN January 4, 1979

City-County

In considering any change in governmental structure the question that should be kept in mind is -- what is the fundamental purpose of government and will the proposed change help government to better fulfill its

Now I think the answer to the first question should be fairly clear -- government at any level exists (or should exist) to provide services essential to community life. The answer to the second question then becomes simple -anything that improves the delivery of services to the citizen would be a better fulfillment of government's

THE ONLY QUESTION then remaining is how can the delivery of services be improved. (I consider a service to be everything from the State Supreme Court to garbage

The delivery of services can be improved by reducing the cost of the service, without reducing the quality (a reduction in cost and quality would not be a true improvement) or by increasing the cost.

All of this brings me to my major point -- a consolidation of police and fire protection in Clayton County would be an improvement, for it would produce a reduction in cost without a reduction in quality. I do not contend that such consolidation would increase the quality of these services, for the protection offered by the municipalities in the county is equal to the high standards maintained by the county departments.

A FEW FIGURES will help to illustrate my point. The Clayton County police department budget for the present fiscal year is \$1,994,437 for a staff of 127 sworn officers, a cost of \$15,704 per officer. The city of Morrow police department budget for this year is \$280,150 for a staff of 14 full time personnel, a cost of \$20,010 per officer. The Clayton County fire department's budget is \$2,220,576 for 183 personnel, a cost of \$12,134 per fireman. The Morrow fire department is operating on a budget of \$223,580 for 15 full-time firemen, a cost of \$14,905 per fireman. There are about 90,000 people in the unincorporated area of Clayton giving a ratio of one police officer for each 708 people. The 4,300 population of Morrow gives a ratio of one officer for each 307 people.

THUS, CLAYTON County is providing protection for almost twice as many people at a cost of about \$4,000 less per officer. This is not inefficiency on the part of Morrow; it is simply a case of economy of scale. (No doubt the size of the Morrow police and fire departments is also due to the protection that they must provide for Southlake Mall. I am not singling out Morrow for criticism; it just happens to be the city for which I have the most complete figures. I regard Morrow as an efficient municipality).

I believe that consolidation of police and fire protection into a county-wide unified system would bring these economy of scale benefits to all the citizens of Clayton, not just those who live in the unincorporated parts of the county. A continuation of high quality service with overall reduction of cost - in my book that's an improvement in government.

### Local Executives Are Appointed

John E. Feathers, assistant professor of business at Clayton Junior College since September, 1974, has been named chairman of the division of business. The announcement came

from Dr. Billy R. Nail, dean of the college. Feathers' appointment, effective Jan. 2, was approved at the December meeting of the Board of Re-

gents of the University System of Georgia. Feathers has served as interim chairman since June 28 when Dr. John F. Loye Jr.

died in a traffic accident. Feathers has been involved as a professional in the banking and teaching in-

dustry since 1959. As chairman of the division of business, Feathers will coordinate and supervise the activities of faculty members within the division.

Feathers and his wife Anne, a speech consultant with the State Department of Human Resources, live in Jonesboro.

### On the inauguration

What we heard at the inauguration ceremonies this past week for Gov. George Busbee and Lt. Gov. Zell

Miller may very well have been the opening speech of the Miller for Governor Campaign of 1982. I am referring of course, to Miller's impassioned inaugural delivery concerning Georgia's need to increase aid to the elderly, the poor, and the disabled, as well as provide tax relief to the middle income taxpayer. I would like to look at the possible political implications and also at the merits of what Miller was proposing.

I am certain Miller would like to be governor in 1982; however, he might also be thinking of taking a shot at the Senate seat of Herman Talmadge in 1980. There are several preconditions necessary for this, but let us suppose.

First, Talmadge would have to suffer irreparable damage from revelations brought out in the hearings to be held this year before the Senate Ethics Committee. From my viewpoint the most likely contenders for a vacant Talmadge seat would be George Busbee, Wyche Fowler, Maynard Jackson, and Zell Miller. Now if Busbee means what he has said, he does not intend to run for higher office, and I think the governor probably means it. This would leave Fowler and Jackson, both of whom would command impressive liberal coalitions. Miller just might, therefore, be attempting to stake out a part of that liberal coalition for himself by taking a strong stand in favor of the governor's proposal for a substantial increase in welfare

benefits. It should be remembered that Miller's move to the governor's mansion in 1982 is by no means a sure bet. Speaker of the House Tom Murphy has been suggesting that the chairman of the House Appropriations Committee, Joe Frank Harris, would make an excellent candidate, and if Talmadge has difficulty in the Senate hearings, there may be several other individuals who will decide to wait for a try at the governor's chair rather than run against an institution such as

the senior Senator from Georgia. As to the merits of what he said, I believe it's about time. The Governor and Lieutenant-Governor are to be commended for recognizing the real need that exists for increasing the level of support for AFDC recipients. Georgia's level of payments ranks in the bottom fifth of the nation, and while you may hear of Cadillacs purchased with welfare checks, the reality is considerably more prosaic. Increasing the maximum monthly benefit from about \$140 to about \$180 will hardly meet the down payment on a mo-ped, much less a GM product.

And, as Miller pointed out, these funds are primarily going to support those who cannot support themselves, children, the elderly, and the

One final thought. To suggest that the \$10 million being asked for to increase AFDC payments be used to increase the size of the salary raises for teachers, as Speaker Murphy has done, smacks of cheap politics. It amounts to an attempt to scare the education lobby into coming out against increasing aid for those who have no lobby. Teachers do need and deserve more than the five per cent raise the Governor has recommended, but I hope they do not fall for the ploy of trying to get theirs by taking from those who need a raise

Jogging benefits

"Running, as an exercise to improve health, is good for you." "Jogging (another way of saying "running") does the practitioner no good at all, except make him feel god

Angel Rodriguez

It's either one way or another-it can't be both. Either running is good for your overall health, or it isn't. The first statement above is mine. The second belongs to a friend who says she recently saw a television news documentary on running that concluded the popular pastime has no

Well, because I'm not a doctor and have been running for only about five months, I'll have to argue my position from limited experience, some

readings and logic. If exercise isn't good for you, how do you account for the increased strength, lower blood pressures and heart rate sof runners, increased capacities for work, and generally enhanced good health of people who get regular exercise?

Let's get specific. A U.S. Air Force doctor by the name of Kenneth Cooper had the unique opportunity to study the effects of prolonged, stressful exercise on thousands of young men-Air Force recruits in basic training.

From his studies, he concluded that the cardio-respiratory capacity, that is, the ability of a person's heart and lungs to deliver sufficient oxygen to muscles at work, increased enormously.

What in fact happened to these Air Force recruits was that their heart and lungs became more efficient, particularly the heart. The hearts efficiency is measured, in one way, by its rate at work and rest. It beats much slower in conditioned

I can testify to that. In the short period I've taken up the particular form of exercise called running, my heart rate during a run has dropped from 160 to 140 (while jogging a nine minute mile) and from 72 to 54 while at rest. At one time I recorded a heart rate of 48 beats per minute while at

A slower heart rate is good, according to authorities on the subject, because the heart is getting its job done with less effort.

Dr. Avery Harvill, physical education professor at Clayton Junior College, is a runner and advocate of

In describing the type of exercise he recommends for good health, he says it must be some sort of continued rhythmic exercise for upwards of 30 minutes a day. Swimming and cycling are other examples of rhythmic

The advantages of running are that it takes less time, is much safer than swimming and riding a bicycle, takes

very little equipment and can be done anywhere, anytime of day or night The problem with most non-runners looking at the exercise with trepidation is that they do not un-derstand just the kind of exercise

running is. Dr. Cooper is the proponent of 'aerobic exercise' in which a person is working out within the capacity of his heart and lungs to process necessary oxygen for his system. A runner, if he's doing it right, is not panting at end of a run. He's not breathing any harder at the end of a three-mile run than he was when he started.

Sure, if a person who had never run for exercise before jumped up and ran three miles, he or she would be hurting badly (and breathing rather hard). But that's not how you go about

If you can't run a mile, run a halfmile and walk the rest. Eventually you'll be getting up to three miles (that optimum 30 minutes of continued, rhythmic exercise).

The only thing wrong with running is that there are too few reasons not

### The drinking age

The General Assembly season is upon us again and with it comes a host of issues and proposed laws designed to confuse, harass, impoverish, and relieve us. Today I wish to deal with two proposals that cropped up during the first week of the session, one silly and the other long overdue.

Raising the drinking age from 18 to 19 or 20 or 21 (or why not 35 or 40 while we're at it) is the silly one. Now let me begin by stating very clearly that I am not in favor of teenage alcoholism, I do not condone drunk driving by

teenagers, and that I do view the reported rise in heavy teenage drinking with alarm.

As a father and a citizen I am vitally concerned with doing everything that can be done to prevent alcohol and drug abuse by young people. Also, regardless of our personal opinions as to the merits or demerits of drinking. the fact is that people do and will drink. Prohibition did not work for anyone except the bootleggers.

The question that has to be answered is will the proposed law raising the drinking age effectively deal with the problem of teenage alcoholism? I think the answer is obviously no. Millions of dollars and thousands of law enforcement. officials have not been successful in preventing the easy availability of drugs that are totally banned by law.I Is it logical to expect that raising the drinking age will prevent the easy availability of a substance that is legal? I don't know about anyone else, but in my high school days anyone who wanted to drink had no real difficulty in obtaining the necessary materials.

The other objection is simply a logical one. I am quite willing to debate (and personally doubt) the merits of allowing 18 year-olds to be considered competent to exercise the full rights of adulthood, but that question is not being debated. The fact is that the government of this state and nation does and will consider (no matter what the fate of this drinking age proposal) that 18 year-olds are competent to vote, sign contracts, join or be drafted into the military, buy and drive cars, and get married. Isn't it a little ridiculous then to try to deny them the legal right to make a choice concerning drinking?

I don't know what the solution to teenage alcoholism is, but it's not this law. The problem we have to address ourselves to is why teenagers are drinking, and raising the age will not

bring us the answers. Heavy drinking is a symptom of the problem, not the

The long overdue proposal is the relatively minor one of eliminating the sales tax on prescription drugs. There are many older citizens (and a number of younger ones) in this state who must rely on substantial amounts of prescription drugs in order to lead anything approaching a normal life. To tax drugs in such cases resembles taxing the air we must breathe. The cost to the state would only amount to \$8-\$9 million per year out of a proposed budget of \$2.8 billion, so we are not talking about bankrupting the state. This would provide real tax relief for purchases that we normally have little choice about.

(Robert H. Welborn is assistant professor of history at Clayton Junior College and a weekly columnist for the News-Daily. The opinions expressed here are his own and do not represent those of the college).

### Reapportionment plan

General Assembly will be required to reapportion the Congressional districts and the state House and

Senate districts. At present, Clayton county and the northeast portion of Fayette County comprise the 72nd district of the Georgia House of Representatives. Unlike the vast majority of House districts, ours is a multi-member district with four representatives chosen at large by all the voters of the district. While at first it might appear that we are thus fortunate to have four representatives instead of one, there

are other considerations. The present structure of the General Assembly in single member districts for the Senate and mostly

single member districts for the Hous. is the result of a series of U. S. Supreme Court decisions in the mid-1960's which established the principle that state legislative districts must be based on equal population, thus embodying the principle, "one person, one vote." Prior to that time, legislative districts in Georgia and most other states were not based strictly on population, with the result that some citizens were overrepresented while others were

blatantly under-represented. Thus, the 72nd district simply comprises an area with a population sufficient to justify four seats (each member of the House today represents about 30,000 people). My suggestion is why not go ahead in 1980 and divide the district into four single member districts?

My major reason for advocating this is that it would promote accountability. At present, each citizen of the 72nd has four representatives, but they each represent the district as a whole. There is no one persons that the voter can look to as being "his" representative. In a single member district, such as prevails in most of Georgia, there is no question of who is the voter's representative or to whom the representative must account for his actions.

My second reason is that multimember districts offer an unfair advantage to incumbents by making any challenge more expensive than in single member districts. To run against any member of the 72nd's delegation a candidate must run a

district-wide race, and there are over 40,000 registered voters in Clayton county. By contrast, in a single member district the total population would be about 30,000, giving a challenger only about 8,000 to 10,000 registered voters to reach in his campaign. The more voters to reach, the more expensive the campaign. The more expensive the campaign, the fewer the people that can afford to run. The fewer the people that can run, the less democratic the process.

Single member district would, therefore, increase accountability and would not artifically add to the advantage that any incumbent already possesses. If Fulton county can be divided into single-member districts, surely we in the 72nd are entitled to the same equality of representation.

(Robert H. Welborn is assistant professor of history at Clayton Junior College and a weekly columnist for the News-Daily. The opinions expressed here are his own and do not represent those of the college).

### Democrats Seek Upturn in Political Interest

By DAVE HAMRICK

What does a political party do in the off years when there is no election? Robert (Bo) Bolander, chairman of the Clayton County Democratic Executive Committee, has some definite ideas on the

"The easiest thing for a political party to do in the off year is sleep," he said. But Clayton's Democrats have chosen instead to take on what many political observers consider almost impossible--rejuvenation of grass roots interest in the democratic

"IF YOU READ most of the current literature," Bolander said, "People are turned off to the political process, or if not to the process, to the political parties.' Witness, he said, the book, "The Empty Voting Booth," in which the author "documents very well I think that people are staying away from the polls and are becoming alienated from the process.

The public is turned off, Bolander said, partly because it senses a lack of response from the national leadership. "They hear leaders of all stripes talking about it but they don't see what's being done.

"THE WHOLE WATERGATE episode I think turned people who were somewhat disillusioned into downright cynics," he

The openness in office of recent leaders like Presidents Gerald Ford and Jimmy Carter have helped turn that tide somewhat, Bolander added, but what's needed is more local involvement in

"So some of us in the party were in a brainstorming session back in November and we all agreed we had to do something about getting grassroots people involved again," he said.

STIMULATING SUCH involvement will be the purpose of a series of forums, the first of which was held last week, dealing with current issues. The project will last all of 1979.

Last week, protagonists debated the merits of the Georgia Power Company's petition to the Public Service Commission for a rate increase.

Bolander said spokesmen for the federal Tax Reform Commission have tentatively agreed to a meeting in late February "to discuss tax reform, rebates or ripoffs, depending on whatever your particular

FOUR OR FIVE such discussions will be provided, not for party members, but for the general public, Bolander said.

'The intent of the forums is not of a partisan nature at all," Bolander pointed out, adding party members would welcome involvement from other political parties. "It's strictly issue oriented."

More involvement in political parties is one aim of the project, Bolander said, but only as a part of overall involvement in the process of electing representatives.

"I think the independent (person who belongs to no political party) loses part of his chance for being involved," Bolander added. "By being involved in a party you help both in the selection process of the candiates and in the development of the issues that the candidates will represent."

HOWEVER, WHETHER one is in a party or not, "the key is getting involved at whatever level.

In addition to holding the forums, the party plans to revive some of the social events which used to be traditional among Democrats, such as the annual Spring Fling and Fall Ball, and the Donkey Trot, a yearly event at which politicos poke fun at people and issues in the news. These events haven't been held in recent years.

As result of all the to-do, Bolander said party leaders hope to see a larger percentage of the registered voters in Clayton County going to the polls in 1980.

#### Contest scheduled

A short story writing contest is being held by the Clayton Parks and Recreation department and

the county libraries. Entries will be accepted through April 13 and must be double spaced and typed. All stories should be mailed to the Clayton Parks and Recreation Department in care of Becky Brown or brought to any of the county recreation centers.

A poetry workshop will be held April 12 from 9 a.m. to 11 a.m. and from 3:30 p.m. to 5:30 p.m. Dr. Larry Corse, Clayton Junior College English department

coordinator, will conduct the

### Ratio realities

RATIO REALITIES

How can you avoid becoming a casualty of failure when you start a new business, especially when the failure rate is in the 80-90 per cent range? Perhaps as a potential entrepreneur you should address this problem from more than one direction.

First, and possibly foremost, many should not even attempt to start a new business and secondly, assuming the appropriate management ability and related business experience, the individual contemplating starting a new business should use some simple ratios to review the financial feasibility of the business being considered. This review doesn't guarantee success nor should it totally discourage the courageous from "going ahead anyway" however, it is one more way of recognizing potential risk

and return faced by the investor. An example can best explain how a ratio review might be helpful. Let's assume that you have accumulated \$10,000 by carefully saving over several years, plus receiving a small legacy from Aunt Susie. \$10,000 seems like a lot of money and surely enough to get you started in your very own gift and luggage shoppe. You go to your local college library and check out a copy of the Annual Statement Studies from Robert Morris Associates of Philadelphia, Pa. In the evening after clearing the dirty dishes from the table, you sit down with your trusty \$9.95 calculator and go to work. The ratios and percentages that you are working with are for gift shoppes already in business so you must realize that being new you should be more conservative in your estimates. In looking at the ratios for a typical gift shop they might reflect the following:

You may have liabilities three (3) times your net

2. Your sales may be five (5) times your net worth. Relating these two relationships with a \$10,000 investment (or net worth) it looks as if you could have liabilities of \$30,000 and thus total assets of \$40,000. With your net worth of \$10,000 you could support sales of \$50,000. Sounds teriffic doesn't it! But starting new would mean that you probably couldn't obtain credit of \$30,000 either from suppliers or the bank, therefore your sources of funds would be somewhat less. And, being new how long would it take to establish yourself and to build sales to \$50,000 --- 6 months, 1

year, 3 years? And now let's go one step further and see what juicy profits you might make in your new gift shop. 3. Net profit before taxes might reasonably be expected

at 4 pct. of sales. Four percent of sales would mean that you would have a grand total of \$2,000 in profits to share with Uncle Sam. Consider that the \$2,000 might even be less since you would probably need some extra start-up expenses, like advertising, to get your new business off the ground.

In summary, we might have fewer failures with fewer attempts to start new businesses when the odds of success are overwhelmingly negative. Also, we might have more successes if new businesses knew in the beginning what to expect and what was necessary to succeed from a financial standpoint. You can't help but have some admiration for the few hardy souls who succeed!

(John Feathers is assistant professor of business at Clayton Junior College and a regular columnist of the News-Daily. His opinions expressed here are his own and do not represent those of the college).

### Truett Cathy Building An Empire

BY BOB LINCH

The fast food business has for two decades been boom or bust with no in between. Franchisers' fortunes pale Las Vegas dice shooters by

Think for a minute about the names now faded into the mists of nothingness. Locations once restaurants with such exotic names as Burger Chef, Shrimp Boat, H.&R. Salt, Arby's and others now shelter other businesses or collect dust.

Call it fast food, but it's more a financial fast track. The king of the franchisers is Ray Kroc, former restaurant supply salesman who became a legend. Ray realized lines were forming while fast food restaurant personnel rushed about frantically trying to dispense milk shakes. The fact that only one stirrer was used made no sense to the budding entreprenurial mind of Kroc. He devised the milk shaker with multiple stirrers in a cylindrical design.

The first location utilizing all of Kroc's ingenuity was a neat drive-in at San Bernadino, California. The rest is history. Ray Kroc had formulated the concept which is today

Not all of the franchisers operate with energy and imagination exemplified by the Golden Arch's founder. Along the way pitfalls claimed many a budding millionaire.

FRANCHISE IS BORN

Now, I want to tell of an evolving empire, one sighted in its embryonic stages.

The year is 1946 and I am employed at Atlanta Army Depot with the military post exchange. Peter Moore is PX manager and a great friend who is lending a hand to John Harkins and I. John is my roommate at the University of Georgia and the PX summer job will hopefully provide enough money for back-to-school clothing.

Each day the post exchange closed for two hours at noon and personnel sent out for food, with the delivery duties going to different people. One of the favorite places to order lunch was a small restaurant in Hapeville named The Dwarf House (it's still there). I often made the trip over to pick up the burgers and milk shakes which were better than any others.

#### PARTTIME MANAGER

The Dwarf House manager was employed there part time, but later turned it into his full time headquarters operation. That man is Truett Cathy, father of the Chic-Fil-A. Mr. Cathy always had a smile and eagerness to serve. He seemed to enjoy his job. Now he has corporate offices in the Scott Hudgins Building on International Boulevard in Hapeville and scores

In 1978 he began moving west, and plans to open soon on the West Coast. Mr. Cathy's operation is different in the fact he owns all of the restaurants

During 1978 The Herald did a feature on Truett, and at the time I was able to remind him of 1946

when he was getting started.

Cathy assures he could open many restaurants in every state if he chose to franchise and lose control. A deeply religious man with firm convictions, he plans to move slowly and deliberately, thus avoiding any possibility of becoming over extended.

The Chic-Fil-A is remarkable in that one sandwich is a meal in itself. Given Truett Cathy's imagination and determination I have no doubt Chic-Fil-A will become one of the fast food go-go

businesses of the 1980's. It couldn't happen to a nicer guy. But then he's a rare type. Not everybody makes it big in the quick order places. There are lot of casualties who will swear to that.

Chick-Fil-A Originator To Be Honored, Feb. 21

Truett S. Cathy, originator of Chick-fil-A, will be honored by the Hapeville Service League and will address the membership of that group at a luncheon on Wednesday, Feb. 21, in the Vaughn Room of Tri-City Federal Savings & Laon Association in Hapeville.

Cathy entered the fast food business in 1946 and for many years operated a small restaurant in Hapeville known as the Dwarf House, still in operation in enlarged quarters on Central venue. He conceived the idea of serving boneless breast of chicken, seasoned, breaded and fried by a special method, a he copyrighted as Chick-fil-

Chick-fil-A and other fast food items are served in 108 restaurants in 17 states, principally in regional shopping centers, under the Chick-fil-A ownership.

Cathy is a Trustee of Clayton Junior College Foundation and Christian City and a Director of Clayton County Federal Loan Savings Association. He teaches a youth class at the First Baptist Church of Jonesboro, and is an active member of the Airport Area Rotary Club.

Prior to Cathy's address, League members will meet in the Vaughn Room at 10:30 a.m. for a business meeting. At noon, the group will enjoy a Chick-fil-A luncheon, catered by the Dwarf House Restaurant. Mrs. Cathy, the former Jeannette McNeil, will also be a guest of the League.

Mrs. Kenneth Stearns, Rintye, They are Mrs. Doris

third president of the Hapeville president; Mrs. Linda Exchangettes, will install Williams, secretary; and new officers of the League. Mrs. Sue Green, treasurer.

Dennis, president; Mrs. The executive committee Eleanor Dimmick, first vice of the League will meet on president; Mrs. Lou Monday, Feb. 19, at 10 Norton, second vice a.m., at the home of Mrs. president; Mrs. Louise Eleanor Dimmick.

### The government that affects you most

"The average citizen is most ignorant of that level of government that affects him the most,' said Dr. Robert H. Welborn, assistant professor of history at Clayton Junior College. "From my point of view, that's the government that provides fire, police, water, sewage, roads, education and zoning.'

In other words, he is referring to local government. The result of that concern by Dr.

Welborn has been a series of workshops on local government offered to the public at CJC as a community service.

"We found a lot of people who were interested and curious about local government, but who had very little actual knowledge of it," Welborn added. "So that is the purpose-to provide the citizens with information on city and county government in Georgia." Welborn has actually taken it a step beyond the academic field. Those persons appearing on the

program are in local government.

(Editor's note: Publisher Jim Wood, the only journalist-legislator in the General Assembly, whose column "Jim Wood Says" usually appears here, is writing a page one commentary entitled "General Assembly Notebook." His column will resume later).

Last week Mayor Lou Hisel of Morrow and Riverdale city manager Hank Boynton shared the forum. At an earlier meeting, County Commission administrator Milton Worsham spoke to a group. These officials, of course, also make themselves available to answer questions about local government.

The next meeting, fourth in the series, will concern the Clayton County School Board. The workshop begins at 6:30 p.m. Thursday in room B-11 in the "round building" on campus.

O. W. Cowan, vice chairman of the Clayton County Board of Education and Dr. Clifford England, assistant superintendent, will participate in the program.

Cowan will explain the responsibilities of the elected members of the school board and what their authority is regarding taxation, Welborn said. Dr. England will discuss how the professional staff works with and

coordinates with the elected school board which has policy making authority, the professor added. The final meeting will be at 6:30

p.m. Thursday, Feb. 15, concerning the independent authorities in Clayton County-the water authority and hospital authority.

The series provides a unique, glimpse at the workings of local government presented on a much larger platform than the classroom and the textbook.

#### ENRY AND CLAYTON SUN April 5, 1979 Writers Workshop Slated

DR. LARRY CORSE,

### Tax relief

Tax relief is the rallying cry for all politicians this year and certainly most citizens will add an "amen" to that. Numerous plans have been offered, and no doubt more will surface before the final measure takes shape.

But what is needed is a serious look at the entire problem of how government services are funded in this state, not just some one-shot rebate designed to win a few votes and redeem a promise made during an election year.

POETRY WRITING A workshop on poetry writing will be held from 9-11 a.m. Thursday and repeated again that day from 3:30-5 p.m. at the Forest Park Branch of the Clayton County Library. The objective of the workshop is to provide an copportunity for local poets to expand and/or refine their writing skills. Dr. Larry Corse, coordinator of English at Clayton Junior Col-lege, will conduct both workshop sessions. The intended audience is high school students and older. Preregistration is required. Call 366-0850 to sign up. The course is free and open to the public.

#### H & C SUN 4/19/79 Barnett To Speak at Pen and Pica

Tom Barnett, assistant professor of English at Clayton Junior College, will speak to the Pen and Pica Writer's Group on April 23, 7:30 p.m., at the home of Judy Tisdale, 6154 Maddox Road in Morrow.

IN HIS presentation, Barnett will share pointers he used in a short story workshop he conducted recently for the Clayton County libraries.

All persons interested in hearing this informative presentation are invited to call Judy Tisdale, hostess for Pen and Pica Writer's Group, at 366-0954.

Junior College, according

Dr. Billy R. Nail, dean of the

What I would like to suggest is that consideration be given to a basic restructing of local government finance. I think most of us would agree that in order to be fair, government services should be financed through a method of taxation that is based on ability to pay, or level of income. (i.e. a progressive tax).

Taking an equal percentage from all, without consideration of the level of income, could obviously result in some citizens paying a much greater proportion of their total income than others. Such a tax would rightly be labeled regressive. (3 percent from a total income of \$5,000 means much more in human terms than 3 percent of \$50,000).

But when we examine the major sources of revenue for local governments, we find just such a regressive tax being used as the major source of revenue, the property tax. Property tax originated as a type of income tax because in the early days of this country's history a person's property normally did provide his income. For most of us, however, this is certainly no longer the case, except for business property.

There is nothing sacred about property tax; it is simply the way local governments have traditionally been financed and tradition (or perhaps inertia is a better word) is a strong force in governmental affairs. But it has numerous disadvantages from a revenue point of view. It is difficult and expensive to administer due to the voluminous records that must be kept and the assessment process for property values that must be redone periodically. It is subject to challenge as to the accuracy of the assessment, thus necessitating further expense, and also delay in collection of revenues. It is collectable and payable only once a year normally, thus any increased value in property is not reflected immediately in tax

collections. And, worst of all, it is not based on ability to pay, or more simply, the amount of tax to be paid is not based on income level. Thus, two individuals with assessed values on their homes of \$40,000 each would pay the same tax even if their incomes were not equal. The people hardest hit by this tax are those whose property has risen in value while their income has remained relatively stable.

Counties are almost totally dependent on property tax revenue, with Clayton county drawing some 79 percent of its current budget from this one source (\$13,011,233 out of a total budget of \$16,462,704). Cities are less dependent due to other revenue sources not available to counties, with

My suggestion is to basically eliminate property tax on nonrevenue producing real estate, thus maintaining property tax for businesses, where there is obviously some connection between assessed value and ability to pay.

To replace the lost revenue, a more progressive system could be introduced, by either some sort of local income tax or greater reliance on the state income tax, with an assured proportion returning to the citizen's city and county.

I believe it would be cheaper to administer and fairer to the taxpayer than the present system. More on taxes and tax relief next week.

### Second convention?

Not only has tax relief become a vote-getting issue at the state level; the hallowed walls of Congress are now being shaken by the groundswell from the hinterland. Most ominous of all, from the viewpoint of Congress. appears to be the no longer farfetched prospect of a national constitutional convention, the second in our history.

The fears of Congress are traceable to two sources, the Constitution and deficit spending by the national government. Regarding the Constitution, the Founding Fathers

established two methods of proposing amendments--two-thirds of both houses of Congress (the only way that has been used) or two-thirds of the states could request Congress to call a convention for the purpose of proposing amendments. The latter method has never been tried, but apparently is about to be, which brings us to the second source of Congressional fears, deficit spending.

As a result of inflation, which deficit spending by the national government has undoubtably made worse, 25 state legislatures (of which Georgia is one) have, in the past two years, passed resolutions requesting Congress to call a national convention for the purpose of proposing a constitutional amendment which would prohibit deficit spending during peacetime by the federal government. Only nine more states are needed for the Constitutional requirement of two-thirds (34 out of 50) to be satisfied, and the possibility of getting the necessary number is no longer considered remote by most observers.

This method of requesting change has been used before to protest certain government actions. In 1967, 32 states requested a convention to overturn the Supreme Court's decision on reapportionment of state legislatures, and nine states since 1973 have passed convention calls for an amendment to ban abortions. But these efforts were and are considered as symbolic protests, while the present effort to ban deficit spending by constitutional amendment appears to be quite serious. Even Gov. Jerry Brown of California, who first opposed and then praised Proposition 13, has nimbly scrambled on the bandwagon and now presents himself as a champion for such a constitutional amendment.

There are, however, some interesting and perhaps crucial questions that surround all of this effort. For instance, there are not provisions in the Constitution that stipulate exactly what Congress will do when and if 34 states pass the same resolution. Congress must then call a convention, but when-- within a year, six months, two years? Who will pay for this convention? Again, there is no answer. Will delegates be selected by popular vote or state legislatures? Will they vote individually or by state delegations (as they did in the first one in 1787)? Most importantly, will they be restricted to proposing only the amendment requested or will they be able to do what the Convention of 1787 did, scrap the old system and devise a new political framework?

Of course, any amendments proposed by such a convention would have to be approved by three-fourths of the states, but this is scant security for worried Congressmen at a time when the prestige of the Congress is at a low ebb, and many state politicians are openly calling for a reduction of

national authority over the states. Congress, it appears to me, has three alternatives. One, it can do nothing and when the required number of 34 is reached, deal with the above questions in a last minute, catch-as-catch-can, politically heated atmosphere. Two, it can head 'em off at the pass by either proposing its own amendment or passing legislation that would have the same effect. Lastly, it can pass legislation that would provide an orderly and fair procedure for handling such a convention before the actual moment arrives. (Such a bill, sponsored by Sen. Sam Ervin of N.C. passed the Senate in 1971 only to be defeated in the House). But whatever decision is made had best come soon, for the smart money is now on the required number being reached within a year. Let us hope Congress chooses one or both of the last two alternatives.

(Robert H. Welborn is assistant professor of history at Clayton Junior College and a weekly columnist for the News-Daily. The opinions expressed here are his own and do not represent those of the college).

## Originator Of Chick-Fil-A Is Speaker for League

Truett S. Cathy, originator of Chick-fil-A, will be honored by the Hapeville Service League and will address the membership at a luncheon next Wednesday in the Vaughn Room of the Tri-City Federal Savings and Loan Association in Hapeville.

Cathy entered the fast food business in 1946 and for many years operated a small restaurant in Hapeville known as the Dwarf House, still in operation in enlarged quarters in Hapeville.

He conceived the idea of serving boneless breast of chicken, seasoned, breaded copyrighted as Chick-Fil-A, according to a a.m. for a business meeting.

Chick-fil-A and other fast food items are served in 108 restaurants in 17 states. principally in regional shopping centers, under the Chick-Fil-A ownership, the spokeswoman said.

Cathy is a trustee of Clayton Junior College Foundation and Christian City and a director of Clayton County Federal Savings and Loan Assoication. He teaches a youth class at the First Baptist Church of Jonesboro.

Prior to Cathy's address, League memand fried by a special method, a process bers will meet in the Vaughn Room at 10:30

THOMAS CLONTS Elected To Board

### Clonts Elected Trustee

The Board of Trustees of the Clayton Junior College Foundation has elected Thomas B. Clonts of Jonesboro to serve as its newest member, according to Harmon Born, chairman

of the board.
Clonts, a 27-year resident
of Clayton County, is retired > from Gaylord Container Corporation.

Clonts was named to the Clayton County Hospital Authority in 1966, and served as secretary of the authority for eight years and vice-chairman for two years.

He is presently serving on the Clayton County Jury Commission, Industrial and Development Authority and

Tax Reform Committee. He is active in the ₹ Jonesboro United Methodist Church, and helped set up the first Cub Scout Pack in

当 Jonesboro. Other members of the foundation include Born, G. Robert Oliver, Charles Conklin, Harry S. Downs, S. Truett Cathy, Ernest Dunbar Jr., W. Cameron Mitchell, Claude H. Whaley, and James M. Wood Jr.

combined tax levy of 37.45 mills (within fire districts) the county school board accounts for 17.1 mills. Decisions as to how to spend that money are under the authority of the county school board, but how many citizens can name the members, much less describe the method of composition of the board? And

therein lies the problem. Let me begin by stating that I am not proposing changing the selection method due to the personnel of the current school board. The county board has a tremendous job and great responsibility. From all accounts they handle their tasks in an efficient and economical manner. I am suggesting an improvement in structure, not personnel.

The state constitution provides that county school boards shall consist of five individuals who shall be appointed for five year terms by the Grand Jury of each county. Since its enactment in 1945, this provision has been modified in most counties by local legislation and local constitutional amendments into some form of popular election.

Today in Clayton county there are 11 members of the school board (one from each militia district), who are elected on a county-wide ballot for staggered, six-year terms. Each of these members represents a separate militia district and must live within the district, but the voters of the entire county are called upon to vote for all 11. Thus, while the voter may look to the member from his district as being responsible primarily to that area, the school board member is, in practice, responsible to all the voters of the county.

Now one of the major problems with politics in this country is its complexity. Part of this complexity, aside from the structure of the institutions themselves, is the bewildering variety of people and things that we are called upon to vote on every two years. No doubt many people are deterred from voting due to the fact that they don't know who all these people are that they are being

In addition, a principle that voters have a right to expect is direct accountability of representatives (of whatever type) to the people they represent. In the present method of selecting school board members such direct accountability does not exist.

This leaves us with two options if we wish to improve the present selection method. One, scrap the militia district system and simply elect all of the members at large from the entire

county. This would be similar to our method of electing members to the state House of Representatives, and I think is objectionable on the same grounds, lack of direct voter accountability and too much advantage to the incumbent.

The second option would be to elect each member from his or her militia district directly, thus improving voter accountability and simplifying the process from the citizen's point of view. Each voter would have a representative identified directly with his district and each school board member would have a definite group of citizens to whom he would be responsible.

Such a change will require the passage of local legislation by our delegation to the General Assembly. Let us hope they will deal with this improvement in representation before the end of the session.

(Robert H. Welborn is assistant professor of history at Clayton Junior College and a weekly columnist for the News-Daily. The opinions expressed here are his own and do not represent those of the college).

### The legislative mess

This was to be the year for tax relief in the General Assembly, but so far there have been numerous taxing proposals, but precious little relief. Let's examine the situation as it stands with only about two weeks left in the official session.

First, there's the supplemental budget for fiscal 1979 that is still being hammered into shape. Now I know that we thought the present budget had been agreed upon last year, but the common practice is to set the budgetary sights low, and if there's a surplus when the General Assembly convenes the next year, add the surplus to new or existing programs. The practice of keeping revenue estimates low appears sound, but when there is a substantial surplus it can cause lengthy wrangling as pet projects are put forward by individual legislators, eager for another slice of an unexpectedly larger pie.

And then there was the bombshell of the Georgia Supreme Court declaring the local option sales tax unconstitutional. The problems created by this are immediate for the counties that have enacted the optional one percent sales tax, and the legislators must deal first of all with the problem of passing some type of legislation that will enable these counties and cities to continue to collect their necessary operating revenue. But, while the immediate problem of passing another sales tax law is receiving all the media attention. I think it is necessary to consider the situation from an overall viewpoint. There are a number of tangled and interconnected problems that have led us to this sorry situation.

First, there's the state constitution itself. No doubt the Supreme Court was correct in declaring the former local option sales tax law unconstitutional under the terms of the present state constitution. It's just a pity they could not also declare the present constitution unconstitutional. A permanent solution to the present problem would be to call a convention for the purpose of rewriting the present cumbersome document. After all, is it not a trifle absurd when a state constitution is so restrictive that a tax relief measure that was passed by large majorities in both houses and has since been enacted in seventy-four counties is declared unconstitutional?

But the second aspect of the overall problem is the reason that we will probably not get any solution to the constitutional question, and that is the forty-day legislative session. A short session made sense when there was not much state business to conduct, but when there's a budget of almost \$3 billion to consider, might it not be appropriate to devise some method of lengthening the session? The press of business has grown so great in recent years that the forty day session is barely adequate for the conduct of routine business, and when there is something out of the ordinary (as there is this year), a legislative pileup is the result. I'm not sure a lengthier session would produce better legislation, but it might provide an opportunity for more careful construction of proposed laws than the present system, where the emphasis

is on getting something passed quickly in order to beat the deadline. Of course, it will take a constitutional revision or amendment to change this, for the 40 day session is required by the state constitution.

And the final part of this tangled situation is the growing conflict between counties and cities for revenue sources. After all, it was a city-county dispute over the distribution of funds collected under the local option law that led to the Supreme Court's decision. And why are such disputes growing in intensity? Because cities and counties are duplicating expensive services and scrambling for revenue to cover the rising cost of providing these services. But don't hold your breath waiting for a solution to this problem

(Robert H. Welborn is assistant professor of history at Clayton Junior College and a weekly columnist for the News-Daily. The opinions expressed here are his own and do not represent those of the college).

### CJC Director Named

A new Director of Institutional Research and Cooperative Education has been named at Clayton Junior College, according to Dr. Billy R. Nail, Dean of the College.

Dr. Linda R. Greer, who was an Adjunct Administrator and Instructor of History at DeKalb Community College, assumed her new duties with Clayton Junior \( \sigma \) on March 19.

Dr. Greer's primary responsibilities at Clayton Junior College are to develop and implement a plan of cooperative seducation for students in S selcted programs offered by the College, and to conduct < studies useful for purposes of evaluation, planning and > management.

The wide-ranging program involves working closely with students as well as \_\_ with members of the 9 College's faculty and staff.

A native of Atlanta, Dr. Greer earned degrees in history and educational administration from Georgia State University. She claimed her bachelor's degree in history, her master's degree in history, and her doctor of philosophy degree in educational administration.

In addition to having been an administrator and instructor at DeKalb College, Dr. Greer also has served on the faculties at Georgia State and at Columbus College. She began her teaching career as a teacher of social studies in the DeKalb County School

Dr. Greer and her husband, Jack, a Professor of Educational Administration at Georgia State, live in Duluth.

#### Robert H. Welborn NEWS/DAILY

#### March 18, 1979 Power of the speaker

The recent declaration of independence by the Georgia House of Representatives, in the form of a revolt against the House leadership concerning the level of teacher pay raises and the appropriations committee revolt a few weeks ago concerning which type of tax relief plan to adopt, are events to be applauded. Not only because their goals were worthwhile, but because a more independent-minded House of Representatives will probably mean a more open and responsive legislative

While they are at it, I would like to suggest another little improvement they might consider, curtailing the power of the Speaker of the House.

The major business of the House is done in committee sessions. This is where bills are amended, re-written, or simply filed away. The chairman of each committee holds a powerful position, being able to decide which bills shall be discussed and when.

The Speaker appoints the committee chairmen and committee members, and this is a major source of his authority. He literally has the power to reward and punish as he makes committee assignments after

each general election. I do not desire to limit the Speaker's power because of any particular grievance against the present Speaker, Mr. Tom Murphy, but because I am opposed on principle to the concentration of such power in the hands of one person, and because I think such a change might add to the independence of House members.

Prior to the administration of Lester Maddox, the Speaker of the House was basically the appointee of the governor. Indeed, it was quite revealing this past week when former Governor Carl Sanders, in a newspaper interview, complained that the legislatures since Maddox have become too independent, and that a governor ought to have the power to simply push his budget through without approval whenever there is a major difference between the two houses, as there has been this

Sanders put it quite truthfully when he noted that in his administration he had never had such problems, and

could always count on at least working majority for his budget.

But times have changed, and instead of the governor being able to control the House, that power now resides in the office of Speaker. Gaining the right to choose its own presiding officer was a big step toward legislative independence for the Georgia House, but why not go further?

Why not adopt a modified seniority system? It would work this wayevery two years, after the general election, the majority party members would meet and elect a Speaker and a Committee on Committees, of which the Speaker could not be a member. This committee would then nominate chairmen for each House committee and assign committee members, using seniority as the major criterion. Then they would have to present this slate of proposed chairmen and members to the entire House membership for approval.

Seniority might be objected to as not guaranteeing that the best qualified individuals will be appointed as chairmen, but the present system of Speaker appointment certainly doesn't guarantee this either.

Seniority does have two major benefits. It does assure that only experienced members will achieve the position of committee chairman, and it does prevent internal

To become a committee chairman under a seniority system, a House member would have to keep the folks at home satisfied enough to keep getting re-elected. He would not have to worry about gaining the approval of the Speaker, only keeping the approval of the voters.

### Robert H. Welborn

On tax relief

The legislative session is rapidly drawing to a close, and ere it departs I think a few comments are in order

March 12, 1979

Assembly. The session would have been interesting enough with just the effort to restructure the local option sales tax and agree on a new budget. But with the addition of tax relief, what has occurred has resembled nothing so much as a three-ring circus.

concerning the so-called "tax relief"

plan that has disrupted the General

How did such a series of events come about? To answer this we must look back to the fall of 1978 and the reelection campaign of Governor George Busbee. The governor was running against Rodney Cook, the Republican candidate, and Cook was criticizing Busbee heavily for the increases in state expenditure that

occurred during his first term. Busbee, apparently stung by the attacks or perhaps simply wanting to show that he was a fiscal conservative also, pledged \$75 million in property tax relief if re-elected.

After re-election Busbee had then to honor his pledge, but how? The pledge had been made in the name of property tax relief for homeowners, not large businesses, but if the money was to be redistributed on a proportional basis, large corporations would receive massive tax reductions while individual homeowners would receive "relief" in the amount of bills.

Then began the legislative wrangling over how to provide a reduction in property taxes that would not primarily benefit the largest property owners in the state. The attempt to place a \$500 "cap" on the amount of reduction that would be allowed to any taxpayer was seen as one way to do this, but the constitutionality of such a proposal is doubtful.

The governor wanted to bank the \$75 million until a constitutional amendment could be passed in 1980 that would allow such distinctions to be made constitutionally, but in the year of Proposition 13 the legislature was not about to go home telling their constituents to wait until after the next election.

Thus, in the name of taxpayer "relief" we have seen and heard a great deal of commotion, but true relief remains elusive.

have been proposed then was some form of across the board tax reduction, instead of this one-shot rebate.

After all, the state treasury is presently awash with surplus funds, as was demonstrated a couple of weeks ago when the General Assembly tacked some \$300 million in the form of supplemental grants to the present budget. If you don't reduce taxes when you're taking in far more than has been budgeted, when do you reduce taxes?

The lesson we should remember from all of this, I suppose, is to be more careful and ask "How?" the next time a politician promises to provide a tax reduction. Perhaps then there would be fewer rash campaign promises.

Oh well, I've already decided how I'm going to invest my extra funds. With the price of beef these days, I won't be able to buy steaks, but if I budget my \$25 "relief" carefully, I might be able to treat the family to hamburgers.

#### RETIRED INDUSTRIALIST

### Cam Mitchell Is Man Wearing Many Civic Hats

Not many citizens have civic interests more diverse than Cam Mitchell. Cam is Chairman of the Henry County Board of Education, Treasurer of the Henry County Development Authority and Vice-Chairman of The Henry County Planning

In private life Mr. Mitchell is manager of the Safari Inn, largest motel in the area, a responsibility he came to through an investment. He is one of the owners.

Son of the late W.E. Mitchell, former President of Georgia Power Company, Cam had a career at corporate executive level in the manufacture of electrical products. He is a member of the founding family of the Hampton firm now known as Southern States, Inc. Mr. Mitchell is a former President of Southern States, Inc., the position in which he served at the time of his retirement in

#### CORPORATE PRESIDENT

Southern States, Inc. is the corporate survivor of a Birmingham, Alabama business started in 1914 by Cam's father and a group of friends. The firm didn't take off until the 1940's when as many as 500 people began working three shifts doing war work. Cam joined the company as Purchasing Agent, from whence he became Production Manager, Vice President-Treasurer, Executive Vice-President in the 60's and ultimately President for two years.

In 1965 the plant was sold to Gulton Industries, an ownership under which it continues to operate in Hampton as one of the county's largest

The Mitchell family has long been identified with Auburn University. Cam graduated there with a B.S. in Electrical Engineering. At Auburn he was a member of the varsity tennis team and remains a tennis aficionado. He and brothers Glenn and Graham are active supporters of the school and its athletic program.

For years he almost never missed an Auburn football game at home or on the road. The family chartered buses for the weekly Fall football pilgrimage from Hampton to Auburn.

AUBURN UNIVERSITY LOYALIST

Cam is a past President of the Atlanta Chapter of the Auburn Club and a member of the Executive Committee of the Auburn Alumni

From 1935 to 1976, Cam reports almost never missing an Auburn game. His recollection of the most exciting game in memory is the 1932 Auburn victory over Tulane in New Orleans when Billy Hitchcock picked up a fumbled punt and ran it back for a touchdown. At the time Tulane was a national power and it was Auburn's first victory over the Green Wave in years.

Mr. Mitchell admits the joy in wearing his many civic hats. If there is one function most rewarding of the lot it is serving on the development authority. After years of frustration the efforts, principally of he and Windsor Daniel, have started paying off in new industry. Landing Georgia-Pacific for a multi-million dollar plant site near Hampton was a coup. Others, Mr. Mitchell is confident, are sure to follow.

Recalling the efforts while paired with Mr. Daniel, he says, "We could make hundreds of calls and nothing would happen. A year ago the big industries didn't know we existed. Now we are the hottest thing in the Atlanta metropolitan area. "Henry County is on the list to be shown rather than on the list to be bypassed."

#### THE SEARCH FOR INDUSTRY

He believes only a matter of time is required before companion industries join Georgia-Pacific. He has to like the work. Devoting a half day or whole day to prospecting for business is nothing, and in any given week Cam will expend 12 to 20 hours in the search.

Only slightly less rewarding is the success currently experienced by the school system. After difficult times Henry County schools are enjoying the absence of earlier turbulence.

He says, "The school system is on solid financial underpinning, disciplinary problems are way down, and we are over the hurdle of

"We haven't solved all our school problems and we never will," but things are improved.

Cam Mitchell continues enthusiastically per forming his diverse public assignments. He loves

#### Flower Class Offered

The East Point Parks and Recreation Department is now organizing a class for Flower Arranging. The in-structor, Ms. Umeko, is a teacher at Clayton Junior College where she teaches "Art Of Flower Arranging". The class will include making centerpieces, different designs and Ikebana, which is Japanese flower arrangement. The class will be offered on Thursday nights from 7 to 9 p.m. and on Mondays from 10 a.m. until 12 noon. The evening classes will start May 24 and

June 4. Both classes will run for eight weeks. To register, call Debbie Duncan at 766-7193 from 1 until 10 p.m., Monday thru

the morning class will start

The conviction of Larry Flynt on in ography. Consider, for instance, the fact that while "Hustler" might have been judged pornographic, there are still plenty of X-rated movie houses and "adult" bookstores doing a brisk

> Such a case also raises questions about the protection of freedom of speech and press, and critics of Flynt's conviction contend that this is simply the first step in a movement that will result in government censorship.

> Before jumping to a conclusion in such a controversial situation, it is necessary to look at the legal background of pornography laws as they have evolved through U.S. Supreme Court decisions.

> Court established in a series of cases back in the 1950's and 60's that obsenity and pornography do not have to be protected by the First Amendment guarantees of freedom of speech and press. But, although this might sound like a definitive statement, it wasn't for the Court also said that the prosecution would have to prove that the material in question was indeed pornographic. So there's the problem, pornography isn't protected, but what is pornography? In 1973, in the case of "Miller vs. California," the Supreme Court tried to solve this problem by establishing a

> series of "standards" that could be used by states and local governments in trying to determine what constitutes pornographic or obscene material. The standards briefly are: (1) Whether the average person applying contemporary community standards would find that the work taken as a whole appeals to the

prurient interest. '(2) Whether the work depicts, in a patently offensive manner, sexual conduct specifically banned by state

(3) Whether the work, taken as a whole, lacks serious literary, artistic, political, or scientific value.

Now these standards may at first appear definitive, but they're not. What is an "average person;" what is the "community" (county, city, state?); what is "serious value;" and where are these "contemporary

The worst aspect of the present legal situation is that it allows a local prosecutor to selectively make cases among the wide range of "adult" material now available.

Thus, one magazine is prosecuted while others are ignored. The selective enforcement possible under such a situation, and the fact that the present law allows the prosecutor to set himself up as a judge of what is offensive to the "community" makes the possibility of abuse of power quite

There are two possible solutions to this judicial confusion. First, have the state legislature bite the bullet and define by law exactly what the "community standards" are and exactly what types of sexual conduct are to be considered "patently offensive." This would also present new problems, but at least it would take away the power of local prosecutors to act in a selective

The other alternative, and the one I would prefer, would be to pass a law which would allow an adult to decide for himself what he wishes to read and see. It would still be possible, and certainly desirable, to control the conditions of sale and distribution, but the choice of whether or not to buy. such material would belong to the individual, not the government.

Consider a bank that bank is restricted as to the prefers to concentrate more size loans it may make to one of its funds in U.S. individual or a related group government securities because of the bank's capital

structure. We could go on and on and on.

Have you ever had a banker say that he just doesn't have any money to lend.. Because of strong demand in the private sector of the economy and because the Federal Reserve System, our central bank, is trying to curb inflation, banks may find that they do not have liquidity adequate to meet loan demands. The Federal Reserve through a number of mechanisms may regulate the supply of money and availability of credit in the economy - this regulation affects all banks and eventually may determine whether or not you receive a loan. When money is tight, you will also note that interest rates are high. Smart bankers, who recognized the economic trends early, began reducing the size and number of loans to real estate developers before the 1974-75 recession. Builders who didn't get these loans probably weren't aware of their good fortune until well into 1976. (Banks, too.)

Last, what is an example of the effect a bank's financial situation may have on its lending. Banks that sustained severe losses in recession were more cautious about plunging Talk to almost any banker again into the market. If a

### Public transportation

Regardless of public opinion about President Carter's energy proposals, there is one aspect of the petroleum question that is already clear, a continuing rise in gasoline prices. After several years of relative stability, with prices averaging 50 to 60 cents per gallon, within the last three months prices have climbed to the 70 to 80 cents range, and the end is not yet in sight.

When prices are decontrolled, as is almost a certainity, even administration spokesmen are predicting a price rise in the neighborhood of 15 cents per gallon. Such dramatic price increases are bound to have a major impact on life in Clayton County where the private automobile, for all practical purposes, is the only form of transportation available.

We must remember that the growth of a suburban life-style in this country has been based on the existence of abundant and cheap energy supplies. Low cost transportation has been the dominant factor in enabling people to live considerable distances from their

place of employment. But the days of cheap energy are over. Not necessarily the days of abundant energy, for there are today more proven reserves of oil and gas than existed in 1973. But the countries that contain these newly discovered sources, such as Mexico, cannot be expected to part with their oil below the going rate. The OPEC nations discovered or borrowed a great capitalistic principle in 1973, and that is to charge whatever the market will bear. So far, we have borne a great deal without any significant reduction

in consumption. The problem that we are to face in the next several years is that energy prices are probably going to rise faster than wages. Without a reduction in energy consumption the only alternative will be a decline in living standards.

How can we reduce out transportation costs when this is a necessary part of our energy use? One way would be to establish a

system of public transportation. Public transportation has a bad name in Clayton county. It is associated with MARTA and brings up images of the county being swamped by low income families. As I once heard a lady say at a community civic association meeting concerning the desirability of street lights in her subdivision, "I would rather see the streets dark than have streetlights, because if we get streetlights, the next

thing will be MARTA buses.' However, if we are not able to reduce our energy costs by reducing our consumption, the fear of lowincome families will become a moot question, for we will all be living in reduced circumstances. Thus, economic necessity will probably compel us within the next few years to adopt a more favorable view toward some form of public transportation.

The Clayton county commission has been aware of the implications of this problem and requested the Atlanta Regional Commission to do a study of options for public transportation

within the county. The preliminary part of this study has been completed, but the commission is requesting more detailed information before making any definite recommendations. Let us hope that a viable plan is produced by this study, while we still have time to

consider several options. But regarding the question of public transportation itself, the question is not going to be should we, but how can we'? This is going necessitate a change in attitude toward public transportation, but the only option we have is to accept a reduced standard of living, something I have heard few people volunteer to accept.

### Behind Every Well-Dressed Man Is A Woman Who Shops For Him

By Raymonde Alexander

TERE'S A BLOW to male egos: Women still have a lot to say about how men dress. So much for a lot to say about now men the "peacock revolution" of the 1960s, when men allegedly began getting interested in fashion.

Women still have a large influence on what men buy, according to a recent survey by the Men's Retailers of America, the Washington-based national trade association of menswear specialty stores. The survey quizzed female shoppers in 84 shops operated by members of MRA's Monthly Business Survey Panel.

"Based on the results we obtained, we can state that there is no other single influence nearly as significant as the woman's role," reported MRA President Edwin J. Caplan.

Caplan said the survey confirms what the industry has always accepted: Women are responsible for direct purchases of a large percentage of men's (and boys') clothes or strongly influence the time and choice of such apparel purchases.

Take Mrs. Joe Shelnutt, for example. "I don't particularly like shopping for my husband, because he has very definite sense of his own style," said the 36-yearold Clayton County Junior College teacher and freelance wardrobe planner from Jonesboro. "However. time and his work (administrative assistant for Clayton County) do not always permit him to shop. He gives me an overall idea of what he's looking for, and I find it.
He buy his suits, but I buy everything else.
"However, I never buy ties. Once I did, and he said

very kindly, 'Please don't buy me any more'.' Mrs. Shelnutt was among 13 shoppers at Lenox Square on a recent Friday who had similar comments. "I give Stewart a choice of what I pick out for him," said Linda McKibben of Atlanta, who customarily buys everything from suits to socks for her husband. Both of the McKibbens are in real estate sales.

"I just love to shop for men's clothes - I used to go shopping with him before we were married, and we will have been married 30 years in April. I do have to get his approval on dress shirts - he's persnickety about collars," Mrs. McKibben said.

Shopping is usually a "rush job on Saturday after-noon together," said Mrs. Frank West of Atlanta. She and her husband both work (she with Veterans Administration, he with Life Insurance Company of Georgia) The 50ish Mrs. West said shopping for her husband was simply a matter of his liking her taste in men's clothes. Hugo knows what he likes, but he always asks my opinion," said 57-year-old Ann Harrell of Atlanta of her accountant husband's shopping habits. She's a secretary

"Mostly I shop for him, I sure do," said 27-year-old Atlantan Janet Singleton, a housewife. She said that if her 34-year-old husband, a real estate developer, likes what she brings home, he will go get fitted.

The Men's Retailers of America survey also showed that "eye appeal," or fashion, is the most important attraction in the male apparel a woman buys influences the male customer to buy, Caplan said.

Of the 84 stores surveyed, 61 stock male apparel only, while 23 also carry women's wear. The influence of women on menswear sales reported on 700 questionnaires showed the following breakdown:

> Women accounted for 40 percent of the sales in stores carrying only menswear; wear, in stores carrying men's and women's wear, women made 50 percent of the male garment purchases.

· Men accompanied by women made 40 percent of the purchases in menswear stores; in stores carrying men's and women's wear, they accounted for 20 percent of the sales.

The majority of women questioned said they were shopping for their husbands, basing the choices on their own taste, primarily influenced by advertising of local stores and in national maga-

Eye appeal and fabric were major factors attracting women shopping for menswear. Price, evidence of durability and easy care all ranked below visual and tactile appeals as sales stimulants.

Among the items the largest number of women checked as always puchasing were pajamas/socks/underwear, casual sportswear and neckties. Among the items which the largest number of women reported they assisted in buying were suits/overcoats/raincoats and sport coats/slacks.

Because women do most of the shopping for men, a "crowd of them" is expected for the Men's Fashion Show for Women Only to be held 7:30 p.m. Thursday, March 29, in the men's department at Rich's, Lenox Square. Rich's fashion coordinator Winston Wright has created a mix of the very avant garde and the newest in traditional clothes for men. ### CJC instructor holds poetry workshop

By JAN LITTLE Living editor

Dr. Larry Corse, Clayton Junior English department coordinator, conducted a poetry writing workshop Thursday for local poets. During the program held at Forest Park

branch library, he made

several suggestions in writing poems. Specific things, such as, objects, details and events, should be written about. He noted general poems can work just as well; however, "good poetry must be the honest

reponses of a poet to

genuine experiences," he discussing techniques, styles and skills with those present, he said a good example of conveying a simple experience is Robert Frost's "Design" in which the poet describes a spider's

web early one morning. The web was both attractive with the dew sparkling on it but at the same time repelling as the spider attacked a strapped moth, Dr. Corse

He noted local poet Ellen Gay's "I Miss the Country Life" is a collection of images in a non-connected series in which one image triggers another.

Two stanzas from her poem follow. "I love the smell of rain

on a dirt road. Mud between my toes, A kitten's purr, Blackberry cobbler,

I love the country life. I love the song of a whipporwill, Old grist mills.

Rainbows, To draw water from a I love the country life."

Mrs. Gay said she wrote the poem for her children who will never know these experiences

Joyce A Morris, The Fates sit on high in grand array, another local poet at the workshop, said she had And Clotho keeps had some difficulty in spinning.

Clotho and Lachesis, two of three; Atropos controls eternity,

And cuts the thread for vou and me. But--for this--Clotho

keeps spinning." Another of Ellen Gav's poems was discussed during the session. She said she was influenced by William Cullen Bryant's poem on death entitle "Thanatopisis"

"Time moves on in an We live out our lives

### Equal representation

Last week I am sure many of us were surprised to see that neighboring DeKalb county was being investigated by the U.S. Justice Department with regard to the at-large method of electing its school board members and part of its delegation to the state House of Representatives. The contention by the citizens who complained to the Justice Department is that such at-large election procedures amount to discrimination against minority groups and thus deny equal protection under the law.

Lest we too hastily condemn DeKalb, however, for its undem cratic actions, we should remember that Clayton County also chooses its school board and members of the state House of Representatives

by the same at-large procedure. And, while such an investigation by the Justice Department is not likely for Clayton, it could still occur if an organized citizens' group were to get behind the issue.

There is a census coming up in 1980, and this would be the perfect opportunity for Clayton to move forward from at-large representation to the more democratic practice of single-member districts. Why not do it in the name of reform rather than w iting for outside compulsion?

Let us look briefly at the reasons why single-member districts are preferable to our present practice. First, it would simplify the election process. Complexity is the bane of modern politics and at-large elections

are part of the reason. Faced with electing with a large number of people, most of whom they don't know, the average voter will either not vote or v te for the incumbent, which probably helps to explain why incumbents normally favor at-large

Second, at-large elections are more expensive than single-mem er district elections. Anyone wishing to run for the House of Representatives from Clayton must conduct his election on a county-wide basis and in a county with a population of over 130,000, this is an expensive proposition.

Third, single-member districts would promote accountability of the office-holders to the electorate. Each voter would have an identifiable representative on the school board and in the House of Representatives. This would probably increase voter interest and turnout in elections.

.ZNotice that all of these reasons are also reasons for incumbents to favor retaining at-large elections. Voter ignorance always benefits the incumbent. Expensive elections make it more difficult to get elected to a position, but once there, make it less likely that there will be opposition at each election. Accountability is indirect when an entire slate is elected by a large, diverse group of voters.

Let us hope that our elected representatives take up this issue as the 1980 census approaches and deal with it in a progressive manner. I do not believe making our election process more democratic can be harmful. Single-member districts should insure competition for office, make elections cheaper, and promote accountability. Surely these things will promote our political health.

(Robert H. Welborn is assistant professor of history at Clayton Junior College and a weekly columnist for the News-Daily. The opinions expressed here are his own and do not represent those of the college).

### Energy crisis

An opinion poll released this week showed that while a majority of Americans wanted to see a windfall profits tax placed upon the oil companies, a majority also did not want to see the price of domestic oil decontrolled. And perhaps most disconcerting for the Carter administration, almost two-thirds of those polled did not believe that there was any shortage of oil supplies.

Clearly, the administration has not succeeded in convincing the public of the reality of an oil shortage.

The United States is currently importing more oil than ever before. The price of this imported oil is running \$14-\$20 per barrel, the highest price ever. This price will almost certainly increase again before the end of the year. Domestic oil now provides slightly more than half of our needs, while in 1973 (the year of the embargo) domestic production was providing two-thirds of our oil. The United States is piling up a huge trade deficit and most of this deficit is the result of the enormous amount we are paying for imported oil. This flow of currency overseas has been a major factor in the decline in the value of the dollar. It has also helped to fuel inflation.

Is there a shortage of oil supplies for the near future? The best answer to this question is a modified no. If

demand continues to grow at its current rate, however, we may very well be faced with shortages within five years.

As a result of high prices, there has been increased exploration, with the result that enormous new reserves have been discovered in Mexico and current exploration could lead to new discoveries in China.

Thus, what we are faced with is a situation in which we must control the demand for imported oil or face a continued decline in the value of the dollar, continued inflation, and oil shortages in the near future.

This brings us to the administration's answer to the problem--dampen demand by allowing oil prices to rise through decontrol of domestic petroleum. The present law authorizing control of domestic oil is due to expire in 1981.

But will rising prices dampen demand?

If we were suddenly faced with \$1.50 per gallon then I do believe demand would at least stabilize, if not decrease, but these gradual rises have not been effective.

Perhaps trying to control demand before the gasoline gets to the pumps would be a better answer, but so far the administration has not been willing to consider this alternative.

(Robert H. Welborn is assistant professor of history at Clayton Junior College and a weekly columnist for the News-Daily. The opinions expressed here are his own and do not represent those of the college).

Lee's first graders spend day on farm

Staff Writer Elementary school groups are famous for taking field trips, but only rarely do the children actually end up in a field of the kind where hoses and cattle graze. Such as the case Friday, however, when the entire Elementary in Jonesboro was the guest of Truett Cathy at his farm near Hamp-

About 90 children, along with several teachers and aides, boarded two busies for the trip down to Cathy's farm. Once there they spent all morning experiencing farm life, and capped off the trip with a picnic lunch.

'Very few of them, including me, had ever been out to a real farm before," said Mrs. Vickie Lambert, a first grade teacher at Lee Street.

Mrs. Lambert said the students had been studying farm life through books and film strips, and that the opportunity to go to Cathy's farm coincided "perfectly" with their curriculum.

While at the farm each pupil got the chance to ride a pony, pet a newborn calf, ride on a hay wagon, and run rampany over the spacious fields. The children seemed especially fond of the calf, who Cathy said was born just two or three

Mrs. Rita Dick, an aide at Lee Street and a friend of the Cathy's from church, arranged for the morning trip. "I knew the Cathys had church groups out to their place, and so I decided to

call and see if they would have the Lee Street children.

Cathy, who said he was "glad to have them", took charge personally of showing the group his farm. He received assistance from his daughters-in-law, Rhonda Cathy and Cindy Cathy.

# NEWS/DAILY Wednesday, May 9, 1979 CJC instructors promoted

Four members of the Clayton Junior College faculty Billy R. Nail (right), dean of the college. Pictured from

who received promotions from the rank of "instructor" to left are: Dr. Downs, Patricia A. Noble (dental hygiene), "assistant professor" recently received congratulations Barbara H. McCant (nursing), John H. Kohler III from Dr. Harry S. Downs (left), CJC president, and Dr. (history), Vivian A. Thompson (art), and Dr. Nail.

Four members of the faculty at Clayton Junior College have received promotions from the rank of "instructor" to that of "assistant professor," according to Dr. Billy R. Nail, Dean of the College.

The promotions, to become effective on September 1. 1979, were approved at the April meeting of the Board of Regents of the University System of Georgia.

Receiving promotions were John H. Kohler, III (history), Barbara H. McCant (nursing), Patricia A. Noble (dental hygiene) and Vivian A. Thompson (art)

Kohler, a member of the Clayton College history faculty since 1973, earned his bachelors degree in political science from Millsaps College in 1964, and his masters degree in history from Appalachian State University in 1973. A native of Pensacola, Florida, he taught math at a junior high school in Gretna, Louisiana, and served as a graduate assistant at Applachian State.

Ms. McCant joined the College's nursing faculty at the start of the 1976 Fall Quarter. Born in Birmingham, she received her bachelors degree in nursing from Tuskegee Institute in Alabama. Prior to joining the CJC faculty, she served as an instructor of medical-surgical nursing at St. Joseph's Infirmary School of Nursing, and as a staff nurse at hospitals in Decatur, Georgia; Tacoma, Washington; Tuskegee, Alabama; and Dothan, Alabama.

Ms. Noble earned an associate degree in dental hygiene from State University Agriculture and Technical College in Farmingdale, New York, and a bachelors degree in education from Ohio State University. A member of the CJC faculty since September of 1974, she served as a dental hygienist for doctors in New York and in Chamblee, Georgia, prior to her teaching assignment at the two-year institution near Morrow.

Ms. Thompson, like Kohler, joined the CJC faculty at the start of Fall Quarter classes in 1973. Born in Indianapolis, she earned a bachelors degree in anthropology from the University of Pennsylvania, and served as a teaching assistant of art while obtaining a masters degree in art history from the University of Illinois.

Clayton Junior College will begin its 11th year of operation when Fall Quarter classes open in September.

#### Credit criteria

If you have had a loan request approved at a commercial bank, it means that you were the subject of a rather thorough credit investigation. The facts supplied by you and the results of the credit investigation were the basis for a credit analysis by one or more lending officers or possibly a credit committee.

The larger the amount of credit requested, the more individuals usually involved in the ultimate decision to lend or not to lend. The extension of credit involves a judgment concerning uncertainty or risk; essentially, the question is whether the loan will be a good one and repaid as agreed. In this case, sometimes two heads (or a committee) are better than one in insuring that the degree of risk has been adequately considered.

Competent lending officers are careful not to leave a borrower with the feeling that they have been the prey of that anonymous, back-room, all-knowing credit committee.

Having had a loan approved, it means that you or your company passed muster. You met the criteria of satisfactory or acceptable credit that are expressed as the "C's" of credit. In the judgment of the lender, you apparently are considered basically a person or entity of good character. This means that you appear to have good intentions, apparently can be trusted, and can be expected to meet your commitments. Good character, the first C, is considered, far and above, the most important ingredient in

Other C's of credit are of varying importance depending

on the situation and the type of loan. For example, your credit rating is important. Your past record of performance is a good indicator of what may be expected from you in the future. Have you met your past obligations and did you do so promptly?

Capacity to pay is important. Do you make enough income or have other sources of funds for repaying the loan? These sources may be, other than income or profit, cash flow or the liquidation of an asset.

The question of ability to repay is increasingly receiving more consideration in the credit analysis. Loan losses experienced by many banks during the most recent recession make not only the reliability of repayment sources somewhat suspect by also more attention is now devoted to what a borrower could do under adverse business conditions.

For example, if a company has a drop in sales, which would have resulted in profits and cash flow sufficient to service or repay a loan, are other sources of repayment available, such as the liquidation of investment securities?

As an individual, if you had to change jobs, would you have enough in savings to handle your obligations for somewhere in the neighborhood ree months? Economic conditions, as just mentioned have a serious effect on a good loan and a disastrous in

Collateral, another "C", basically pro security or protection for a loan. Collateral in most in on the purpose of the credit, as well as the ded protection deemed necessary to justify the loan. F ample, if you finance a car, you pledge the car as collat . If a company finances receivables or inventory, these are pledged.

In order to get a loan when having financial problems, you may need to pledge extra collateral to reassure the lender that repayment can be made. In other words, the lender can foreclose on the collateral; sell it and pay the

Probably the most important aspect of a loan request is the insight gained by the borrower of his or her finan al condition. This results from a self-appraisal preliminary to a loan request plus the response to a lender's probing

SHORT STORY CONTEST WINNER ELISABETH NOWLIN, (L) OF LOCUST GROVE CJC Judges Were Dr. Collins, Dr. Pasch, And Dr. Goldberg (L-R)

#### From Henry County

### Short story winner named

Living Editor Elisabeth Nowlin of Locust Grove was selected winner of the short story contest sponsored by Clayton Parks and Recreation Department, Clayton libraries and Clayton Junior College.

Judges also selected a youth and an adult winner in the poetry contest. Sheryl McGee of Conley was chosen the youth winner, and Ellen Gay, adult winner.

Nowlin's story, entitled "A Man Is a Giant," concerns a couple's adjusting to a small fishing village's change into a tourist attraction.

Reba, the wife, tells her husband Bill, "Nothing's the same and never will be. It would take a miracle to weld our lives together again.

"I'm afraid. Everything's so...so overpowering." She looked into Bill's face. "And we moved so fast. All the crowds and the tourists. I still hate it, not the money, but... Bill tells her, however, that if tourists had not been

lured to the town it "would have packed up and left this island to the gulls. We were broken, finished. The conflict is resolved for Reba when Bill proves he

has not become a "little man" but has instead grown taller from the change. Mrs. Nowlin said she wrote the story several years

ago and completely reworked it prior to the contest. "I do write constantly," she said. "I've had a few things published but I have never been a financial

Having her story selected by the judges has "very much encouraged" her, she said.

Judges for the contest were members of the Clayton Junior faculty in the Humanities division: Dr. Pat Collins, Dr. Bill Pasch and Dr. Fred Goldberg.

Their comments on why they selected the story included: Mrs. Nowlin's "sensitivity to feeling and emotion" and the strong emphasis on character development. One judge said the story was a "fairly risky sort of undertaking" with an unusual idea and

Dr. Pasch said strong points in McGee's poem were her conciseness and the "focused image of the golden

"Idle Time" by Ellen Gay is "clearly superior for the writer keeps the scene and language under control throughout," said Dr. Goldberg.

An excerpt from McGee's poem is, as follows: "Does time repair

the wounded heart. That unkindly people

have torn apart?

Ellen Gay's "Idle Time" depicts an old man fishing for catfish:

'Sunrise finds the old man digging bait, Steps quicken as thoughts race ahead to the

Robert H. Welborn

### Department of Education

It feels odd writing a column in favor of something being proposed by Congress, but in this case I have decided to put aside the pleasures of opposition. This marvelous piece of legislation that I asctually agree with is the bill creating a separate Cabinet level Department of Education.

Now I realize that being in education, I will be accused of selfinterest in taking such a stand, but the University System of Georgia does not receive any federal aid to pay salaries. Thus, there is no direct personal gain to be considered, only the question of what is best for education from a national per-

The purpose of this bill, which has passed the Senate and is now awaiting action in the House, is not to establish federal control over education or to create a unified national education system such as exists in most European countries.

May 13, 1979

The purpose is to consolidate most of the over three hundred education programs that are now scattered throughout not only the Department of Health, Education, and Welfare, but also such agencies as the Departments of Labor, Justice, Agriculture, and the National Science Foundation.

HEW has become a to-heavy. unmanageable bureaucracy due to the growth in responisibility of each of the three separate parts of the Department. Consolidation of educational programs into a separate department will result in a Health and Welfare Department of more manageable size and should lead to greater efficiency in educational programs.

Also, the new Secretary of

Education will have to answer directly to the President and Congress, and should therefore be more responsive to public needs.

The budget for all federal education programs for 1979 is \$12.5 billion, a sum greater that the total budgets of either the Department of Justice or the Department of Commerce. Consolidation is being proposed as a way to better manage such programs, not as a means of expanding the federal role in education.

And while we're on the subject, let's put this question of federal aid to education in some perspective. Only about six per cent of this year's operating budget for Clayton County schools will come from direct federal aid. The percentage is certainly greater in poorer school districts, but the fact is that on a national basis only about ten to twelve per cent of all the money spent on education last year came from the federal government.

State and local governments are now providing and will continue to provide the bulk of the money necessary for education at all levels in this country. The present bill does not add any new programs, it simply seeks to provide better management of existing programs through consolidation.

### Revenue sharing again

This week I am returning to the topic of Congressional efforts to reduce the revenue sharing program. Last week I reported on the budget resolution of the House of Representatives to eliminate completely all revenue sharing funds for the states

It now appears that this effort has been blunted, but in a conference committee of Senate and House members last week a new budget resolution was adopted which would cut some \$300 million from the state's share of revenue sharing funds for fiscal 1980 (Oct. 1, 1979 - Sept. 30, 1980). ss is now proposing to cut less than first indicated, the intention is clearly still the same,

possible kill the program when it expires at end of fiscal 1981.

Congress is reducing revenue sharing in the name of budgetary restraint, but can we really believe that if \$300 million is cut from revenue sharing that these funds will be save? My guess is that there will simply be a transfer of funds to another program that is looked upon more favorably by the Congress.

Congress also contends that simply granting lump sums to local and state governments results in a great deal of frivolous expenditure. Far better, our esteemed representatives contend, to let Congress guard the taxpavers funds so that local mayors and county commissioners will not be able to reduce revenue sharing and if fritter away these grants on expensive

The blunt truth is that Congress wishes to eliminate revenue sharing because it is not able to control the expenditure of funds provided by the program. But after all, where did these funds come from other than the pockets of millions of taxpayers? What better way to spend taxes than ving some of these funds to go back to the local level to directly benefit every county and city in the country?

As for the charge of frivolous expenditure, let's examine some of the facts in our own area. Clayton county received some \$1,500,000 in revenue sharing funds this year and the money has been appropriated toward the purchase of capital equipment such as police cars, trucks, and bulldozers. The city of Riverdale is receiving \$47,187 this year which it is spending for office equipment, vehicle purchases, and park improvement. The city of Morrow will receive \$45, 945 for fiscal 1980 and plans to spend this on police communication equipment, a fire department ladder truck, and equipment for a rescue unit. If these are examples of local governments wasting money, I wish Congress could learn how to waste funds the same way.

One final item. If revenue sharing is severely cut or not renewed in 1981, local governments will either have to make do with less or raise taxes. And the money that might have been used to help our cities and counties provide better services will be distributed among grant programs that Congress can and will control.

### Oil controversy

June 6, 1979

A great deal has been written and spoken about our energy crisis over the past year, but I would like to add some comments about what John Swearingen, president of Standard Oil of Indiana, said, as I recall them, on television this past Sunday on ABC's 'Issues and Answers.'

My comments do not represent those of an oil expert. Instead, they are written from the perspective of an individual very interested in the effective operation of our free enterprise economic system.

Several of the most important points, in my judgment, that Mr. Swearingen made in the interview were omitted in at least one written report of what he said

First, he made the point that the major oil companies are owned by millions of the American public, including institutions such as pension funds. Now - if you or your pension fund owns stock in an oil company (maybe you better check), why should we be so eager to curtail their profits? You might prefer to get a better return on your investment through some increased dividends. And also, to what extent do you think the government should regulate your company's profit?

The oil industry is not considered to be a monopoly or oligopoly where justification can be made for some regulation, albeit not always too efficient, effective or fair. (A monopoly is one company controlling a market; an oligopoly is a few companies controlling a market.) It is my understanding that not 80 percent, not 50 percent, but less than 35 percent of the oil in this country is refined by the four largest oil companies. This percentage still leaves plenty of room

Second, another question concerned the unrealized profit of the oil companies resulting from the increasing value of oil reserves caused by increasing consumer prices. I pose the question of how much of this unrealized profit, when realized, will be needed to make new investments in costly exploration and more expensive oil recovery?

This increased cost will result partly from the problems of scarce oil in hard-to-recover areas.

Do you know of any industry, not just the oil industry, where inventories are not increasing in value because of the price spiral? How much of the increased cost will result from the general inflation, not just oil price inflation, caused to a substantial extent by an Administration or Congress inept, or unwilling to cut taxes, cut expenditures, or both to stabilize the economy as they are directed to do by law?

One question asked Swearingen concerned the move by some oil companies to spend profits diversifying or buying into other industries. As I recall, Mr. Swearingen did not address this question in any length. But, ask yourself, why shouldn't the oil industry diversify if it makes good economic sense and is in the best interest of the owners - most other industries have to various extents.

What about the consumer and the higher price paid for gasoline and home heating? Tell me an easier. more efficient method for rationing gas other than letting the price system do it. Perhaps you prefer a system of rationing which will involve worrying with gas coupons.

And what of the poor? Why not an adjustment of existing systems of subsistance? This seems preferable to another bureaucracy for administering a rationing system. We already have one new bureaucracy

with the Department of Energy. There are no easy, cut and dry. answers to the questions requiring answers in the oil controversy. The problem of the supply and the price of oil prevade our economy, but maybe, just maybe, the free enterprise system, without unnecessary government intervention is the best solution to the problems. At best, any decisions surrounding the controversy will involve making value judgments judgments where it is difficult to discern clear-cut right or wrong

### Occupational tax

On May 7, Atlanta City Councilman James Howard introduced a proposal to the Atlanta City Council which would provide property tax relief for city taxpayers by establishing an occupation tax for everyone working in Atlanta. The proposal has been studied by the city's finance department and will come back before the full Council on June 25 for adoption or rejection.

The negative reaction by officials of surrounding counties and cities (and even the governor) was quick and heated. The consensus seemed to be that Babylon on the Chattahoochee was not only intent on subverting our morals, but also flattening our

At the risk of going against this tide of anti-Atlanta sentiment, I would like to offer a little perspective on what is being proposed and why First, it is not a new idea. A number

of cities around the country have instituted such taxes over the years, the closest large example being the city of Birmingham.

Second, there is a real need for some property tax relief for Atlanta taxpayers. The city has the highest property taxes of any city in the state. Fulton county has, by the recent twomill increase, the highest property tax of any county in the state. But the cost of providing services continues to increase, with the expectation that if another revenue source is not found. property taxes will be increased again

next year. Atlanta already has lost too many middle-class families. Without some relief, the city could very well become home only to the very rich and the very poor, certainly not a healthy situation.

As to the actual provisions of the proposed tax, they appear simple and

about as fair as any tax can be. Anyone working in the city of Atlanta (this includes Atlanta residents) would pay a yearly tax based on income earned within the city limits. This would vary from \$24 per year for anyone making up to \$5,000 annually, up to \$198 per year for incomes over \$19,000. The only exceptions would be professionals such as doctors, lawyers, and engineers who already

pay an occupation tax. The estimates being used by the city planners show some 320,000 people working each day within Atlanta city limits, and of this number some 49 percent are assumed to be city residents.

That unpleasant fact which must be faced by the city council of Atlanta is that the cost of services is going up faster than revenue. They must either raise more revenue or cut services, both of which are unpospular.

To raise revenue by increasing property taxes that are already high is to add another straw to the proverbial camel's back. To raise revenue by increasing the sales tax would give Atlanta the highest sales tax of any city in the state, hardly a desirable position either. The occupation tax would at least spread the burden of financing expensive services and provide some property tax relief for Atlanta homeowners.

(Robert H. Welborn is assistant professor of history at Clayton Junior College and a weekly columnist for the News-Daily. The opinions expressed here are his own and do not represent those of the college).

MCQUEEN (L), POWELL PRESENT CHECK TO BOLANDER \$2,350 Check Was One-Half Of Contributions Pledged By School Employees

### Heart fund gets check

Clayton County Unit of the American Heart

Foundation President James "Pete" McQueen and Lacy Powell, secretarytreasurer of the organization, made the presentation to Robert "Bo" Bolander,

executive board member of the Heart Unit. The check represents one-half of the contributions pledged during this past school year by employees of the school 1979 goal.

The Clayton School Employees Foundation has presented a \$2,350 check to the research and community and professional research and community and professional education program.

Speaking of the payroll deducting type plan, Bolander said "we think this is a model approach. We are proud that the Employees Foundation has chosen this method of support.'

Heart Fund Chairman Wayne Hayes said that this contribution helped to bring the overall Heart Fund total to 86 percent of its

### A State Airport?

Atlanta's control over Hartsfield International Airport.

The two most controversial problems connected with the airport are money and noise, and they are interrelated. Put in its simplest terms, Atlanta gets most of the money, while Clayton County gets most of the noise.

The situation as it stands today is basically this-- Clayton County receives property taxes from those portions of the airport within its boundaries. The amount of such tax receipts will soon increase

new mid-field terminal, which lies entirely within Clayton County. The city of Atlanta not only receives property tax, but due to its status as governing body over the airport, receives all business license fees and business taxes.

This situation may change within the near future. An idea that has been mentioned many times before, putting the airport under state authority, has a chance of being passed. Representative Rudolf Johnson of Clayton County introduced a bill in the 1979 legislative session which would create a Metropolitan Atlanta Airport

Commission to govern the airport.

This 18 member commission would be composed of representatives from Fulton, Clayton, and DeKalb counties, and the state at large. Certain officeholders would automatically sit on the commission, such as county; commission chairmen, while the rest would be appointed. This bill is now in a subcommittee of the House Rules Committee, and will be taken up again

in the 1980 session The basic justification for such a drastic change is that such diverse membership on the governing body would provide better representation for all of the surrounding areas, plus the state at large. Wide membership on the governing body should insure a more sympathetic ear to the probems of the surrounding counties than has been customary with the airport under the sole authority of the city of

Whether the bill passes or not, it should provide our local officials and representatives with a useful bargaining tool in their negotiations with Atlanta concerning Clayton County's two basic desires concerning the airport, some alleviation of the noise problem and a share of business license receipts.

sleight-of-hand skills

CJC professor perfects

Fire Magic Is One Of Dr. Braun's Specialties

Tricks performed by Braun for his CJC classes tie in with required lab work. "I sometimes do chemical-related tricks for the students," he notes. The winking (chemical) reaction trick, for example, shows liquid changing from clear to blue with a touch of the finger.

Or Braun may apply his "magic" spray to a plain white piece of paper, displaying an ace of diamonds. Often, he throws in a little fire magic to heat up the shows.

"It's easier to perform for children," Braun points out. "They are easier to fool and their tricks do not always require a big degree of sophistication. With adults, it's easier for them to keep their train of thought, but they have a greater appreciation for what you are doing."

Braun, who resides in Rex, is a graduate of Washington University, St. Louis, Mo. He has been teaching chemistry at CJC for two years.

# When Things Fell Apart, She 'Started A New Life'

News Editor

Seven years ago a Stockbridge woman found out she had cancer, underwent a mastectomy operation, took cobalt treatment and found out her husband of 20 years wanted a divorce.

That was when things fell apart emotionally for Virginia Pfautz, and she remembers going into a depression that it took two years of weekly visits to her pastor for counseling and a totally different way of life to overcome.

With all this happening, I realized I had to turn my life around and start a new life," she said. Her new life, as it turns out,

involves keeping busy with involvement in the community. She is a member in a writers'

club, a drama club, the Henry County Hospital Auxiliary and a singles group.

Ms. Pfautz also works as a substitute teacher, runs a program called Fun-In-Learning for 25 children during the summer months, and tutors elementary students in-

She is also working on three books, reading as much as she can. and taking every available community service course at Clayton

"My idea now is that you can make good come from bad," she

"I know you can make good come from a divorce and an illness," she adds. "As a result I am a very happy single.'

"If anyone had told me I would be a substitute teacher I would have said they were crazy," Ms. Pfautz comments. She is a charter member of Pen

and Pica, a writer's club that meets in Morrow, and of Clayton Little Theatre. Ms. Pfautz also belongs to Gathering Point South, a singles

groups and to the Fairview Civic But she is most involved in Fun-In-Learning, her own pet project, which she does "because "I love

Ms. Pfautz says she started the

club, which meets on Wednesdays at Stockbridge Presbyterian Church, to help children learn and have a good time during the sum-

"I am constantly looking up some kind of craft to help a child learn," she said. "I missed my calling as a teacher.'

Two of the three books Ms. Pfautz is writing are about her two loves-the Fun-In-Learning Club and Boston Terriers.

The book about the club is an attempt to help other communities set up a similar club, and the book about Boston Terriers will show what a good house pet the dog

Ms. Pfautz has worked "in every phase of the dog field," she says. including being a professional handler and running a kennel.

The third book is an autobiography, although she says she may have to change some of the

"I'm satisfied with the way may life is," Ms. Pfautz said.

## THE HENRY NEIGHBOR August 24, 1978 Students Named Word Scholars

Two Henry students have been named to receive John Word West Scholarships at Clayton Junior College during the

1978 through 1979 academic year. The scholarship program at the college was made possible as the result of a grant made to the college by the Jonesboro-based John Word West Educational Foundation,

Assistance is designed to encourage deserving students

who might not go the college without it. One of the winners is Joseph T. Autry of Stockbridge, a Pre-Engineering major. The son of Mr. and Mrs. Joseph T. Autry of Beacon

Street in Stockbridge, he will begin his studies at Clayton Junior in September. Pamela Bunn of Stockbridge, a Pre-Physical Therapy

major, was also named. The daughter of Mr. and Mrs. Richard E. Bunn of Beacon Street in Stockbridge, she will enter the college

during the fall quarter. John Word West Scholarship recipients normally receive a scholarship to cover all resident tuition and fees for one academic year at Clayton Junior, and students who receive these awards are given preference for a second oneyear award.

Terri Dawn Pitts
Terri Dawn Pitts, 20, of Jonesboro, is a 1976 graduate of North Clayton Senior High School and attended Clay Junior College. For her talent in the Miss Clayton Pageant, Terri will perform a baton, dance routine.

Connie Gail Lambert is the 19 year old daughter of Mr. and Mrs. Leroy Lambert of Riverdale. She is a graduate of North Clayton Senior High School and attended Clayton was a music major. Miss Lambert will dance for the talent protion of the pageant.

# And The Winner Is...

...Miss Terri Dawn Pitts, 20, daughter of Mr. and Mrs. Farrell Pitts, of Jonesboro, won the Miss Clayton County title Saturday

The annual event, sponsored by the Jonesboro Jaycees, drew a large crowd to the auditorium of the Jonesboro Junior High School, where Debbie Wilkerson, of Morrow, Suzanne Sellers, of Riverdale, and Elizabeth Britt, of Forest Park, were named first, second, and third runners-up. Miss Wilkerson also won the Helen Couch Congeniality Award.

Above left, Miss Pitts, who performed a baton routine as her part of the talent competition, is congratulated on her win by last year's Miss Clayton County, Frankie Little.

Above right Donna O'Neal impresses the judges in the swimsuit competition, while below right, Miss Pitts accepts the crowd's applause during her ritual walk down the runway. She won a \$500 scholarship and a chance to compete next June in the Miss Georgia pageant in

Pastimetalent

#### Terri Pitts wins Miss Clayton title

By VICKI REARDEN

Living Editor When Terri Dawn Pitts started teaching herself how to twirl the baton at 13 years of age, she had no idea the pastime would help her win the 1978 Miss Clayton County title.

But Miss Pitts' twirling routine, along with her brown hair and hazeleyed beauty, captured the judges attention Saturday night--and captured the crown for the Jonesboro

"I taught myself how to twirl when I was in junior high, because I wanted to try out for majorette with the band," said the excited new Miss Clayton County, who is majoring in spanish at Clayton Junior College.

"I can't believe I won, but I am looking forward to representing the county and meeting lots of new people," said the daughter of Mr. and Mrs. Farrell Pitts of Jonesboro. Runnersup in the pageant include

Debbie Wilkerson, daughter of Mr. and Mrs. Homer Wilkerson Jr., Morrow; Suzanne Sellers, second runnerup, daughter of Mr. and Mrs. James Sellers of Riverdale and third runnerup, Elizabeth Britt, daughter of Mr. and Mrs. Otho Britt of Forest

Miss Wilkerson captured the affection of her fellow contestants

more photos, see page 5

when they voted her "Miss Congeniality." Miss Wilkerson was presented the Helen Couch Congeniality Award.

Miss Pitts performed an impressive twirling and dance number dressed as an Indian to the music "The Good, The Bad, and the Ugly.' The new Miss Clayton County has had only one year of formal baton training, studying under Mike Moore.

a world champion twirler who was featured with the Florida State band. However, the beauty has won over 250 twirling trophies in twirling competitions. She has also served as a Dogwood princess, and was in the top five in the Miss Georgia USA pageant.

A 1976 graduate of North Clayton High School, Miss Pitts was an honor student, and selected as Miss Talent at school. She has been on the Dean's list at Clayton Junior College, where she is finishing her second year. This summer she is working for a rent-acar agency at Hartsfield Airport.

The new Miss Clayton County wins a \$500 scholarship and the opportunity to compete next June in the Miss Georgia Pageant in Columbus.

Judges for the pageant included Hugh Gregory of Atlanta, Wayne Lee of Columbus, Robyn Allen, business manager for the Miss Georgia Pageant, James Dudley of Forest Park and Mary Rudat.

Emcees for the evening were Bill Jullian and Debbie Bridges Walker, the 1975-'76 Miss Clayton County. Miss Pitts becomes the 21st Miss Clayton County, and was crowned by

last year's winner, Frankie Little. For the first time in the 21 years of

the pageant, sponsored by the Jonesboro Jaycees and Jaycettes, the audience was entertained by a live band, thanks to the talents of the Clayton Junior College Jazz Band, under the direction of Bill Gore.

Friday, September 22, 1978

Clayton Junior College has announced its summer quarter dean's list, which includes 59 Clayton County students.

See page 3

# September 22, 1978 **CJC** announces new dean's list

Clayton Junior College has named 93 students to the summer quarter dean's list, according to Dr. Billy R. Nail, Dean of the College.

Included on the list were 59 from Clayton County-16 from Jonesboro, 12 from Froest Park, 10 from Riverdale. eight from College park, seven from Morrow, three from Conley, two from Rex, and one from Lake City.

Students from Jonesboro named to the list included: Valerie A. Bahr, Roger K. Batson, Madeline F. Evans. Alfred J. Iseli, Elmer T. Kinkade. Erika C. Kruetter, Deborah Y. Massey, Rodney A. Owen, Kristina K. Peek, Rebecca E. Pilotte, Thomas F. Reese, Jr., Ruth M. Spinney, Joel E. Tarpley, Elyene S. Thompson, Pamela G. Wall, and Ellen M. Woods

Forest Park students named were: Janice M. Gazafy, Nancy C. Gifford, Elizabeth M. Henderson, Jonell D. Jeffries, Linda G. Mackey, Karen B. Mayberry, Sylvia F. Morris, David T. Patterson, William B. Southern, Alan G. Stensland, Betty S. Vaughn, and Rita B. Williams.

Honorees from Riverdale included: Laura G. Bailey, Martha J. Ball, James A. Chapman, Marie E. Jarrard, Sherry D. Norris, Cynthia M. Orihuela, Deborah A. Pryor, Julie M. Rayburn, Mary L. Thomason, and Judith P.

Students from College Park included: David W. Abt, Hannah S. Baker, Sherry L. Bates, Curtis L. Cole, Cheryl B. Crawford, Daisy I. Gantt, Kenneth R. Holley, and Reid

Morrow honor students were: Jane Y. Daniel, Susan M. Eller, Sandra S. Ellis, Mark D. Gauthier, Denise S.

Greene, Paula A. Mackin, and Pamela J. Wiggins. Other students named included: Teresa R. Greer, Linda D. Jones, and Joseph H. Thompson, all of Conley; Carol A. Braun and Audrey L. Gasaway of Rex; and Tracie E.

Miller of Lake city. To make the Dean's List, a student must maintain a grade point average of 3.6 or higher out of a possible 4.0

The Summer Quarter, which began in June and ended in August, attracted 1,226 students to the Morrow campus.

MUSIC AWARD WINNERS

Doris Holloway, coordinator of music at Clayton Junior Col- ber and Steve Shivers. Annual presentations are made on lege, presented special music achievement awards to three behalf of the music faculty of the two-year college to stusophomore music students. Shown with Mrs. Holloway (sec-dents who have made outstanding contributions in service ond from left) are recipients Lenora Holloway, Laurel Hum- and performance.

Two recent graduates, one Junior College.

Area Students Awarded Clayton Junior Scholarships

Eighteen students representing the 1978 graduating classes of high schools in the four-county area of Clayton, Henry, Fayette and South Fulton, have been awarded twoyear scholarships to attend Clayton Junior College. Eleven of the students were from South Fulton and

Fayette Counties. Funded by the Clayton Junior College Foundation, Inc., the "Foundation Merit Scholarship" winners were announced at graduation ceremonies conducted last spring.

Earlier, the foundation announced the awarding of eight "Foundation Talent Scholarships" to outstanding students who plan to major in selected fields, making a total of 26 new scholarships awarded this year. The two-year awards, worth \$684, cover the cost of tuition and fees during two years of study at Clayton Junior College.

THE NEW AWARDS were a part of a \$19,836 scholarship program ap-proved by members of the foundation's Board of Trustees for the 1978-79 year. The budget includes funds for 31 new scholarships plus funds for the second year of 27 scholarships awarded last year. Of the 58 scholarships currently funded, the foundation anticipates at least 50 students to be enrolled during the fall

Scholarship recipients have three years to utilize their two-year awards.

quarter.

'Foundation Merit Scholarships" are designed to recognize and reward outstanding area students for their record of academic achievement in high school. Awards are provided for the highest ranking graduates of 17 high schools in the four-county area who elect to attend Clayton Junior College. Two awards were made at Morrow Senior High this year since two valedictorians of the school will be attending the two-year institution near Morrow.

tured the crown of Miss Clayton County from a field of thirteen contestants Saturday night,

August 12, in Jonesboro. The annual Beauty Pageant, a preliminary to the Miss America Contest, is sponsored by the Jonesboro Jaycees. Their Miss America Franchise covers Clayton, Fayette, and South Fulton Counties.

Terri is the daughter of Mr. and Mrs. Ferrol Pitts and resides with her parents on Simpson Road in Fayette County.

The raven haired beauty is a championship baton twirler and her talent selection was a modern dance routine incorporating the baton. Dressed in a costume designed around Indian lines, she performed to the theme from "The Good, The

Bad, and The Ugly." Terri, 20, has won numerous trophies and titles in baton

Miss Terri Dawn Pitts cap-ared the crown of Miss Clayton North Clayton Talent of 1976, Miss Peachstate Majorette, Miss Dogwood Majorette, Miss Bi-centennial Majorette.

A member of the National Baton Twirlers Association, Terri has also won the NBTA titles of Miss Emerald Isle and Miss Coastal Empire.

She graduated from North Clayton High and is presently attending Clayton Junior College and is working towards a Master's Degree in Spanish. she plans on entering Georgia State University. Her future plans call for a career as a

translator. Terri entered the pageant at the last moment and only then because one of the original contestants had decided not to compete, and that left room for one additional contestant.

Previously a First Runnerup in the 1977 Miss Atlanta Pageant, she said of her victory competition including, Miss in the Miss Clayton County Majorette of Dixie, Sweetheart Pageant, "I can't believe it."

Forestry Princess At Fair

STOCKBRIDGE NEWS

August 29, 1978 BY CINDY GLOZIER

# Reporter Bids Heartfelt Adieu To Henry County Readers

Back in January, I wrote my first regular weekly column for The Stockbridge News. Today, I'm writing my last.

As a typical news reporter who suffers from having a bit of gypsy blood in my veins, I've gotten the urge to try my luck at broadcasting. I start tomorrow as news director for a small radio station in the metro area.

As I write, I look forward to my new job, but at the same time I feel sad about leaving my typewriter at the Lawrenceville Street office of Henry County Newspapers, Inc. in McDonough.

I've learned a lot since the day I walked into Robert O Linch's office looking for a reporting job. Having worked on my college paper, I was sure then that I could write. Having worked in the real world, I am sure now that writing is cally a part of the entire game.

Since I came here as a reporter in February, 1977, The Stockbridge News has grown from a tabloid advertiser to a small weekly newspaper with quality reporting and front page color.

The Henry Herald, also published by Henry County Newspapers, Inc., has taken on a more modern name and look. When I started my journalism career, The Herald was The Weekly-Advertiser and ran only black and white pictures on the front page. As seen in Georgia Press Association

competition last year, The Herald is quickly becoming one of the best weekly newspapers in the state. I'm sure next year's competition will prove my point.

Looking back on my year and a half here, I've come to realize that the technical aspects of the news business -- such as sentence

structure, capitalization, layout, photo processing, ad design, etc.--aren't half as important as the human factor involved in reporting.

The most expensive and efficient communications equipment in the world, along with the most precise command of the English language, can't be effective unless people and their needs are considered first.

A photographer with the best camera ever made and a writer with the most efficient research system ever developed can't do a good job of reporting an event unless they work together to give the story a real and human

During my months in Henry County, I've been accused of being biased, a sensationalist, incompetent, and ignorant. I've made mistakes and learned from them. I've found that the truth sometimes hurts and that accusations often mean the truth has hit home. I've also learned that if no one reads, no one reacts.

I guess I've written enough philosophy for one column. All that remains is a word of thanks to readers for digesting what I've written almost every week for the past eight

I've enjoyed poking fun at politicians, my friends, my family and myself. I've felt obligated to throw in an occasional serious piece for good measure. I hope you've laughed and thought along with me.

I leave Henry County Newspapers as I left high school in 1975 and Clayton Junior College last year--with a lot of learning behind me and a lot more to come. cig

#### Church of Jonesboro, will deliver the ordination message. Dr. Lester Cooper, pastor of Valley Hill Baptist, will give the charge to the can-\_didate and direct the serrices for the afternoon. #### Clayton students perform

A number of Clayton County students will be participating in Southlake Mall's Christmas Festival of Music. Concerts will be held each weeknight and each weekend beginning on Nov. 27 and running until Dec. 23. Concerts each weeknight will begin at 7:30 p.m. while Saturday performances are scheduled at 3 and 5 p.m. and Sunday performances at 2 and 4 p.m.

The Riverdale Senior High School chorus will perform Nov. 27, the chorus from Jonesboro Jr. High School on Nov. 28 while the Lillie Sudder Elementary chorus will perform on Nov. 29.

The Mt. Zion Elementary School will sing on Nov. 30, and The Forest Park Jr. High Chorus will sing on Dec. 1. Swint Elementary will perform at 3 p.m. Saturday, Dec. 2, followed by the North Clayton Jr. High chorus at 5 p.m. The Clayton Community Band will perform between shows at 4 p.m.

November 8, 1978 THE ATLANTA JOURNAL CLAYTON JUNIOR COLLEGE

Reynolds is a criminal ig justice major at the college. according to spokesman Jerry Atkins.

Other scholarship win-₩ ners are Rebecca Pilotte of Jonesboro, Janice Honkanen of Jonesboro and Sylvia Morris of Forest Park.

The scholarships had been awarded for eight coording to Atkins. To be selected, students must be recommended by the faculty and screened by a special scholarhip com-

Forty students have been honored since the Winter Quarter of 1972 when the program first began.

Airport Rotary Club members have contributed more than \$8,000 to the program, Atkins said.

Recipients of the awards met with Rotary Club representatives during a luncheon meeting at the college re-

Representing the club at the meeting were President Bill Greer, Vice-President Kirk Smick and M.C.

#### 20 Areas At College

Students from a 20-county area are enrolled in credit classes at Clayton Junior College this quarter, according to report issued by Annette B. satterfield, director of admissions and registrar.

The quarterly enrollment report snows 2,691 students who are taking credit classes at the two-year institution near Morrow, 147 fewer than the 2,838 who were counted during the winter quarter a ment for 1978 was 2,965.

Students from Clayton, Fayette, Henry and south Fulton counties continued to dominate headcount totals. The report shows 1,442 students from Clayton, 715 from South Fulton, 183 from Fayette and 177 from Henry. Other counties contributing

more than 20 students include DeKalb, 30; Spaiding, 32; Rockdale, 24; and Cobb, 20. Women students continue to outnumber men, 1,473 to 1,218 and married students

# Day Classes More Popular At Clayton Junior

popular than night classes and there are more female students enrolled at Clayton Junior College than male students, according to fall quarter enrollment figures released by Mrs. Annette B. Satterfield, Director of dmissions and Registrar. Fall quarter classes, which began in late September and will continue into early December, attracted 2,965 students in college credit programs at the two-year institution near Morrow. A year ago, 3,140 students

were enrolled in credit A fraction more than 60 percent of the student population this year is enrolled in day, or mostly lay, classes. Day classes attracted 1,780 students while night, or mostly night, classes are being attended by 1,183 students.

The female-male ratio

gives women students a .617 to 1,348 edge. The quarterly report also revealed that more single students are attending classes. Almost 72 percent of the student body (2,125 students) are unmarried, and 1,168 of this group are female students. Unmarried males number

The four-county area of Clayton, South Fulton Fayette and Henry contributed 93 percent of the students.

Currently in its 10th year of operation, Clayton Junior College's fall quarter

ranged near or above the 3,000-student level for the past five years.

Students living in a 20county area are enrolled at Clayton Junior College, with Clayton County

members of the student population or 52.3 percent. Fulton Countians rank second with 818 students, Fayette County third with 198 enrollees and Henry County fourth with 190.

LIBRARY INSTRUCTION--Dr. Jack A. Bennett, Director of Learning Resources at Clayton Junior College, explained library research techniques recently to Henry County students who are enrolled in special off-campus classes at Stockbridge High School. The students are jointly enrolled in the "Freshman Scholar Program" at the College and at Henry County High and Stockbridge High. Courses being taught by college instructors provide the students with regular college credit, and also serve to satisfy high school graduation requirements. The College's Library - Learning Resources Center has over 45,000 books and 22,000 audio-visual materials for use by students and special groups.

#### Day 10/31/78 Classes Popular

Day classes are more popular than night classes, and there are more female students enrolled at Clayton Junior College than male students, according to fall quarter enrollment figures released by Mrs. Annette B. Satterfield. Director of Admissions and registrar.

Fall quarter classes, which began in late September and will continue into early December, attracted 2,965 students in college credit programs at the two year institution near Morrow. A year ago, 3,140 students were enrolled in credit programs.

A fraction more than 60 percent of the student population this year is enrolled in day, or mostly day classes. Day classes attracted 1,780 students while night, or mostly night, classes are being attended by 1,183 students.

The female-male ratio give women students a 1,617 to 1,348 edge in headcount totals.

The quarterly report also revealed that more single students are attending classes. Almost 72 percent of the student body (2,125 students) are unmarried, and 1,168 of this group are female students. Unmarried males number 957.

Students living in a 20-county area are enrolled at Clayton Junior College, with Clayton County residents claiming 1,552 members of the student population (52.3 percent). Fulton Countains rank second with 818 students, Fayette County third with 198 enrolles, and Henry County fourth with 190.

The four-county area of Clayton, south Fulton, Fayette and Henry contributed 93 percent of the students.

Currently in its 10th year of operation, Clayton Junior College's Fall quarter enrollment totals have ranged near or above the 3,000 student level for the past five years.

> Southern Bell has announced the promotion of Wilma Parrott to Business Office Supervisor at the 112 Smith St. facility in Jonesboro.

In her new assignment, Mrs. Parrott will supervise seven service representatives who take applications for telephone service and discuss service or billing problems with the subscribers in the Jonesboro ∞ District.

Ann Josey has been promoted to Classified Advertising Manager for the South Metro Neighbor

W Newspapers. Working since 1976 as an account executive for the Clayton Neighbor, the College Park native will handle advertising sales for the classified section of the Neighbor Newspapers in Henry, Clayton, Fayette and South Fulton Counties.

She will work primarily with real estate and automobile accounts.

Now living in Clayton County, she received an associate of arts degree in journalism from Clayton □ Junior College after graduating from Fayette County High School.

# Seniors Enrolled In Freshman Scholar Program

Fall quarter enrollment figures at Clayton Junior College include seven high school seniors who are taking college credit courses that also satisfy

high school requirements. Jointly enrolled in the "Freshman Scholar Program" at the college and five area high schools, the students met all standards for admission into the program. A student who meets the admission requirements may enroll at the College during the quarter following completion of the junior year in high school, or during any subsequent academic ц quarter.

Students entered in the program include two from Morrow Senior High, two from Fayette County High, Park Senior High,
Palmetto High, and
Campbell High School. The Freshman Scholar Program offers an opportunity for an out-standing high school senior to accelerate his

educational program by electing courses at the college which also will serve to satisfy high school

graduation requirements. The program is offered by the college in cooperation with local Boards of

Morrow Senior High School students enrolled include Paula Denise Mitchell, daughter of Mr. and Mrs. Cleo Mitchell of Morrow and Debra Jane Wooden, daughter of Mr. and Mrs. Jerry H. Wooden of Morrow.

Students enrolled from Fayette County High include Teresa Mary Bomba, daughter of Mr. and Mrs. Edward W. Bomba of Fayetteville; and Cheryl Van Davis, daughter of Mr. and Mrs. John P. Davis of Peachtree

Michele Anita Brannock, daughter of Mr. and Mrs. Jack A. Brannock of Lake City, is a student from Forest Park Senior High. Representing Palmetto High in the program is

Mary Kathryn Koger, daughter of Mr. and Mrs. Alfred Koger of Palmetto. Deborah Ellen Majeres, daughter of Mr. and Mrs. Darwin A. Majeres of Fairburn, is a senior at Campbell High School.

# SOUTH FULTON RECORDER 2/7/79 College News

CJC DEAN'S

Clayton Junior College has named 158 students to the Fall Quarter Dean's List, according to Dr. Billy R. Nail, Dean of the College. Fulton County residents named to the list included 16

students from College Park, eight from Fairburn, seven from East Point, six from Hapeville, three from Atlanta, and one student from Red Oak.

Fairburn residents named were Stephen M. Boudreaux. Ellen P. Byrd, Carol M. Couch, George P. Green, Gail L. Green, Jurelle B. McEwen, Martha A. Parrott, and Sherry D. Thompson.

Eileen S. Cannington of
Red Oak also was named to

the Dean's List. To make the Dean's List, a student must maintain a grade point average of 3.6 or higher for the quarter.

#### Discussing Election

Rita Lewis Williams (L) of Forest Park talks over her recent election as state secretary for Phi Beta Lambda, with her faculty advisor Frances F. Bowen, assistant professor of Business Education at Clayton Junior College. Mrs.

Williams is a sophomore at the college and a graduate of Forest Park Senior High School. She and her husband Wendell live on Ashmore Drive in Forest Park.

#### Brannan An Intern For Nunn

Thomas D. Brannan of McDonough is among 12 college and university students in Georgia who have been chosen to work in U. S. Senator Sam Nunn's Washington office for three months as interns.

Brannan, a political science major at Georgia State University, served as an intern during the fall quarter.

The internship program, which is administered by the University of Georgia Institute of Government, allows junior, senior, graduate on and professional students to earn academic credit while gaining work experience in government and law.

Brannan has a perfect 4.0 > academic average at Georgia State and has been on the college dean's list. He attended Clayton Jun-

ior College before enrolling at Georgia State, where he is a senior.

He is a member of the Golden Key National Honor Society.

The interns conduct background research for bill preparation and speeches, help prepare news releases and newsletters, monitor and report on committee hearings and floor action and assist with constituent requests and correspon-

Interns are selected for high academic performance and potential for leadership in government and political matters as demonstrated by academic records, work experience and other factors.

They receive a monthly stipend in addition to earning academic credit from their schools.

Southern Bell has announced the promotion of Wilma Parrott to Business Office Supervisor at the 112 Smith St. facility in Jonesboro.

In her new assignment, Mrs. Parrott will supervise seven service representatives who take applications for telephone service and discuss service or billing problems with the subscribers in the Jonesboro District.

# Clayton JC Students Get Scholarships

Junior College have received \$500 scholarships issued for the 1978-79 academic year by the Board of Regents of the University System of Georgia.

The scholarships were approved during the last three meetings of the board. Regents Scholarships were established to assist students

of superior ability who need financial aid in order to attend college. To qualify, applicants must enroll as fulltime students and have average grades—or predicted average grades—that place them in the upper 25 percent of their class.

The maximum scholarship during an academic year for a junior college student is

Recipients of Regents' Scholarships are expected, upon graduation, to reside in Georgia and to engage in work for which they were prepared through scholarship aid for a period of one year for each \$1,000 of scholarship assistance received:

meeting. The awards were originally slated for presentation the preceding Saturday after the Heart Fund parade but were postponed due to rain. State Representative Richard Chamberlin was

present to announce the winners. Jim Latimer was overall first place winner for the most valuable contribution to the Heart Science fair and was also awarded \$20 by Jimmy Glass,

Henry County Sheriff. David Hainlain, last year's overall winner, now a student at Clayton Junior College, judged the entries in three categories: posters, reports and

Lucy Sanders won second prize in the project

were presented Monday night at the Stockbridge Fund chairman for Henry County. Patrick Grabowski received first place in the report section and \$10.

> First place in the poster division went to Darryl Bull; second place to both Denise Hinton and Vivian Brookshire in a tie; third to Penny Moseley and fourth to Renee Dominy.

> Cathy Tompkins won second place in reports; Robbie Craig, third; and Jeff Hydock, fourth. Lisa Reagin placed third in projects; and Robbie

> Craig, fourth. David Hainlain also noted the following students deserved special recognition for their entries in the fair: John Coggins, Terry Sanders, Angie Betts and

> The entries were made by students of science teachers Phyllis Worthen and Daniel Usher.

# Senior Plans For Next Year

Sheila Scarbrough, Stockbridge senior, notes that while she and classmates have begun thinking about graduation no one has yet decided what they will do afterwards.

"I'm thinking about going to a smaller college and then transferring to a larger one," she said. Sheila has no idea which college, though, nor what career she will choose. Aviation, criminal justice and journalism are the fields she is considering right now.

Being in the freshman scholar program is a good preparation for college, she opines.

The English and political science classes are quite different from high school, she explained. Students ask questions but do not talk in class otherwise. The classes are more formal and require more studying.

'You know you've got to study and you've got to do the work but it's not too much pressure," she

Her other subjects are art and office practice, and she is a member of Future Business Leaders of America. Until this year she had belonged to Future Homemakers of America and had played the clarinet in the band since fifth grade. She also plays the piano and took lessons from

the fifth grade through last year.

#### LOVES TO DRESS UP

In addition to playing the piano, she enjoys shopping for clothes and likes both dressy styles and jeans.

"I dress up a couple days each week and the others I wear jeans," she noted. Being a senior has also been enjoyable.

"I keep thinking about graduation but I'm also looking forward to it," she added. Next year will be very different. For the first time she will be going somewhere where she will

not know anyone. Eventually Sheila plans to attend the University of Georgia because she said a larger school will give her a chance to grow up more and she likes the teams there.

After college, there are plans to remain in the South, with both Atlanta and Florida possibilities. Her parents are Mr. and Mrs. C.E. Scarbrough and she lives in Ellenwood.

Fayette County students at Clayton Junior College number 165, according to recently released spring quarter figures. The total makes Favette third among counties represented at the two year school. Clayton and Fulton countians are the most numerous.

The college also has students from 12 foreign countries, including Canada, Iran, Korea, Jamaica, Ecuador, Saudi Arabia, Colombia, Haiti, India, Japan, Nigeria and Tanzania.

# The ATLANTA JOURNAL Monday, February 5, 1979 This Single Mother of 2 Spells Her Biggest Problem M-O-N-E-Y

Second in a series of six articles.
 By GITA MARITZER SMITH

Of the 35 million women in the American labor force today, a majority work because of economic need, says the U.S. Bureau of the

Census and the Department of Labor. Among all families in the United States, it is estimated that one out of eight is headed by a woman, and - breaking that down further - almost three out of 10 black families is headed by a woman.

Most of these single parents must support themselves and their children on a mean income of \$7,300.

Behind these statistics may lie the reason why many American mothers raising their children in 1979 are passing along some difficult, new "facts of life" - quite different

from their own upbringing in the '40s and '50s.

When The Journal polled single mothers in the metro Atlanta area recently, to ask if they are bringing up daughter differently from the way they were raised, they answered,

When asked how that upbringing differs

the answers came back, "I am training her to think of a career" and "She's learning how to take care of herself."

There were fewer lessons on "how to catch a boyfriend" and more emphasis placed on how to succeed in school or in a job.

Single-parent mothers with sons responded that they know their boys see how hard they work and consider it "only a matter of fairness for women to get good chances in the labor market."

"M.J." Wood and daughters, Becky and Susan, live in a fatherless household since her second divorce. Their apartment near Riverdale is

comfortable and cheerful, but without fancy "Feeling good about yourself is the most

important thing," says M.J.
"I do feel good about myself and about my children. It's just that money is always a "As a single parent I cannot afford all the things I had in mind to develop the children's

potential. I wanted them to have a versatile education. I'd love to pile them in the car and take them away for two weeks in the summer, but we do good to ever leave Atlanta." She is quick to point out, however, that there is the man's side to every divorce, too,

and that she knows the difficulties of divorce and the financial burden men often bear. She is an active member of Parents Without Partners and through her involvement in that organization she has learned that it

does no good to remain bitter. "Now I'm getting \$150 a month in child support through the courts for Susan. But it was a battle every step of the way. I used to go to court and they'd slap (her second husband's) hand and say 'you naughty boy'.

That's what's wrong with the court system. You can manage if the money comes

"I find it is a very common complaint among other single mothers. Statistics show that if men pay child support at all, most of them only pay for a few years and stop. The judge can give you everything but if you can't lect, it's not any good.

"Of course, in cases where a man's got the children and the woman's earning, she should pay child support just the same as a

She feels that the missing parent doesn't think about things like dentists, doctor bills when the children get sick, or continuing education because, "Often it's a case of out of sight, out of mind"

How, then, can she explain why a parent who loved the children may suddenly stop contact with them, or stop the financial help necessary for their care?

"It's a question of love, really. I think a parent who loved the children will continue to show up, continue to let the children see evidence of the love even if a divorce breaks up the couple. There's just a lot of people who don't love the children, otherwise they'd be thinking of what their children need after they

Eighteen-year-old Becky, a freshman at Clayton Junior College, stopped receiving support from her father when she graduated from high school. She juggles schoolwork with a part-time job and hopes eventually to go to Georgia Southern College or West Georgia.

In a couple of years, she says, she would like to work as an airline stewardess, and while her plans begin with a career, they end with a family of her own.

'A mother and a dad and four kids," is how she envisions that family, she says, taking care to emphasize that there is a husband in the picture.

"If there was a father in our house, now, he'd probably be stricter than mother. A father is protection, I guess.

"I'd visualize us doing things together, going on vacation and doing things as a family "I hardly know my real father. I'd like to get to know him better, but I'd feel awkward calling him. I mean, what would I

Eleven-year-old Susan, now in Riverdale Elementary School, has more contact with her father, M.J.'s second

"I see my Dad about once a month, but we don't have very much time. The main thing for me, I guess, is we don't get to do many things. I get \$1 a week allowance and most of my

friends get \$3 or more. "I don't have the kinds of pets I really want," says Susan a little mournfully. "I love horses and someday I'm going to go to the University of Georgia and take horsemanship. I just want to

Both daughters felt that remarriage would be a good thing, "only if mother wants to. We want her to be happy."

Susan agreed there would be more things to do with a father around and more people to talk with. But M.J. is in no hurry to remarry right now. She says, "I know women in shoes a lot worse than mine. I feel very lucky that I can go out and earn the living I do. (At C&S Bank her

monthly take-home pay is about \$700.) Through Parents Without Partners I've developed a lot of confidence. If I have to do something I've learned I can. I've made a lot of supportive friendships with men and women. "I'd weigh it all very carefully before remarrying. I've

learned to be an individual and I'd have to give up some of my

"Still, I've got a lot of love to give and no matter how busy you keep, there is that void. Children are a big factor in re-marrying. You can't just marry anybody who comes along and say 'the children will work it out."

#### CJC Names Fayette Students To Dean's List

Clayton Junior College has named 141 students to the Winter Quarter Dean's List, according to Dr. Billy R. Nail, Dean of the College.

Thirteen students from Fayette County were included on the list and six of them reside in Fayetteville. Included were Judy C. Cochrane, >Laura D. Dollar, Marian J. Lee, Phyllis A. Lee, Dennis J. Mahoney, and Karen T. Williams.

Peachtree City residents named to the list were Cynthia A. Clark, Jennifer E. Harris, and Teresa K. Shaw.

Alberta M. Gatewood of -Union City and Deborah L. Snead of Woolsey also made the honor list

To make the Dean's List, a student must maintain a grade point average of 3.6 or higher out of a possible 4.0 for the quarter.

The Winter Quarter. which began in January and ended in March. attracted 2,691 students to the Morrow campus.

FRANCIS HERNANDEZ RECEIVES CONGRATULATIONS He Tied With Anthony Jones As County-Wide Winner

# Two Are Named Clayton's STARs

Two students have tied for honors as the Clayton County STAR student this year.

The Clayton County/South Atlanta Chamber of Com merce announced last week that Francis George Hernandez of Jonesboro Senior High School and Anthony Jay Jones of North Clayton Senior High School had tied for the honor.

Each year the chamber selects a Student Teacher Achievement Recognition (STAR) student from among winners at the high school level to represent the county in district-level competition.

This year, the honor hit one of the county winners totally by surprise, he said. It really came as a complete shock to me," Hernandez

said. "I didn't think my scores were that good." Each of the county winners receive a two-year full scholarship to Clayton Junior College plus a cash reward. And those unexpected rewards are causing Hernandez to do a little rehashing of his future plans.

He says he has applied for a Navy/Air Force ROTC scholarship and for an athletic scholarship to several other 'Now that I've won the scholarship to Clayton, I'll just

have to re-think," he commented. "At least this way I know I can go to college. "Even if I don't get the athletic scholarship, I can go to Clayton for two years and try for the athletic scholarship

later," Hernandez related. The future looks pretty bright to me," he added. Hernandez commented that in his career plans, he's leaning toward architecture.

"I've always been good at art and I'm great at math, so the thing to use them both in would be architecture," he

Clayton's other STAR student, Jones, could not be reached for comment on his future plans.

Art Rogers F

Wednesday, March 7, 1979 **Favetteville Young Man** 

Working with ABC Sports

BY QUIMBY MELTON III

Art Rogers is going places in his life.

Not only is Art a hard worker, but the South Fayette County resident is getting into a line of work, that very few young men get a crack at. Art is working for ABC Sports and hopes that

someday the job will work into a reporter for the Fayette County profession.

Son of Mrs. and Mrs. Arthur Rogers, Carrolls Way, Fayetteville, Art has been interested in radio and television work for a number of years. Art worked as photographer,

darkroom specialist and

News when he was in high school and college. "I guess my work at the News opened some doors for me and really got me in-

terested in journalism.' Not only did Art work at the News, he received his degree from Clayton Junior College, he was editor of the CJC

The ballad, which

originated as a history class

project, features a musical

soundtrack recorded by

Miss Jones. She wrote the

lyrics and music, sang lead

and harmony vocals, and

played the piano. Miss

Jones enhanced her audio

production by researching

old photographs at. the

Georgia Department of

Archives and History, producing a complete sound/slide presentation.

Prior to the National

Showcase, Miss Jones' production won top honors

in the sound/slide category

of the 1979 Georgia

Student Media Festival-

College Competition,

conducted at Clayton

Junior College. Designed to

stimulate interest in media

making, the Festival was

for an area radio station and has worked Auburn Television.

Newspaper was a disc jockey

**WORKED WITH COSELL** 

Art has worked now on several ABC Sports events, ranging from working with Howard Cosell, Frank Gifford and "Dandy" Don Meredith at the Falcons-LA Rams Monday Night Football Game, to keeping stats for Keith Jackson in the Hula Bowl, held in the "tough" assignment location of Hawaii.

"The ABC Sports shows that I have been working with have all been live. There is a lot of pressure when you are doing live

stuff," says Rogers.
Art also helped ABC work the Georgia-Tech football game this past December.

Rogers tells that the ABC crew usually comes in a couple of days before the game to set up the cables, hook ups and get good camera angles and locations for the game.

Getting the job was no easy task. "I guess James (James Jernigan) and I were lucky. We were just in the right place at the right time."

During one Monday Night Football game (the show has been one of the top rated TV shows for a number of years now) it usually takes somewhere between 60-70 folks working to put in on the air.

"I really enjoyed working with Howard Cosell, Frank Gifford and Dandy Don Meredith. They are real professionals."

AIR-TIME

Art tells that 10-15 minutes before air-time, the atmosphere around the television crew gets real exciting. "Everyone has a special job to do and it just comes all together," Rogers

tells. During a typical Monday Night Football game, there will be a graphics crew, audio crew, production crew and video (slow motion and video tape) crew all in one huge mobile electronic van. This is in addition to the broadcasting team in the press box. "They (ABC Sports) try to make it as easy as possible for the teams that are playing."

One interesting aspect of the game is the half time highlights. "The films come down from Philadelphia. We will sit down and hold a conference call with the NFL Films folks and write the script for Cosell without ever seeing the actual film. In fact, the film only arrives at the studio hours before the Monday Night broadcast," tells Rogers.

"We then have to coordinate the graphics, script and film, then Howard Cosell does the script for the film about an hour before the game."

Art and Jernigan will be working several Monday Night Baseball games this coming spring and summer. "I'll tell you, we are sacrificing a lot to do this. I plan to go back and finish college but I hope that this pays off for us for the future."

Rogers and Jernigan are a talented pair. Their Clayton Junior College News Update won first place in media competition in the state for the second time in as many years. The show will go on now to

national competition. Art Rogers is a young man who is going to go far in life. In more ways than one, he is going places.

HONKANEN (CENTER) RECEIVES WALL STREET JOURNAL AWARD Field (L), John E. Feathers, Business Chairman

**Business Administration at** the college.

Awarded annually by the faculty of CJC's business division, Honanen accumulated the highest grade average for a student who will graduate with a business-related degree. To qualify for the award, she was selected by faculty members for her quality of effort as well as her professional attitude and performance.

Included on CJC's Dean's list for five consecutive quarters, she was one of 51 students to receive scholarship achievement awards at the college's academic honors convocation and was an Airport Rotary Club scholarship winner during the 1978-79 academic year. Honkanen is the daughter

of Mr. and Mrs. Walter Orr

#### Clayton opinion poll

# Youth have mixed feelings about the draft

Staff Writer A poll at Clayton Junior College indicates that there are many mixed feelings on the part of local youth concerning the issue of reinstatement of the draft.

Twenty people, 19 of whom were students, were asked the question, "Do you favor reinstatement of the draft?"

Although slightly more than half of the students said "no" to the question, many

admitted that they just didn't have the answer. One quarter of those polled said they think it is necessary to bring back the draft.

Replies to the question were quite varied. Steve Cody, 23, of Atlanta, who described himself as an "army brat," remarked, "In the voluntary army, all they're getting is deadbeats." Obviously, Steve supports reinstatement of the draft.

Mack. Turner, .20, of Riverdale, also supports the draft. "If all reports are true, the

On the other hand, Jimmy Neal, 31, of Decatur, said, "I think a voluntary army works the best. People work better if they volunteer than if they're forced into it." Eric Hill, of Lake City, expressed a similar opinion. "I believe the voluntary system is

doing a good job. You shouldn't force anyone to do something they don't want to do.' An 18-year-old student from Lake City, Phil Raines, echoed that thought. "I think if people

on their own."

Only one person mentioned patriotism. Mark Hollums, 19, of East Point, noted, "Basically, I think it's everyone's duty to serve his country, at least for two or four

Another young man, Robert Hodgson, a 24year-old from Riverdale, expressed indifference. His response to queries about the draft issue was, "I don't know and don't

A husky, mild-mannered 19-year-old, Sammy Wood, of College Park, took a stance against war and violence in general in his reply to the draft question, adding, "I don't know what I'd do if I were drafted.

Twenty-five per cent of the persons questioned were female. The women seemed relatively uninformed on the subject. One

# Clayton Students on Winter Dean's List

named 141 students to the winter quarter Dean's List with the great majority of the students living in Clayton and South Fulton counties.

Clayton County residents named to the list inleuded 20 students from Forest Park, 18 from Jonesboro, 13 each from Morrow and Riverdale, four from Rex, three each from Lake City and Conley and two

Fulton residents listed include 16 residents of College Park, six from East Point, six from Atlanta, three from Hapeville and two from Fair-

Forest Park residents named to the list include James L. Baker Jr., Randy E. Cobb, Iris S. Gibbons, Anita G. GIvens, Mary J. Hicks, Karen D. Kelly, Joseph E. Morris, Sylvia F. Morris and Mikki S. Miller.

Also from Forest Park are Anita L. McConnell, John S. Nelson, Jane C. Miller, James Windo.

Clayton Junior College has C. Parker, Dorothy B. Ralston, Kathy L. Sledge, Brock A. Stanton, Lydia C. Starke, Katherine M. Stotz, Betty S. Vaughn and Kim S. Washuta.

> Jonesboro residents named were Shirley J. Boyd, Victoria A. Burnett, Sharon G. Cantrell, Gordon E. Fulmer, Joan C. Hughes, Patricia A. Howe, Janice O. Honkanen, John M. Hurt, Michael P. Krau, Erika C. Kreutter and Barry L. Lord. Others from Jonesboro are Patricia W. McDaniel, Emmory D. Mullis, Rebecca E. Pilotte, Laverne M. SHell, Sandra R. Stewart and William S. Taylor.

Morrow residents on the list include Rebekah E. Brewton, Alice England, Wayne T. Goodman, William L. Gordon, Candace Hodges, Kathryn L. Jensen, Ralph C. Jenkins, Edith F. Kilpatrick, William L. Meaders, Kathryn O'Neill, Bonnie L. Radachl, Pamela B. Westbrook and Donna L.

Riverdale students named were Diana M. Allen, Patricia B. Armes, Larry U. Burns, Cynthia J. Carrin, Marilyn D. Dudley, Shirley M. Murphey, Kathie W. Nordan, Cynthia M. Orihuela, Julie M. Rayburn, Mark L. Ray, Phillip M. Sligh

and Katherine O. Tull. From Rex were Bernice Howell, Gail D. Jackson, Debra S. Mchahan and Jess M. Palazzolo and Gail C. Hubbard, Victoria R. Loftfield and Susan H. Pitman were named from Lake City.

Ellenwood's two students on the Dean's list were Robert W. Davidson and Danny S.

In Fulton County, College Park residents named to the list include Janis T. Abney, Linda S. Bartlett, Elizabeth E. Behr, Jimmie A. Blount, Fuss, Catherine C. Hiett. Marie A. Jones, Alan R. Johnson, Boyd A. McBurnett, Paula A. Nichols, Silvia T. from the beginning of Janu-Peterson, Marck C. Phillips, ary through the end of March.

Tiedemann and Joyce H. Whittelsey.

East Point residents named were Marci C. Barber, Laura L. Burnett, Margaret D. Egger, Nancy G. Jones, Jan I. Owens and James H. Ste-

From Atlanta, Daryl W. Cooper Sr., Carolyn R. Levin, Jo E. Mapp, Minnie G. Shannon, Mary R. Skinner and Priscilla E. Vandecar of Atlanta were named to the

Hapeville residents Nita S. Baldwin, Charles W. Cook Jr. and Cynthia E. Parrish were named, as were Carol M. Couch and Jurelle B. McEwen of Fairburn.

To make the Dean's List, a student must maintain a Rozie D. Daniel, Karen L. grade point average of 3.6 or higher out of a possible 4.0 for the quarter.

The winter quarter was

girl, Susan Allen, 23, of College Park, responded, "I really don't know the issue that well. I didn't even know they were thinking of reinstating the draft. But, anyway, there's not a war going on, so why should they need it? We've got enough threat with the nuclear

Only Beth Wheeler, 23, of Morrow had a lot to say about the draft. "I feel as though we should work on improving the economic situation in our own country before we think about sending more military to other countries. We could use money better in other ways than the military."

Another student also referred to nuclear warfare in his reply. Billy Simmons, 20, of College Park, said, "I'm against the draft. The next war will probably be a few trained individuals pushing buttons so there's really no need for huge masses of manpower."

Danny Reynolds, a 23-year-old student from Stockbridge who served in the armed forces for four years, commented, "There ought to be some kind of option for public service to add cohesiveness.

As an afterthought, he added, "But I don't trust the government as much as I used to." Michael Petersen, an associate professor of political science who has been at CJC for seven years, gave some insights on the draft

"It's a topic students often express concern about. I've seen very balanced opinions given by students. To a surprising degree, they are willing to separate their personal situation from the issue of the draft and speak from a broad perspective.

According to Petersen, his students' opinions are quite divided. Yet, the most provocative question facing students is the controversial idea of drafting women, a proposal which Petersen added may not be so far-fetched as some may think. Petersen says he has not yet made up his

mind on whether the draft should be rein-

position to exert influence on this issue because of Sam Nunn's important role in the draft question.

Blood Drive Set

At Clayton Junior

On the heels of a blood shortage crisis the first week in August, the Red Cross has urged Clayton Countians to give blood at Red Cross blood drives near

A blood drive is slated Aug. 14 at the Clayton Junior College student center 9 a.m. - 1 p.m.
The Bloodmobile unit will operate in the student lounge area on the lower level of the two-story Library/Student Center Building:

For complete information about the Clayton Junior College drive, call the Office of Community Services at 363-7717.

Since the first pint of blood was drawn over 30 years ago, the American Red Cross Blood Service, Atlanta Region has collected over two million pints of blood.

Last year, volunteers gave almost 160,000 pints of blood. Although this is an eight per cent increase in blood collections over last year, the regional demand for blood and blood products is outstripping the blood currently being collected.

As a result, the Atlanta regional Red Cross blood program must import up to ,000 pints of blood, monthly from other Red Cross blood centers nationwide.

Bloodmobile Scheduled At Clayton Junior College

"However, these other

Red Cross blood centers pounds are eligible to give face the same collection blood. The total donation Medical Director, Alfred J. Grindon, American Red Cross Blood Services, Atlanta Region.

'The answer," Grindon said, "is to become self-sufficient in meeting

problems," according to process takes about 45 minutes; the donation itself takes 6-12 minutes. Every donor goes through a fivephase process--registration, temperature check, medical history, the actual donation and canteen refreshments.

# Bloodmobile visit planned for CJC

In an effort to relieve the shortage of available blood in the Metropolitan Atlanta area, the American Red Cross will dispatch a Bloodmobile unit to Clayton Junior College

on Monday, Aug. 14.

Anyone within the community who would like to give blood may participate in the emergency drive on the college campus between the hours of 9 a.m. and 1 p.m. The Bloodmobile unit will operate in the student lounge area located on the lower level of the two-story Library Student Center Building

The Atlanta Regional Red Cross Bood Program operates on the theory that anyone who requires blood should have it available. However, in order to make such a program possible, there must be a sufficient volume of blood donations from volunteer donors, and the volume must consistently be maintained so that hospitals and physicians will have the highest quality blood when it is

Blood needs for the metro Atlanta area are 750 pints daily, according to the Red Cross.

For complete information about the Clayton Junior College drive, call the Office of Community Services at

# CJC sets drama calendar

An expanded program of drama and musical productions has been scheduled at Clayton Junior College for the upcoming academic year, according to Dr. Larry B. Corse, Associate Professor of English and director of the college's choir.

And, because of the innumber performances, there will be a need for actors and actresses, singers, and stage crew members.

"We've expanded from our usual one major production to at least three stage presentations and two drama productions," Dr. Corse said of the coming year. In the past, the choir has performed such musicals as "The Beggar's Opera," "Camelot," and 'The King and I," but this year's schedule may top

A March 1979 production of 'A Funny Thing Happened On The Way to the Forum" is scheduled with full orchestra and very elaborate stage settings. It probably will be the most-time consuming presentation that the choir will perform during the year, according to Dr. Corse, and a great deal of student participation will be needed. "Not only for that production, but also for the other planned events," Dr.

Corse added. One such event will be the presentation of Gilbert and Sullivan's one-act opera "Trail by Jury," scheduled in November of this year. Another opera, "Miranda and the Dark Young Man," is set for the upcoming year. Plans are being formulated to present this American production, written in the early 1950's, at area high

20, author Paul Hemphill will

Staff Writer a just like everybody else." Calling himself professional southern, Dr. George Tindall warned books, including the award Historical Association. students at Clayton Junior winning "Origins Of The College to carefully inspect certain myths about the South which he says are being manufactured by the Northern media.

Tindall, a professor of history at the University of North Carolina, spoke this week at the college as part of the Lyceum speakers series of the South.

"The South has been the newest national fad ever the Carter phenomenon," Tindall said. "We have been subjected to northern reporters who fly into the Atlanta or Houston airport, look around, and then fly back to New York to write front page articles on what the South is really

Tindall said one current myth is that of "The Sunbelt", the idea that the South is an economic mecca in which everyone prospers at the expense of the northeast and midwest. He pointed out that a recent survey shows that not one southern state has yet reached the national average in per capita in-

"In Congress there has developed quite a battle between a coalition of northwestern and midwestern congressmen and the southern delegations over what the former feels is an unfair amount of money from the treasury going to the South. But, as Gov. George Busbee says, if the South doesn't wake up its

going to get skinned alive." Tindall said that though the South did have the nation's most rapid growth rate through the early 70's, "we have no more arrived economically than in the days of Henry Grady.

Throughout American history, Tindall said, there has been mythical perception of the South. not

"Myths are synonomous with falsehood, and they have some basis in reality," Tindall said. "But in the case of the Old South the myth ignores a whole class of small farmers."

Tindall said the myth which emerged from the Old South was of an exclusively dual region, one in which the citizens were either of the "plantation" or "benighted" classes. Tindall describes the plantation class as consisting of mansiondwelling men and women who owned hundreds of slaves and lived royally from economic exploitation of others. The benighted class consists of those blacks and poor whites who were exploited by the plantation

"What this myth does is to ignore a whole class of small farmers who owned no slaves and who worked for everything they got. The neglect of these people is a typical blind spot in perceptions people have on the

As for predictions that the South is losing its distinctiveness as a region, Tindall said the South has undergone "the most prolonged vanishing act since the decline of the Roman empire." He quoted from a book written by a northerner during the Civil War which suggests that

Op. 132. Both concerts will be

given in the College's Lecture Hall (Room G-132) and will be free and open to the public.

NEWS/DAILY Thursday, October 26, 1978
Shapard-Gingrich Clayton forum set

# CJC site of Nov. 1 appearance

By SAM HODGES Staff Writer

A forum with Virginia Shapard and Newt Ginrich has been tentatively scheduled for the evening of Nov. 1 at Clayton Junior College. Both candidates have agreed to attend.

After two weeks of negotiation by members of the Clayton County Kiwanis Club in which three main dates were proposed, the Nov. 1 date was decided upon. A shift in Shapard's campaign schedule made the event possible.

"We had had a conflict on that night (Nov. 1), but we were able to shift that meeting so that Virginia could meet at the college," said Mike Petersen campaign coordinator for Shapard. According to Petersen, all three of the dates proposed by the Clayton County Kiwanis Club had been impossible because of other engagements. He said the Shapard

camp is "very pleased" that a Clayton

County appearance is scheduled. "We're delighted that she finally agreed," was the response from David Warnick, press secretary for Gingrich had called the possibility of no joint appearance in Clayton County "a total disgrace" and had issued a tentative challenge for her to appear with him at the college on a date he had set up. That unlikely joint appearance has been superseded by the Kiwanis club arrangement.

Details have not been completed for the forum, and even the site of Clayton Junior College is not totally certain, said Ralph McDuffie, president of the Clayton County Kiwanis Club.

McDuffie said the college is the first choice for the forum and it will be held there if the large auditorium (room G 132) is available on the evening of Nov. 1 Officials at the college have agreed to host the forum if the time detail can be worked out.

McDuffie said a tentative format has been reached which would give each candidate a seven minute opening statement. Following those statements audience members will be encouraged to write questions on 3x5 cards and submit them to a panel of moderators who will, in turn, read the questions to the candidates.

The questions are not to be directed to either candidate and whichever candidate is asked by the moderator will have two minutes to answer. The other candidate will have one minute

for rebuttal. McDuffie said a panel of four moderators, consisting of representatives from the three county newspapers and WSSA, is planned. He also said the club hopes to have a band present along with several county dignitaries, so that it will be "a good evening."

The forum will come less than a week before the election, one which some observers are saying is too close to call. Both candidates have agreed that the vote in Clayton County, the district's most populous county, is crucial for winning the election. How Clayton County will vote seems to be just as much a toss-up as the election is district wide.

### N Ensembles Set

The Clayton Junior College Lyceum Committee presents the Clayton Junior College Ensembles in con-E cert today at noon. The concert will be held

At Clayton Junior

in the college Lecture Hall, Room G-132. SOUTHSIDE AND FAYETTE SUN Ellis To Speak On Film

### Registering Questions

Clayton County Chief Registrar John Davis (L), and Dr. Robert H. Welborn, assistant professor of history at Clayton Junior College, answer questions during a special voter registration conducted at the college recently. Sponsored by the Alpha Beta Delta Chapter of Phi Thetta Kappa at the college, 106 Clayton residents registered to vote during the one-day session.

#### Tryouts are set for CJC

Tryouts for a Clayton Junior College production of "A Funny Thing Happened on the Way to the Forum" will be conducted Tuesday evening, Nov. 7, between 6 and 10 p.m. in the Lecture Hall (Room G-132).

CJC Choir Director Dr. Larry B. Corse, who will direct the production next March, is looking for students to fill singing, dancing, and speaking parts on the cast. In addition. artists, carpenters, light technicians, seamstresses and others will be needed for the production.

Tryout participants need not be enrolled during fall quarter classes currently underway, according to Dr. Corse, but to qualify for a part, will have to be enrolled during winter quarter credit classes which start in early

January. Singers who would like to try out for a part should report between 6 and 8 p.m. "Singers should come prepared to sing a song from some Broadway show, or any other type of number that would reveal their singing ability," according to Dr. Corse. Singers should provide their own pianist for

accompaniment. Tryouts for speaking parts will be held in Room G-132 between 8 and 9 p.m., and participants will be asked to read a section of dialogue from "Forum." dialogue to be read will be distributed after 6 p.m. on

the night of the audition. Dancers should report between 9 and 10 p.m. with a prepared short routine. "A record player will be available, or dancers may bring other forms of accompaniment," Dr. Corse added.

For complete information, contact Dr. Corse (phone 363-7744) in the Division of

# NEWS/DAILY November 28, 1978 Estelle

"Well, boy, you got a job yet, or you still writin'?"
Paul Hemphill was speaking Monday night to an audience at Clayton Jr. College of his father's reaction to his writing. Paul is one of the south's foremost authors, with four books to his credit and he is currently working on one about bush-league baseball. One of the characters in this story is a prostitute named Dixie Box, who he named after his cat.

He never lets anyone read his work before it hits the press. When his first book, The Good Old Boys, was published in the New York Times, his parents impatiently awaited arrival of ten copies of the Times they had specially flown in. His father wanted extra copies to give to his friends.

When the flight arrived they eagerly snatched the papers and began reading until they reached the place where Paul described a scene from his childhood when his father got drunk and made his mother cry. They were so upset his mother threw her paper on the floor and by lunch there was a bonfire going in the back yard with ten copies of the New York Times. Paul said it was four months before they spoke to him again. Even now whenever he asks his mother something she says, "I don't know whether I should answer that or not. You'll probably quote me.'

Paul, who grew up in Alabama, speaks affectionately of his parents and says, "My old man was my first hero and way things are going he'll probably be my last." He calls his father who was a truck driver, a "mechanized Don Quixote". He remembers anxiously awaiting his father's arrival home after being on the road for several

days and the stories he would tell. "My old man was a born liar refining his art," Paul recalled. "He would say Boy, you know how thick that fog was? It was so thick I had to get out and feel the sign to see which way it was to Bloomfield." His father's stories heavily influenced Paul's writing.

Paul says southerners are born story-tellers because in rural areas, especially, after chores are done, there isn't much to do except sit around and swap lies. Southerners are sometimes accused of not reading books. Paul quoted a friend who said, "Of course southerners don't read books. They're too busy writing

Hemphill related a story that happened at Auburn University where he graduated. It seems that Auburn was always in trouble with the National Collegiate Athletic Assoc. They had a winning team but for one thing or another they always managed to be on probation. After one particular incident where Auburn tried to buy a pair of twin fullbacks, the NCAA gave them two more years probation. To show their incense over this a sign was erected at the Birmingham city limits. "Auburn gives the world 24 hours to get out of town.

For someone who has attended Harvard as a Neiman Fellow, Paul has resisted polishing rather well. I'll never forget the first time I saw him. He was teaching a creative writing class at Clayton Jr. College, (as he is currently doing). We were sitting there expectantly awaiting for trumpets to blare, announcing the arrival of this great personage, Paul Hemphill. After all it isn't every day one gets to meet a real honest-to-goodness, breathing, live author with hair and teeth and everything!

Through the door slouched this tall bony individual with dark glasses and rumpled clothes that looked as if he'd slept in them, meandering along as though the floor would cave in if he put his foot down too firmly.
"Is this Paul Hemphill's class?" he asked. I doubt that

many of us remember much of what he said that first class. We were too fascinated watching him chain smoking and grinding the cigarette out with the heel of his boot on the tile floor (when the boot was removed from the top of the desk long enough to do this).

I'm sure Harvard has never been the same since he was there. He and Joe Strickland, the Pulitzer Prize winning black journalist, were there at the same time. They found themselves rooming four doors apart. Paul said it took him two hours to find the best liquor in town and it took Joe three hours to find the best marijuana. They settled down, the best of friends, and Joe kept saying, "Yep, they got themselves a token southerner and a token nigger, and they put us four doors apart so they could keep an eye on us.

At parties Paul and Joe would hold forth in different corners of the room-Paul with stories of the ugliest, meanest drunk in Alabama, and Joe telling how big the rats grew in Detroit.

Paul's favorite poem is "Looking For The Buckhead Boys" by his close friend James Dickey. Whenever he is feeling melancholy or serendipitious he says to his wife, "Read it." She never asks what, she just reads and he

How much of Paul is real and how much is an image he puts forth, I don't know. But one thing is for sure. He is the epitome of what he writes about. He's one of the Good

# Strike Up The Band!

Members of the Clayton Community Band will present "A Christmas Concert" at Southlake Mall Dec. 2. Co-sponsored by the Office of Community Services at Clayton Junior College and the Clayton County Parks and Recreation Department, the premiere performance of the band will begin at 4 p.m. at the mall.

CJC DRAMA STUDENTS TO PRESENT "THE SECOND SHEPHERDS' PLAY" COMEDY South Metro Residents (L-R) Boal, Meggs, Flowe, Jones Star in Christmas Production

# Christmas play set by CJC drama class

Clayton Junior College drama students will present the great medieval comedy "The Second Shepherds' Play" during two evening performances at the College

Performances will begin at 7 p.m. in the College Cafeteria on Friday and Saturday, Dec. 8-9. Reservations for the annual "Madrigal Dinner" at the College must be made through the office of the Dean of Students (phone 363-7735) no

later than Wednesday, Dec. 6.
Dr. William Pasch, Assistant Professor of English, will direct the play, assisted by student stage manager Valerie Quinlan of Morrow.

The play is based on the traditional Christmas story of the visit of the shepherds to the newborn Christ. But, it adds a great deal of original comic action to the plot when two thieves try to pass a stolen sheep off as a newborn child. The shepherds' discovery of the fraud then prepares them and the audience for the birth of the real lamb (Christ).

Cast members include CJC students David Boal of East Point, Larry Flowe of Morrow, and Jeff Scurry of Jonesboro as the shepherds; Anthony Jones of Riverdale and Susan Meggs of Jonesboro as Mak, the sheep thief, and his wife Gill;

Ellen McDonald of Jonesboro as the Angel; and Mona Manning of Lake City

Also making his stage premiere will be faculty baby John M. Swofford as the

infant Jesus.

Also planned for the production are a number of musical interludes taken from medieval and renaissance songs and added by Dr. Pasch, with assistance from CJC faculty members Dr. Larry Corse and Bill Gore, and performed by student vocalists and instrumentalists. These musical additions will help to make the CJC production of this play the first of its

Set in a dinner-theatre style, the dinner itself will feature a menu including prime ribs of beef au jus and the trimmings. The feast, prepared by members of the CJC food services staff, has been priced on a break-even basis with tickets selling for \$5.50 each.

Reservations are being taken on a firstcome, first-served basis for the two performances. Open to the general public, dinner tickets must be secured from the office of the Dean of Students prior to the production.

For ticket information, contact Rob Taylor, director of student activities, at the college (phone 363-7735).

## NEWS/DAILY 12/3/78 The Cover

This week's cover story is a look at the production of Gilbert and Sullivan's opera "Trial by Jury" which was presented this week by the Clayton Junior College Choir. This was a first attempt at performing an opera by the group and this light, short opera in the English language seemed to be just right for the local audience. The story starts on page 5.

Henry County homeowners have an opportunity to learn how to make their yards more attractive. A class entitled "Designing Your Yard For Spring" will be offered at Clayton Junior College for eight weeks

beginning Jan. 15. The class, instructed by Bruce Jesse, will meet on Mondays from 7 to 9 p.m. The cost is \$20. Light, soil, water and fertilization requirements as well

as care and selection of shrubs, plants and trees most

effective for home landscaping will be covered. For more information, Henry residents may call the college's office of community services at 363-7717

BY SAM HODGES

Staging an opera seems a bold undertaking for an English professor and members of a junior college choir, some of whom are admittedly inexperienced. Bold or not, Dr. Larry Corse and the Clayton Junior College Choir set out to perform Gilbert and Sullivan's "Trial By Jury" and did so. Neither the show nor the audience reaction was timid.

"It's been a blast," said Fran Hinton, one of the leading characters in the opera about the choir's undertaking. A sophomore music major, she said it was the first time she had done anything remotely like ar opera before.

Corse confirmed that "Trial By Jury" was the first opera he had done at Claytor Junior during the severa years he has been the choir director.

"We've never really done an opera before," Corse said. "I've been anxious to do one. and I felt we could work this up in our egularly scheduled choir period, without having to have a lot of extra reher-

Music Calendar December 31, 1978 Wednesday, November 29, 1978 Paul Hemphill carries on story telling tradition

By GLEN ALLEN

A favorite subject of writer Paul Hemphill is his father, a recently retired truck drive.

Rusty Guest and Fran Hinton are at romantic odds during CJC production

"The last time I saw my old man", said Hemphill, "he said, 'Well, boy did you get a job yet or are you still writing?' The older Hemphill must have been pleased though, when the New York Times sent a photographer to his house in Birmingham because of his son's writing.

Hemphill's recent lecture on Southern literature at Clayton Junior College was part of a series of lecture presentations about the South sponsored by the Morrow institution. He began his presentation by

reading his "My Old Man" which was published in the Times. Hemphill first came to Atlanta in 1964 as a general columnist for the Atlanta Times and Atlanta Journal. He has been a freelance writer since 1969, writing for Life, Atlantic, Sport, T.V. Guide and several other national magazines.
He currently has three books published, "The Nashville Sound", "The Good Old Boys", and "Mayor" (with Ivan Allen, Jr.). Three others are due to be published in 1979, "Long Gone", "Down

Home", and a collaboration with his wife about Atlanta. Hemphill is a graduate of Auburn University and attended Harvard as a Nieman Fellow in 1968-'69.

According to Hemphill, all the Southern writers of his acquaintance acknowledge having had a childhood steeped in the tradition of story telling. He has a great love for stories and is a good story teller himself. He entertained his audience with several stories, using a short one by Harry Crews to make a point that Southern writers are characterized by the fact that "they take it

He ended the presentation with a reading of the "The Buckhead Boys", a special favorite written by his friend James Dickey.

## Musicians Organize

Henry residents who have musical talent may want to consider joining the community band or chorus being organized at Clayton Junior College.

No auditions are required to join either the band or chorus. Membership in the community band is free and a \$10 fee is charged to chorus members.

The chorus is "an opportunity for singers from the college and the community to participate in a challenging and enjoyable musical experience," said a college spokesperson.

The band will meet for 10 weeks beginning on Jan. 15 on Monday nights from 7 to 9 p.m. The instructor is Ed Bridges.

Participants are asked to bring their own instruments the first night. Music will be provided

The chorus will meet on Tuesdays beginning Jan. 16 from 7:30 to 9:30 p.m. for 10 weeks.

They will work toward the performance of Schubert's "Mass in G." The chorus is open to "all

who have had previous choral experience and those who just love to sing." the spokesperson said. For more information,

Henry residents may call the college's Office of Community Services at 363-7717.

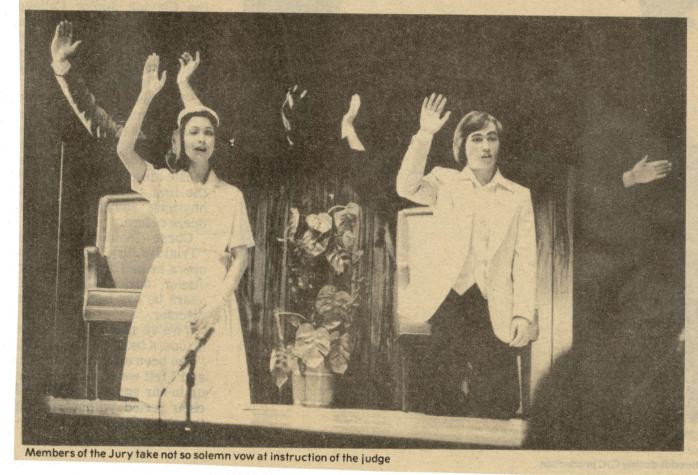

PAUL HEMPHILL

Carla Caldwell (left), Fran Hinton, and Stuart Parker enjoy proceedings

"Trial By Jury" has two distinct advantages for the novice group of opera singers. First, it consists of just one act and lasts only about 45 minutes. Second. unlike most operas, it is written in English.

A third factor in the cast's favor is that "Trial By Jury", like most all the Gilbert and Sullivan works. wins the audience over almost immediately with its improbable situations, dazzling wit, and stirring music.

Even with all this going for it, "Trial By Jury" was not an easy job. The lyrics come at such a furious rate that it is often hard to make them distinguishable to the audience. The music reaches extreme highs and lows, often in fearfully close measures. And the singers are forced to worry about problems that are usually the actor's concern, such as: expression, blocking, costumes, and makeup.

"This group has just been marvelous to work with," Corse said of the choir. "They all learned their parts quickly and completely; that was the main thing.'

Corse put together a small orchestra made up mostly of CJC music professors to accompany the singers. Doris Holloway on the violin, Bill Gore on the bassoon, and Jeannine Morrison on the piano added their professionalism to the effort. Students Cathy Adams and

#### PHOTOS BY BENNET GEORGE

Diane Wilkie provided additional accompanyment on

The group put on two performances of "Trial", one Tuesday night and the other Wednesday at noon. The program fell under the Lyceum series, a wide-ranging agenda of cultural activities presented for free at the college. A member of the school's audio-visual team video-taped both shows.

"Trial By Jury" was the second work written by Sir William Schwenk Gilbert (1836-1911) and Sir Arthur Sullivan Seymour (1842-1900), and was their first success, popular or critical. Composed in 1975, the opera was first produced by Richard D'Oyly Carte who went on to produce 11 other Gilbert and Sullivan works and who eventually formed an opera company for the exclusive purpose of performing those operas.

The opera includes, predictably, a jury and a judge, along with other parties in a trial, namely: the plaintiff, the defendant, counsel for the plaintiff, an usher, and foreman of the

The plot revolves around a jitled beauty, Angelina, who was supposed to marry Edwin, the defendant. Angelina is suing Edwin for damages accrued because of his various promises to her.

From the beginning, the jury and judge despise Edwin and side with Angelina. "What he may say you needn't mind," the usher tells the jury concerning Edwin. The jury replies that they "haven't a scrap of sympathy with the defen-

The judge, a doddering and bewigged old man, falls desperately in love with Angelina at first sight. He ends the opera abruptly by deciding to "Marry her myself", a decision which all parties, including the audience, roundly applaud. Gilbert, who wrote the

lyrics, and Sullivan, who composed the music, were working together peacefully at the "Trial By Jury" stage in their career. Later years would find them still working - such works as "H.M.S. Pinafore" and "The Mikado" were still to come -- but they quarrelled frequently during their 25-year association.

The Learned Judge (Stuart Parker) lectures the wayward defendant (Rusty Guest)

Dianne Wilkie (left), Jeannine Morrison, Bill Gore, and Doris Holloway were part of orchestra

January 4, 19/9 Non-credit courses

# Sign-ups near finish for offerings at CJC

80 non-credit class offerings scheduled at Clayton Junior College during the Winter Quarter is currently being completed, according to Ric Sanchez, director in the office of community

Classes will begin the week of Jan. 15-19, but since most courses have limited enrollments, Sanchez encouraged registrants to complete applications prior to that week. The Office of Community Services will be open from 8 a.m. until 8 p.m. Monday through Thursday, and 8 a.m. until 5 p.m. each Friday until classes begin.

To register, participants should call 363-7717 to reserve a place in the class or classes of their choice. Activities sponsored through the Office of

Community Services are open to all members of the general public. Since courses do not carry college credit, there are no minimum educational requirements or entrance tests. Among the offerings planned for the upcoming quarter will be classes for

members of the business and professional community as well as courses in arts and music. A group of classes on you and your home, personal growth and family life, sports and recreation, and leisure time activities also will be included. Special programs and seminars are planned

throughout the quarter, including a free five week "health education" series. The Office of Community Services will continue to cosponsor its series of short courses for small business owners and managers with the College's Small Business

Development Center. Classes scheduled during the quarter will be taught both on the College campus near Morrow and at five off-

classes, ranging from beginning shorthand and typing to folk guitar to creative writing, are being offered at M. D. Collins High School in College Park. Various levels of obedience training for dogs will be sponsored or co-sponsored at

### Jan. 18, 1979 series opens

By SAM HODGES Staff Writer

Anyone confused about local government, how it works and who works it, has an opportunity to end that confusion beginning tonight at Clayton Junior College.

A series of five free workshops on local government starts this evening at 6:15 in the Round Building, room B-11, of Clayton Junior College. Representatives from all levels of Clayton County government will appear at some time during the series, and the public is invited to learn from them and to question them about their role in local decision-

Tonight's session features the Clayton County Commission, the major governmental body in the county. Representing the commission will be Milton Worsham, chief administrator of the Clayton County Commission and the man responsible for much of the county government's day-to-day business.

The program, which is scheduled to last until 8:15, will be moderated by Dr. Robert H. Welborn, assistant professor of history at Clayton Junior College. Welborn will begin each program with an introductory lecture, which will be followed by remarks from the guests and a question and answer period.

goal is to increase the knowledge and awareness of Clayton County citizens as to how their county and city governments operate, and the major issues they face," Welborn

Welborn conducted a similar program in Fayette County which he says was "very successful"

The other four programs will be held on the next four Thursdays at the same time and place. The topic for Jan. 25 will be the judicial system in Clayton County, and on Feb. 1 discussion will center on municipal government.

The Feb. 8 program will deal with education in Clayton County, and on Feb. 15 discussion will be on independent authorities, specifically the Clayton County Water Authority and the Clayton County Hospital Authority.

NEWS/DAILY January 17, 1979

### CJC government workshops begin this Thursday

Clayton County residents will have the opportunity to gain a detailed view of their local government process and of Georgia's county governments in general, during a series of free workshops scheduled to begin this week.

Five sessions will be conducted at Clayton Junior College on consecutive Thursdays, beginning Jan. 18 and continuing through Feb. 15. Each session will feature members of the various branches of Clayton County's government.

Sessions are scheduled between 6:30 p.m. and 8:15 p.m. each Thursday in the Round Building, room B-11. Government officials will speak on the organization, responsibilities, and problems of their respective departments, and ample time will be provided for questions and discussions.

The goals of the program are to help citizens understand the sources and uses of tax revenue and the impact of government on the quality of life in Clayton

moderator. Dr. Welborn also will provide an introduction to Georgia's system of county governments. The Clayton County judicial system will be the topic of the Jan. 25 session;

Clayton Junior College, will

Municipal Government in Clayton County will be featured in the Feb. 1 workshop; education will be the topic on February 8; and the Independent Authorities: Water and Hospital will be discussed in the fifth and final workshop. Clayton Countians should

attend all the free sessions in order to obtain a complete governmental overview, but citizens may elect to participate in the specific programs of their choosing.

To register, or to obtain more information, contact Clayton Junior College's Office of Community Thursday's opening Services at 363-7717.

### Friday, January 19, 1979 County government topic for CJC series

A slim but interested crowd heard remarks Thursday night from Dr. Robert Welborn and Milton Worsham on county government in the first of a five-part series sponsored by the Continuing Education Department of Clayton Junior College.

Welborn, an assistant professor of history at CJC and moderator of the program, began with some general remarks about the function of counties in the United States and, specifically, in Georgia.

"Counties have traditionally been in a direct relationship with state government," he said. "They were created by the states as ad-

Welborn explained that unlike cities, which derive their authority from a charter, the states give the counties their authority and operate services through them. The utility of the county system is best seen out

> CJC Holds Seminar On SAT

Complete information about the Scholastic Aptitude Test (SAT) and other entrance requirements of Clayton Junior College will be explained during a free seminar scheduled at the two-year institution near Morrow.

Offered free for anyone interested in credit course programs, the seminar will be conducted in the "Round Building" Wednesday, January 31, beginning at

57:30 p.m.

Ms. Judy Nichols,
counselor in the office of admissions and records, and Ms. Donna McCarty, ocounselor in the office of counseling and testing, will conduct the one-night seminar.

For more information phone Ms. Nichols at 363-7723 or Ms. McCarty at 363-7744.

west, he said, where the counties are often divided into equal rectangles,

By SAM HODGES Staff Writer

without regard to natural boundaries or public sentiment. Traditionally, counties have handled the maintenance of roads, prisons, welfare, and deed to property, Welborn said. According to Welborn, Georgia

ministrative agents of the states."

through 1972 as the "new age" of counties, since it was then that home rule provisions were first adopted. For the first time counties could choose to do certain things, such as

differs from most states in the

number and size of its counties.

Georgia has 159 counties, more than

any other state except Texas, and the

average size of those counties is much

Welborn identified the years 1966

smaller than the national average.

build parks and libraries or establish police and garbage service, without having to first get state approval. . Welborn noted that Clayton County, like all counties in Georgia, is governed by an elected board of

Worsham, chief administrator for Clayton County, followed Welborn on the program by giving specifics on what services the county government

performs and how those services are funded. "The commissioners set policy by which the branches of county government will operate," he said. 'The commission is allowed to have an administrative staff to help with

the operational line.' Worsham went into detail in explaining the responsibilities of such departments as public works and central services. The latter is the purchasing agent for the county and many of the local towns, since the county buys products in such mass that they come at a cheaper price. The cities, in turn, pay the county for the

items they need. The average Clayton County homeowner pays \$2.33 per week for the services of the Clayton County government, Worsham said. This includes police, fire, and emergency medical treatment, but not school costs. He estimated the taxes on schools at about \$2.60 per week for the average homeowner.

During the question and answer period, Worsham agreed that there was double taxation to an extent for those who paid city taxes for police and fire protection. He indicated, however, that the city residents do get back-up service from the Clayton County police and fire, which he said was "the best insurance you can get."

### Master Magician To Speak At Clayton Junior

### Director to speak at CJC

One of America's great film directors will be featured during an 8:30 program at Clayton Junior College on Tuesday, Jan. 30.

Frank Capra, whose career in the movies spanned from the early 1920's until 1960, will speak in the College's Lecture Hall, and the public is invited. There will be no admission fee.

One of Capra's first jobs in Hollywood was as a gag writer for Mac Sennett. In 1928, he joined Columbia Pictures and directed eight silent films and three "talkies" during the next two years. In 1930, he directed his first big hit, "Ladies of Leisure," which made a star out of an unknown named Barbara Stanwyck.

Four years later, Capra won his first Oscar for "It Happened One Night," starring Clark Gable and Claudette Colbert. This film won Oscars for best picture, best director, best actor, best actress, and best screenplay; the only film zever to win the top five Academy Awards until "One Flew Over the Cuckoo's Nest" in 1976.

The famed director's appearance, postponed last October, will be sponsored by the college's Lyceum

### Speaker To Discuss

Pollution

The 7 p.m. lecture, sponsored by the college's Lyceum Committee, will be given in the college Lecture Hall, Room G-132.

giant in the film world arrived at Clayton Junior College Monday night in the person of tiny( of stature) Frank Capra, director of such Academy Award winning movies as "It Happened One Night", "Mr. Deeds Goes To Town", and "You Can't Take It With

Capra will speak in room G-132 of the college tonight at 8:30 p.m. Admission is free and open to the public. Seating will be on a first come, first served basis. Capra's appearance is part of the Lyceum cultural calendar at CJC which

features lectures, movies, theatre, and music. He had been scheduled to appear in October, but changed the date to now, since he had not completed the book he was then working on.

A crew from WAGA-TV filmed an interview with Capra Monday night, which will be shown on that station's PM magazine show. If chosen, the interview will be broadcast not just locally, but throughout the 15-member PM magazine network.

"I have great feeling and respect for the art form (of cinema)," Capra said in the interview. "It is magic, and I think we have not yet scratched the depths and heights and width of film.'

Capra, who retired from directing in 1960

after having been in the business since the 1920's, indicated he would not try his hand again.

"I'm not to old mentally, but I am too old physically," he said.
"Also, I can't stand the gaff anymore. It takes guts to make decisions." Capra said that in directing "you don't know if what you're doing is

right most of the time' and that "if your are right 50 percent, then you are way ahead of the average." About analyzing films too closely, he says it is the worst thing a director can

"The minute you start questioning your hunches, then it's time to get in another business,

When asked what he would make movies about today, if he were making movies, he said without hesitation: "The importance of individual. That is

paramount. He continued that theme when talking about his career as a director and the early days at Columbia Studios, a company he helped build innto a major movie

"I always thought the individual should make the film. One man, one film: that was my thesis. I was that naive, but I was

Capra said that even though he enjoyed his association with Columbia Pictures, he had wanted at first to direct for MGM Studios, the "name" company at the time.

"It (MGM) was the stellar outfit. All the stars were there, by God, you stepped on them when you went in the lot."

During his career, however, Capra would have the opportunity to direct more than a few stars. Among them were: Jimmy Stewart, Gary Cooper, Clark Gable, Spencer Tracy, Katherine Hepburn, Claudette Colbert, and Donna Reed.

FRANK CAPRA (RIGHT) PREPARES FOR PM MAGAZINE TAPE Don Smith (Left) Conducted Interview With Film Legend

### Frank Capra: Stories With A Masterful Touch

By Eleanor Ringel

The people at Clayton Junior College are certainly on the ball. Not only did they arrange for Frank Capra, the Oscar-winning director (for "It Happened One Night") to lecture Tuesday night, but instead of taking him to some frilly, fancy restaurant for lunch, an intelligent faculty member or two took Capra to Manuel's - a solid unpretentious place with character and perfect for a solid, unpretentious man with character.

Capra was relaxing between interviews, his hectic schedule having included three TV appearances, a press ence and a morning session with 100 or so Clayton students. His major lecture, free and open to all, would be

The secret of Capra's tremendous appeal was immediately apparent as soon as he began speaking. He is

an unparalleled storyteller. What makes a good interview? He answered that with a hilarious tale about an interviewer at a small New York TV station who would ask a question and then, once he was certain the camera was on his guest, turn away and make business calls, leaving the hapless guest to address the back of his neck. "Have you ever tried to give a meaningful answer to the nape of someone's neck?"

laughed Capra. What makes a good interviewer, assuming the person remains facing you, is a good listener, said Capra. "FDR was the best listener I ever knew," he recalled and launched into an imitation of Roosevelt as listener - nodding his head, dropping in "Oh, yeahs?" and "That's happened to me," as if carrying on an imaginary conversa-

Suddenly, one got an inkling as to what made this 81year-old Italian immigrant such a terrific director. "Mr. Smith Goes to Washington," "Mr. Deeds Goes to Town," "It's a Wonderful Life," all his classic films, are told to an audience that he assumes are first-rate listeners. His films communicate so well that one can almost hear feel a built-in space for the audience to say, "And then what?"

or, "I know what you mean." Capra directed his last film, "Pocketful of Miracles," in 1961. Then, for 10 years, he was laid up with cluster headaches. These painful bouts lasted 40 minutes (he timed them), and all but incapacitated him. They ended in 1971 when he got the news that his autobiography, "The Name Above the Title," was a Book of The Month Club selection. "I got up off the floor and went and celebrated," he said, "and I never had another one." The tale may or may not be true, but it makes a great story, and great

stories have always been paramount to Frank Capra. Asked about television, he is less than enthuusiastic: "How can you make quality when you're in there to sell

Concerning Marlo Thomas's made-for-TV version of "It's a Wonderful Life," in which she played the Jimmy Stewart part, he admitted he hadn't seen it. Did she consult with him? "Consult?" he snorted. "She told me what she was doing.

"She was trying to make a mark for herself, to do something unique — which is all right. That's what the business is about. But I told her she should do something of her own, something original, not copy someone else."

Capra is an original — a delightful, enthusiastic man who set out to be a chemical engineer and ended up a film artist (a word at which he'd probably laugh). He's currently working on another book - a novel,

Thursday, February 1, 1979

Director Frank Capra

this time. It looks as if Frank Capra still has a few more

A delegation from America's motion picture industry will travel to mainland China early this year to work out an agreement to reintroduce the American movie there, a

film industry spokesman said Wednesday. American-made movies were banned in China during the Communist revolution of 1949 and have not been shown since. Jack Valenti, president of the Motion Picture Association of America, said diplomats from the People's Republic of China had invited an American film delegation to visit China "within three or four months" to work out the details on a movie distribution contract.

"We intend to go, to see what can be done," he said. Valenti, speaking to an Atlanta civic club on the eve of Chinese Vice Premier Teng Hsaio-ping's visit to Georgia's capital city, said the agreement could open a vast market for American movies, now shown in 110 countries.

"We are not sure how much film business there is in China," said Valenti, a former aide to President Lyndon Johnson. "There is a vacancy of simple market data there. They contacted me first with an interest in buying some of our films. But we want to work out a trade agreement, not sell the films individually."

Valenti did not name the films the Chinese were interested in buying. It is not known what kind of film China's 800 million people would like to see, but Valenti speculated it could be anything from a western to "Star

Valenti said oficials from the China's Washington mission had contacted him before President Carter's Dec. 15 announcement of normalization of relations with the expressed interest of opening the mainland to American movies. Several talks have been held since then, he said.

Over at The Silver Screen, owner George Lefont has scheduled a two-week long festival of Alfred Hitchcock films. What makes his timing so fortunate is that next month Hitchcock will be honored by the American Film Institute. The institute is presenting him with a Life Achievement Award which represents acknowledgement by peers, scholars, critics and the public that the recipient's work has stood the test of time.

### Environmentalist to speak at CJC

Dr. Claude Terry, President and Manager of Claude Terry and Associates, Inc., and environmental consulting corporation, will be featured this evening in a presentation at Clayton Junior College. Terry, who has served as a trustee of the Georgia Conservancy and was one of the

founders and first vice-president of

Friends of the River, will speak on

"Pollution and Water Shortage Problems in Georgia.'

The 8:30 p.m. lecture, sponsored by the college's Lyceum Committee, will be given in the Lecture Hall (Room G-132), and will be free and open to the public. The program is one in a series of lecture presentations about the South.

and "You Can't Take It With You." Despite the distance, two full houses turned out at the college to greet and honor the man who insisted that his pictures

"The importance of the individual-this was my theme," he said.

In the morning speech, made primarily for students at CJC, Capra spent several moments elucidating that

"We as human beings are unique, each of us," he said. "Look around at the person sitting next to you. In all of history there hasn't been anyone exactly like him or her, or anyone exactly like you. This is what I am talking about. This is what makes you very im-

Capra told the morning group what an accident it had been that he ever got involved with movies. After graduating from Cal Tech he served in World War 1. Upon returning from the war, there were no jobs available in chemical engineering, his chosen field, and so he took to doing anything, even selling apples and playing poker, to make a living. On a lark, he answered a newspaper ad and got in-

volved in making a silent film by pretending to know much more than he did. Before long he was obsessed with the making of movies, spending hours alone in the laboratory, just to learn how the whole process took "Film is absolutely magic. It is perhaps the greatest

art form of all, because we use the other art forms as tools. And we haven't scratched the surface of what we can do with film. Capra refused to name a "best" actor or actress that

he worked with, claiming that all were great and all "There's no way you can compare Spencer Tracy and Clark Gable. No two actors are alike; they all work

differently.' After a moment's meditation, he did say "It's A Wonderful Life" was, in his opinion, the best film he ever made. About Jimmy Stewart, the star of that film. Capra said "he was beyond most other actors. Audiences were able to sense that he was a 'helluva' guy. There aren't many like him.

Capra said he had been offered tremendous sums of money, up to a million dollars, just to give advice on the production of a film. Thus far, he has resisted, saying: "There's no advice in the world worth that

Staff Photo-Joe Benton

Moviemaker Frank Capra

Tom was complaining of being tired. "What have you been doing all day?" I asked him. "Trying to keep up with an 82-year-old man," he replied.

Tom Barnett, of the Clayton Jr. College faculty, was speaking of Frank Capra, the five-foot giant of the movie-making industry. Capra was in town to give a lecture at the college. His schedule was enough to tire a man almost three score years his junior, but Capra was still going strong at 10 p.m. Tuesday; surrounded by students and reporters, answering questions and

It began Monday night with his arrival and an interview with Don Smith of PM Magazine.

Tuesday at 10 a.m. Capra held an informal question and answer session with students at CJC. At 11 o'clock there was a news conference with local newspapers and the University of Georgia press, then lunch with Eleanor Ringel of the Atlanta Constitution. At 2 p.m. Jim Whaley of WETV's Cinema Showcase was granted an interview and at 3 o'clock there was one with WATL; then at 8:30 a lecture at the college. No wonder Tom was tired!

Frank Capra's career in the movies spans from the early 1920's until 1960. One of his first jobs in Hollywood was as a gag writer for Mac Sennett. In 1928 he joined Columbia pictures and directed eight silent films and three "talkies" in the next two years. In 1930 he directed his first big hit, "Ladies of Leisure," which made a star out of an unknown named Barbara Stanwyck. Four years later he won his first oscar for "It Happened One Night," starring Clark Gable and Claudette Colbert.

This film won Oscars for best picture, best director, best actor, best screenplay, and best actress. This was the only film to ever win the top five Academy Awards until "One Flew Over the Cuckoo's Nest" did in 1976. He also won the Academy Award for best director in 1936 for "Mr. Deeds Goes to Town" and again in 1938 for "You Can't Take It With You." Capra has directed such major stars as Jimmy Stewart, Gary Cooper, Clark Gable, Donna Reed, Spencer Tracy, Cary Grant and Katherine Hepburn.

Capra said he got into movie-making by accident, after graduating with a degree in chemical engineering. He feels that film-making should be used to advance man.

"The film maker has more power than any ruler, potentate or writer who ever lived," he said. "He can talk to millions of people for two hours in the dark. When you think of this you drop down a little in stature yourself. You're not as important as the film."

'Man is the most wonderful of all creations," he said. "One man can make a difference in this world. We're all yearning for something and it's important that the spirit be lifted up instead of down. Life is wonderful. No matter how far down one gets he should be shown that he can come back." This is precisely what Capra's films have always done. Among his last movies were "It's a Wonderful Life" with Jimmy Stewart and "Pocketful of Miracles"

Capra said one thing he learned was "you can't kill Gary Cooper in the films. The audience won't stand for

He said the majority of film making today is for nothing more than to make bucks. "You go in to see a movie and come out feeling dirty, like you need to take a bath. You haven't been moved, you haven't laughed, you haven't cried. You haven't received your money's worth." Sex seems to be the only thing; sex with no story, Capra said.

When someone shows me a couple in bed, I look and say 'hell, I can do that good'," he said with typical wit. However he feels that the era of prurient appeal is going. The reason for this is that new kids are coming in who haven't been sold on the idea that only sex will

Of himself he said, "luckily I had no preordained god to go by when I started. I was my own teacher. Everything I made was my own creation. What I found out about films I found out at night piecing them together, trying to figure out what made them work."

Capra read from one of Emily Dickinson's poems: 'If I can stop one heart from breaking I shall not have lived in vain." The one word that is greater than 'love" is "courage" he said. "Courage to forgive those you despise, courage to overcome handicaps. To a person in a wheelchair a three-inch curb is their Mt. Everest. What we need today are people who are willing to endure, people who are willing to say 'No, I won't go along to get along.' We need films to remind us of the good in the world. We don't have to take all the nonsense that is handed out by TV simply to make money. The artist is gifted with the freedom to lobby for all mankind. I'm not against sex and brutality but they should be used in the positive sense rather than the negative. Use it to advance man.'

Amen, Mr. Capra. Amen! When is the movie industry going to get the message that your kind of movie Wednesday, January 31, 1979

### Director Frank Capra Is Just Chock Full of Hollywood Memories

Ace moviemaker Frank Capra - who directed James Stewart, Ronald Colman, Clark Gable, Gary Cooper and Cary Grant in some of their most popular performances - lets a secret out of the bag.

His favorite actor is James Cagney, with whom he never worked.

"I always wanted to work with 'Jack' Cagney," Capra said during a visit to Atlanta. "He was my favorite actor, but I could never get him when I wanted him. I always tried to cast him in every part I had. He was one man who could make me cry, but I never could get him away from Warner Bros."
Capra, 81, is full of memories from Hollywood's golden years when he was one of its leading creative forces.

He claims he worked with no intransigent stars. "I didn't find them difficult. I found them different to work with. . . They are all after the same thing. Everybody's trying to get the same result. Some you can talk to and they'll get it. You give some a finger and they'll give you back an arm. They understand exactly what you want.

"Others, you have to fight with and it's from the fight that comes the understanding. Now that is Bette Davis. She wants argument, seeks it, demands it. She challenges you on everything you say."

Capra maintains that he does not consider Miss Davis to be a problem, she simply has an argumentative style of working. "You're gonna get a hell of a performance," he found.

"Some (actors) increase with rehearsals," Capra observes. "Some get worse and worse. Frank Sinatra, if you rehearse him, he just goes downhill. He just doesn't want to say the same jokes twice to the same people. He wants to say something fresh every time." Capra considers Sinatra to be "more an entertainer than he is an actor."

Visiting here to speak at Clayton Junior College, Capra modestly takes no special credit for the career of James Stewart, who worked with him several times. "Hitchcock and Ford are pretty good directors, too," Capra observes. "In fact they're some of the best."

Stewart is "very believable," Capra observes. "Jimmy Stewart has another quality. It's over and beyond most good actors and that is he doesn't act on the screen. He lives a part. He doesn't act a part. You . . . get a sense of now. You don't get any sense of rehearsal or anything like that.' Capra praises Stewart's naturalism. "He transcends the

acting part. In most films you see, you think that's a good

### THE CLAYTON NEIGHBOR 2/14/79 College Presents Film Today

Bette Davis

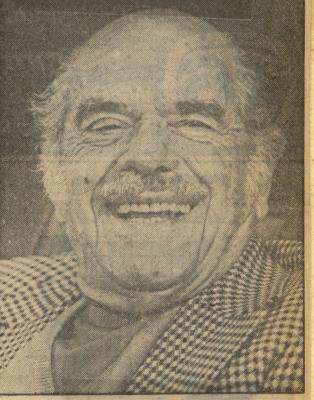

Frank Sinatra

John Wayne

actor. You don't say that about Jimmy Stewart. You think that's a helluva guy. He comes off as a person rather than as an actor. . . There are very few like him.

Although he did not work with him, Capra analyzes the career of another Hollywood legend: "John Wayne is a star. Stars are born. They're not made. What makes them a star is something that we don't know. It's the something that makes them stand out from the others.

Director Frank Capra "They don't have to be very good actors. They don't have to be good actors at all. They can come from any part of life - from the gutter, from the mansion. You know it immediately when you see one. They're something over and above

what others have. "Star quality. Hitler had it. Napoleon had it. That charisma that is over and above the general. There is no way to make stars. Rich guys have spent millions trying to make their girl friends into stars. Nothing. Then comes along somebody from Iowa. It's a mystery, but you know it immediately.

As for keeping up with the current crop of films, Capra says he has a tendency to see the best ones in a spurt just before Academy Awards time. The noted creator of comedy films says he admires the

general thrust of Woody Allen's career. "I think it's so wonderful to get comedy once in a while. Comedy is my forte and what I like to see best. Comedy will keep us sane. . . When we stop laughing at ourselves, then we're really in trouble."

"I love his particular type of comedy," Capra says of Allen. "He's a great addition to what we have." Capra cites a traditional pitfall. "Every comedian wants to play Hamlet" and he fears that Allen will "start getting serious." Capra makes no direct mention of Allen's most recent

picture, "Interiors," which was a very heavy drama. Capra has no love for remade films. He says Columbia tried four remakes of "It Happened One Night," the 1934 Capra comedy which won a host of Oscars. "Copying is not the way to

He refused to see the 1973 version of "Lost Horizon," which was a musical remake of Capra's 1937 fantasy. "I think they're just kidding themselves," he states. He also declined to watch Marlo Thomas' TV version of

"It's a Wonderful Life," the 1946 comedy which Capra says is his favorite among his own movies. He tried to talk Ms. Thomas out of the project. "I had lunch with her. I told her why do you take such a load on your shoulders? She's a very feisty, gutsy gal." When he couldn't dissuade her, he took a philosophical attitude. "If she's got a big

hunch about this thing, let it out." Capra waxes sentimental on the subject of Irving Thalberg, who was production chief at MGM during the '30s. "Thalberg died very young, of course. It was a disaster, really. He

loved motion pictures. He loved the people who made them." Thalberg admired Capra's films, Capra recalls. "I worked for Columbia. We had no stars, nothing that we could trade off. I would go out and sit in his office. I'd just sit there and he would come out and say what in the hell do you want? I would say I've got a problem and he'd say all right, come on in." Once inside Thalberg's office, Capra would say, "I want Wally Beery." To which Thalberg would reply, "I can't give you

The subject would not end there, however. "Well, who will I get," Capra would ask. Whereupon, Thalberg would inquire about the part and might think that a star at Warner would be

"I call Warner Bros. and I can't get past the casting director," Capra would complain. "Let me call them for you," Thalberg would offer - and so the deal was set. "That's why everybody loved him. He was a great help. . . truly a genius."

The Clayton Junior College Ensemble will be presented in concert by the Lyceum Committee WEDNESDAY, Feb. 21 at 12 p.m. in the lecture hall, room G-132 at Clayton Junior College

By TRACY THOMPSON Community Life Editor

They crowded into Clayton Junior College's lecture hall to hear him--Frank Capra, the man who had already won three Academy Awards 20 years before most of them were born.

One of Hollywood's most famous film directors, Capra was in town to lecture CJC students on the art of movie-making, the gambles of the trade, and how it's changed since he first went to work in Hollywood in the 1920's as a gag writer for

AS THE CJC students discovered last week, Capra is an entertaining talker, his mind sharp and his memory long, especially for a man in his 80's.

It would almost have to be. Capra's career in Hollywood spans from the early "talkies" to the 1960s. Included in that career is the 1932 film classic, "It Happened One Night," starring Clark Gable and Claudette Colbert.

In 1936, Capra won an Academy Award for Best Director for his "Mr. Deeds Goes

Wednesday, February 14, 1979

to Town," and won again for Best Director two years later for "You Can't Take It

In spite of all that, Capra's personal favorite remains the 1950's classic, "It's a Wonderful Life."

"COMEDY IS WHAT keeps us sane," Capra said later, in a news conference. 'The trouble with comics is they always

want to play Hamlet."

Capra has steadfastly avoided that temptation in his 40 years of film directing, sticking to light comedies. Better to do something as close to perfection as you can make it, he believes, than to tackle a heavy, downbeat work for which you were never suited.

That belief -- that he was doing what he did best -- gave him the confidence he needed to direct legendary stars like Katharine Hepburn and Bette Davis, both well-known for their strong-minded views on almost everything.

"THERE ARE NO difficult actors to work with that I remember," Capra said. As he talked, he gestured frequently, his eyes large and expressive. "There were only different actors. Bette Davis, for instance, wants arguments, seeks it, demands it. She challenges you on everything you say. But that was okay. That was her way of understanding her

Comparisons between famous actresses are futile, he added.

"How do you compare Barbara Stan-wyck and Katharine Hepburn?" In his long career as a movie director, Capra has formed definite opinions.

FOR INSTANCE:

-On spending millions of dollars to make a "hit": "Many are called but few are chosen. You take everybody working, blood and sweat, to make a successful picture, and 10 to one it won't be. Those -- On modern-day film studios: "Today,

the money people control filmmaking."
-On today's preoccupation with sex and violence in films: "I'm not against sex and violence. Shakespeare was full of sex and violence. But he was also telling a wonderful tale."

-On the secret of making good films: 'People are more interested in other people than anything else in the world."

COINCIDENTALLY, Capra commented as well on Sylvester Stallone's hit, "Rocky," which won an Academy Award for Best Picture two years ago and was shown on television last Sunday.

Capra didn't think too highly of the film overall. But he gave excellent marks to one or two aspects of it.

"That picture was made because you began to care about this guy," Capra said. "And that was because of those two very gentle love scenes he played with that girl (Talia Shire). They weren't in the hay together either. That's cheap stuff."

AS MIGHT BE EXPECTED, Capra isn't worried about the future of American filmmaking. Foreign directors, he said, don't have a prayer of eclipsing American film directors in their own genre.

"We've been too long at it," he said emphatically. "We're much smarter than they are. American films are still number one with audiences all over the world. Now, granted, Fellini sometimes makes a

Even so, movies in other countries aren't exactly what American audiences would appreciate, Capra added.

And he was off on another tale.

"I WAS IN INDIA once, and I went to a movie house. It was a barn with bleacher seats," he remembered. "The movies played for several hours, and the kids would go out and come in again. But one thing everybody wanted was dancing girls. If you don't put them in, they won't go see the picture. So every once in awhile"-- Capra extended his arms and wriggled his torso like a 1920's hootchicoochie dancer -- "they have the dancing girls. Just like commercials. Has nothing to do with the plot. And the kids would come running in from outside so they wouldn't miss it."

AMERICAN films are no longer heavy on the dancing girls, but they have another advantage Capra is outspoken about: lack of government interference.

"Hollywood is the only major production center in the world still not subsidized in full or in part by the government," he I'm just saying, there's a connection between freedom and success.

### THE ATLANTA JOURNAL 2/18/79 Cleveland Quartet Wins A Superior Rating Here

By JOHN SCHNEIDER

Appearances by the world's leading chamber music groups are still the leanest branch of Atlanta's growing musical tree. Still, by odd coincidence, two of America's finest string quartets have been scheduled here in less than a week.

Friday evening at Clayton Junior College marked the first Atlanta appearance of the Cleveland Quartet, currently in residence at the Eastman School of Music. The name derives from the fact that the group, originated at the Cleveland Institute of The quartet comprises violinists Donald Weilerstein and

Peter Salaff, violist Martha Strongin Katz and cellist Peter Katz. The young musicians, all in their 30s, have been garnering critical praise in this country and abroad with their concerts and recordings, and Friday's program made it clear why. The opening quartet in B-flat, K. 458, by Mozart established the four artists as superior players. The Mozart, as well as the music which followed, revealed a sense of exuberant

spontaneity in the playing which always enhanced the vitality Two early and virtually unknown quartets of Rachmaninoff were a delightful surprise. Both have only two movements, and neither is easily identifiable as the work of Rachmaninoff.

Debussy's G Minor Quartet closed the program, and although there was plenty of excitement in the performance, the four players' approach to the work has not yet jelled into that supreme elegance and unity the score requires.

The exercise, in which students were asked to respond with gut reactions, by rating their values from strongly agree to strongly disagree, to everything from sexual fantasies to homosexuality, lessen any inhibitions students may have had when they first entered the auditorium.

The responses were then taken up by the health department officials and redistributed to the students so as to guarantee anonymity.

Students were then asked to stand underneath a sign that marked their responses for each question so their numbers could be tabulated. They traveled back and forth between signs for each of the 10 questions.

As Pat White of the Clayton County Health Department had predicted, double standards not only between males and females but also between oneself and his partner were evident. The students split their responses to

the questions on if they would prefer a husband and-or wife to be virgins when they married, whether or not it bothered the student or his-her partner to fantasize while having sex and on other subjects.

"There have always been double standards," said Mrs. White. "For the girls it has been 'don't let him persuade you' and for the guys 'if you are going to do it, don't get caught.' It is unfortunate, said Mrs. White, that society educates males and females in a different manner.

"Look how our ideas on sexuality are formed. The family instills their expectations, society, the mass media and religion as well. It is not necessarily right or wrong but all of these factors influence our perceptions on sexuality" added Ms.

"A lot of people fail to realize that people have different orientations with regards to sexual values. There is a lack of communication between

Both Mrs. White and Harvill agreed that the main purpose of the values clarification exercise and subsequent discussion group is to have the students open up communication with themselves and to expose and form their values in this particular area.

"We're not trying to say what (their values) ought to be but to help them think how values are formed, help them think rationally and help them think of the consequences of their actions," said Mrs. White. "In a group session, you can't instill values. They need information and the students can choose (their values) for themselves.'

A parenting seminar dealing with the adolescent years, peer group pressure and communications between parent and child will be held at the junior college Feb. 28.

# Focus of workshop on water authority

Staff Writer The chairman of the Clayton County Water Authority, Edgar Blalock, Jr., addressed participants Thursday evening in the fifth and final local government workshop held at Clayton Junior College

Sponsored by the CJC Community Services office, the series focused on city and county government within Clayton County, and was moderated by Dr. Bob Welborn, assistant professor of history at the college. Blalock began his remarks by

telling a little of the history of the Clayton County Water Authority. When the authority was first started, back in 1955, it was the opinion of its founders that for rural Clayton County to grow "it must have water," Blalock said. Until that time the county

depended on the city of Atlanta for water service.

Engineers chose a site in Henry County to build a reservoir that would collect water from Cotton Indian Creek, a stream that flows through the east part of Clayton County. That reservoir is still the main source of Clayton County's water and from it water is pumped north to all parts of Clayton County.

Blalock said the water authority is governed by seven men appointed by the commissioners to staggered terms of five years each. For their job of setting policy and overseeing operations, the authority members receive \$50 a month, except for the chairman, who receives \$100 a month.

### College Seminar Explains Scholastic Aptitude Test

about the Scholastic Aptitude Test (SAT) will be explained during a free seminar at Clayton Junior College tomorrow.

Although the SAT is a requirement for enrolling in credit classes at Clayton Junior, no applicant is refused admission because of SAT scores, according to a statement from the college.

The test is required to determine academic placement only, and there is no 8 SAT if they did not take the test in high passing or failing involved, according to the school.

It will be conducted by college counsel- 363-7723.

Everything you ever wanted to know ors Judy Nichols and Donna McCarty. Participants will learn about the types of questions asked on the test, how it is scored and how to qualify for entrance into

college credit programs. The next scheduled SAT at Clayton Junior is set for March 8.

Students who plan to enroll in credit classes during the spring quarter must apply prior to March 6 and take the March

March 1, 1979

### 'A Funny Thing' is a funny play

Since I have seen "A Funny Thing Happened on the Way to the Forum" four times (five if you count the movie), it would be reasonable to assume that I enjoy

It would also stand to reason that I am about as informed about that particular play as most theatergoers, which I suppose ought to be true. But when a friend of mine asked me to tell him the plot (something I hate to do for fear it will unduly prejudice someone about a production and perhaps spoil some of the enjoyment for them)-I had to pause and con-

I started, paused to consider, restarted, and reconsidered. "It's a good play," I said finally.

"It's a funny play." But what about the plot? "It's a funny plot," I suggested. My inquistor gave up.

(Editor's note: Publisher Jim Wood, the only journalist-legislator in the General Assembly, whose column "Jim Wood Says" usually appears here, is writing a page one commentary entitled "General Assembly Notebook." His column will resume later).

The plot of "A Funny Thing Happened on the Way to the Forum," is whacky. It is absurd, ridiculous, outrageous, slapstick and clever. It is the old boy gets girl story with a wonderfully wandering storyline that pauses only to allow for

laughs. And it is a delightful musical.

What's more, it is being presented tonight, Friday and Saturday at Clayton Junior College by members of the choir. Curtain time is 8:30 p.m. in the lecture hall (room G-132). It will also be presented at the same time and the same place Thursday, Friday and Saturday next week, so if you can't make it this weekend, you can plan for next. Free tickets are required, and they may be obtained from the Office of the Dean of Students

(Room C-57, Academic Building). There may be those who do not olan to see the play because they saw the movie. Since I too have seen the movie. I can tell you the play is better. The movie had far

### Agent Presents Nutrition Plan

By DEBE BENSON

Staff Writer Clayton County Extension Agent Kathy Wages is presentin a program this afternoon on nutritious snacks for

The program, entitled "Munchy, Crunchy, Creamy and Chewy," will be held at the Maddox Road Community Center in county Fire Station No. 8 at 1:30 p.m.

'Whatever a snack means at your house, you can learn to enjoy casual eating without short-changing good nutrition," Ms. Wages commented.

She added that even with three square meals a day, there is a need for snack planning if there are active children or habitual nibblers in the family.

The purpose of Ms. Wages presentation is to explain helpful ways of making nutritious but good-tasting snacks with emphasis on sugarless recipes, she noted.

Snack ideas will include meat substitues, such as peanut butter balls; fruits, such as a frozen banana; milk products, like pimento chese spread; and bread snacks, such as ham and cheese muffins and cottage cheese muffins.

Sugarless snacks included are honey snacks, she added. Another county extension program planned for this month is "Women On the Go," which will be held at Clayton nior College on March 31 from 10 a.m. to 3:30 p.m.

Saturday, March 31

"Women on the Go" is the subject of a one-day program at Clayton Junior College that will offer women a variety of ways they can present the most appropriate image in the various roles they play. The program will last from 10 a.m. to 3:30 p.m., and the \$8 registration fee includes lunch. Ideas

### 'Sydney The Snake' Enters Art Fair

An animated cartoon made by Stockbridge sophomores will be entered in the Creative Arts Fair at Clayton Junior College next month.

For the past four months a group of nine independent study students, instructed by Mrs. Naomi Dorsey, have been filming "The Adventures of Sydney the Snake.' Stockbridge students

first wrote the story of Sydney, a snake who wanted to leave the jungle for the city. The class determined how each scene would look and how long it would last. Then background objects and main characters were constructed from colored paper. Having recently completed filming, students are presently involved in processing and editing. The last step is to synchronize music and narration with the film.

### College-level test workshop planned

A 10-year-old national program of the College Board which provides an opportunity for advance college course credit by examination is taking on increased significance as American families feel the cost crunch of post-secondary

A two-day workshop at Clayton Junior College in Morrow for Georgia education administrators will present current information on the College Board's College-Level Examination Program (CLEP) beginning at 12:30 p.m. Wednesday (March 21)

Staff from the College Board and from Educational Testing Service will describe CLEP, its administration procedures and its uses and benefits on college campuses. To provide the opportunity to students who are seeking college credit-by-examination, CLEP tests are administered monthly at test centers in Georgia and throughout the country. General examinations are offered in English composition, mathematics, natural sciences, social sciences and humanities.

The Clayton Junior College workshop is sponsored by the Atlanta-based Southern Regional Office of the College Best known to millions of college aspirants for its testing

activities since 1900, the non-profit College Board also administers programs in student financial aid, guidance, course placement, and academic credit and research.

What to do...

...when you don't know what to do

Kathy Wages

Clayton County Extension Service

Have you ever had a day and at the bottom of the list when it seemed that no are the least important matter how hard you tried things and sometimes even you just couldn't seem to get everything done?

Perhaps you are one of the people who say there should be 48 hours in a day. Yes, I know how it is. Some days you should just roll back over in the bed and go back to sleep.

Time is a precious resource. Whether you have a job that keeps you away from home for eight hours a day or have responsibilities outside the home, such as, volunteer work, social clubs, garden clubs or church groups; all of these activities take time.

Time - we all have the same amount of it but some folks just seem to use their time more effectively than

Instead of throwing up your hands in frustration maybe a better idea would be first to recognize that you have a problem fitting everything into 24 hours; then be willing to change some of your set ways of doing things. Believe it or not, there may be quicker and easier ways that you haven't considered.

One way that I find helpful to organize my time better is to make a list. I keep lists of everything. I make a list each day of what I have to do - at the top of the list are the most important things, when they are ranked by priorities Junior College.

things that could be put off for a day or two.

I guess it really boils down to self discipline -- before you master time you must master yourself.

A really interesting program is coming up on Saturday, March 31 at Clayton Junior College. It's called "Women On The Go" and is coordinated by Sylvia Shelnutt, Image Consultant.

Not only will you learn ideas about how to manage your time more effectively but also included will be ideas that will help you develop your personal image so that you project an image that you can be proud of. We don't always see ourselves as others see us! Do your facial expression, body language and dress come across as you want it to? Perhaps you would like some

In "Women On The Go" you will learn how to coordinate a simple mix and match wardrobe that will get you through a full week of activities. Experts on makeup, fashion, and hair styles will share their their

secrets with you. A fee of \$8.00 is charged for the program and lunch will be included. You will need to register before March 28 by calling 363-7717 at Clayton

# gives talks at CJC

Dr. G. Ramachandran, India's first post-independence State Minister of Education, spent Monday and Tuesday giving talks before classes and assemblies at Clayton Junior College.

Ramachandran, 75, was a disciple of Mahatma Gandhi and served as Gandhi's private secretary and envoy during the struggle for an independent India. After serving for a time as State Minister Of Education, he became vice chancellor of the Gandhigram Rural University, a position he holds today. In a talk on Indian education before one CJC class Tuesday, Ramachandran

said education was central in the struggle for independence from Great Britain. "We accept in India the idea that no revolution is worth the name unless it becomes an intellectual revolution," he said.

Gandhi, the leader of that revolution, was "a very practical man and a very hard taskmaster" who had specific ideas about education, Ramachandran

"John Dewey's theory is the closest you have in the United States to Gandhi's concept of education. Gandhi was not familiar with Dewey but the principle was the same: you learn through doing.

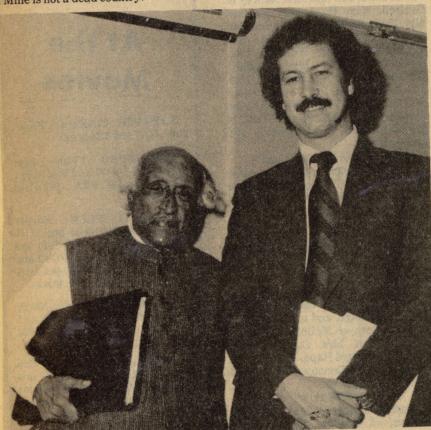

Since the revolution Indian education has emphasized a combination of "fieldwork" with book studies, Ramachandran said. In addition to reading books, the student must do work with his hands, whether it be farming, craft

work, or some other activity. Even now the Indians feel the influence of the British on their educational system, Ramachandran said, since the British dominated the country for so long. Most all higher education is still conducted in English, though there is a movement which advocates a change to one of the Indian languages.

The problem in changing from English is deciding which of the Indian languages to choose, since there are 14 languages spoken in the country, each

Ramachandran said there is currently "a massive drive for literacy" among all the citizens of India, young and old, though that, too, is made more difficult with several million devotees. by the various languages. Students are usually taught to read first in their native tongue, followed by Hindi, the most common Indian language, and then

Askef if there was a discipline problem among Indian students, Ramachandran replied, "if students do not make trouble in a country it is a dead country. Mine is not a dead country.

### 'Women on the Go' seminar held at CJC

By JAN LITTLE

Living Editor A styling team from Rich's at Southlake Mall gave make-up and hair styling demonstrations at the "Women on the Go" seminar held Saturday at Clayton Junior College.

Several women from the audience were "made -over" and shown how to revise their make-up and hair styles for different occasions, such as, going out at night.

Betty Conner, make-up consultant for Adrien Arpel Cosmetics, showed Sandra Rush how to apply make-up for night events and demonstrated steps of removing cosmetics and using a night treatment of cleansing and creams.

Cosmetics used in the demonstration were coordinated with Ms. Rush's outfit which blue tones. She was also shown how to contour her cheeks with

Denise Taylor, hairstylist for "The Wiz" and "The Hoedown Downtown" and Jim Cooper, first place winner in Pennsylvania and New Jersey Masters styling competition, also styled audience members' hair and showed them ways of changing the styles for different events.

Approximately 80 women attended the one-day seminar.

Kathy Wages, Clayton economist, conducted a time management during the morning session. She stressed the idea of time as a

By JOAN JACKSON

Staff Writer Foreign countries are investing heavily in solar energy and the United States would be wise to follow their lead, Georgia Tech's Dr. Thomas Stelson said

Stelson is vice-president for research at Georgia Tech and is a member of the Governor's Science Advisory Council. He presented a slide show and discussion on solar energy Thursday to two groups at Clayton Junior College.

"Georgia Tech has solar research projects in more than 30 foreign countries. In particular, the countries in the Middle East are investing heavily in solar energy," Stelson said. "They understand the future of energy and are making investments toward that

Over one million persons in Israel maintain solar hot water heaters and the French are operating a large number of irrigation pumps with solar power, Stelson

In oil-rich Kuwait on the coast of the Persian Gulf, government ministers have become believers in solar

"Kuwait has a miserable climate with cold, damp winters and hot, dry summers. Georgia Tech set up a small solar demonstration in a hot sandy area on the coast. The government minister who had commissioned us to do the project came by on a day when it was 106 degrees outside. The temperature inside the solar house we had set up was 59 degrees. After that he was a real believer in solar energy," Stelson said.

The United Nations is building solar projects in Mexico, Senegal and Sri Lanka, Stelson noted.

In spite of foreign government interest and investment in solar energy, Stelson said he feels U.S. government funding may have retarded the development of projects in our country.

"I am convinced too many people are waiting on the government to make a decision and pass a law. Our projects are done without government money and I feel that whether or not the U.S. government decides to further solar energy or not will make little difference,"

"Solar energy is an international effort and a very international project. The United States could help by passing specific, efficient legislation, but the chances of that happening are not likely.'

Within five years, the state of Georgia will have significantly reduced its dependence on oil and have made many conversions to solar power, according to

"Union Camp, a company operating in Georgia, was buying 300 million dollars worth of Venezuelan crude oil each year. They have converted to solar power and are currently not spending anything for Venezuelan oil." Stelson said.

Solar power can be used in a variety of ways on Georgia farms. Enormous bio-mass refuse piles can be converted to energy or animal feed, according to

"Georgia Tech is operating a methane generator on a chicken farm in Forsyth County. Manure is converted to operate a generator, which in turn operates an internal combustion engine. The broiler house is heated and the laying house has electricity from this chemical biomass conversion," Stelson said. "All of these conversions are classified by the government as forms of solar energy.'

On a smaller scale, Stelson told his audience a 4,000square-foot home could be converted to solar energy for approximately \$15,000.

The high cost of conversion is due primarily to the veteran performer, he has fact that there is only one producer of solar absorbers drama in the U.S., Stelson explained.

"Today we don't look at a house in terms of life cycle cost, but analysis has shown that based on a 25 to 30 year life cycle and assuming a seven percent increase in utilities, a solar home will be significantly less expensive," Stelson said.

Researchers at Georgia Tech receive thousands of requests for plans for a solar home, but it is impossible to use a standard floor plan for a large number of houses, Stelson said.

"We are accustomed to building a house based on floor plan, but in a solar home what is important is what is outside of these walls. What looks good and works well for one house can be disaster for another,"

It is possible to place a solar home on a wooded lot, but the project must be carefully planned, according to

"Precision is most important when building a solar home on a wooded lot. If you aren't careful with landscaping and angles, it can be a disaster," Stelson said.

Storage is an important part of any solar system and in homes must be able to accomodate the evening bulge of energy usage and fill in during cloudy periods, Stelson explained.

Even though solar energy is a low grade form in its natural state, it can be concentrated and used at any

"You can do anything with solar energy that you can do with other forms," Stelson said. "The difference is solar energy does not require a high level of technological complexity to be efficient.

NEWS/DAILY

Four years ago, singer Connie Francis was raped. She was appearing at a singing engagement in Westbury, N.Y. And staying at a motel there. Her assailant gained entry through a sliding glass door. He was never apprehended.

The singer sued the motel and was awarded \$2.65 million by a federal court jury, but she says, the rape has destroyed her marriage and damaged

Not long ago she testified before the Congress, saying that, "The rights of victims of violent crimes should be at least equal to the importance to the rights of the criminals who commit those acts.'

The case involving Connie Francis is an example of the frustration, the outrage, and the lingering emotional and psychological damage resulting from rape. Because Miss Francis is a celebrity her personal horror has captured headlines and focused national attention on the problem of rape.

It may be shocking to some to learn that rape is not only a national problem, it is a problem in Clayton County.

Clayton County Police Detective Wayne Horne and Assistant District Attorney Jim Bradley, speaking at a two-week seminar at Clayton Junior College on rape and sexual assault, discussed the problem of rape, arresting the assailant, and con-

language entry.

victing him.

On the basis of statistics, Detective Horne said, "Per capita rape in Clayton is as high as in New York City." It is not just a problem of rape, he said, because it is often accompanied by cruelty, brutality

and murder. Not only does it have a highly traumatic and psychological effect, it undermines a woman's personal dignity, Horne said, and "Society tends to look down on a rape victim, as if it were her fault...

Unfortunately, even in the event of a rape, investigating officers may be skeptical, according to Horne, because 15 percent of the rapes reported to police are "phonies."

Both men said women should try to remain calm and remember minute details that can later be used as supportive evidence.

Horne defended the role police officers must play as investigators, saying that the questions concerning rape may seem "insensitive," but, "The questions are personal because rape is personal."

The trauma of the rape victim does not end with the crime. If the assailant is arrested, the victim must go through the ordeal of prosection and court trial, and sometimes vicious cross examination by defense attorneys.

Stiff penalties have not eliminated rape from occurring. Conviction under Georgia law include death, life imprisonment or sentence of from one to 20 years in prison. But Detective Horne pointed out, "...there are people who will rape no matter

It is a shame that a rape victim who must suffer from severe mental anguish, must also endure a stigma from society that becomes more acute with the investigation and prosection of the assailant.

Seminars as the one at Clayton Junior College help educate the public and remove this stigma, creating an awareness and understanding sympathetic to women who have been the victims of rape.

Yet there still exists a problem that is above and beyond public sympathy for the victims of rape and other violent crimes. It does not hurt to reemphaisize the plea Connie Francis made to Congress.

The rights of victims of violent crimes should be at least equal to the importance of the rights of the criminals who commit those acts."

### Classes Continuing

The third program in a of four-part health education series, sponsored by Clayton Junior College, will be presented Tuesday. "Facts, Fads and Fat,"

about food will be the topic of the two-hour discussion. set to begin at 7 p.m. Included in the program

will be an overview of nutrition from health foods to health foods and diets. Lorraine Staats and Judith Hinton, director and assistnat director of Food Services at Clayton General Hospital, will give the program.

To register for the free class, or to obtain more information, interested persons can call the college Community Services at 363-7717.

#### County Extension Service Offers Course on Plant Care

Are you one of those eople who seems to be all humbs but none of them

are green?
"The Potted Arts" will teach you everything you need to know about caring for houseplants, according to a spokesman for the Clayton County Extension

"You will learn how to plan plantings to agree with the color scheme and architecture of your home. There will even be hints on how to emphasize the good features of a room and disguise the bad with houseplants. You will learn how to coordinate houseplants with your decor which will add accent, color, and living beauty to every room," said the spokesman.

CLASSES will be on Monday, May 7 at 9:30 a.m. at the Georgia Power Building on Smith Street in Jonesboro and on Monday afternoon, May 7 at 1 p.m. at the Maddox Road Community Room located in the fire station on Maddox Road in Morrow. The class will be repeated

### Breast Exam Clinic Offered, CJC

The nursing faculty at Clayton J<sup>J</sup> nior College will conduct a breast self examination clinic on the College campus Thursday,

May 24.

Free and open to community residents as well as members of the College's student body, faculty, and staff, the clinic will be conducted in Rooms C-24 and C-28 between the hours

of 12 noon and 4 p.m. "We'll do a breast examination on the women will come, and teach them how to do it themselves," Kathryn N. Donovan, assistant professor of Nursing at CJC, said of the clinic. "It will take about an hour to complete the demonstration and

examination. Included in the clinic will be the showing of an American Cancer Society film entitled "Where We

Noting that cancer of the breast is the most common ш kind of cancer in women, and that it is the leading cause of death for women between 40 and 50 years of age, Mrs. Donovan encouraged all women to participate. "Ninety-five percent of breast cancers are discovered by self-examination," she said, "and the key to cure is early discovery. One out of every 13 women

will develop cancer of the breast, she added. Working with Mrs. Donovan in the clinic will be CJC nursing faculty members Barbara McCant, Jan Hartel, Gwen Houston, Martha Peace, and Katrina Barnes.

To participate in the free clinic, women do not have to sign up in advance, but they must attend during the four-hour period. For further information, call the Department of Nursing at 363-7771.

### **Testing Set** For Musical

Auditions for the leading roles in a Clayton Junior College fall production of the Gilbert and Sullivan musical "H.M.S. Pinafore," will be held at the college Monday.

Dr. Larry B. Corse, associate professor of English and director of the college on choir, will direct the production to be staged in No-vember.

"Auditions will be open to anyone who will be a student here in the fall," Corse pointed out.

He said that students who try out will be asked to sing a solo as well as read a part. Auditions will be conducted in the college Lecture Hall, Room G-132 between noon and 1 p.m., and again between 5:30 and 7

p.m. on Monday.

Four men's parts and
three roles for women will be decided to enable students to rehearse their parts during the summer months.

A number of other supporting roles will be filled

₩ after fall quarter classes be-= gin in September. To schedule an appointment, or to obtain additional information, interested persons can contact Corse at 363-7774.

#### Concert coordinators

Dr. Ed Bridges (left), music minister at Morrow United Methodist Church, and Marti Slife, youth and music coordinator for Stockbridge United Methodist Church, are coordinators for the joint spring concert of the Clayton Community Band and Chorus. The concert will be presented Thursday, May 31, at 8 p.m. at Morrow United Methodist on Main Street. No admission charge.
